Statement by Management

The Board of Directors and the Executive Board have today considered and approved the annual report of VT Shipping A/S for the financial year 1 January - 31 December 2020.

The annual report is presented in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Entity's financial position at 31 December 2020 and of the results of its operations for the financial year 1 January - 31 December 2020.

Further, in our opinion, the Management's review gives a fair review of the development in the Entity's operations and financial matters and the results of the Entity's operations and financial position.

We recommend the annual report for adoption at the Annual General Meeting.

Copenhagen, 18 May 2021

Executive Board

Leonida Arendsen
CEO

Board of Directors

Carlo Henze
Chairman

Penelope Annett Andersen

Jochen Martin Stoewahse

As part of an audit conducted in accordance with ISAs and additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the financial statements, including the note disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view. □

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on the management commentary

Management is responsible for the Management's review.

Our opinion on the financial statements does not cover the Management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the Management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statement Act. We did not identify any material misstatement of the Management's review.

Primary activities

VT Shipping A/S handles the Vattenfall Group's shipping activities in Denmark.

Recognition and measurement uncertainties

The recognition and measurement of assets and liabilities are not subject to any significant uncertainties.

Development in activities and finances

The income statement for 2020 shows a loss of DKK 3,016 thousand compared to a loss of DKK 10,934 thousand last year, and the balance sheet at 31 December 2020 shows equity of DKK 47,546 thousand.

The year 2020 was characterized by a continuation of the decrease in the sale of coal primarily to the Danish power plants thereby implying fewer sailings for VT Shipping. The demand was significantly lower in 2020 than expected due to break downs and changed consumption patterns at Danish power stations.

VT shipping sold its remaining sets of the barges and tugs in 2020 to adjust the business to market conditions the coming years. The activity, which was originally freight of bulk material on the company's barges, has ceased after the sale of the last barges in 2020.

Knowledge resources

The Entity has no employees but purchase all services from the parent entity, Vattenfall Energy Trading A/S.

Special risks

No unusual risks occurred in the financial year that could significantly affect the Entity's financial position.

Impact on the external environment

VT Shipping A/S is a shipping entity and therefore has no inventories and undertakes no processing of coal or bio fuels that could affect the external environment.

The Entity is committed to ensuring that all carriage of coal and bio fuels has the least possible impact on the environment.

Events after the balance date

The company will move to another activity under the auspices of Vattenfall in 2021.

10 Share capital

	Nominal value DKK'000
Analysis of share capital: 5,000 shares of DKK 1,000.00 nominal value each	5,000
	5,000

The Entity's share capital has remained DKK 5,000 thousand over the past nine years.

11 Contingent liabilities

The Entity is jointly taxed with the Danish consolidated enterprises. As a group entity, the Entity is liable jointly and severally with other group entities for the Danish corporation tax and withholding taxes on dividends, interest and royalties in the joint taxation. The jointly taxed entities' total known net liability to the Danish tax authorities is presented in the management entity's financial statements, Vattenfall A/S. Any subsequent corrections of joint taxation of income and withholding tax, etc. could cause the Entity's liability to represent a greater amount.

Total	(18,710)

The Company has receivables and payables to other group entities, which are presented in the balance sheet and the related interests are presented in the income statement.

Accounting policies

Reporting class

This annual report has been prepared in accordance with the provisions of the Danish Financial Statements Act governing reporting class C enterprises (medium).

VT Shipping A/S is exempt from the Danish Tonnage Taxation Scheme as of the 1st January 2019.

Effective from the financial year 2020, the Company has implemented amending act no. 1716 of 27 December 2018 to the Danish Financial Statements Act. The implementation of the amending act has not affected the Company's accounting policies on recognition and measurement of assets and liabilities but has solely entailed a requirement for further disclosures. The accounting policies applied to these financial statements are consistent with those applied last year.

Recognition and measurement

Assets are recognised in the balance sheet when it is probable as a result of a prior event that future economic benefits will flow to the Entity, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when the Entity has a legal or constructive obligation as a result of a prior event, and it is probable that future economic benefits will flow out of the Entity, and the value of the liability can be measured reliably.

On initial recognition, assets and liabilities are measured at cost. Measurement subsequent to initial recognition is effected as described below for each financial statement item.

Anticipated risks and losses that arise before the time of presentation of the annual report and that confirm or invalidate affairs and conditions existing at the balance sheet date are considered at recognition and measurement.

Income is recognised in the income statement when earned, whereas costs are recognised by the amounts attributable to this financial year.

Foreign currency translation

On initial recognition, transactions denominated in foreign currencies are translated at the exchange rate at the transaction date. Foreign exchange differences arising between the exchange rates at the transaction date and the date of payment are recognised in the income statement as financial income or financial expenses.

Receivables and payables and other monetary items denominated in foreign currencies are translated at the exchange rate at the balance sheet date. The difference between the exchange rates at the balance sheet date and the date at which the receivable or payable arose or was recognized in the most recent financial statements is recognized in the income statement as financial income or financial expenses.

Income statement

Gross profit or loss

With reference to section 32 of the Danish Financial Statements Act, the items 'Revenue', 'Costs of sale', 'Other external expenses' and 'Other operating income' are consolidated into one item designated 'Gross

profit'.

