# Management's statement

The Executive Board and Board of Directors have today considered and adopted the Annual Report of Vega Sea A/S for the financial year 1 July 2022 - 31 December 2023.

The Annual Report is prepared in accordance with the Danish Financial Statements Act.

In our opinion the Financial Statements and the Consolidated Financial Statements give a true and fair view of the financial position at 31 December 2023 of the Company and the Group and of the results of the Company and Group operations and of consolidated cash flows for 2022/23.

In our opinion, Management's Review includes a true and fair account of the matters addressed in the Review.

We recommend that the Annual Report be adopted at the Annual General Meeting.

Kolding, 5 July 2024

#### **Executive Board**

#### **Board of Directors**

Sverre Søraa Chairman Torben Svejgård

Jan Frode Fjellkårstad

## **Independent Auditor's report**

To the shareholders of Vega Sea A/S

#### **Opinion**

In our opinion, the Consolidated Financial Statements and the Parent Company Financial Statements give a true and fair view of the financial position of the Group and the Parent Company at 31 December 2023 and of the results of the Group's and the Parent Company's operations and of consolidated cash flows for the financial year 1 July 2022 - 31 December 2023 in accordance with the Danish Financial Statements Act.

We have audited the Consolidated Financial Statements and the Parent Company Financial Statements of Vega Sea A/S for the financial year 1 July 2022 - 31 December 2023, which comprise income statement, balance sheet, statement of changes in equity and notes, including a summary of significant accounting policies, for both the Group and the Parent Company, as well as consolidated statement of cash flows ("the Financial Statements").

#### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the Financial Statements" section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the Financial Statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the Financial Statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, in our view, Management's Review is in accordance with the Consolidated Financial Statements and the Parent Company Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement in Management's Review.

#### Management's responsibilities for the Financial Statements

Management is responsible for the preparation of consolidated financial statements and parent company financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, Management is responsible for assessing the Group's and the Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the Financial Statements unless Management either intends to liquidate the Group or the Parent Company or to cease operations, or has no realistic alternative but to do so.

# **Independent Auditor's report**

#### Auditor's responsibilities for the audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Parent Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the Financial Statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Parent Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Parent Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that gives a true and fair view.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

#### **Business review**

The Group's principal activity is developing, purchasing, processing, and selling fish products - primarily salmon.

The above-mentioned principal activity has been executed from the production facilities in Germany, the office in Denmark and sales offices in selected countries.

In December 2022 the Group was sold to Coast Seafood AS from Norway. The new ownership supports the continuous growth of the company and at the same time bring even more focus on sustainability, value-chain optimization and automation, synergies and in total strengthening Vega in being an attractive partner.

The Group is focusing on delivering products to the Group's customers in the right quality within the agreed delivery dates and at competitive prices that reflect the products' high level of quality. The Group's customers are global quality-conscious entities with a strong focus on food safety.

Furthermore, it is Group policy to use considerable resources on product development, so that the Group can offer its customers products with a high focus on quality, taste and product diversification. It is Group policy to produce and develop environmentally friendly packaging, that also needs to be consumer friendly. Thus, the development of new product categories is highly prioritized.

As a natural and important part of the Group's focus areas, we work intensively on improving efficiency while maintaining and improving the quality of our products. As a result of this focus a large state-of-the-art automation project for handling of smoked retail products has been initiated with expected implementation in 2024. This is to ensure that the Group, always offer products that surpass every applicable standard for the industry. At the same time, we increasingly wish to offer traceability and support the ESG agenda.

The main part of the Group's annual revenue is generated outside Scandinavia and based on the Group's product range and high quality; dedicated efforts are made to strengthen our position in selected export areas.

Cooperation with the Group's customers, suppliers and other business partners is based on partnerships to create value for all parties involved and to ensure that the end consumers get a unique product and taste experience.

Continues improvement programs have been identified and executed, all of them supporting our focus on sustainability and strengthening Vega as an attractive partner Delivering World Class Salmon Every Day.

#### Financial review

Because of the takeover by Coast Seafood AS, the financial year has been changed from closing at 30/6 to 31/12, following the calendar year going ahead. By this the current period under review is covering an 18-month period from 1/7 2022 – 31/12 2023. Comparison to the previous year is by this a challenge, also due to the high embedded seasonality of the business.

