## **Management's statement**

Today, the board of directors and the managing director have presented the annual report of 4finance ApS for the financial year 1 January - 31 December 2022.

The annual report has been presented in accordance with the Danish Financial Statements Act.

We consider the accounting policies appropriate and, in our opinion, the financial statements provide a fair presentation of the company's assets, equity and liabilities, and financial position at 31 December 2022 and of the company's results of activities in the financial year 1 January – 31 December 2022.

We are of the opinion that the management commentary presents a fair account of the issues dealt with.

We recommend that the annual report be approved at the Annual General Meeting.

København V, 13 April 2023

## **Independent auditor's report**

### To the shareholders of 4finance ApS

## **Opinion**

We have audited the financial statements of 4finance ApS for the financial year 1 January - 31 December 2022, which comprise income statement, statement of financial position, statement of changes in equity, notes and accounting policies. The financial statements have been prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements present a fair view of the company's assets, equity and liabilities, and financial position at 31 December 2022 and of the results of the company's activities for the financial year 1 January - 31 December 2022 in accordance with the Danish Financial Statements Act.

#### **Basis for opinion**

We conducted our audit in accordance with international standards on auditing and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the section "Auditor's responsibilities for the audit of the financial statements". We are independent of the company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation of financial statements that provide a fair view in accordance with the Danish Financial Statements Act. Management is also responsible for such internal control as the management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

#### Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements, as a whole, are free from material misstatement, whether due to fraud or error, and to issue an auditor's report including an opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with international standards on auditing, and the additional requirements applicable in Denmark, will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

## **Independent auditor's report**

As part of an audit conducted in accordance with international standards on auditing, and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of the internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of expressing an
  opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's preparation of the financial statements using the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists arising from events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and contents of the financial statements, including disclosures in notes, and whether the financial statements reflect the underlying transactions and events in a manner that presents a fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in the internal control that we identify during our audit.

#### **Statement on the management commentary**

Management is responsible for the management commentary.

Our opinion on the financial statements does not cover the management commentary, and we express no assurance opinion thereon.

## Independent auditor's report

In connection with our audit of the financial statements, it is our responsibility to read the management commentary and to consider whether the management commentary is materially inconsistent with the financial statements or the evidence obtained during the audit, or whether it otherwise appears to contain material misstatement.

Furthermore, it is our responsibility to consider whether the management commentary provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we believe that management commentary is consistent with the financial statements and that it has been prepared in accordance with the provisions of the Danish Financial Statement Act. We did not discover any material misstatement in the management commentary.

## Management's review

## The principal activities of the company

The principal activity of the Company is providing credit facilities to private individuals and all related business in context hereto.

## Development in activities and financial matters

4finance ApS decided to cease offering and issuing consumer loans with effect from 1st of February 2022. 4finance ApS will continue to carry out consumer loan business in relation to its existing loan portfolios.

We have reported a pre-tax net-profit of DKK 9.504.673 in 2022, an increase compared to 2021. Our outstanding portfolio has decreased due to the stop of issuance of loans in 2022.

Overall, 2022 was a satisfactory year for the Company and the result are in line with management expectation.

4finance S.A.	EUR 150.000.000	Febuary 2025	11,25 %	Frankfurt Stock
		<u> </u>	·	Exchange

## 5. Contingencies

## **Contingent liabilities**

The Consumer Ombudsman has initiated a case, which may involve financial obligations for the company. As there is uncertainty about the realization and scope of the liabilities, they cannot reasonably be calculated and recognized in the accounts, and it is not possible to assess the financial impact if the liabilities are realized.

In result of tax audit finished in FY2022 the Tax authorities have issued two decisions on tax assessment. The Company has appealed the respective decisions to National Tax Tribunal. Although the tax assessments represent significant amount for the Company and, thus, could have substantive impact on the Company's financial position in case of materialisation, the Company's management (supported also by tax and legal professional advisors) believes that decision of National Tax Tribunal shall be positive for the Company. As a result, no tax provisions are recognized in Company's books, however, the respective matter is included as a contingent liability.

### 6. Related parties

## **Controlling interest**

AS 4finance Majority shareholder

Street Lielirbes 17A-46, Riga LV-1046, Latvia

The annual report for 4finance ApS has been presented in accordance with the Danish Financial Statements Act regulations concerning reporting class B enterprises. Furthermore, the company has decided to comply with certain rules applying to reporting class C enterprises.

## Recognition and measurement in general

Income is recognised in the income statement concurrently with its realisation, including the recognition of value adjustments of financial assets and liabilities. Likewise, all costs are recognised in the income statement, including depreciations amortisations, writedowns for impairment, provisions, and reversals due to changes in estimated amounts previously recognised in the income statement.

