## **Statement by the Executive Board and Board of Directors on the annual report**

---

We have on this day presented the annual report for the financial year 01.07.19 - 30.06.20 for Smilla Food A/S.

The annual report is presented in accordance with Danish Financial Statements Act (Årsregnskabsloven).

In our opinion, the financial statements give a true and fair view of the company's assets, liabilities and financial position as at 30.06.20 and of the results of the company's activities for the financial year 01.07.19 - 30.06.20.

We believe that the management's review includes a fair review of the matters dealt with in the management's review.

The annual report is submitted for adoption by the general meeting.

Aalborg, October 30, 2020

**To the Shareholder of Smilla Food A/S****Opinion**

We have audited the financial statements of Smilla Food A/S for the financial year 01.07.19 - 30.06.20, which comprise the income statement, balance sheet, statement of changes in equity and notes to the financial statements, including a summary of significant accounting policies. The financial statements are prepared in accordance with Danish Financial Statements Act (Årsregnskabsloven).

In our opinion the financial statements give a true and fair view of the company's assets, liabilities and financial position at 30.06.20 and of the results of the company's operations for the financial year 01.07.19 - 30.06.20 in accordance with the Danish Financial Statements Act (Årsregnskabsloven).

**Basis for conclusion**

We conducted our audit in accordance with International Standards on Auditing and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report. We are independent of the company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Management's responsibility for the financial statements**

The Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act. Furthermore the Management is responsible for the internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless management either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

**Auditor's responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with International Standards on Auditing and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Statement regarding the management's review**

Management is responsible for management's review.

Our opinion on the financial statements does not cover management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read management's review and, in doing so, consider whether management's review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Acts. We did not identify any material misstatement of management's review.

*Ratios definitions*

Return on equity:	$\frac{\text{Profit/loss for the year} \times 100}{\text{Average equity}}$
Profit margin:	$\frac{\text{Operating profit/loss} \times 100}{\text{Revenue}}$
Equity interest:	$\frac{\text{Equity, end of year} \times 100}{\text{Total assets}}$

**Primary activities**

The company's activities comprise of trading in food within the retail segment.

**Development in activities and financial affairs**

The income statement for the period 01.07.19 - 30.06.20 shows a profit/loss of DKK -972,956 against DKK 1,785,964 for the period 01.07.18 - 30.06.19. The balance sheet shows equity of DKK 5,926,206.

The activities and the result for the year do not conform to the expectations in the latest annual accounts, which can be attributed to a number of external factors in the global food market, including the global spread of COVID-19.

The company's financial position and the results of the company's operations in the past year can also be seen from the subsequent income statement for 2019/20 and the balance sheet as at 30 June 2020.

**Outlook**

Further growth in revenue as well as increased group earnings are expected for FY 2020/21, however, due to a number of factors that may affect the market, including COVID-19, there will be uncertainty about this.

**Subsequent events**

No important events have occurred after the end of the financial year.

### 3. Derivative financial instruments

The Board of Directors lays down the framework for the conclusion of contracts for derivative financial instruments. The company concludes contracts for the sole purpose of hedging the currency risk on the future sale of goods in foreign currency. At the end of a 20x1, a future sale of goods of USD 1,900k and SEK 4,500k was secured for a period of up to 9 months. The fair value of the forward exchange contracts amounts to DKK 785k as at 31.12.x1, and the unrealised net gain before tax recognised in equity as at 31.12.x1 also constitutes DKK 785k. Forward exchange contracts are only concluded with counterparties (Danish banks) with a good credit score from a reputable credit rating agency.

### 4. Contingent liabilities

#### *Lease commitments*

The company has concluded lease agreements with terms to maturity of 5-6 months and average lease payments of DKK 8k, a total of DKK 143k.

