Statement by Management on the annual report

The Board of Directors and the Executive Board have today discussed and approved the annual report of BMS Heavy Cranes A/S for the financial year 1 January - 31 December 2023.

The annual report has been prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the financial position of the Company at 31 December 2023 and of the results of its operations for the financial year 1 January – 31 December 2023.

Further, in our opinion, the Management's review gives a fair review of the matters discussed in the Management's review.

We recommend that the annual report be approved at the annual general meeting.

Independent auditor's report

To the shareholders of BMS Heavy Cranes A/S

Opinion

We have audited the financial statements of BMS Heavy Cranes A/S for the financial year 1 January – 31 December 2023, which comprise income statement, balance sheet, statement of changes in equity, cash flow statement and notes, including accounting policies. The financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the financial position of the Company at 31 December 2023 and of the results of the Company's operations and cash flows for the financial year 1 January – 31 December 2023 in accordance with the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Management's responsibilities for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit conducted in accordance with ISAs and additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.

Independent auditor's report

- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- ▶ Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and contents of the financial statements, including the note disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on the Management's review

Management is responsible for the Management's review.

Our opinion on the financial statements does not cover the Management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the Management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statement Act. We did not identify any material misstatement of the Management's review.

Solvency ratio	54.4	49.4	49.1	44.3	28.4
Return on equity	4.7	4.2	34.8	52.4	17.5
Average number of full-time employees	156	125	101	100	97

The ratios have been prepared in accordance with the recommendations and guidelines issued by the Danish Society of Financial Analysts. For definitions, see under accounting policies.

The Company has been a part of an intra-group business restructure with financial effect of 1st January 2021. The restructure consists of a partial demerger to a group company where property, plant and equipment, liabilities related hereto, and a limited number of employees has been demerged. The Company now lease the demerged assets from the group company. The comparative figures have not been restated in relation to the demerger, as the book value method is applied to business combinations (according to accounting policies).

Management's review

Principal activities of the Company

The Company's main activity is providing crane services and other related services.

Unusual events

There are no unusual events affecting the Company's financial position on 31 December 2023 and the results of the activities for the financial year for 2023.

Development in the financial year

The income statement of the Company for 2023 shows a profit of 16.1 m.DKK compared to 13.7 m.DKK last year, and on 31 December 2023 the balance sheet of the Company shows equity of 347.1 m.DKK.

The past year and follow-up on development expectations from last year

The result for the year was realized below the expectations as the activities in FY23 was negatively impacted by uncertain market conditions affecting both the Company's activities and the earnings in subsidiaries.

Given the development in market conditions, management considers this year's result to be satisfactory.

Expectations for the next year

For FY24 management expects a year with lower activity due to continued difficult market conditions and a net profit in line with FY23. Based on the current outlook the management expect a Net profit between 10.0 and 20.0 m.DKK.

Intellectual capital

It is important for the Company's continued growth and development to be able to attract and retain highly educated and experienced employees, including fieldwork and administrative employees specialized in the crane service industry.

Special risks - operating risks and financial risks etc.

Operating risks

The Company is exposed to risks related to its activities and financial position that are normal for the crane service industry. On an on-going basis Management take into consideration the risks that the Company faces due to its activities.

Financial risks

Due to the Company's activities, investments and financing it is exposed to changes in foreign exchange rates and changes in interest rates. The Company's policy is not to speculate in such changes nor make profit of hedging transactions based on speculations. The Company's financial management aims only to minimize the financial risks of activities, investments and financing.

Foreign exchange and interest risks

A large part of the Company's trade and financing takes place in foreign currency. The Company does, when relevant, hedge this risk on an ongoing basis by entering offsetting agreements etc.

Management's review

External environment

The Company believes that it is in compliance with applicable laws and regulations at all times and strives to reduce the environmental impact of its activities.

Research and development

No research and development activities were performed by or for the Company.

Subsequent events

No events have occurred which materially affected the assessment of the annual report after the balance sheet date.

Corporate Social Responsibility

The Company's financial statements are part of the group financial statements for Jens Enggaard Holding ApS, CVR: 19 58 51 71. In accordance with the Danish financial statement act section 99a, part 6, the Company refers to the Annual Report for 2023 for Jens Enggaard Holding ApS, CVR: 19 58 51 71 for detailed policies in relation to the corporate social responsibilities and follow-up on these.

