## **Directors' Report**

The company is a wholly owned subsidiary of Mærsk Olie og Gas A/S.

The company was established in 2011 as a holding company for the acquisition of a 15% interest in Block 16 via the purchase of Devon Angola.

A Chissonga field development plan was submitted to the authorities in Q3 2013. Tender bids for the Chissonga project were received. With the low oil price, the project is challenged. Due to project timing, it was announced in March 2016 that the activities outgoing from a Houston office will be terminated in November 2016 with the Chissonga project team moving to Copenhagen. The Luanda team was also reduced and combined initiatives impacted approximately 100 staff positions in total across the two sites.

Request for approval of the development is not expected until an economic viable solution is identified and may be based on a Field Development Plan with revised scope.

The result for 2015 is a loss of USD 253 million, compared to a loss of USD 15 million in 2014, which is attributable to the result in the subsidiary mainly impacted by impairments due to the current and expected future oil price conditions.

The loss for 2016 is expected to be significantly lower than in 2015 as the Block 16 asset was impaired.
