## **MANAGEMENT'S STATEMENT**

---

Today the Executive Board has discussed and approved the Annual Report of Tigerspring ApS for the period January 1 - December 31 2020.

The Annual Report has been prepared in conformity with the Financial Statements Act.

The unaudited Annual Report has been prepared in conformity with the Financial Statements Act. The Executive Board considers the conditions for not performing an audit to have been met.

In our opinion, the financial statements give a true and fair view of the Company's assets, equity, liabilities and financial position at December 31 2020 and of its financial performance for the period January 1 - December 31 2020.

In our opinion the Management commentary includes a fair review of the matters described.

We recommend that the Annual Report be approved by the Annual General Meeting.

København K, / 2021

Christian Møller

Søren Winding Lorenzen

## AUDITORS' COMPILATION REPORT ON FINANCIAL STATEMENTS

---

### To Management of Tigerspring ApS

We have compiled these financial statements of Tigerspring ApS for the period January 1 - December 31 2020 based on the bookkeeping records of the Company and other information provided by you.

The financial statements include accounting policies, income statement, balance sheet and notes.

We have performed the compilation in accordance with ISRS 4410, Compilation Engagements.

We have applied our professional expertise to assist you in preparing and presenting the financial statements in conformity with the Danish Financial Statements Act. We have observed the relevant provisions of the Danish Act on Approved Auditors and Audit Firms and the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark

The financial statements and the accuracy and completeness of the information used to compile the financial statements are your responsibility.

As a compilation engagement is not an assurance engagement, we are not required to verify the accuracy or completeness of the information you provided to us for use in the compilation of these financial statements. Accordingly, we do not express an audit opinion or a review conclusion on whether the financial statements have been prepared in conformity with the Danish Financial Statements Act.

Frederiksberg, den / 2021

## **MANAGEMENT COMMENTARY**

---

### **Main activities of the Company**

As in previous years, the main activities of the Company were running a record company and internet-based business within the music industry, as well as activities related to this.

### **Development in the activities and the financial situation of the Company**

The Company has continued its operations. No significant one-off events occurred in the financial year that need to be included in the management commentary.

The performance and results for the year are considered satisfactory.

### **Material events after the reporting date**

No events have occurred after the reporting date that may materially affect the financial position of the company.

### **Opting out of audit**

The annual report has not been audited. The Executive Board considers the conditions for opting out of audit to have been met.

## ACCOUNTING POLICIES

---

The accounting policies applied in the financial statements are consistent with those of the previous year. The reporting currency is Danish kroner.

### **Recognition and measurement in general**

The financial statements have been prepared under the historical cost convention.

Income is recognised in the income statement when earned. Value adjustments of financial assets and liabilities measured at fair value or amortised cost are also recognised in the income statement. Costs incurred to generate the earnings for the year are also recognised in the income statement, including amortisation, depreciation, impairment losses and provisions as well as reversals resulting from changed accounting estimates of amounts previously recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future financial benefits will flow to the Company and it is possible to obtain a reliable measurement of the individual assets.

Liabilities are recognised in the balance sheet when it is probable that future financial benefits will flow from the Company and it is possible to obtain a reliable measurement of the individual liabilities.

On initial recognition, assets and liabilities are measured at cost. Subsequently, assets and liabilities are measured as described for each item.

Certain financial assets and liabilities are measured at amortised cost, whereby a constant effective interest rate is recognised over the life of the individual asset or liability. Amortised cost is determined as original cost less any repayments and with the addition/deduction of the accumulated amortisation of the difference between cost and nominal amount.

Anticipated losses and risks arising before the presentation of the financial statements and confirming or disconfirming facts and circumstances known at the reporting date are taken into consideration at recognition and measurement.

The functional currency used is Danish kroner. All other currencies are considered foreign currencies.

## **INCOME STATEMENT**

### **General information**

Certain income and expenses have been aggregated in the item designated 'Gross profit' with reference to section 32 of the Financial Statements Act.

### **Gross profit**

Gross profit is a combination of the items of 'Revenue', 'Change in inventories of finished goods, work in progress and goods for resale', 'Other operating income', 'Cost of raw materials and consumables' and 'Other external costs'.

## ACCOUNTING POLICIES

---

### **Revenue**

Revenue from the sale of goods for resale and finished goods is recognised in the income statement if the goods have been delivered and the risk has passed to the buyer before year-end. Revenue is recognised exclusive of VAT and net of sales discounts.