Revenue

Income from the supply of services is recognized as revenue with reference to the stage of completion. VAT and discounts are excluded from the revenue. Revenue is measured net of all types of discounts/ rebates granted. Also, revenue is measured net of VAT and other indirect taxes charged on behalf of third parties.

Cost of sales

Cost of sales includes the cost of goods used in generating the year's revenue.

Other external expenses

Other external expenses include expenses related to administration, premises, bad debt and SLA fees to group entities, etc.

Depreciation, amortisation and impairment losses

The item includes depreciation and impairment of property, plant and equipment. Depreciation is provided using the straight-line method on the basis of the cost and below expected useful lives. Gains or losses on the sale of fixed assets are recognised in the income statement under other operating income and –expenses. The basis of depreciation, which is calculated as cost less any residual value, is depreciated on a straight line basis over the expected useful life. The expected useful lives of the assets are as follows:

Other fixtures and fittings, tools and equipment:

2-10 years

The basis of depreciation is based on the residual value of the asset at the end of its useful life and is reduced by impairment losses, if any. The depreciation period and the residual value are determined at the time of acquisition and are reassessed every year. Where the residual value exceeds the carrying amount of the asset, no further depreciation charges are recognised.

Other financial income and expenses

Financial income and expenses are recognised in the income statement at the amounts that relate to the reporting period. Net financials include interest income and expenses, realised and unrealized exchange gains and losses on foreign currency transactions and allowances under the advance-payment-of-tax scheme, etc.

Other operating income

Other operating income includes revenue from all other operating activities which are not related to the principal activities of the company, such as gains/losses from disposals, interest income, dividend income, etc

Other operating expenses

Other operating expenses comprise of expenses viewed as secondary nature in relation to the entity's primary activities.

Tax on profit/loss for the year

The Entity is subject to the Danish rules on compulsory joint taxation. The Entity is subject to joint taxation at the time of formation.

The current income tax charge is allocated by settling the joint taxation contributions between the Danish jointly

taxed entities in proportion to their taxable income. Danish entities with a tax loss receive joint taxation contributions from Danish entities that have been able to apply the loss to reduce their own taxable income.

The Entity has joined the Danish tax-on-account scheme. Tax allowances/surcharges are allocated between the jointly taxed Danish entities in accordance with the allocation of the Danish corporate income tax charge and are recognized as financial income or financial expenses, respectively.

Balance sheet

Property, plant and equipment

Property, plant and equipment include other fixtures and fittings, tools and equipment. Property, plant and equipment are measured at cost less accumulated depreciation and impairment losses.

Expenses relating to ordinary repairs and maintenance are recognised in the income statement as incurred.

Items of property, plant and equipment are tested for impairment whenever there is an indication that an asset might be impaired. The impairment test is performed for each individual asset or group of assets, respectively. The carrying amount of impaired assets is reduced to the higher of the value in use and the net selling price of the asset or group of assets (recoverable amount).

Impairment of non-current assets

Property, plant and equipment are reviewed for impairment annually. Where there is indication of impairment, an impairment test is made for each individual asset or group of assets, respectively, generating independent cash flows. The assets are written down to the higher of the value in use and the net selling price of the asset or group of assets (recoverable amount) if it is lower than the carrying amount. Where an impairment loss is recognized on a group of assets, a loss must first be allocated to goodwill and then to the other assets on a pro rata basis.

Impairment tests are conducted on assets or groups of assets when there is evidence of impairment. The carrying amount of impaired assets is reduced to the higher of the net selling price and the value in use (recoverable amount).

The recoverable amount is the higher of the net selling price of an asset and its value in use. The value in use is calculated as the present value of the expected net cash flows from the use of the asset or the group of assets and the expected net cash flows from the disposal of the asset or the group of assets after the end of the useful life.

Previously recognised impairment losses are reversed when the reason for recognition no longer exists. Impairment losses on goodwill are not reversed.

Receivables

Receivables are measured at amortised cost, usually equalling nominal value less writedowns for bad and doubtful debts.

Deferred tax

Current tax charges are recognised in the balance sheet as the estimated tax charge in respect of the expected taxable income for the year, adjusted for tax on prior years' taxable income and tax paid on account.

Deferred tax assets are recognised at the value at which they are expected to be utilised, either through elimination against tax on future earnings or a set off against deferred tax liabilities.

Any deferred tax assets relating to the tax base of tax loss carry forwards are recognised under other non current assets at the value at which they are expected to be set off against tax on future income.

Income tax payable or receivable

Current tax payable or receivable is recognised in the balance sheet, stated as tax computed on this year's taxable income, adjusted for prepaid tax.

Prepayments

Prepayments recognised under "Assets" comprise prepaid expenses regarding subsequent financial reporting years.

Cash and cash equivalents

Cash comprises cash balance and bank balance.

Equity

Dividend proposed for the year is recognised as a liability once adopted at the annual general meeting (declaration date). Dividends expected to be distributed for the financial year are presented as a separate item under "Equity".

Other financial liabilities

Financial liabilities comprising trade payables, amounts owed to group entities as well as other payables are recognised at the date of borrowing at cost. In subsequent periods, financial liabilities are measured at net realisable value.

Cash flow statement

In pursuance of section 86(4) of the Danish Financial Statements Act, a cash flow statement is not prepared. The Entity's cash flows are included in the consolidated cash flow statement of the parent entity, Vattenfall AB.
