Management's Statement

The Executive Board and Board of Directors have today considered and adopted the Annual Report of Torben Herman Christensen Holding A/S for the financial year 1 January - 31 December 2019.

The Annual Report is prepared in accordance with the Danish Financial Statements Act.

In our opinion the Financial Statements and the Consolidated Financial Statements give a true and fair view of the financial position at 31 December 2019 of the Company and the Group and of the results of the Company and Group operations and of consolidated cash flows for 2019.

In our opinion, Management's Review includes a true and fair account of the matters addressed in the Review.

We recommend that the Annual Report be adopted at the Annual General Meeting.

Independent Auditor's Report

To the Shareholder of Torben Herman Christensen Holding A/S

Opinion

In our opinion, the Consolidated Financial Statements and the Parent Company Financial Statements give a true and fair view of the financial position of the Group and the Parent Company at 31 December 2019 and of the results of the Group's and the Parent Company's operations and of consolidated cash flows for the financial year 1 January - 31 December 2019 in accordance with the Danish Financial Statements Act.

We have audited the Consolidated Financial Statements and the Parent Company Financial Statements of Torben Herman Christensen Holding A/S for the financial year 1 January - 31 December 2019, which comprise income statement, balance sheet, statement of changes in equity and notes, including a summary of significant accounting policies, for both the Group and the Parent Company, as well as consolidated statement of cash flows ("the Financial Statements").

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the Financial Statements" section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the Financial Statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the Financial Statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financials Statements Act.

Based on the work we have performed, in our view, Management's Review is in accordance with the Consolidated Financial Statements and the Parent Company Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement in Management's Review.

Independent Auditor's Report

Management's responsibilities for the Financial Statements

Management is responsible for the preparation of consolidated financial statements and parent company financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, Management is responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the Financial Statements unless Management either intends to liquidate the Group or the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's and the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the Financial Statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial

Independent Auditor's Report

Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and contents of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that gives a true and fair view.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Key activities

The Group primarily offers services related to agri-bulk products and biomass. The services encompass brokerage, trading, freight and inspection as well as ovnership and management of port terminals.

Development in the year

The income statement of the Group for 2019 shows a profit of DKK 60,606,973, and at 31 December 2019 the balance sheet of the Group shows equity of DKK 366,465,582.

Management considers the net profit for the year to be satisfactory.

The past year and follow-up on development expectations from last year

In 2019, the company delivered a result a bit higher than the expectations stated in the 2018 annual report.

Special risks - operating risks and financial risks

Foreign exchange risks

A proportion of the Group's revenue and purchases are made in other currencies than DKK. The hedging is primarily through forward foreign exchange contracts to hedge expected revenue and purchases. There are no speculative currency arrangements.

Targets and expectations for the year ahead

Management expects continuing growth in revenue and a satisfactory result before tax around DKK 70-80 millions.

External environment

The Group's activities are not considered to have an extensive impact on the external environment.

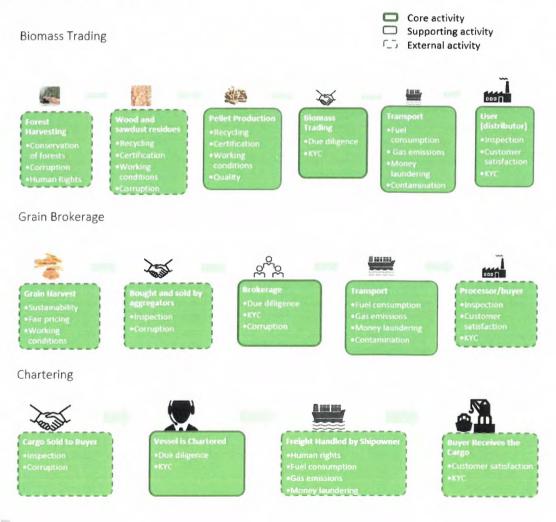

Statement of corporate social responsibility

Business model

CM is a privately owned group of businesses which, although spanning different industries, all have the same core values in common: commitment, proactivity, partnership and integrity. These values are reflected in the way that corporate social responsibility is integrated with the business strategy.