In the year under review, the Group realized revenue of DKK 2,199 million for the full 18-month period.

The price for Head-On-Gutted (HOG) salmon has increased significantly during the spring period of 2023 due to a drop in the worldwide supply of superior salmon primarily due to increased downgrading of fish. This has challenged having a steady production flow through-out the year.

Despite of that the Group in total achieved better margins in the period than last year due to a change in product mix selling more smoked products.

The general increase in interest rates had a major impact on the result compared to last year and adjusting for the different period under review the impact for the period is close to DKK 20 million.

Despite the positive result of DKK 2.6 million, the management does not consider the result satisfactory as it is beneath the expectations for the period and in total not honoring the change in the level of interest rates.

The balance sheet total increased during the period with DKK 149,0 million to DKK 475,2 million which is due to the increase in trade receivables of DKK 100,5 million and an increase of DKK 59.0 million in inventories. The significant higher level of the balance sheet is mainly a reason of changing year-end closing to 31/12 being at the end of high season in comparison to 30/6 being at the end of low season.

Equity as of 31 December amounted to DKK 71.4 million because of a positive profit of the year of DKK 2.7 million and a positive impact from translation and hedging reserves of DKK 3.0 million (Equity as of 30. June 2022: DKK 65.6 million).

#### Financial development - parent company

In 2022/23 there was a cost level of DKK 1.2 million (2021/22: DKK 0.7 million). Profit for the year was DKK 2.7 million (2021/22: DKK 2.6 million). At the end of the financial year, the balance sheet total amounted to DKK 279.9 million (2021/22: DKK 142 million). Equity as of 31 December 2023 amounted to DKK 71.4 million (2021/22: 65.6 million).

#### Outlook

The Group continues its strategy to focus on existing and new partnerships, launching of new products within sustainable packing solutions and convenience, ensure the highest quality standards, and to maintain focus on internal processes to improve cost efficiency. Implementation of a new automated packing line in 2024 is expected to bring efficiency and processes to a new level.

Due to the volatile prices in salmon market development in revenue in terms of value is not considered a fair view of the activity in the group but more the focus on volume.

In the financial year 2024 it is expected to achieve 10% higher volume than realized in 2023 (12-month comparison), mostly by selling more smoked products. With the increase in the activity level and the expectation of being more efficient the profit for the year is expected to be turned to a level of DKK 5 million.

The Group can honour the cash flow consequences of the 2024 financial outlook.

#### **Risk conditions**

#### Business risk

The primary business risk faced by the Group is the continued ability to deliver high quality products at competitive and secured fixed prices. It is a group policy to hedge raw material purchases and currencies, and therefore, the volume of fixed price contracts is considerable.

As mentioned above several initiatives has been put in into action to meet expected level of activity and profitability.

#### Special risks

Due to the combination of inflation and increased interests in all regions we have recognized changed consumer behavior driven by more intensive focus on prices. On top the continuously challenge of having less supply of superior salmon in Q1 and Q2 is pushing more production in to the second half of the year.

To mitigate the risks, we are continuously updating our sourcing strategy, cost picture, focusing on efficiency, and offering alternative products to the markets and seeking new opportunities through our innovative products and packaging solutions.

#### Financial risks

The Group's primary financing sources are bank loans, leasing debt and overdraft facilities. Due to its operations, investments and financing, the Group is exposed to changes in exchange rates, interest rates and fish prices. Vega Sea A/S manages the Group's financial risks centrally and coordinates the Group's cash management, including new funding and placement of excess liquidity. If deemed expedient to reduce the financial risks, financial instruments are held in the form of foreign exchange contracts, Fishpool contracts and interest rate swaps.

#### **Employees**

The development in employees is specified as follows (full-time Vega employees, excl. temporary workers):

| Total | Denmark | world                       |
|-------|---------|-----------------------------|
| 461   | 21      | 440                         |
| +11   | +2      | +9                          |
| 472   | 23      | 449                         |
|       | +11     | 461     21       +11     +2 |

The average total workers have increased compared to last year, which is due to increased activity in the Group.

#### **Environment**

The Group policy is of course to comply with applicable environmental legislation so that the environmental impact on the surroundings is minimized to the extent possible. Based on the below-mentioned UN Global Compact progress report, the Group continuously implements measures to limit energy consumption, water release, cleaner discharge etc. to the highest extent possible.

