Management's Statement

Today, the Supervisory Board and the Executive Board have considered and adopted the Annual Report of FarmCompany A/S for the financial year 1 January 2020 - 31 December 2020.

The Annual Report is presented in accordance with the Danish Financial Statements Act.

In our opinion, the Consolidated Financial Statements and the Financial Statements give a true and fair view of the assets, liabilities and financial position of the Company at 31 December 2020 and of the results of the Group's and the Company's operations for the financial year 1 January 2020 - 31 December 2020.

In our opinion, the Management's Review includes a true and fair account of the matters addressed in the review.

We recommend that the Annual Report is adopted at the Annual General Meeting.

Independent Auditors' Report

To the shareholders of FarmCompany A/S

Opinion
We have audited the consolidated financial statements and the financial statements of FarmCompany A/S for the financial year 1 January 2020 - 31 December 2020, which comprise an income statement, balance sheet, statement of changes in equity and notes. The consolidated financial statements and the financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, consolidated financial statements and the financial statements give a true and fair view of the Group's and the Company's financial position at 31 December 2020 and of the results of its operations for the financial year 1 January 2020 - 31 December 2020 in accordance with the Danish Financial Statements Act.

Basis of opinion
We conducted our audit in accordance with International Standards on Auditing (ISAs) and additional requirements applicable in Denmark. Our responsibility under those standards and requirements are further described in our auditors' report under "Auditors' responsibility for the audit of the consolidated financial statements and the financial statements". As required by the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and additional requirements applicable in Denmark, we are independent of the Group and the Company, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's responsibility for the financial statements
Management is responsible for the preparation of consolidated financial statements and financial statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control as Management considers necessary to enable the preparation of consolidated financial statements and financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements and the financial statements, Management is responsible for assessing the Group's and the Company's ability to continue as a going concern; disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting in preparing the consolidated financial statements and the financial statements unless Management either intends to either liquidate the Group and the Company or suspend operations, or has no realistic alternative but to do so.

The auditor's responsibility for the audit of the consolidated financial statements and the financial statements
Our responsibility is to obtain reasonable assurance as to whether the consolidated financial statements and the financial statements are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is no guarantee that an audit conducted in accordance with ISAs and additional requirements applicable in Denmark will always detect material misstatements. Misstatements can arise from fraud or error and can be considered material if it would be reasonable to expect that these - either individually or collectively - could influence the economic decisions taken by the users of financial statements on the basis of these consolidated financial statements and financial statements.

As part of an audit conducted in accordance with ISAs and additional requirements applicable in Denmark, we exercise professional judgement and maintain an attitude of professional scepticism throughout the audit. We also:

* Identify and assess the risk of material misstatements in the consolidated financial statements and the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for a material misstatement resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or override of internal control.

* Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

Independent Auditors' Report

* Evaluate whether the accounting policies used are appropriate and whether the accounting estimates and the related disclosures made by Management are reasonable.

* Conclude on whether Management's use of the going concern basis of accounting in preparing the consolidated financial statements and the financial statements is appropriate and, based on the audit evidence obtained, conclude on whether a material uncertainty exists relating to events or conditions, which could cast significant doubt on the Group's and the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may imply that the Group and the Company can no longer remain a going concern.

* Evaluate the overall presentation, structure and contents of the financial statements, including note disclosures, and whether the consolidated financial statements and the financial statements reflect the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control which we identify during our audit.

Statement on Management's Review
Management is responsible for the Management's review.

Our opinion on the consolidated financial statements and the financial statements does not cover the Management's review, and we do not express any form of opinion providing assurance regarding the Management's review.

Our responsibility in connection with our audit of the consolidated financial statements and the financial statements is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the consolidated financial statements and the financial statements or with the knowledge we have gained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review meets the disclosure requirements in the Danish Financial Statements Act.

Based on our procedures, we are of the opinion that the Management's review is in accordance with the consolidated financial statements and the financial statements and has been prepared in accordance with the requirements in the Danish Financial Statements Act. In our opinion, the Management's review is not materially misstated.

Management's Review

The Group's principal activities
The Group holds 6 farm clusters i Jutland, south-west of Denmark.

Development in activities and financial matters
The Company's Income Statement of the financial year 1 January 2020 - 31 December 2020 shows a result of EUR 253.888 and the Balance Sheet of the Group at 31 December 2020 a balance sheet total of EUR 46.163.286 and an equity of EUR 25.181.532.

Post financial year events
After the end of the financial year, no events have occurred which may change the financial position of the Company substantially.

Development in activities and financial matters and expectations for the future
At the end of the financial year 2020, the Group holds 6 farm clusters in Jutland, south-west of Denmark, with a total area under management of approximately 1'800 hectares.

The management finds the annual result satisfactory and in line with the Group's consistent growth and developments for expected future positive results.

FarmCompany A/S is in a good position to keep building on its exciting future, as the fundamentals are all in place.