Assets are recognised in the statement of financial position when it seems probable that future economic benefits will flow to the company and the value of the asset can be reliably measured.

Liabilities are recognised in the statement of financial position when it is seems probable that future economic benefits will flow out of the company and the value of the liability can be reliably measured.

Assets and liabilities are measured at cost at the initial recognition. Hereafter, assets and liabilities are measured as described below for each individual accounting item.

Certain financial assets and liabilities are measured at amortised cost, allowing a constant effective interest rate to be recognised during the useful life of the asset or liability. Amortised cost is recognised as the original cost less any payments, plus/less accrued amortisations of the difference between cost and nominal amount. In this way, capital losses and gains are allocated over the useful life of the liability.

Upon recognition and measurement, allowances are made for such predictable losses and risks which may arise prior to the presentation of the annual report and concern matters that exist on the reporting date.

### Foreign currency translation

Transactions in foreign currency are translated by using the exchange rate prevailing at the date of the transaction. Differences in the rate of exchange arising between the rate at the date of transaction and the rate at the date of payment are recognised in the profit and loss account as an item under net financials. If currency positions are considered to hedge future cash flows, the value adjustments are recognised directly in equity in a fair value reserve.

Receivables, payables, and other foreign currency monetary items are translated using the closing rate. The difference between the closing rate and the rate at the time of the occurrence or initial recognition in the latest financial statements of the receivable or payable is recognised in the income statement under financial income and expenses.

Fixed assets acquired and paid for in foreign currency are measured at the exchange rate prevailing at the date of the transaction.

#### Income statement

## **Gross profit**

Pursuant to section 32 of the Danish Financial Statements Act, the Company has chosen to aggregate the items revenue and other external expenses in the item gross profit/gross loss.

Revenue comprises interest and fees related to loans. Income is accrued over the periods to which it relates and is included in the income statement at the amounts relating to the accounting period concerned.

Other expenses comprise expenses for sale, write-down of loan receivables, office premises and administration.

Other operating income comprises items of a secondary nature as regards the principal activities of the enterprise.

Other external costs comprise costs for sales, advertisement, administration, premises and operational leasing costs.

#### Staff costs

Staff costs include salaries and wages, including holiday allowances, pensions, and other social security costs, etc., for staff members. Staff costs are less government reimbursements.

## Depreciation, amortisation, and writedown for impairment

Depreciation, amortisation, and writedown for impairment comprise depreciation, amortisation, and writedown for the year and profit and loss on the disposal of intangible and tangible assets.

#### Financial income and expenses

Financial income and expenses are recognised in the income statement with the amounts concerning the financial year. Financial income and expenses comprise interest income and expenses, financial expenses from financial leasing, realised and unrealised capital gains and losses relating to securities, debt and transactions in foreign currency, amortisation of financial assets and liabilities as well as surcharges and reimbursements under the advance tax scheme, etc.

#### Tax on net profit or loss for the year

Tax for the year comprises the current income tax for the year and changes in deferred tax and is recognised in the income statement with the share attributable to the net profit or loss for the year and directly in equity with the share attributable to entries directly in equity.

## Statement of financial position

#### Tangible fixed assets

Tangible fixed assets are measured at cost with deduction of accrued depreciation and writedown.

The depreciable amount is cost less any expected residual value after the end of the useful life of the asset. The amortisation period and the residual value are determined at the acquisition date and reassessed annually. If the residual value exceeds the carrying amount, the depreciation is discontinued.

If the amortisation period or the residual value is changed, the effect on amortisation will, in future, be recognised as a change in the accounting estimates.

The cost comprises acquisition cost and costs directly associated with the acquisition until the time when the asset is ready for use.

The cost of a total asset is divided into separate components. These components are depreciated separately, the useful lives of each individual components differing, and the individual component representing a material part of the total cost.

Depreciation is done on a straight-line basis according to an assessment of the expected useful life:

Buildings (Rigth-of-use assets)
Other fixtures and fittings, tools and equipment

Useful life
Over the term of the contract
3-5 years

Minor assets with an expected useful life of less than 1 year are recognised as costs in the income statement in the year of acquisition.

Profit or loss derived from the disposal of property, land, and equipment is measured as the difference between the sales price less selling costs and the carrying amount at the date of disposal. Profit or loss is recognised in the income statement under depreciation.

As regards self-constructed assets, the cost comprises direct costs for materials, components, deliveries from subsuppliers, payroll costs, and borrowing costs from specific and general borrowing concerning the construction of each individual asset.

#### Leases

The enterprise will be applying IFRS 16 as its basis of interpretation for the recognition of classification and recognition of leases.

