Management's Statement

Today, Management has considered and adopted the Annual Report of HWF Denmark ApS for the financial year 1 January 2022 - 31 December 2022.

The Annual Report is presented in accordance with the Danish Financial Statements Act.

In our opinion, the Financial Statements give a true and fair view of the assets, liabilities and financial position of the Company at 31 December 2022 and of the results of the Company's operations for the financial year 1 January 2022 - 31 December 2022.

In our opinion, the Management's Review includes a true and fair account of the matters addressed in the review.

We recommend that the Annual Report be adopted at the Annual General Meeting.

Independent Auditors' Report

To the shareholders of HWF Denmark ApS

Opinion

We have audited the financial statements of HWF Denmark ApS for the financial year 1 January 2022 - 31 December 2022, which comprise an income statement, balance sheet and notes. The financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Company's financial position at 31 December 2022 and of the results of its operations for the financial year 1 January 2022 - 31 December 2022 in accordance with the Danish Financial Statements Act.

Basis of opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and additional requirements applicable in Denmark. Our responsibility under those standards and requirements are further described in the "Auditors' responsibility for the Audit of the Financial Statements" section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statement in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Statement on Management's Review

Management is responsible for the Management's review.

Our opinion on the financial statements does not cover the Management's review, and we do not express any form of opinion providing assurance regarding the Management's review.

Our responsibility in connection with our audit of the financial statements is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the financial statements or with the knowledge we have gained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review meets the disclosure requirements in the Danish Financial Statements Act.

Based on our procedures, we are of the opinion that the Management's review is in accordance with the financial statements and has been prepared in accordance with the requirements in the Danish Financial Statements Act. In our opinion, the Management's review is not materially misstated.

Management's responsibility for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control as Management considers necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern; disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting in preparing the financial statements unless Management either intends to either liquidate the Company or suspend operations, or has no realistic alternative but to do so.

The auditor's responsibility for the audit of the financial statements

Our responsibility is to obtain reasonable assurance as to whether the financial statements are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion.

Independent Auditors' Report

Reasonable assurance is a high level of assurance, but is no guarantee that an audit conducted in accordance with ISAs and additional requirements applicable in Denmark will always detect material misstatements. Misstatements can arise from fraud or error and can be considered material if it would be reasonable to expect that these - either individually or collectively - could influence the economic decisions taken by the users of financial statements on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and additional requirements applicable in Denmark, we exercise professional judgement and maintain an attitude of professional skepticism throughout the audit. We also:

- * Identify and assess the risk of material misstatements in the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for a material misstatement resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or override of internal control.
- * Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- * Evaluate whether the accounting policies used are appropriate and whether the accounting estimates and the related disclosures made by Management are reasonable.
- * Conclude on whether Management's use of the going concern basis of accounting in preparing the financial statements is appropriate and, based on the audit evidence obtained, conclude on whether a material uncertainty exists relating to events or conditions, which could cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may imply that the Company can no longer remain a going concern.
- * Evaluate the overall presentation, structure and contents of the financial statements, including note disclosures, and whether the financial statements reflect the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control which we identify during our audit.

Management's Review

The Company's principal activities

The Company's principal activities consist in airtransport of cargo.

Development in the activities and the financial situation of the Company

Development in activities and the financial situation

The Company's Income Statement of the financial year 1 January 2022 - 31 December 2022 shows a result of DKK 3.838.556 and the Balance Sheet at 31 December 2022 a balance sheet total of DKK 20.499.887 and an equity of DKK 3.997.909.

The company has continued its normal operating activities. Apart from the outbreak of the Corona virus, there have been no isolated events during the financial year that are of such a significant nature that they require mention in the management's report.

The rapid spread of the Corona virus in Denmark and the rest of the world since March 2020 has necessitated a number of restrictions from the Danish authorities, which could potentially have major socio-economic consequences. The company is currently not directly affected by the restrictions implemented.

If the outbreak of the Corona virus becomes prolonged and the authorities implement further measures to stem the spread of infection, the socio-economic consequences could become significant. In such a scenario, the company may also be adversely affected. However, the authorities have already launched several financial support measures, and it is to be expected that further support measures will be implemented in the event of a prolonged outbreak that will mitigate the consequences of the restrictions.

The outbreak of the Corona virus and the restrictions imposed have not significantly affected the year's activities and economic development.

The development and result for the year are considered satisfactory in these circumstances.

Post financial year events

After the end of the financial year, no events have occurred which may change the financial position of the entity substantially.

Accounting Policies

Reporting Class

The annual report of HWF Denmark ApS for 2022 has been presented in accordance with the provisions of the Danish Financial Statements Act applying to enterprises of reporting class B.

The accounting policies applied remain unchanged from last year.

Reporting currency

The annual report is presented in Danish kroner.

Consolidated Financial Statements

The Consolidated Financial Statements comprise the parent company HWF Denmark ApS and subsidiaries which HWF Denmark ApS directly or indirectly hold more than 50% of the voting rights or in other ways have control. Enterprises in which the Group holds between 20% and 50% of the voting rights and exercises significant but not controlling influence are considered associates, cf. Group chart.

For the consolidation, intercompany income and costs, shareholdings, intercompany balances and dividends as well as realised and unrealised profit and loss are eliminated in connection with transactions between the consolidated enterprises.

Equity investments in subsidiaries are eliminated by the proportionate share of the subsidiaries' market value of net assets and liabilities at the time of acquisition.

Newly acquired or established enterprises are recognised in the Consolidated Financial Statements from the date of acquisition. Enterprises sold or liquidated are recognised in the Consolidated Income Statement up to the date of disposal. Comparative figures are not corrected for enterprises newly acquired, sold or liquidated.