Accounting Policies

Reporting Class
The Annual Report of FarmCompany A/S for 2020 has been presented in accordance with the provisions of the Danish Financial Statements Act applying to enterprises of reporting class B, with the adoption of individual rules from class C.

The accounting policies applied remain unchanged from last year.

Reporting currency
The Annual Report is presented in EUR.

Consolidated Financial Statements
The Consolidated Financial Statements comprise the parent company FarmCompany A/S and subsidiaries in which FarmCompany A/S directly or indirectly holds more than 50% of the voting rights or in other ways has control. Enterprises in which the Group holds between 20% and 50% of the voting rights and exercises significant but not controlling influence are considered associates, cf. Group chart.

For the consolidation, intercompany income and costs, shareholdings, intercompany balances and dividends as well as realised and unrealised profit and loss are eliminated in connection with transactions between the consolidated enterprises.

Equity investments in subsidiaries are eliminated by the proportionate share of the subsidiaries' market value of net assets and liabilities at the time of acquisition.

Newly acquired or established enterprises are recognised in the Consolidated Financial Statements from the date of acquisition. Enterprises sold or liquidated are recognised in the Consolidated Income Statement up to the date of disposal. Comparative figures are not corrected for enterprises newly acquired, sold or liquidated.

General Information

Basis of recognition and measurement
The financial statement have been prepared under the historical cost princip.

Income is recognised in the Income Statement as it is earned, including value adjustments of financial assets and liabilities that are measured at fair value or amortised cost. Moreover, all expenses incurred to achieve the earnings for the year are recognised in the Income Statement, including depreciation, amortisation, impairment losses and provisions as well as reversals due to changed accounting estimates of amounts that have previously been recognised in the Income Statement.

Assets are recognised in the Balance Sheet when it is probable that future economic benefits attributable to the asset will accrue to the Company, and the value of the asset can be measured reliably.

Liabilities are recognised in the Balance Sheet when it is probable that future economic benefits attributable to the asset will flow out of the Company, and the value of the liability can be measured reliably.

At initial recognition, assets and liabilities are measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

Certain financial assets and liabilities are measured at amortised cost, which involves the recognition of a constant effective interest rate over the term. Amortised cost is calculated as original cost less repayments and with the addition/deduction of the accumulated amortisation of the difference between the cost and the nominal amount. This way, exchange losses and gains are allocated over the term.

In connection with recognition and measurement, consideration is given to predictable losses and risks occurring prior to the presentation of the Annual Report, i.e. losses and risks which prove or disprove matters which exist at the balance sheet date.

Accounting Policies

Income Statement

Gross profit/loss
The Company has decided to aggregate certain items of the Income Statement in accordance with the provisions of Section 32 of the Danish Financial Statements Act.

Gross profit is a combination of the items of revenue, change in inventories, other operation income, cost of raw and consumables and other external expenses.

Revenue
Income from the sale of goods for resale and finished goods is recognised in the income statement if the goods have been delivered and the risk has passed to the buyer before year-end, if it is possible to calculate the income reliably. The revenue is exclusive of VAT and net of sales discounts.

Income from delivery of services is recognised on a straight-line basis in net sales, as the service is delivered.

Other external expenses
Other external costs include costs for distribution, sales, advertising, administration, premises, loss of debtors, operating leasing costs etc.

Staff expenses
Staff expenses comprise wages, salaries and other pay-related costs, such as sickness benefits for enterprise employees less wage/salary reimbursement, pensions and social security costs.

Amortisation and impairment of tangible and intangible assets
Amortisation and impairment of intangible and tangible assets have been performed based on a continuing assessment of the useful life of the assets in the Company. Non-current assets are amortised on a straight line basis, based on cost, on the basis of the following assessment of useful life and residual values:

	Useful life	Residual value
Properties	50 years	0%
Other fixtures and fittings, tools and equipment	3-10 years	0%

Payment entitlements and land are not amortised.

Profit or loss resulting from the sale of intangible or tangible assets is determined as the difference between the selling price less selling costs and the carrying amount at the date of sale, and is recognised in the Income Statement under other operating income or expenses.

Fair value adjustment of investment assets and debts
Adjustments of investment assets and debts measured at fair value are recognised as a separate item in the Income Statement.

Income from equity investments in group enterprises and associates
Income from equity investments comprises the proportionate share of profit/loss after tax and any adjustment of internal profit/loss and less amortisation of consolidated goodwill.

Result of equity investments in subsidiaries and associates
The proportionate share of the individual subsidiaries' profit/loss after tax is recognised in the parent company's Income Statement after full elimination of intercompany profit/loss.

The proportionate shares of the associates' profit/loss after tax are recognised in both the group's and parent company's Income Statement after elimination of the proportionate share of intercompany profit/loss.

Accounting Policies

Financial income and expenses
Financial income and expenses are recognised in the Income Statement based on the amounts that concern the financial year. Financial income and expenses include interest revenue and expenses, finance charges in respect of finance leases, realised and unrealised capital gains and losses regarding securities, accounts payable and transactions in foreign currencies, repayment on mortgage loans, and surcharges and allowances under the tax prepayment scheme.