#### Research and development activities

On an ongoing basis, the Group deploys resources for product development for the benefit of the Group's business partners. As a part of the strategy, the Group has invested resources into its own innovation department, to take the development of products to the next level. For the coming financial years, we expect several new launches that will set Vega apart from the competitors.

#### Sustainability report

The Vega Sea A/S sustainability report for the year has been published and is obtainable at

https://vega-salmon.dk/about-us/csr/

The report represents a statutory statement of practices in Vega Sea A/S cf. §99a and §99d of the Danish Financial Statements Act.

Gender distribution in Vega Sea A/S cf. §99b According to legislation on the gender quotation on the Management Board in Danish enterprises, the group entity Vega Sea A/S has laid down that board members elected at the general meeting are at least to account for 33% of the underrepresented gender in 2026 at the latest.

#### GENDER DISTRIBUTION IN VEGA SEA A/S MANAGEMENT

| Management level                                 | Year 2023 actual & 2026 target |
|--|--------------------------------|
| Board of Directors                               |                                |
| Total number of members in 2023                  | 3                              |
| Underrepresented gender in percentage in 2023    | 0%                             |
| Target for underrepresented gender in percentage | 33%                            |
| Year of meeting target                           | 2026                           |
| Other Management                                 |                                |
| Total number of members in 2023                  | 1*                             |

<sup>\*</sup>As the other management consists of 1 member, Vega Sea A/S is not able to report on gender distribution. Further, Vega Sea A/S falls below the threshold of 50 employees and therefore does not report targets for other management

In Vega Sea A/S' sustainability report from 2021/2022, the Board of Directors consisted of five male members and zero female members, and a target was set to reach a level where the underrepresented gender made up 20% of the Board of Directors in 2023/2024. In December 2022, Vega Sea A/S was sold to Coast Seafood A/S resulting in a new constellation of members in the Board of Directors with three male members and zero female members, which remains unchanged as of 31 December 2023.

Vega Sea A/S' efforts around gender distribution in the Board of Directors in 2023 have included discussions on ESG activities including social practices and diversity going forward, which are incorporated in the strategic initiatives for the next three years. Vega Sea A/S is in progress to fulfill the ambition.

The other management in Vega Sea A/S consists of 1 member in the executive management.

**Corporate governance**Vega Sea A/S' Board of Directors and Executive Board always aim at ensuring that the Group's management structure and control systems are appropriate and function satisfactorily. Management assesses on an ongoing basis whether this is the case.

Management's duties are among other things based on the Danish Companies Act, the Danish Financial Statements Act, the Company's Articles of Association as well as good practice for enterprises of the same size and with the same international reach as Vega Sea A/S. On this basis, several internal procedures have been developed and are regularly updated to ensure active, safe and profitable management of the Group.

#### **Duties of the Board of Directors**

The Board of Directors of Vega Sea A/S and its group entities ensure that the Executive Boards comply with the Boards of Directors' aims, strategies, and business procedures. Information from the Executive Boards of the individual companies is given systematically at meetings and through written and oral reporting. This reporting e.g., comprises the development in the Company's surroundings, the Company's development, profitability, and the financial position.

The Board of Directors of Vega Sea A/S holds meetings according to a fixed schedule at least six times a year. A strategy seminar is usually held once a year. In the period between the ordinary meetings of the Board of Directors, the Board of Directors receive, on a regular basis, written information on the Company's and the Group's results of operation and financial position.

#### **Remuneration of Management**

Remuneration of the Board of Directors of Vega Sea A/S is made separately.

To attract and maintain the Group's managerial qualifications, remuneration of the Executive Board and executive employees is set according to tasks, value created and terms in comparable companies. Remuneration includes incentive programs, which are to ensure shared interests of the Company's Management and the Board of Directors.

#### **Dividend policy**

Dividend distribution must be made taking into consideration the Group's continued development and existing agreements with funding sources.

#### **Stakeholders**

The Vega Sea A/S Group seeks to develop and maintain good relations with its stakeholders on an on-going basis, as such relations are assessed to have a significant and positive effect on the Group's development. Primary stakeholders are the Group's customers, employees, suppliers, and shareholders.

#### Events after the balance sheet date

No events have occurred after the balance sheet date to this date that would influence the assessment of the annual report.