- CM is based on commitment. Commitment to constantly improve, and commitment to our clients and partners to be reliable by conducting business efficiently and responsibly.
- CM is proactive and strive to transform our challenges into opportunities. We try to mitigate risks ahead of time and train our employees to act decisively.
- CM values great **partnerships** that last, partnerships where we grow together. Therefore, CM carefully chooses employees, suppliers, and collaborators, while being transparent, in order to create a foundation for mutual trust, unity and loyalty.
- * CM prioritizes integrity over profit. We are professional and honest.

The Group approaches CSR by dividing its activities and companies in five main business units, as each unit has its own business model and related CSR risks. Terminals and Superintendence, however, are excluded from the 2019 CSR report as these business units are deemed to have insignificant CSR risks. The links in the value chain of the relevant business units and the main related CSR concerns of each link are illustrated below.

Risks related to CSR

business partners.

Identified Risks

Policies, activities and results

Environment & Climate

The Group's policy on environment and climate is to incorporate sustainability, efficient use of raw materials and fuels, in everyday business decisions, e.g. in relation to choice of business partners, agreements with suppliers and the investments made. In CM Biomass, sustainability is at the core of our business, where wood pellets are made from wood and sawdust residues.

Almost all of our biomass producers are certified according to recognized sustainable forest management schemes. These certifications ensure sustainable and legal sourcing of wood. In line with sustainable biomass procurement policy, all data needed for the evaluation of GHG emissions are collected and made available to customers.

It is CM Biomass' policy to continuously test and research alternative biomass fuels to explore the growing market for CO2 neutral energy sources. In 2019, CM Biomass has been working with sunflowers, peanut husks, olives, and shea, with most favorable results from sunflower and peanut husk pellets.

Within grain brokerage, information about sustainability of grain and whether it is GMO or not, is brought to the attention of buyers, in accordance with EU legislation, to support them in choosing an appropriate product and supplier. CM brokerage is GMP+ FSA certified ensuring feed commodities are protected and handled appropriately, according to GMP+ FSA requirements.

Finally, CM chartering is focused on making sure that shiploads meet legal requirements, that the cargo is described correctly, and that the vessels' previous loads will not affect the new shiploads - this to prevent contamination, combustion and capsizing of vessels. CM chartering still had no such incidents in 2019.

Human Rights

Although no violations were identified during 2019 or the years before, some risks are present throughout the supply chains, especially due to the wide and growing geographical scope of the business. In order to mitigate these risks, The Group has started a project to formalize the Code of Conduct for relevant business partners.

Corruption

The Group has a no tolerance policy with regards to corruption and bribery, which is communicated clearly to employees as they are instructed in their work. Risk assessment of new suppliers, clients and business partners are carried out by the Group, before signing any contracts or making any business transactions. For such assessments the Group makes use of relevant industry contacts including but not limited to its P&I Club and Bimco. Based on risk assessments, selected suppliers are audited internally or with assistance from external consultants or auditors.

There were no reports of corruption in 2019. However, as the Group's operations continue to expand, the need to avoid corruption and mitigate financial risks will increase. Consequently, the Group will look for additional measures, among others in terms of the KYC (Know Your Customer) process.

Social Impact & Employee Welfare

It is the Group's policy to provide good working conditions and fair terms to all employees. As most of the Group's employees are white collar, the number of accidents is very low. In order to continuously improve employee satisfaction and safeguard personal development, the Group entertains a flat organizational structure with open communication between employees and leaders. This includes proactive identification of possible stress and measures to ensure a healthy work/life balance.

The Group continues to have a low staff turnover in 2019, a positive indicator of a good work environment. The Group has for years supported students with cases for their theses, student employment and internships. In 2019, the Group had 8 student assistants.

Statement on gender composition

The Board of Directors aim to follow the recommendations of the Danish Business Authority with respect to the underrepresented gender. The target of the Company is to have 2 women represented in the Board of Directors.

At present, two of the members of the Board of Directors in Torben Herman Christensen Holding A/S are women. As a result hereof the target is met, and the Board of Directors has no under-represented gender cf. guidelines from the Danish Business Authority.

Torben Herman Christensen Holding A/S does not account for the proportion of the underrepresented gender in the company's other management levels, since the company has employed fewer than 50 employees in the financial year.

It should be noted, however, that the Group has a very low employee turnover rate and that changes will not be made just to meet the described targets of equal opportunities.

Uncertainty relating to recognition and measurement

Recognition and measurement in the Annual Report have not been subject to any uncertainty.