Gender diversity in management

The Company acknowledges the strength and value of diversity among its employees and within its Board of Directors and is working to increase the representation of female leaders. The Company has set a goal to ensure that women comprise 20% of the Board of Directors by the end of 2027. The process used for identifying and evaluating new candidates for the Board of Directors emphasizes gender diversity as is one of the key factors considered alongside other essential key qualifications and attributes. However, as the company's industry is traditionally male dominated, the process to attract female candidates with experience from the industry is challenging.

In 2023, a member left the Board of Directors without being replaced. By the end of 2023, the Board of Directors was comprised of four male (100%) and no female members (0%). In February 2024, a new male member was elected for the Board of Directors, chosen as the most suitable candidate to complement the board's overall skillset. The fully constituted Board of Directors is comprised by five male and no female members. In the current financial year, we made concerted efforts to identify potential candidates for the Board of Directors, actively seeking qualified individuals, including those from underrepresented gender, to enhance diversity. Despite these efforts, no candidates from the underrepresented gender who met the necessary qualifications were identified or available for consideration for board positions.

The Danish Companies Act section 139 c, paragraph 2 requires that the Company implement a policy to favorably treat employees based on gender, to promote the underrepresented gender in the other managerial levels, which comprises the first and second management level below the board of Directors. The first level of management includes members of the Executive Board. The second level of management includes persons with managerial responsibility, who refer directly to the first level of management. The Company does not hire, promote, or dismiss employees based on their ethnicity, religion, political views, sexual orientation, age or gender but alone focus on the skillset of the individual. When recruiting for management positions, the Company strives to have both male and female candidates despite the circumstance that the Company operates in an environment, which traditionally is male dominated. In cases where two candidates are equally qualified, the preference for diversity takes precedence.

Management's review

A new requirement in place from beginning of 2023 requires the Company to define a goal for the share of underrepresented gender in other managerial positions. The Company has defined a goal that 25% of other managerial positions should be held by female employees at the end of 2027. At the end of 2023, the other levels of management consisted of 8 members where females hold 12.5% of other managerial positions. One member of other management levels has changed during 2023. The process to recruit a new member of management was handled externally by a recruitment company operating under the instruction to complete a search among both female and male candidates. The chosen male candidate was selected based on experience, expertise and competences relevant to the role. Other existing members of management, also selected based on experience, expertise and competences relevant to the roles, remained unchanged.

Board of Directors	2023
Number members	4
Underrepresented gender in %	0
Goal in %	20
Year to reach goal	2027
Other managerial levels	
Number members	8
Underrepresented gender in %	12.5
Goal in %	25
Year to reach goal	2027

Data ethics

The Company is aware that with the increased digitization comes greater responsibility. The responsibility in the data use follows the general personal data rules that the Company is subject to. The Company does not have a policy on data ethics, as the Company does not use algorithms for data analysis.

Financial statements 1 January - 31 December

Notes

1 Accounting policies

The annual report of BMS Heavy Cranes A/S for 2023 has been prepared in accordance with the provisions in the Danish Financial Statements Act applying to large reporting class C entities.

The financial statements have been prepared in accordance with the same accounting policies as last year.

Consolidated financial statements

Pursuant to section 112(1) of the Danish Financial Statements Act, the Company has not prepared consolidated financial statements. The financial statements of BMS Heavy Cranes A/S' and its subsidiaries are included in the consolidated financial statements of Jens Enggaard Holding ApS, cvr. no. 1958 5174.

Cash flow statement

Pursuant to section 86(4) of the Danish Financial Statements Art, the Company has not prepared cash flow statement. The Company's cash flow are included in the consolidated financial statements of Jens Enggaard Holding ApS, CVR. no 1958 5174.

Presentation currency

The financial statements are presented in Danish Kroner (DKK'000).

Foreign currency translation

On initial recognition, transactions denominated in foreign currencies are translated at the exchange rates at the transaction date. Foreign exchange differences arising between the exchange rate at the transaction date and the rate at the date of payment are recognised in the income statement as financial income or financial expenses.

Receivables and payables and other monetary items denominated in foreign currencies are translated at closing rates. The difference between the exchange rates at the balance sheet date and the date at which the receivable or payable arose or was recognised in the latest financial statements is recognised in the income statement as financial income or financial expenses.

Foreign subsidiaries and participating interests are considered separate entities. Items in such entities' income statements are translated at average exchange rates for the year, and balance sheet items are translated at closing rates. Foreign exchange differences arising on translation of the opening equity of foreign entities to closing rates and on translation of the income statements from average exchange rates to closing rates are taken directly to equity.