Development projects mainly consist of projects for the development of products, packaging and systems to support the business.

The development of new products is to help ensure that the Vega group maintains the innovative momentum and that we are the first to enter the market with innovative products. The purpose here is to refine products further to ensure greater profit.

The development of new packaging is to ensure new and expansion of already existing markets.

The development of systems is to contribute to reducing costs in the company.

| Deferred tax asset at 31 December                       | 17,028          | 13,979  | 4,717          | 2,486   |
| Tax loss carry-forward                                  | -17,028         | -13,979 | -4,717         | -2,486  |
| Transferred to deferred tax assets                      | 17,028          | 13,979  | 4,717          | 2,486   |
|   | 0               | 0       | 0              | 0       |
| Deferred tax asset                                      |                 |         |                |         |
| The deferred tax asset relates to losses                | in subsidiaries |         |                |         |
| Calculated tax assets                                   | 17,028          | 13,979  | 4,717          | 2,486   |
| Carrying amount   | 17,028          | 13,979  | 4,717          | 2,486   |

Deferred tax assets can be attributed to primarily tax loss carryforwards for the jointly taxed Danish companies. Based on expected positive earnings in the future, it is estimated that the tax loss carryforwards will be utilised within a period of 3-4 years.

## 13. Prepayments

Prepayments comprise costs incurred concerning subsequent financial years.

## 14. Share capital

The share capital consist of 24,588,100 shares of a nominal value of DKK 1 or multiples hereof. No shares carry any special rights.

# 19. Contingent assets, liabilities and other financial obligations

#### Charges and security

Company charge of 60,000 TDKK has been provided as collateral for payables to banking institutions secured on operating equipment, goodwill, plant and machinery, inventories and trade receivables. Furthermore, plant and machinery and rolling stock (except for leased assets) in subsidiary in Germany have been provided as security. The carrying amount of the assets provided as security totalled 225 MDKK at 31 December 2023 (30 June 2022: 143 MDKK).

Land and buildings as well as machines and operating equipment have been provided as collateral for mortgage credit institutions and payables to banking institutions. The carrying amount of mortgaged land and buildings as well as machines and operating equipment totalled 171 MDKK at 31 December 2023 (30 June 2022: 157 MDKK).

#### **Parent**

The Company has guaranteed the subsidiaries' payables to banking institutions, which include the following companies:

Vega Salmon A/S Vega Salmon GmbH Vega Salmon Gebäude GmbH Vega Salmon Vertrieb GmbH

Shares in Vega Salmon A/S have also been provided as security for credit facilities.

The Company has guaranteed the subsidiaries facility of sale of debtors to the banking institutions of up to 100 MDKK regarding any unqualified transferred receivables and 10% advance payment on transferred receivables. At 31 December 2023, transferred unpaid receivables amounted to 83 MDKK (2021/22: 85 MDKK), while the advance payment is recognized as a receivable from sales and other payables, respectively, and amounted to 8.3 MDKK (2021/22: 8.5 MDKK). Management does not consider that any unqualified receivables have been transferred, and in the period after, all transferred receivables has been paid.

|     |  | 1,638   | 1,378   | 0                | 0       |

#### Other contingent liabilities

The group companies are jointly and severally liable for tax on the jointly taxed incomes etc of the Group. Moreover, the group companies are jointly and severally liable for Danish withholding taxes by way of dividend tax, tax on royalty payments and tax on unearned income. Any subsequent adjustments of corporation taxes and withholding taxes may increase the Group's liability.

|     |  | 0                 | 527               |

## 22. Subsequent events

After the balance sheet date no significant events have occured which affect the assessment of the Company or Group's financial positions at 31 December 2023.

#### 23. Accounting policies

The Annual Report of Vega Sea A/S for 2022/23 has been prepared in accordance with the provisions of the Danish Financial Statements Act applying to medium-sized enterprises of reporting class C.

Reclassifications have been made between accounting lines in the balance sheet. Comparison figures have been adjusted. Apart from this the accounting policies applied remain unchanged from last year.

The Consolidated Financial Statements and the Parent Company Financial Statements for 2022/23 are presented in TDKK.