### **Other operating income and expenses**

Other operating income and expenses comprise items relating to activities secondary to the activities of the enterprise, including profit and loss from the disposal of property, plant and equipment.

### **Cost of raw materials and consumables**

Cost of raw materials and consumables includes the cost of goods purchased less discounts and changes in inventories for the year.

### **Other external expenses**

Other external expenses include costs for sales, advertising, administration, premises, bad debts, rental expenses under operating leases, etc.

### **Staff costs**

Staff costs include wages, salaries and other pay-related costs, such as sickness benefits for enterprise employees less wage/salary reimbursement from the Government.

### **Financial income and expenses**

Financial income and expenses are recognised in the income statement based on the amounts which relate to the financial year. Financial income and expenses include interest revenue and expenses, finance charges in respect of finance leases, realised and unrealised capital gains and losses on securities, accounts payable and transactions in foreign currencies, repayment on mortgage loans, and surcharges and allowances under the tax prepayment scheme. Dividends from other equity investments are recognised as income in the financial year in which the dividends are declared.

### **Tax on net profit for the year**

Tax for the year comprises current tax and changes in deferred tax. The share attributable to the profit or loss for the year is recognised in the income statement, and the share attributable directly to equity is recognised directly in equity.

## BALANCE SHEET

### **Property, plant and equipment**

Property, plant and equipment is measured at cost on initial recognition and subsequently at cost less accumulated depreciation and impairment losses.

The depreciable amount is calculated taking into consideration the residual value of the asset at the end of its useful life, reduced by impairment losses, if any. The depreciation period and the residual

## ACCOUNTING POLICIES

---

value are determined at the date of acquisition. If the residual value exceeds the carrying amount of the asset, depreciation is discontinued. Land is not depreciated.

In case of changes in depreciation period or residual value, the effect of a change in depreciation period is recognised prospectively in accounting estimates.

Cost includes the purchase price and expenses directly related to the acquisition until the time when the asset is ready for use. The cost of self-constructed assets includes costs for materials, components, subcontractors, direct payroll costs and indirect production costs.

The cost of a composite asset is disaggregated into components, which are separately depreciated if the useful lives of the individual components differ.

Depreciation is calculated using the straight-line method over the following estimated useful lives of the individual assets and their residual values:

	<u>User time</u>	<u>Residual value</u>
Tools and equipment	5 years	77 %

### **Impairment losses relating to non-current assets**

The carrying amounts of intangible assets and property plant and equipment are tested annually to determine whether there is any indication of impairment other than what is expressed by amortisation and depreciation. If so, the assets are tested for impairment to determine whether the recoverable amounts are lower than the carrying amounts and the relevant assets are written down to such lower recoverable amounts. An impairment test is carried out annually of ongoing development projects, whether or not there is any indication of impairment.

### **Receivables**

Receivables are measured at amortised cost, which normally corresponds to the nominal value. The value is reduced by an allowance for expected impairment losses.

Impairment of accounts receivable past due is established on individual assessment of receivables.

### **Corporate income tax and deferred tax**

Current tax liabilities and current tax receivable are recognised in the balance sheet as calculated tax on the taxable income for the year, adjusted for tax on the taxable income for previous years and tax paid on account.

Deferred tax is measured using the balance-sheet liability method on temporary differences arising between the carrying amount of assets and liabilities in the financial statements and the corresponding tax bases. In cases where the tax base can be determined under alternative taxation rules, such as in relation to shares, deferred tax is measured on the basis of the intended use of the asset or settle-

## ACCOUNTING POLICIES

---

ment of the liability.

Deferred tax assets, including the tax base of tax losses allowed for carryforward, are measured at their anticipated net realisable value, either by elimination in tax on future earnings or by offsetting against deferred tax liabilities within the same legal tax entity. Any deferred net tax assets are measured at their net realisable values.

Deferred tax is measured based on the tax rules and tax rates applicable when the deferred tax is expected to crystallise as current tax according to the legislation in force at the reporting date. Any change in deferred tax as a result of changes in the tax rates is recognised in the income statement.

### **Payables**

Other payables, comprising trade payables and amounts owed to Group enterprises and associates and other accounts payable, are measured at amortised cost, which normally corresponds to the nominal value.

### **Cash and cash equivalents**

Cash and cash equivalents comprise the items of 'Cash' recognised under current assets and 'Bank overdrafts' recognised under short-term debt.