Unusual events

The financial position at 31 December 2019 of the Group and the results of the activities and cash flows of the Group for the financial year for 2019 have not been affected by any unusual events.

Subsequent events

The consequences of Covid-19, where governments around the world have decided to "close down" countries, will have a major impact on the world economy. Management considers the impact of Covid-19 as an event arisen after the balance sheetdate (December 31, 2019), and therefore constitutes a non-regulatory event for the Group.

It is estimated that covid-19 will have a limited effect on the Group's business in the medium and long term, as the products that are primarily handled are for the food, energy and pharmaceutical industries which are not immediately considered to be severely affected.

At this point in time, it is not possible to determine the exact magnitude of the impact from Covid-19.

1 Subsequent events

The consequences of Covid-19, where governments around the world have decided to "close down" countries, will have a major impact on the world economy. Management considers the impact of Covid-19 as an event arisen after the balance sheetdate (December 31, 2019), and therefore constitutes a non-regulatory event for the Group.

It is estimated that covid-19 will have a limited effect on the Group's business in the medium and long term, as the products that are primarily handled are for the food, energy and pharmaceutical industries which are not immediately considered to be severely affected.

At this point in time, it is not possible to determine the exact magnitude of the impact from Covid-19.

		112.119.607	52.310.825	0	0

The total future rental and lease payments primarily consist of rent and Time Charter agreements. Furthermore, two associated companies (I/S) own warehouses built on leased land, which are on long-term leases. The lease contracts can be terminated by the associated companies within 6 months. The total lease obligation concerning warehouses on leased land amounts to DKK 1.311.000.

Other contingent liabilities

The Danish group companies are jointly and severally liable for tax on the jointly taxed incomes etc of the Group. The total amount of corporation tax payable by the Group amounts to DKK 7,840,888. Moreover, the Danish group companies are jointly and severally liable for Danish withholding taxes by way of dividend tax, tax on royalty payments and tax on unearned income. Any subsequent adjustments of corporation taxes and withholding taxes may increase the Company's liability.

The Group is jointly and severally liable without restriction for certain Bulk Terminals liabilities.

The Group is jointly and severally liable for 51% of the commitment with bank in the associated company, Gdansk Bulk Terminal Sp. z.o.o., Poland.

The Group is jointly and severally liable for 51% of the commitment with bank in the associated company, Szczecin Bulk Terminal Sp. z.o.o., Poland.

The Group has made a guarantee of a total of TDKK 10,000 to the associated company, Kalundborg Holding A/S.

22 Accounting Policies

The Annual Report of Torben Herman Christensen Holding A/S for 2019 has been prepared in accordance with the provisions of the Danish Financial Statements Act applying to large enterprises of reporting class C .

The accounting policies applied remain unchanged from last year.

The Consolidated and Parent Company Financial Statements for 2019 are presented in DKK.

Recognition and measurement

Revenues are recognised in the income statement as earned. Furthermore, value adjustments of financial assets and liabilities measured at fair value or amortised cost are recognised. Moreover, all expenses incurred to achieve the earnings for the year are recognised in the income statement, including depreciation, amortisation, impairment losses and provisions as well as reversals due to changed accounting estimates of amounts that have previously been recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits attributable to the asset will flow to the Company, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow out of the Company, and the value of the liability can be measured reliably.

Assets and liabilities are initially measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

Recognition and measurement take into account predictable losses and risks occurring before the presentation of the Annual Report which confirm or invalidate affairs and conditions existing at the balance sheet date.

Basis of consolidation

The Consolidated Financial Statements comprise the Parent Company, Torben Herman Christensen Holding A/S, and subsidiaries in which the Parent Company directly or indirectly holds more than 50% of the votes or in which the Parent Company, through share ownership or otherwise, exercises control. Enterprises in which the Group holds between 20% and 50% of the votes and exercises significant influence but not control are classified as associates.

On consolidation, items of a uniform nature are combined. Elimination is made of intercompany income and expenses, shareholdings, dividends and accounts as well as of realised and unrealised profits and losses on transactions between the consolidated enterprises.

22 Accounting Policies (continued)

The Parent Company's investments in the consolidated subsidiaries are set off against the Parent Company's share of the net asset value of subsidiaries stated at the time of consolidation.