#### **Recognition and measurement**

Revenues are recognised in the income statement as earned. Furthermore, value adjustments of financial assets and liabilities measured at fair value or amortised cost are recognised. Moreover, all expenses incurred to achieve the earnings for the year are recognised in the income statement, including depreciation, amortisation, impairment losses and provisions as well as reversals due to changed accounting estimates of amounts that have previously been recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits attributable to the asset will flow to the Company, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow out of the Company, and the value of the liability can be measured reliably.

Assets and liabilities are initially measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

#### **Basis of consolidation**

The Consolidated Financial Statements comprise the Parent Company, Vega Sea A/S, and subsidiaries in which the Parent Company directly or indirectly holds more than 50% of the votes or in which the Parent Company, through share ownership or otherwise, exercises control. Enterprises in which the Group holds between 20% and 50% of the votes and exercises significant influence but not control are classified as associates.

On consolidation, items of a uniform nature are combined. Elimination is made of intercompany income and expenses, shareholdings, dividends and accounts as well as of realised and unrealised profits and losses on transactions between the consolidated enterprises.

The Parent Company's investments in the consolidated subsidiaries are set off against the Parent Company's share of the net asset value of subsidiaries stated at the time of consolidation.

#### **Business combinations**

#### Business acquisitions carried through on or after 1 July 2018

Acquisitions of subsidiaries are accounted for using the purchase method under which the identifiable assets and liabilities of the entity acquired are measured at fair value at the time of acquisition. Acquired contingent liabilities are recognised at fair value in the Consolidated Financial Statements to the extent that the value can be measured reliably.

The time of acquisition is the time when the Group obtains control of the entity acquired.

The cost of the entity acquired is the fair value of the consideration agreed, including consideration contingent on future events. Transaction costs directly attributable to the acquisition of subsidiaries are recognised in the income statement as incurred.

Positive differences between the cost of the entity acquired and identifiable assets and liabilities are recognised as goodwill in intangible assets in the balance sheet and are amortised in the income statement on a straight-line basis over their estimated useful lives. Where the differences are negative, they are recognised immediately in the income statement.

Where the purchase price allocation is not final, positive and negative differences from acquired subsidiaries due to changes to the recognition and measurement of identifiable net assets may be adjusted for up to 12 months after the time of acquisition. These adjustments are also reflected in the value of goodwill or negative goodwill, including in amortisation already made.

Where cost includes contingent consideration, this is measured at fair value at the time of acquisition. Contingent consideration is subsequently measured at fair value. Any value adjustments are recognised in the income statement.

In respect of step acquisitions, any previously held investments in the entity acquired are remeasured at fair value at the time of acquisition. The difference between the carrying amount of the investment previously held and the fair value is recognised in the income statement.

#### Business acquisitions carried through before 1 July 2018

Subject to some exemptions, acquisitions carried through before 1 July 2018 are accounted for under the same accounting policies as those applying to business combinations carried through on or after 1 July 2018. The most material exemptions are:

- Identifiable assets and liabilities of the entity acquired are recognised only if they are probable.
- Identifiable contingent liabilities of the entity acquired are not recognised in the consolidated balance sheet.
- Where the purchase price allocation is not final, positive and negative differences due to changes to the recognition and measurement of the acquired net assets may be adjusted until the end of the financial year following the year of acquisition. These adjustments are also reflected in the value of goodwill or negative goodwill, including in amortisation already made.
- Transaction costs directly attributable to the acquisition of subsidiaries are included as part of cost.
- After the initial recognition, adjustment of contingent consideration is recognised directly with its counter entry in initial purchase price, thus correcting the value of goodwill or negative goodwill.
- In respect of step acquisitions, the carrying amount of the existing investments is recognised in cost.

#### Pooling of interests

Intragroup business combinations are accounted for under the pooling-of-interests method. Under this method, the two enterprises are combined at carrying amounts, and no differences are identified. Any consideration which exceeds the carrying amount of the acquired enterprise is recognised directly in equity. The pooling-of-interests method is applied as if the two enterprises had always been combined by restating comparative figures.

#### Leases

Leases in terms of which the Group assumes substantially all the risks and rewards of ownership (finance leases) are recognised in the balance sheet at the lower of the fair value of the leased asset and the net present value of the lease payments computed by applying the interest rate implicit in the lease or an alternative borrowing rate as the discount rate. Assets acquired under finance leases are depreciated and written down for impairment under the same policy as determined for the other fixed assets of the Group.