Dividends equity investments are recognised as income in the financial year in which the dividends are declared.

Tax on net profit for the year
Tax on net profit/loss for the year comprises current tax on expected taxable income of the year and the year's adjustment of deferred tax less the part of the tax of the year that relates to changes in equity. Current and deferred tax regarding changes in equity is recognised directly in equity.

The Company and the Danish associates are taxed jointly. The Danish income tax is distributed between profit- and loss-making Danish enterprises in relation to their taxable income (full distribution).

Balance Sheet

Intangible assets
Payment entitlements are recognised at the date of acquisition at cost plus costs directly attributable to the acquisition. Subsequently, payment entitlements are revaluated every year at fair value based on an external assessment. Revaluations and reversals of these less deferred tax are recognised directly in equity.

Tangible assets
Tangible assets are measured at cost on initial recognition and subsequently at cost less accumulated depreciation and impairment losses.

The depreciable amount is calculated taking into consideration the residual value of the asset at the end of its useful life, reduced by impairment losses, if any. The depreciation period and the residual value are determined at the data of acquisition. If the residual value exceeds the carrying amount of the asset, depreciation is discontinued.

In case of changes in depreciation period or residual value, the effect of a change in depreciation period is recognised prospectively in accounting estimates.

Cost includes the purchase price and expenses directly related to the acquisition until the time when the asset is ready for use. The cost of self-constructed assets includes costs for materials, components, subcontractors, direct payroll costs and indirect production costs.

The cost of composite asset is disaggregated into components, which are separately depreciated if the useful lives of the individual components differ.

Land and buildings are revaluated every year at fair value based on an external assessment. Revaluations and reversals of these less deferred tax are recognised directly in equity.

Equity investments in group enterprises and associates
Investments in group enterprises and associates are recognised in the balance sheed at the proportionate share of the equity value of the enterprises, calculated according to the parents accounting policies with the deduction or addition of unrealised intercompany profits or losses and with the addition or deduction of the remaining value of positive or negative goodwill, calculated according to the purchase method.

Subsidiaries having a negative equity value are recognised at EUR 0, and any amounts receivable from those enterprises are written down by the parents share of the negative equity value to the extent that the amounts are deemed to be uncollectible.

If the negative equity value exceeds receivables, the remaining amount is recognised as a provision to the extent that the parent has a legal or constructive obligation to cover the negative balance of the relevant subsidiary.

Accounting Policies

Inventories
Inventories are measured at cost on the basis of the FIFO principle. Where the net realisable value is lower than cost, the inventories are written down to this lower value.

The net realisable value of inventories is calculated as the selling price less costs of completion and costs incurred to make the sale. The value is determined taking into account the negotiability of inventories, obsolescence and expected development in sales price.

Receivables
Receivables are measured at amortised cost which usually corresponds to the nominal value. The value is reduced by write-downs for expected bad debts.

Impairment of accounts receivables past due is based on individual assessment.

Cash and cash equivalents
Cash and cash equivalents comprise cash at bank and in hand as well as short-term securities with a term of less than three months which can be converted directly into cash at bank and in hand and involve only an insignificant risk of value changes.

Provisions
Deferred tax
Deferred tax and the associated adjustments for the year are determined according to the balance-sheet liability method as the tax base of all temporary differences between carrying amounts and the tax bases of assets and liabilities.

Deferred tax assets, including the tax base of tax losses allowed for carryforward, are recognised at the value at which they are expected to be used, either by elimination in tax on future earnings or by set-off against deferred tax liabilities in enterprises within the same legal entity and jurisdiction.

Deferred tax is measured on the basis of the tax rules and tax rates that will be effective under the legislation applicable at the balance sheet date when the deferred tax is expected to convert to current tax.

Current tax liabilities
Current tax liabilities and current tax receivables are recognised in the Balance Sheet as calculated tax on the expected taxable income for the year, adjusted for tax on taxable income for previous years as well as for tax prepaid.

Liabilities
Financial liabilities are recognised initially at the proceeds received net of transaction expenses incurred. In subsequent periods, financial liabilities are measured at amortised cost, corresponding to the capitalised value using the effective interest method, so that the difference between the proceeds and the nominal value is recognised in the Income Statement over the life of the financial instrument.

Mortgage debt is accordingly measured at amortised cost, corresponding to the outstanding balance in case of cash loans. In case of bond loans, amortised cost corresponds to the outstanding balance determined as the underlying cash value of the loans at the time of borrowing adjusted for amortisation of capital losses on the loans over the repayment period.

Other liabilities, comprising deposits, trade payables and other accounts payable, are measured at amortised cost, which usually corresponds to the nominal value.

Contingent assets and liabilities
Contingent assets and liabilities are not recognised in the Balance Sheet but appear only in the notes.