Business combinations

Business acquisitions carried through on or after 1 July 2018

Acquisitions of subsidiaries are accounted for using the purchase method under which the identifiable assets and liabilities of the entity acquired are measured at fair value at the time of acquisition. Acquired contingent liabilities are recognised at fair value in the Consolidated Financial Statements to the extent that the value can be measured reliably.

The time of acquisition is the time when the Group obtains control of the entity acquired.

The cost of the entity acquired is the fair value of the consideration agreed, including consideration contingent on future events. Transaction costs directly attributable to the acquisition of subsidiaries are recognised in the income statement as incurred.

Positive differences between the cost of the entity acquired and identifiable assets and liabilities are recognised as goodwill in intangible assets in the balance sheet and are amortised in the income statement on a straight-line basis over their estimated useful lives. Amortisation of goodwill is allocated in the Consolidated Financial Statements to the operations to which goodwill is related. Where the differences are negative, they are recognised immediately in the income statement.

Where the purchase price allocation is not final, positive and negative differences from acquired subsidiaries due to changes to the recognition and measurement of identifiable net assets may be adjusted for up to 12 months after the time of acquisition. These adjustments are also reflected in the value of goodwill or negative goodwill, including in amortisation already made.

Where cost includes contingent consideration, this is measured at fair value at the time of acquisition. Contingent consideration is subsequently measured at fair value. Any value adjustments are recognised in the income statement.

In respect of step acquisitions, any previously held investments in the entity acquired are remeasured at fair value at the time of acquisition. The difference between the carrying amount of the investment previously held and the fair value is recognised in the income statement.

Business acquisitions carried through before 1 July 2018

Subject to some exemptions, acquisitions carried through before 1 July 2018 are accounted for under the same accounting policies as those applying to business combinations carried through on or after 1 July 2018. The most material exemptions are:

22 Accounting Policies (continued)

- Identifiable assets and liabilities of the entity acquired are recognised only if they are probable.
- Identifiable contingent liabilities of the entity acquired are not recognised in the consolidated balance sheet.
- Where the purchase price allocation is not final, positive and negative differences due to changes to the recognition and measurement of the acquired net assets may be adjusted until the end of the financial year following the year of acquisition. These adjustments are also reflected in the value of goodwill or negative goodwill, including in amortisation already made.
- Transaction costs directly attributable to the acquisition of subsidiaries are included as part of cost.
- After the initial recognition, adjustment of contingent consideration is recognised directly with its counter entry in initial purchase price, thus correcting the value of goodwill or negative goodwill.
- In respect of step acquisitions, the carrying amount of the existing investments is recognised in cost.

Minority interests

Minority interests form part of the Group's total equity. Upon distribution of net profit, net profit is broken down on the share attributable to minority interests and the share attributable to the shareholders of the Parent Company. Minority interests are recognised on the basis of a remeasurement of acquired assets and liabilities to fair value at the time of acquisition of subsidiaries.

Business acquisitions carried through before 1 July 2018

Minority interests are recognised at the carrying amounts of the acquired assets and liabilities at the time of acquisition of subsidiaries.

Business acquisitions carried through on or after 1 July 2018

Minority interests are initially measured at their proportionate share of the fair value of the acquired entity's identifiable net assets. In this way, only goodwill related to the Parent Company's share of the entity acquired is recognised.

On subsequent changes to minority interests where the Group retains control of the subsidiary, the consideration is recognised directly in equity.

Leases

All leases are considered operating leases. Payments made under operating leases are recognised in the income statement on a straight-line basis over the lease term.

22 Accounting Policies (continued)

Translation policies

Danish kroner is used as the presentation currency. All other currencies are regarded as foreign currencies.

Transactions in foreign currencies are translated at the exchange rates at the dates of transaction. Exchange differences arising due to differences between the transaction date rates and the rates at the dates of payment are recognised in financial income and expenses in the income statement. Where foreign exchange transactions are considered hedging of future cash flows, the value adjustments are recognised directly in equity.

Receivables, payables and other monetary items in foreign currencies that have not been settled at the balance sheet date are translated at the exchange rates at the balance sheet date. Any differences between the exchange rates at the balance sheet date and the rates at the time when the receivable or the debt arose are recognised in financial income and expenses in the income statement.

Fixed assets acquired in foreign currencies are measured at the transaction date rates.