The remaining lease obligation is capitalised and recognised in the balance sheet under debt, and the interest element on the lease payments is charged over the lease term to the income statement.

All other leases are considered operating leases. Payments made under operating leases are recognised in the income statement on a straight-line basis over the lease term.

#### **Translation policies**

Danish kroner is used as the presentation currency. All other currencies are regarded as foreign currencies.

Transactions in foreign currencies are translated at the exchange rates at the dates of transaction. Exchange differences arising due to differences between the transaction date rates and the rates at the dates of payment are recognised in financial income and expenses in the income statement. Where foreign exchange transactions are considered hedging of future cash flows, the value adjustments are recognised directly in equity.

Receivables, payables and other monetary items in foreign currencies that have not been settled at the balance sheet date are translated at the exchange rates at the balance sheet date. Any differences between the exchange rates at the balance sheet date and the transaction date rates are recognised in financial income and expenses in the income statement; however, see the section on hedge accounting.

Income statements of foreign subsidiaries and associates that are separate legal entities are translated at transaction date rates or approximated average exchange rates. Balance sheet items are translated at the exchange rates at the balance sheet date. Exchange adjustments arising on the translation of the opening equity and exchange adjustments arising from the translation of the income statements at the exchange rates at the balance sheet date are recognised directly in equity.

Income statements of enterprises that are integrated entities are translated at transaction date rates or approximated average exchange rates; however, items derived from non-monetary balance sheet items are translated at the transaction date rates of the underlying assets or liabilities. Monetary balance sheet items are translated at the exchange rates at the balance sheet date, whereas non-monetary items are translated at transaction date rates. Exchange adjustments arising on the translation are recognised in financial income and expenses in the income statement.

#### **Derivative financial instruments**

Derivative financial instruments are initially recognised in the balance sheet at cost and are subsequently remeasured at their fair values. Positive and negative fair values of derivative financial instruments are classified as "Other receivables" and "Other debt", respectively.

Changes in the fair values of derivative financial instruments are recognised in the income statement unless the derivative financial instrument is designated and qualify as hedge accounting.

#### Hedge accounting

Changes in the fair values of financial instruments that are designated and qualify as fair value hedges of a recognised asset or a recognised liability are recognised in the income statement as are any changes in the fair value of the hedged asset or the hedged liability related to the hedged risk.

Changes in the fair values of derivative financial instruments that are designated and qualify as hedges of expected future transactions are recognised in the fair value reserve under equity as regards the effective portion of the hedge. The ineffective portion is recognised in the income statement. If the hedged transaction results in an asset or a liability, the amount deferred in equity is transferred from equity and recognised in the cost of the asset or the liability, respectively. If the hedged transaction results in an income or an expense, the amount deferred in equity is transferred from equity to the income statement in the period in which the hedged transaction is recognised. The amount is recognised in the same item as the hedged transaction.

Changes in the fair values of financial instruments that are designated and qualify as hedges of net investments in independent foreign subsidiaries or associates are recognised directly in equity as regards the effective portion of the hedge, whereas the ineffective portion is recognised in the income statement.

#### Segment information on revenue

Information on geographical segments is based on the Group's risks and returns and its internal financial reporting system.

#### **Income statement**

#### Revenue

Revenue from the sale of goods for resale and finished goods is recognised in the income statement when the sale is considered effected based on the following criteria:

- delivery has been made before year end;
- a binding sales agreement has been made;
- the sales price has been determined; and
- payment has been received or may with reasonable certainty be expected to be received.

Revenue is measured at the consideration received and is recognised exclusive of VAT and net of discounts relating to sales.

#### Change in inventories of finished goods, work in progress and goods for resale

The item contains the year's decrease or increase in stocks of finished goods, goods in process and trade goods.

#### Expenses for raw materials and consumables

Expenses for raw materials and consumables comprise the raw materials and consumables consumed to achieve the consolidated revenue for the year.

#### Other external expenses

Other external expenses comprise expenses for premises, sales as well as office expenses, etc.

#### Staff expenses

Staff costs include wages and salaries including compensated absence and pensions as well as other social security contributions etc. made to the entity's employees.

#### Amortisation, depreciation and impairment losses

Amortisation, depreciation and impairment losses comprise amortisation, depreciation and impairment of intangible assets and property, plant and equipment.