#### *Other contingent liabilities*

The Board of Directors lays down the framework for the conclusion of contracts for derivative financial instruments. The enterprise concludes contracts for the sole purpose of hedging the currency risk on manufactures goods and goods for resale and trade payables and the future sale of goods in foreign currency. The fair value of the forward exchange contracts amounts to DKK 9k as at 30.06.20, and the unrealised net gain before tax recognised in the indcome statement. Forward exchange contracts are only concluded with counterparties (Danish banks) with a good credit score from a reputable credit rating agency.

### 5. Related parties

The company is included in the consolidated financial statements of the parent Tomex Danmark A/S, Aalborg.

## 6. Accounting policies

### GENERAL

The annual report is presented in accordance with the provisions of the Danish Financial Statements Act (*Årsregnskabsloven*) for enterprises in reporting class B with application of provisions for a higher reporting class.

The accounting policies have been applied consistently with previous years.

### Basis of recognition and measurement

Income is recognised in the income statement as earned, including value adjustments of financial assets and liabilities. All expenses, including depreciation, amortisation, impairment losses and write-downs, are also recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits will flow to the company, and the value of such assets can be measured reliably. Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow from the company, and the value of such liabilities can be measured reliably. On initial recognition, assets and liabilities are measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

On recognition and measurement, account is taken of foreseeable losses and risks arising before the date at which the annual report is presented and proving or disproving matters arising on or before the balance sheet date.

### CURRENCY

The annual report is presented in Danish kroner (DKK).

On initial recognition, transactions denominated in foreign currencies are translated using the exchange rates applicable at the transaction date. Exchange rate differences between the exchange rate applicable at the transaction date and the exchange rate at the date of payment are recognised in the income statement as a financial item. Receivables, payables and other monetary items denominated in foreign currencies are translated using the exchange rates applicable at the balance sheet date. The difference between the exchange rate applicable at the balance sheet date and at the date at which the receivable or payable arose or was recognised in the latest annual report is recognised under financial income or expenses in the income statement. Fixed assets, inventories and other non-monetary assets acquired in foreign currencies are translated using historical exchange rates.

## 6. Accounting policies - continued -

### **DERIVATIVE FINANCIAL INSTRUMENTS**

On initial recognition, derivative financial instruments are measured at cost. Subsequently, they are measured at fair value and recognised under other receivables and other payables, respectively.

The company does not apply the hedge accounting rules under which changes in the fair value of derivative financial instruments are recognised under other net financials in the income statement.

### **LEASES**

Lease payments relating to operating leases are recognised in the income statement on a straight-line basis over the lease term.

### **INCOME STATEMENT**

#### **Revenue**

Income from the sale of goods is recognised in the income statement if delivery has taken place and the risk has passed to the buyer before the end of the financial year and where the selling price can be determined reliably and is expected to be paid. Revenue is measured at fair value and is determined exclusive of VAT and other taxes collected on behalf of third parties and less discounts.

#### **Cost of sales**

Cost of sales comprises cost of sales for the year measured at cost plus any changes in inventories, including write-downs to the extent that these do not exceed normal write-downs.

#### **Other external expenses**

Other external expenses comprise costs relating to distribution, sales and advertising and administration, premises and bad debts to the extent that these do not exceed normal write-downs.

#### **Staff costs**

Staff costs comprise wages and salaries as well as other staff-related costs.

**6. Accounting policies** - continued -**Depreciation and impairment losses**

The depreciation of property, plant and equipment aim at systematic depreciation over the expected useful lives of the assets. Assets are depreciated according to the straight-line method based on the following expected useful lives and residual values:

	Useful life, year	Residual value, per cent
Other plant, fixtures and fittings, tools and equipment	5	0

The basis of depreciation is the cost of the asset less the expected residual value at the end of the useful life. Moreover, the basis of depreciation is reduced by any impairment losses. The useful life and residual value are determined when the asset is ready for use and reassessed annually.

Property, plant and equipment are impaired in accordance with the accounting policies referred to in the 'Impairment losses on fixed assets' section.

**Other net financials**

Interest income and interest expenses, foreign exchange gains and losses on transactions denominated in foreign currencies etc. are recognised in other net financials.