General information

Basis of recognition and measurement

The financial statement have been prepared under the historical cost principle.

Income is recognised in the income statement as it is earned, including value adjustments of financial assets and liabilities that are measured at fair value or amortized cost. Moreover, all expenses incurred to achieve the earnings for the year are recognised in the income statement, including depreciation, amortization, impairment losses and provisions as well as reversals due to changed accounting estimates of amounts that have previously been recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits attributable to the asset will accrue to the Company, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits attributable to the asset will flow out of the Company, and the value of the liability can be measured reliably.

At initial recognition, assets and liabilities are measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

Certain financial assets and liabilities are measured at amortised cost, which involves the recognition of a constant effective interest rate over the term. Amortised cost is calculated as original cost less repayments and with the addition/deduction of the accumulated amortisation of the difference between the cost and the nominal amount. This way, exchange losses and gains are allocated over the term.

Accounting Policies

In connection with recognition and measurement, consideration is given to predictable losses and risks occurring prior to the presentation of the financial statement, i.e. losses and risks which prove or disprove matters which exist at the balance sheet date.

Income statement

Revenue

Revenue is recognised in the income statement if the goods have been delivered and the risk has passed to the buyer before year-end and if the revenue can be reliably calculated and expected to be received. Revenue is recognised excluding VAT and all discounts granted are recognised in revenue.

Income from the sale of goods for resale and finished goods is recognised in the income statement if the goods have been delivered and the risk has passed to the buyer before year-end if it is possible to calculate the income reliably. The revenue is exclusive of VAT and net of sales discounts.

Other external expenses

Other external expenses include expenses for distribution, sales, advertising, administration, premises, bad debts, operating leasing expenses etc.

Accounting Policies

Staff costs

Amortisation and impairment of tangible and intangible assets

Amortization and impairment of intangible assets, property, plant and equipment has been performed based on a continuing assessment of the useful life of the assets in the Company. Non-current assets are amortized on a straight line basis, based on cost, on the basis of the following assessment of useful life and residual values:

	Useful life	Residual value
Properties	20-50 years	0%
Other fixtures and fittings, tools and equipment	3-10 years	0%
Leasehold improvements	5 years	0%

Land is not amortized.

Profit or loss resulting from the sale of intangible assets or property, plant and equipment is determined as the difference between the selling price less selling costs and the carrying amount at the date of sale, and is recognised in the income statement under other operating income or expenses.

Financial income and expenses

Financial income and expenses are recognised in the income statement based at the amounts that concern the financial year. Financial income and expenses include interest revenue and expenses, financial expenses of finance leases, realised and unrealised capital gains and losses regarding securities, accounts payable and transactions in foreign currencies, repayment on mortgage loans, and surcharges and allowances under the advance-payment of tax scheme.

Dividends from other investments are recognised as income in the financial year in which the dividends are declared.

Tax on net profit for the year

Tax on net profit/loss for the year comprises current tax on expected taxable income of the year and the year's adjustment of deferred tax less the part of the tax of the year that relates to changes in equity. Current and deferred tax regarding changes in equity is recognised directly in equity.

Balance sheet

Property, plant and equipment

Property, plant and equipment are measured at cost on initial recognition and subsequently at cost less accumulated depreciation and impairment losses.

The depreciable amount is calculated taking into consideration the residual value of the asset at the end of its useful life, reduced by impairment losses, if any. The depreciation period and the residual value are determined at the data of acquisition. If the residual value exceeds the carrying amount of the asset, depreciation is discontinued.

In case of changes in depreciation period or residual value, the effect of a change in depreciation period is recognised prospectively in accounting estimates.

Cost includes the purchase price and expenses directly related to the acquisition until the time when the asset is ready for use. The cost of self-constructed assets includes costs for materials, components, subcontractors, direct payroll costs and indirect production costs.

The cost of composite asset is disaggregated into components, which are separately depreciated if the useful lives of the individual component differ.

Accounting Policies

Depreciation is calculated using the straight-line method over the following estimated useful lives of the individual assets and their residual values:

Deposits

Deposits are measured at cost.

Receivables

Receivables are measured at amortized cost which usually corresponds to the nominal value. The value is reduced by write-downs for expected bad debts.

Impairment of accounts receivables past due is established on individual assessment of receivables.

Accrued income, assets

Accrued income recognised in assets comprises prepaid costs regarding subsequent financial years.

Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and in hand as well as short-term securities with a term of less than three months which can be converted directly into cash at bank and in hand and involve only an insignificant risk of value changes.

Equity

Equity comprises the working capital and a number of equity items that may be statutory or stipulated in the articles of association.

Current tax liabilities

Current tax liabilities and current tax receivables are recognised in the balance sheet as estimated income tax charge for the year, adjusted for prior-year taxes and tax paid on account.

Liabilities

Financial liabilities are recognised initially at the proceeds received net of transaction expenses incurred. In subsequent periods, financial liabilities are measured at amortized cost, corresponding to the capitalized value using the effective interest method, so that the difference between the proceeds and the nominal value is recognised in the income statement over the life of the financial instrument.

Mortgage debt is accordingly measured at amortized cost, corresponding to the outstanding balance in case of cash loans. In case of bond loans, amortized cost corresponds to the outstanding balance determined as the underlying cash value of the loans at the time of borrowing adjusted for amortisation of capital losses on the loans over the repayment period.

Other liabilities are measured at net realisable value.

Other payables

Other payables are measured at amortized cost, which usually corresponds to the nominal value.

Accruals and deferred income entered as liabilities

Accruals and deferred income entered as liabilities consist of payments received regarding income in the subsequent financial years.

Accounting Policies

Contingent assets and liabilities

Contingent assets and liabilities are not recognised in the Balance Sheet but appear only in the notes.