#### Other operating income and expenses

Other operating income and other operating expenses comprise items of a secondary nature to the main activities of the Group, including gains and losses on the sale of intangible assets and property, plant and equipment.

#### Income from investments in subsidiaries

The item "Income from investments in subsidiaries" in the income statement includes the proportionate share of the profit for the year.

#### Financial income and expenses

Financial income and expenses comprise interest, financial expenses in respect of finance leases, realised and unrealised exchange adjustments, price adjustment of securities, amortisation of mortgage loans as well as extra payments and repayment under the on-account taxation scheme.

#### Tax on profit/loss for the year

Tax for the year consists of current tax for the year and deferred tax for the year. The tax attributable to the profit for year is recognised in the income statement, whereas the tax attributable to equity transactions is recognised directly in equity.

The Company is jointly taxed with . The tax effect of the joint taxation with the subsidiaries is allocated to Danish enterprises showing profits or losses in proportion to their taxable incomes (full allocation with credit for tax losses).

#### **Balance** sheet

#### Intangible fixed assets

#### Development projects

Costs of development projects comprise salaries, amortisation and other expenses directly or indirectly attributable to the Company's development activities.

Development projects that are clearly defined and identifiable and in respect of which technical feasibility, sufficient resources and a potential future market or development opportunity in the enterprise can be demonstrated, and where it is the intention to manufacture, market or use the project, are recognised as intangible assets. This applies if sufficient certainty exists that the value in use of future earnings can cover cost of sales, distribution and administrative expenses involved as well as the development costs.

Development projects that do not meet the criteria for recognition in the balance sheet are recognised as expenses in the income statement as incurred.

Capitalised development costs are measured at cost less accumulated amortisation and impairment losses or at a lower recoverable amount. An amount corresponding to the recognised development costs is allocated to the equity item 'Reserve for development costs'. The reserve comprises only development costs recognised in financial years beginning on or after 1 January 2016. The reserve is reduced by amortisation of and impairment losses on the development projects on a continuing basis.

As of the date of completion, capitalised development costs are amortised on a straight-line basis over the period of the expected economic benefit from the development work. The amortisation period is 5 year.

#### Other intangible fixed assets

Licences and rights are measured at cost less accumulated amortisation and less any accumulated impairment losses or at a lower value in use.

Software licences and rights are amortised over the period of the agreements, which is 3 years and 7 years, respectively.

#### Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and less any accumulated impairment losses.

Cost comprises the cost of acquisition and expenses directly related to the acquisition up until the time when the asset is ready for use.

Interest expenses on loans are not recognised in cost during construction and reconstruction periods.

Depreciation based on cost reduced by any residual value is calculated on a straight-line basis over the expected useful lives of the assets, which are:

Production buildings 20-50 years
Plant and machinery 5-8 years
Other fixtures and fittings, tools and equipment 3-10 years
Leasehold improvements 3-8 years

The fixed assets' residual values are determined at nil.

Depreciation period and residual value are reassessed annually.

#### Impairment of fixed assets

The carrying amounts of intangible assets and property, plant and equipment and investments are reviewed on an annual basis to determine whether there is any indication of impairment other than that expressed by amortisation and depreciation.

The recoverable amount of the asset is calculated as the higher of net selling price and value in use. Where a recoverable amount cannot be determined for the individual asset, the assets are assessed in the smallest group of assets for which a reliable recoverable amount can be determined based on a total assessment.

Goodwill, head office buildings and other assets for which a separate value in use cannot be determined as the asset does not on an individual basis generate future cash flows are reviewed for impairment together with the group of assets to which they are attributable.

#### **Investments in subsidiaries**

Investments in subsidiaries are recognised and measured under the equity method.

The item "Investments in subsidiaries" in the balance sheet include the proportionate ownership share of the net asset value of the enterprises calculated on the basis of the fair values of identifiable net assets at the time of acquisition with deduction or addition of unrealised intercompany profits or losses and with addition of the remaining value of any increases in value and goodwill calculated at the time of acquisition of the enterprises.

The total net revaluation of investments in subsidiaries is transferred upon distribution of profit to "Reserve for net revaluation under the equity method" under equity. The reserve is reduced by dividend distributed to the Parent Company and adjusted for other equity movements in the subsidiaries.