Derivative financial instruments

Derivative financial instruments are initially recognised in the balance sheet at cost and are subsequently remeasured at their fair values. Positive and negative fair values of derivative financial instruments are classified as "Other receivables" and "Other payables", respectively.

Changes in the fair values of derivative financial instruments are recognised in the income statement unless the derivative financial instrument is designated and qualify as hedge accounting, see below.

Hedge accounting

Changes in the fair values of financial instruments that are designated and qualify as fair value hedges of a recognised asset or a recognised liability are recognised in the income statement as are any changes in the fair value of the hedged asset or the hedged liability related to the hedged risk.

Changes in the fair values of derivative financial instruments that are designated and qualify as hedges of expected future transactions are recognised in retained earnings under equity as regards the effective portion of the hedge. The ineffective portion is recognised in the income statement. If the hedged transaction results in an asset or a liability, the amount deferred in equity is transferred from equity and recognised in the cost of the asset or the liability, respectively. If the hedged transaction results in an income or an expense, the amount deferred in equity is transferred from equity to the income statement in the period in which the hedged transaction is recognised. The amount is recognised in the same item as the hedged transaction.

22 Accounting Policies (continued)

Changes in the fair values of financial instruments that are designated and qualify as hedges of net investments in independent foreign subsidiaries or associates are recognised directly in equity as regards the effective portion of the hedge, whereas the ineffective portion is recognised in the income statement.

Revenue

Information on business segments and geographical segments based on the Group's risks and returns and its internal financial reporting system. Business segments are regarded as the primary segments.

Income Statement

Revenue

Revenue from the sale of goods is recognised when the risks and rewards relating to the goods sold have been transferred to the purchaser, the revenue can be measured reliably and it is probable that the economic benefits relating to the sale will flow to the Group.

Revenue is measured at the consideration received and is recognised exclusive of VAT and net of discounts relating to sales.

Expenses for raw materials and consumables

Expenses for raw materials and consumables comprise the raw materials and consumables consumed to achieve revenue for the year.

Other external expenses

Other external expenses comprise indirect production costs and expenses for premises, sales and distribution as well as office expenses, etc.

Staff expenses

Staff expenses comprise wages and salaries as well as payroll expenses.

Amortisation, depreciation and impairment losses

Amortisation, depreciation and impairment losses comprise amortisation, depreciation and impairment of intangible assets and property, plant and equipment.

22 Accounting Policies (continued)

Other operating income and expenses

Other operating income and other operating expenses comprise items of a secondary nature to the main activities of the Group.

Income from investments in subsidiaries and associates

The items "Income from investments in subsidiaries" and "Income from investments in associates" in the income statement include the proportionate share of the profit for the year.

Financial income and expenses

Financial income and expenses are recognised in the income statement at the amounts relating to the financial year.

Tax on profit/loss for the year

Tax for the year consists of current tax for the year and changes in deferred tax for the year. The tax attributable to the profit for the year is recognised in the income statement, whereas the tax attributable to equity transactions is recognised directly in equity.

The Company is jointly taxed with danish group enterprises. The tax effect of the joint taxation is allocated to Danish enterprises in proportion to their taxable incomes.

Balance Sheet

Intangible assets

Goodwill acquired is measured at cost less accumulated amortisation. Goodwill is amortised on a straight-line basis over its useful life, which is assessed at 10 years.

Completed development projects consist of software and are measured at the lower of cost less accumulated amortisation and recoverable amount. Software are amortised on a straight-line basis over its useful life, which is assessed at 5 years.

Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and less any accumulated impairment losses.

Cost comprises the cost of acquisition and expenses directly related to the acquisition up until the time when the asset is ready for use.

22 Accounting Policies (continued)

Depreciation based on cost reduced by any residual value is calculated on a straight-line basis over the expected useful lives of the assets, which are:

Other buildings20-50 yearsOther fixtures and fittings, tools and equipment3-20 yearsLeasehold improvements5-25 years

Depreciation period and residual value are reassessed annually.

Impairment of fixed assets

The carrying amounts of intangible assets and property, plant and equipment are reviewed on an annual basis to determine whether there is any indication of impairment other than that expressed by amortisation and depreciation.

If so, the asset is written down to its lower recoverable amount.

Investments in subsidiaries and associates

Investments in subsidiaries and associates are recognised and measured under the equity method.