**Tax on profit/loss for the year**

The current and deferred tax for the year is recognised in the income statement as tax on the profit/loss for the year with the portion attributable to the profit/loss for the year, and directly in equity with the portion attributable to amounts recognised directly in equity.

The company is jointly taxed with Danish consolidated enterprises.

In connection with the settlement of joint taxation contributions, the current Danish income tax is allocated between the jointly taxed enterprises in proportion to their taxable incomes. This means that enterprises with a tax loss receive joint taxation contributions from enterprises which have been able to use this loss to reduce their own taxable profit.

**6. Accounting policies** - continued -**BALANCE SHEET****Property, plant and equipment**

Property, plant and equipment comprise other fixtures and fittings, tools and equipment.

Property, plant and equipment are measured in the balance sheet at cost less accumulated depreciation and impairment losses.

Cost comprises the purchase price and expenses resulting directly from the purchase until the asset is ready for use. Interest on loans arranged to finance production is not included in the cost.

Property, plant and equipment are depreciated using the straight-line method based on useful lives and residual values, which are stated in the 'Depreciation and impairment losses' section.

Gains and losses on the disposal of property, plant and equipment are determined as the difference between the selling price, if any, less selling costs and the carrying amount at the date of disposal less any costs of disposal.

**Impairment losses on fixed assets**

The carrying amount of fixed assets which are not measured at fair value is assessed annually for indications of impairment over and above what is reflected in depreciation.

If the company's realised return on an asset or a group of assets is lower than expected, this is considered an indication of impairment.

If there are indications of impairment, an impairment test is conducted of individual assets or groups of assets.

The assets or groups of assets are impaired to the lower of recoverable amount and carrying amount.

The higher of net selling price and value in use is used as the recoverable amount. The value in use is determined as the present value of expected net cash flows from the use of the asset or group of assets as well as expected net cash flows from the sale of the asset or group of assets after the expiry of their useful lives.

Impairment losses are reversed when the reasons for the impairment no longer exist.

**6. Accounting policies** - continued -**Inventories**

Inventories are measured at cost calculated according to the FIFO principle. Inventories are written down to the lower of cost and net realisable value.

The cost of raw materials and consumables as well as goods for resale is determined as purchase prices plus expenses resulting directly from the purchase.

The net realisable value of inventories is determined as the selling price less costs of completion and costs necessary to make the sale and is determined taking into account marketability, obsolescence and the expected development in the selling price.

**Receivables**

Receivables are measured at amortised cost, which usually corresponds to the nominal value, less write-downs for bad debts.

Write-downs for bad debts are determined based on an individual assessment of each receivable if there is no objective evidence of individual impairment of a receivable.

**Cash**

Cash includes deposits in bank accounts.

**Equity**

The proposed dividend for the financial year is recognised as a separate item in equity.

**Current and deferred tax**

Current tax payable and receivable is recognised in the balance sheet as tax computed on the basis of the taxable income for the year, adjusted for tax paid on account.

Joint taxation contributions payable and receivable are recognised as income tax under receivables or payables in the balance sheet.

Deferred tax liabilities and tax assets are recognised on the basis of all temporary differences between the carrying amounts and tax bases of assets and liabilities.

Deferred tax assets are recognised, following an assessment, at the expected realisable value through offsetting against deferred tax liabilities or elimination in tax on future earnings.

**6. Accounting policies** - continued -

Deferred tax is measured on the basis of the tax rules and at the tax rates which, according to the legislation in force at the balance sheet date, will be applicable when the deferred tax is expected to crystallise as current tax.

**Payables**

Long-term payables are measured at cost at the time of contracting such liabilities (raising of the loan). The payables are subsequently measured at amortised cost where capital losses and loan expenses are recognised in the income statement as a financial expense over the term of the payable on the basis of the calculated effective interest rate in force at the time of contracting the liability.

Short-term payables are measured at amortised cost, normally corresponding to the nominal value of such payables.

**Prepayments received from customers**

Prepayments received from customers comprise amounts received from customers prior to the time and date of delivery of the agreed product or completion of the agreed service.