Subsidiaries with a negative net asset value are recognised at DKK 0. Any legal or constructive obligation of the Parent Company to cover the negative balance of the enterprise is recognised in provisions.

#### Fixed asset investments

Fixed asset investments, which consist of listed bonds and shares, are measured at their fair values at the balance sheet date. Fair value is determined on the basis of the latest quoted market price.

Investments which are not traded in an active market are measured at the lower of cost and recoverable amount.

#### **Inventories**

Inventories are measured at the lower of cost under the FIFO method and net realisable value.

The net realisable value of inventories is calculated at the amount expected to be generated by sale of the inventories in the process of normal operations with deduction of selling expenses and costs of completion. The net realisable value is determined allowing for marketability, obsolescence and development in expected selling price.

The cost of goods for resale, raw materials and consumables equals landed cost.

The cost of finished goods and work in progress comprises the cost of raw materials, consumables and direct labour with addition of indirect production costs. Indirect production costs comprise the cost of indirect materials and labour as well as maintenance and depreciation of the machinery, factory buildings and equipment used in the manufacturing process as well as costs of factory administration and management.

#### Receivables

Receivables are measured in the balance sheet at the lower of amortised cost and net realisable value, which corresponds to nominal value less provisions for bad debts.

#### **Prepayments**

Prepayments comprise prepaid expenses concerning rent, insurance premiums, subscriptions and interest.

#### **Equity**

Dividends that management proposes to distribute for the financial year are shown as a separate item under equity.

#### Deferred tax assets and liabilities

Deferred tax is recognised in respect of all temporary differences between the carrying amount and the tax base of assets and liabilities. However, deferred tax is not recognised in respect of temporary differences concerning goodwill not deductible for tax purposes and other items - apart from business acquisitions - where temporary differences have arisen at the time of acquisition without affecting the profit for the year or the taxable income.

Deferred tax is measured on the basis of the tax rules and tax rates that will be effective under the legislation at the balance sheet date when the deferred tax is expected to crystallise as current tax. In cases where the computation of the tax base may be made according to alternative tax rules, deferred tax is measured on the basis of the intended use of the asset and settlement of the liability, respectively.

Deferred tax assets, including the tax base of tax loss carry-forwards, are measured at the value at which the asset is expected to be realised, either by elimination in tax on future earnings or by set-off against deferred tax liabilities.

Deferred tax assets and liabilities are offset within the same legal tax entity.

#### Current tax receivables and liabilities

Current tax receivables and liabilities are recognised in the balance sheet at the amount calculated on the basis of the expected taxable income for the year adjusted for tax on taxable incomes for prior years. Tax receivables and liabilities are offset if there is a legally enforceable right of set-off and an intention to settle on a net basis or simultaneously.

#### Financial liabilities

Loans, such as loans from credit institutions, are recognised initially at the proceeds received net of transaction expenses incurred. Subsequently, the loans are measured at amortised cost; the difference between the proceeds and the nominal value is recognised as an interest expense in the income statement over the loan period.

Other debts are measured at amortised cost, substantially corresponding to nominal value.

#### **Deferred income**

Deferred income comprises payments received in respect of income in subsequent years.

#### **Cash Flow Statement**

The cash flow statement shows the Group's cash flows for the year broken down by operating, investing and financing activities, changes for the year in cash and cash equivalents as well as the Group's cash and cash equivalents at the beginning and end of the year.

Cash flows from operating activities

Cash flows from operating activities are calculated as the net profit/loss for the year adjusted for changes in working capital and non-cash operating items such as depreciation, amortisation and impairment losses, and provisions. Working capital comprises current assets less short-term debt excluding items included in cash and cash equivalents.

Cash flows from investing activities

Cash flows from investing activities comprise cash flows from acquisitions and disposals of intangible assets, property, plant and equipment as well as fixed asset investments.

Cash flows from financing activities

Cash flows from financing activities comprise cash flows from the raising and repayment of long-term debt as well as payments to and from shareholders.

Cash and cash equivalents

Cash and cash equivalents comprise "Cash at bank and in hand" and deposits.

The cash flow statement cannot be immediately derived from the published financial records.

### **Financial Highlights**

#### **Explanation of financial ratios**

Gross margin Gross profit x 100 / Revenue

Solvency ratio Equity at year end x 100 / Total assets at year end

Return on equity Net profit for the year x 100 / Average equity