Foreign exchange adjustments of balances with separate foreign subsidiaries which are considered part of the total investment in the subsidiary are taken directly to equity. Foreign exchange gains and losses on loans and derivative financial instruments designated as hedges of foreign subsidiaries are also recognised directly in equity.

On recognition of foreign subsidiaries which are integral entities, monetary items are translated at closing rates. Non-monetary items are translated at the exchange rates at the acquisition date or at the date of any subsequent revaluation or impairment of the asset. Income statement items are translated at the exchange rates at the transaction date, although items derived from non-monetary items are translated at the historical exchange rates applying to the non-monetary items.

Financial statements 1 January - 31 December

Notes

1 Accounting policies (continued)

Derivative financial instruments

On initial recognition, derivative financial instruments are recognised in the balance sheet at cost and are subsequently measured at fair value. Positive and negative fair values of derivative financial instruments are presented as separate items in the balance sheet.

Fair value adjustments of derivative financial instruments designated and qualifying as hedging of the fair value of a recognised asset or liability are recognised in the income statement together with fair value adjustments of the hedged asset or liability.

Fair value adjustments of derivative financial instruments designated and qualifying as hedging of future assets or liabilities are recognised as separate items in the balance sheet and in the hedging reserve under equity. If the forecast transaction results in the recognition of assets or liabilities, amounts previously recognised in equity are transferred to the cost of the asset or liability, respectively. If the forecast transaction results in income or expenses, amounts previously recognised in equity are transferred to the income statement in the period in which the hedged item affects the income statement.

Fair value adjustments of derivative financial instruments that do not qualify for hedge accounting are recognised in the income statement on an ongoing basis.

Income statement

Revenue

The Company has chosen IAS 18 as interpretation for revenue recognition.

On the conclusion of sales contracts which consist of several, separate sales transactions, the contract price is split up into the individual sales transactions based on the relative fair value approach. The separate sales transactions are recognised as revenue when the criteria for sale of goods, services or construction contracts are met.

A contract is split up into individual transactions when the fair value of each individual sales transaction can be calculated reliably and when each individual sales transaction has a separate value for the purchaser. Sales transactions are deemed to have a separate value for the purchaser when the transaction is individually identifiable and is usually sold separately.

Income from the sale of services, which include service contracts and extended warranty commitments relating to products and services sold, is recognised on a straight-line basis as the services are rendered.

Revenue is measured at fair value of the agreed consideration exclusive of VAT and taxes charged on behalf of third parties. All discounts and rebates granted are recognised in revenue.

Financial statements 1 January - 31 December

Notes

1 Accounting policies (continued)

Production costs

Production costs comprise costs, including wages and salaries as well as rent and leases.

Administrative costs

Administrative expenses comprise costs incurred in the year to manage and administer the Company, including expenses related to administrative staff, management, office premises, office expenses and amortisation etc.

Profit/loss from equity investments in subsidiaries

A proportionate share of the underlying entities' profit/loss after tax is recognised in the income statement according to the equity method. Full elimination of intra-group gains/losses is made for equity investments in subsidiaries.

Financial income and expenses

Financial income and expenses comprise interest income and expenses, gains and losses on securities, payables and transactions denominated in foreign currencies, amortisation of financial assets and liabilities as well as surcharges and refunds under the on-account tax scheme, etc.

Tax for the year

The Company and its Danish subsidiaries are subject to the Danish rules on mandatory joint taxation of Jens Enggaard Holding ApS Group's Danish subsidiaries. Subsidiaries are included in the joint taxation arrangement from the date when they are included in the consolidated financial statements and up to the date when they are no longer consolidated.

Jens Enggaard Holding ApS acts as Management Company for the joint taxation arrangement and consequently settles all corporate income tax payments with the tax authorities.

On payment of joint taxation contributions, the Danish corporate income tax charge is allocated between the jointly taxed entities in proportion to their taxable income. Entities with tax losses receive joint taxation contributions from entities that have been able to use the tax losses to reduce their own taxable income.

The tax expense for the year, which comprises the year's current tax charge, joint taxation contributions and changes in the deferred tax charge – including changes arising from changes in tax rates – is recognised in the income statement as regards the portion that relates to the profit/loss for the year and directly in equity as regards the portion that relates to entries directly in equity.

Leases

All leases are considered operating leases. Payments relating to operating leases and any other leases are recognised in the income statement over the term of the lease. The Company's total liabilities relating to operating leases and other leases are disclosed in contingencies, etc.

