Company reg. no. 33 39 72 83

Annual report

1 January - 31 December 2017

The annual report has been submitted and approved by the general meeting on the 28 March 2018.

Jean-Marc Ferran
Chairman of the meeting

Notes to users of the English version of this document:

- To ensure the greatest possible applicability of this document, British English terminology has been used.
- Please note that decimal points remain unchanged from the Danish version of the document. This means that for instance DKK 146.940 is the same as the English amount of DKK 146,940, and that 23,5 % is the same as the English 23.5 %.

Management's report

The managing director has today presented the annual report of JMF Invest ApS for the financial year 1 January to 31 December 2017.

The annual report has been presented in accordance with the Danish Financial Statements Act.

I consider the accounting policies used appropriate, and in my opinion the annual accounts provide a true and fair view of the company's assets and liabilities and its financial position as on 31 December 2017 and of the company's results of its activities in the financial year 1 January to 31 December 2017.

The managing director considers the requirements of omission of audit of the annual accounts for 2017 as met.

I am of the opinion that the management's review includes a fair description of the issues dealt with.

The annual report is recommended for approval by the general meeting.

Copenhagen V, 27 March 2018

Managing Director

Jean-Marc Ferran

Auditor's report on compilation of the annual accounts

To the shareholder of JMF Invest ApS

We have compiled the annual accounts of JMF Invest ApS for the period 1 January to 31 December 2017 based on the bookkeeping of the company and on further information you have provided.

The annual accounts comprise the accounting policies used, profit and loss account, balance sheet and notes.

We performed this engagement in accordance with ISRS 4410, Compilation Engagements.

We have applied our professional expertise to assist you in the preparation and presentation of the annual accounts in accordance with the Danish Financial Statements Act. We have complied with relevant requirements of the Danish Act on Approved Auditors and Audit Firms and with ethical requirements of the Danish Institute of State Authorised Public Accountants, including principles of integrity, objectivity, professional competence and due care.

The annual accounts and the accuracy and completeness of the information used to compile them are your responsibility.

Since a compilation engagement is not an assurance engagement, we are not required to verify the accuracy or completeness of the information you provided to us to compile the annual accounts. Accordingly, we do not express an audit opinion or a review conclusion on whether the annual accounts are prepared in accordance with the Danish Financial Statements Act.

6. Contingencies

Joint taxation

The company is the administration company of the group of companies subject to the Danish scheme of joint taxation and, as from the financial year 2012, unlimited jointly and severally liable with the other jointly taxed companies for the total corporation tax.

As from 1 July 2012, the company is unlimited jointly and severally liable with the other jointly taxed companies for any obligation to withhold tax on interest, royalties and dividends.

The liability relating to obligations in connection with withholding tax on dividends, interest and royalties represents an estimated maximum of DKK 0 thousand.

Any subsequent adjustments of corporate taxes or withheld taxes etc. may cause changes in the company's liabilities.

Accounting policies used

The annual report for JMF Invest ApS is presented in accordance with those regulations of the Danish Financial Statements Act concerning companies identified as class B enterprises. Furthermore, the company has chosen to comply with some of the rules applying for class C enterprises.

The accounting policies used are unchanged compared to last year, and the annual accounts are presented in Danish kroner (DKK).

Recognition and measurement in general

Income is recognised in the profit and loss account concurrently with its realisation, including the recognition of value adjustments of financial assets and liabilities. Likewise, all costs, these including depreciation, amortisation, writedown, provisions, and reversals which are due to changes in estimated amounts previously recognised in the profit and loss account are recognised in the profit and loss account.

Assets are recognised in the balance sheet when the company is liable to achieve future, financial benefits and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when the company is liable to lose future, financial benefits and the value of the liability can be measured reliably.

At the first recognition, assets and liabilities are measured at cost. Later, assets and liabilities are measured as described below for each individual accounting item.

At recognition and measurement, such predictable losses and risks are taken into consideration, which may appear before the annual report is presented, and which concerns matters existing on the balance sheet date.

The profit and loss account

Gross loss

The gross loss comprises external costs.

Other external costs comprise costs for administration.

Net financials

Net financials comprise interest, realised and unrealised capital gains and losses concerning financial assets and liabilities, amortisation of financial assets and liabilities, additions and reimbursements under the Danish tax prepayment scheme, etc. Financial income and expenses are recognised in the profit and loss account with the amounts that concerns the financial year.

Dividend from equity investments in group enterprises is recognised in the financial year where the dividend is declared.

Accounting policies used

Tax of the results for the year

The tax for the year comprises the current tax for the year and the changes in deferred tax, and it is recognised in the profit and loss account with the share referring to the results for the year and directly in the equity with the share referring to entries directly on the equity.

The company is subject to the Danish legislation concerning compulsory joint taxation with the Danish group enterprises. The company acts as an administration company in relation to the joint taxation. This means that the total Danish tax payable of the income of the Danish consolidated companies is paid to the tax authorities by the company.

The current Danish corporate tax is allocated among the jointly taxed companies in proportion to their respective taxable income (full allocation with reimbursement of tax losses).

The balance sheet

Financial fixed assets

Equity investments in group enterprises

Equity investments in group enterprises are measured at cost. In case the recoverable amount is lower than the cost, writedown takes place to this lower value.

Debtors

Debtors are measured at amortised cost which usually corresponds to face value. In order to meet expected losses, writedown takes place at the net realisable value.

Available funds

Available funds comprise cash at bank and in hand.

Equity

Dividend

Dividend expected to be distributed for the year is recognised as a separate item under the equity. Proposed dividend is recognised as a liability at the time of approval by the general meeting (the time of declaration).

Corporate tax and deferred tax

Current tax receivable and tax liabilities are recognised in the balance sheet at the amount calculated on the basis of the expected taxable income for the year adjusted for tax on previous years' taxable income and prepaid taxes. Tax receivable and tax liabilities are set off to the extent that legal right of set-off exists and if the items are expected to be settled net or simultaneously.

Accounting policies used

JMF Invest ApS is jointly taxed with the Danish group companies and acts in this respect as the administration company. According to the rules of joint taxation, JMF Invest ApS is unlimited, jointly and severally liable towards the Danish tax authorities for the total corporation tax, including withholding tax on interest, royalties and dividends, arising within the jointly taxed group of companies.

Deferred tax is measured on the basis of all temporary differences in assets and liabilities with a balance sheet focus.

Deferred tax assets, including the tax value of tax losses eligible for carry-over, are recognised at the value at which they are expected to be realisable, either by settlement against tax of future earnings or by set-off in deferred tax liabilities within the same legal tax unit.

Deferred tax is measured based on the tax rules and tax rates applying under the legislation on the balance sheet date and prevailing when the deferred tax is expected to be released as current tax.

Liabilities

Other liabilities are measured at amortised cost which usually corresponds to the nominal value.
