Accounting principles applied

The annual report for Mazna International ApS 2021 has been prepared in accordance with the Danish Financial Statements Act for class B companies with application of individual rules from class C.

The income statement is presented by type of expenditure and the balance sheet is presented in account from. The measurement currency used is Danish kroner. All other currencies are considered foreign currency.

The accounting principles were applied consistently with the principles of last year's financial reporting.

General information on recognition and measurement

Income is recognized in the income statement as earned, including any value adjustments of financial assets and liabilities. Furthermore, all costs, including amortisation/depreciation and write-downs, are recognized in the income statement.

Assets are recognized in the balance sheet when it is probable that future economic benefits will flow to the company, and the value of the assets can be measured reliably.

Liabilities are recognized in the balance sheet when it is probable that future economic benefits will flow out of the company, and the value of the liabilities can be measured reliably.

The first recognition measures assets and liabilities at cost. Subsequently, assets and liabilities will be measured individually in respect of each accounting item as described below.

Anticipated risks and losses that arise before the time of presentation of the annual report and that confirm or invalidate affairs and conditions existing at the balance sheet date are considered at recognition and measurement.

Income statement

Gross profit

In pursuance of section 32 (1) of the Danish Financial Statements Act, the first item in the income statement is the gross profit. The item gross profit is the result of revenue, cost of sales, other external cost and other operating income.

Other external costs

Other external cost comprise costs for sales, advertising, administration, premises, bad debts, etc.

Financial items

Financial income and expenses are recognized in the income statement with the amounts relating to the financial year. The financial items comprise interest income and expense, realized and unrealized gains and losses resulting from transactions in foreign currencies and surcharges and refunds regarding corporation tax.

Accounting principles applied

Tax for the year

The company is jointly taxed with other group companies. The current corporation tax is divided between the jointly taxed companies pro rata to their taxable incomes. The parent company functions as the management company for the joint taxation and handles the tax payments to the danish tax authorities.

Tax for the year, which consists of current tax for the year and changes in deferred tax, is recognized in the income statement by the portion attributable to the profit for the year and recognized directly on equity by the portion attributable to entries directly on equity.

Balance sheet

Financial fixed assets

The proportionate share of the group companies and associated companies are recognized in the income statement. Investments from these companies are recognized in the balance sheet at the proportionate share of the net asset value.

Group companies and associates with negative net asset values are recognized at DKK zero and any receivables from these enterprises are written down by the parent company's share of the negative equity to the extent it is deemed uncollectible. If the negative net book value exceeds the amount owed, the remaining amount is recognized under provisions to the extent that the parent has a legal or constructive obligation to cover the subsidiary's balance sheet.

The total net revaluation of investments in group companies and associates are transferred to reserve for net revaluation according to the equity method under equity. The reserve is reduced by dividend payments to the parent company and by other changes in equity in group companies and associated companies.

Newly acquired or established companies are recognized in the annual report from the acquisition date. Sold or divested companies are included up to the date of disposal.

Surcharge on acquisition of interests in relation to the actual net asset value is considered goodwill. This goodwill is amortized linearly over the estimated service life. The amortization period for goodwill is in the annual report incorporated with 10 years.

Receivables

Receivables are measured at amortized cost, which usually corresponds to the nominal value. Value is reduced by provisions for bad debts.

Cash funds

Cash funds are measured at nominal value.

Accounting principles applied

Dividend

Proposed dividend for the financial year is recognized as a separate component of the equity. Proposed dividends are recognized as a liability at the time of adoption.

Tax payable and deferred tax

Current tax liabilities and current tax assets are recognized in the balance sheet as tax calculated on the taxable income allocated with the current tax rate, and adjusted for tax on prior years taxable income and prepaid taxes.

Deferred tax is measured by the liability method concerning temporary differences between the carrying value and tax value of assets and liabilities, calculated based on the planned use of the assets and settlement of the obligation, respectively.

Deferred tax assets, including the tax value of tax losses allowed for carry-forward, are measured at the value at which the asset is expected to be realisable, either through elimination in tax on future earnings or through offsetting in deferred tax liabilities in the same legal tax unit. Any deferred net tax assets are measured at their net realisation values.

Deferred tax is measured based on the tax rules and tax rates applicable in pursuance of the legislation in force on the balance sheet date when the deferred tax is expected to become payable as current tax. Changes in deferred tax due to change in tax rates is recognized in the income statement.

Liabilities

Other liabilities are measured at amortised cost corresponding to the nominal value.