The items "Investments in subsidiaries" and "Investments in associates" in the balance sheet include the proportionate ownership share of the net asset value of the enterprises calculated on the basis of the fair values of identifiable net assets at the time of acquisition with deduction or addition of unrealised intercompany profits or losses and with addition of the remaining value of any increases in value and goodwill calculated at the time of acquisition of the enterprises.

The total net revaluation of investments in subsidiaries and associates is transferred upon distribution of profit to "Reserve for net revaluation under the equity method" under equity. The reserve is reduced by dividend distributed to the Parent Company and adjusted for other equity movements in the subsidiaries and the associates.

Subsidiaries and associates with a negative net asset value are recognised at DKK o. Any legal or constructive obligation of the Parent Company to cover the negative balance of the enterprise is recognised in provisions.

Other fixed asset investments

Other fixed asset investments consist of long-term receivables, deposits and unlisted shares.

22 Accounting Policies (continued)

Inventories

Inventories are measured at the lower of cost under the FIFO method and net realisable value.

The net realisable value of inventories is calculated at the amount expected to be generated by sale of the inventories in the process of normal operations with deduction of selling expenses. The net realisable value is determined allowing for marketability, obsolescence and development in expected selling price.

The cost of goods for resale equals landed cost.

Receivables

Receivables are recognised in the balance sheet at amortised cost, which substantially corresponds to nominal value. Provisions for estimated bad debts are made.

Prepayments

Prepayments comprise prepaid expenses concerning rent, insurance premiums and subscriptions etc.

Provisions

Provisions are recognised when - in consequence of an event occurred before or on the balance sheet date - the Group has a legal or constructive obligation and it is probable that economic benefits must be given up to settle the obligation.

Deferred tax assets and liabilities

Deferred income tax is measured using the balance sheet liability method in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes on the basis of the intended use of the asset and settlement of the liability, respectively.

Deferred tax assets are measured at the value at which the asset is expected to be realised, either by elimination in tax on future earnings or by set-off against deferred tax liabilities within the same legal tax entity.

Deferred tax is measured on the basis of the tax rules and tax rates that will be effective under the legislation at the balance sheet date when the deferred tax is expected to crystallise as current tax. Any changes in deferred tax due to changes to tax rates are recognised in the income statement or in equity if the deferred tax relates to items recognised in equity.

22 Accounting Policies (continued)

Current tax receivables and liabilities

Current tax liabilities and receivables are recognised in the balance sheet as the expected taxable income for the year adjusted for tax on taxable incomes for prior years and tax paid on account. Extra payments and repayment under the on-account taxation scheme are recognised in the income statement in financial income and expenses.

Financial debts

Loans, such as mortgage loans and loans from credit institutions, are recognised initially at the proceeds received net of transaction expenses incurred. Subsequently, the loans are measured at amortised cost; the difference between the proceeds and the nominal value is recognised as an interest expense in the income statement over the loan period.

Mortgage loans are measured at amortised cost, which for cash loans corresponds to the remaining loan. Amortised cost of debenture loans corresponds to the remaining loan calculated as the underlying cash value of the loan at the date of raising the loan adjusted for depreciation of the price adjustment of the loan made over the term of the loan at the date of raising the loan.

Other debts are measured at amortised cost, substantially corresponding to nominal value.

Deferred income

Deferred income comprises payments received in respect of income in subsequent years.

Cash Flow Statement

The cash flow statement shows the Group's cash flows for the year broken down by operating, investing and financing activities, changes for the year in cash and cash equivalents as well as the Group's cash and cash equivalents at the beginning and end of the year.

Cash flows from operating activities

Cash flows from operating activities are calculated as the net profit/loss for the year adjusted for changes in working capital and non-cash operating items such as depreciation, amortisation and impairment losses, and provisions. Working capital comprises current assets less short-term debt excluding items included in cash and cash equivalents.

Cash flows from investing activities

Cash flows from investing activities comprise cash flows from acquisitions and disposals of intangible assets, property, plant and equipment as well as fixed asset investments.

22 Accounting Policies (continued)

Cash flows from financing activities

Cash flows from financing activities comprise cash flows from the raising and repayment of long-term debt as well as payments to and from shareholders.

Cash and cash equivalents

Cash and cash equivalents comprise "Cash at bank and in hand" and "Overdraft facilities".

The cash flow statement cannot be immediately derived from the published financial records.