Leases pertaining to property, plant, and equipment for which the enterprise has the right-of-use are recognised in the statement of financial position as right-of-use assets. The assets are, at initial recognition, measured at imputed cost, consisting of:

• The imputed lease liability

- Any lease payments paid prior to or on the starting date, less any lease incentives received
- Any direct start-up costs
- Any restoring costs

Hereafter, recognised leased assets are treated like the enterprise's remaining property, plant, and equipment.

Lease liabilities are recognised in the statement of financial position as liabilities other than provision and are measured, at initial recognition, at the present value of lease payments payable over the lease term. This includes a purchase option in the event that the enterprise expects to purchase the right-of-use asset. When determining the present value, the internal rate of return or, alternatively, the enterprise's borrowing rate is applied as discount rate.

Hereafter, the lease liability is treated like the remaining financial liabilities, i.e. at amortised cost.

The interest element of the lease payments is recognised in the income statement over the contractual term.

The following leases are not recognised as assets and liabilities in the statement of financial position:

- Leases with a duration of twelve months or less (short leases)
- Leases where the replacement value of the asset is less than DKK 30,000. (low-value assets)

For such leases, the lease payment is recognised in the income statement as an expense on a linear basis over the lease term.

## Impairment loss relating to non-current assets

The carrying amount of both intangible and tangible fixed assets are subject to annual impairment tests in order to disclose any indications of impairment beyond those expressed by amortisation and depreciation respectively.

If indications of impairment are disclosed, impairment tests are carried out for each individual asset or group of assets, respectively. Writedown for impairment is done to the recoverable amount if this value is lower than the carrying amount.

The recoverable amount is the higher value of value in use and selling price less expected selling cost. The value in use is calculated as the present value of the expected net cash flows from the use of the asset or the asset group and expected net cash flows from the sale of the asset or the asset group after the end of their useful life.

Previously recognised impairment losses are reversed when conditions for impairment no longer exist. Impairment relating to goodwill is not reversed.

#### **Leasehold improvements**

Leasehold improvements are measured at cost less accrued depreciations. Depreciation is done on a straightline basis over the estimated useful life of the asset, which is set at 5 years.

#### **Receivables**

Receivables are measured at amortised cost, which usually corresponds to nominal value.

To counter expected losses, writedown is done to net realisable value. The enterprise will be applying IFRS 9 as the basis of interpretation for the recognition of impairment of financial assets, meaning that an expected loss must be included at initial recognition of the receivable.

## Prepayments and accrued income

Prepayments and accrued income recognised under assets comprise incurred costs concerning the following financial year.

## Cash on hand and demand deposits

Cash on hand and demand deposits comprise cash at bank and on hand.

#### **Equity**

#### Dividend

Dividend expected to be distributed for the year is recognised as a separate item under equity.

## **Income tax and deferred tax**

Current tax liabilities and current tax receivable are recognised in the statement of financial position as calculated tax on the taxable income for the year, adjusted for tax of previous years' taxable income and for tax paid on account.

Deferred tax is measured on the basis of temporary differences in assets and liabilities with a focus on the statement of financial position. Deferred tax is measured at net realisable value.

Deferred tax is measured based on the tax rules and tax rates applying under the legislation prevailing in the respective countries on the reporting date when the deferred tax is expected to be released as current tax. Changes in deferred tax due to changed tax rates are recognised in the income statement, except for items included directly in the equity.

Deferred tax assets, including the tax value of tax losses allowed for carryforward, are recognised at the value at which they are expected to be realisable, either by settlement against tax of future earnings or by set-off in deferred tax liabilities within the same legal tax unit. Any deferred net tax assets are measured at net realisable value.

#### **Provisions**

Provisions comprise expected costs of warranty commitments, loss on work in progress, restructuring, etc. Provisions are recognised when the company has a legal or actual commitment resulting from a previously occurred event and when it is probable that the settlement of the liability will result in consumption of the financial resources of the company.

Provisions are measured at net realisable value or at fair value. If the fulfilment of a liability is expected to take place far in the future, the liability is measured at fair value.

On the acquisition of entities, provisions for restructuring within the acquired entity are included in the acquisition cost, and thereby in the goodwill or the consolidated goodwill, to the extent that they have been recognised in the financial statements of the acquired entity in advance of the acquisition. Provisions for restructuring are included to the extent that they have been decided at the date of acquisition at the latest and that the process have been commenced.

When it is likely that the total costs will exceed the total income of contract work in progress, the total expected loss on the contract work in progress will be recognised as provisions for liabilities. The provision is recognised under production costs.

#### Liabilities other than provisions

Capitalised residual leasing liabilities associated with financial leasing contracts are recognised in the financial liabilities.

Liabilities other than provisions relating to investment properties are measured at amortised cost.

Other liabilities concerning payables to suppliers, group enterprises, and other payables are measured at amortised cost which usually corresponds to the nominal value.

### Accruals and deferred income

Payments received concerning future income are recognised under accruals and deferred income.