Financial statements 1 January - 31 December

Notes

1 Accounting policies (continued)

Equity investments in subsidiaries

Equity investments in subsidiaries are measured according to the equity method in the Company's financial statements. The Company has chosen to consider the equity method a measurement method.

On initial recognition, equity investments in subsidiaries are measured at cost, i.e. plus transaction costs. The cost is adjusted by shares of profit/loss after tax calculated in accordance with the Group's accounting policies less or plus unrealised intra-group gains/losses.

Dividend received is deducted from the carrying amount.

Equity investments in subsidiaries measured at net asset value are subject to impairment test requirements if there is any indication of impairment.

Impairment of non-current assets

The carrying amount of equity investments in subsidiaries is tested annually for impairment.

Impairment tests are conducted on assets or groups of assets when there is evidence of impairment. Assets are written down to the lower of the carrying amount and the recoverable amount.

The recoverable amount is the higher of the net selling price of an asset and its value in use. The value in use is calculated as the net present value of the expected net cash flows from the use of the asset or the group of assets and the expected net cash flows from the disposal of the asset or the group of assets after the end of the useful life.

Previously recognised impairment losses are reversed when the reason for recognition no longer exists. Impairment losses on goodwill are not reversed.

Receivables

Receivables are measured at amortised cost.

The Company has chosen IAS 39 as interpretation for impairment write-down of financial receivables.

An impairment loss is recognised if there is objective evidence that a receivable or a group of receivables is impaired. If there is objective evidence that an individual receivable has been impaired, an impairment loss is recognised on an individual basis.

Receivables in respect of which there is no objective evidence of individual impairment are assessed for objective evidence of impairment on a portfolio basis. The portfolios are primarily based on the country of domicile and credit ratings of the debtors in accordance with the Company's credit risk management policy. The objective evidence applied to portfolios is determined based on historical loss experience.

Impairment losses are calculated as the difference between the carrying amount of the receivables and the net present value of the expected cash flows, including the realisable value of any collateral received. The effective interest rate for the individual receivable or portfolio is used as discount rate.

Financial statements 1 January - 31 December

Notes

1 Accounting policies (continued)

Prepayments

Prepayments recognised under "Current assets" comprise expenses incurred concerning subsequent financial years.

Cash and cash equivalents

Cash and cash equivalents comprise cash.

Equity

Reserve for net revaluation according to the equity method

Net revaluation of equity investments in subsidiaries is recognised at cost in the reserve for net revaluation according to the equity method.

The reserve can be eliminated in case of losses, realisation of equity investments or a change in accounting estimates.

The reserve cannot be recognised at a negative amount.

Dividend

Dividend proposed for the year is recognised as a liability at the date when it is adopted at the general meeting (declaration date). Dividend expected to be distributed for the year is disclosed as a separate item under equity.

Hedging reserve

The hedging reserve comprises the cumulative net change after tax in the fair value of hedging transactions that qualify for recognition as a cash flow hedge and where the hedged transaction has not yet been realised. The reserve is dissolved when the hedged transaction is realised, if the hedged cash flows are no longer expected to be realised or if the hedging relationship is no longer effective. The reserve does not represent a limitation under company law and may therefore be negative.

1 Accounting policies (continued)

Income tax and deferred tax

Current tax payables and receivables are recognised in the balance sheet as tax computed on the taxable income for the year, adjusted for tax on prior-year taxable income and tax paid on account.

Joint taxation contribution payable and receivable is recognised in the balance sheet as "Income tax receivable" or "Income tax payable".

Deferred tax is measured using the balance sheet liability method on all temporary differences between the carrying amount and the tax base of assets and liabilities. However, deferred tax is not recognised on temporary differences relating to goodwill which is not deductible for tax purposes or on office premises and other items where temporary differences, apart from business combinations, arise at the date of acquisition without affecting neither the profit/loss for the year nor the taxable income. Where alternative tax rules can be applied to determine the tax base, deferred tax is measured based on Management's intended use of the asset or settlement of the liability, respectively.

Deferred tax assets, including the tax base of tax loss carry-forwards, are recognised at the expected value of their utilisation; either as a set-off against tax on future income or as a set-off against deferred tax liabilities in the same legal tax entity and jurisdiction.

Adjustment is made to deferred tax resulting from elimination of unrealised intra-group profits and losses.

Deferred tax is measured according to the tax rules and at the tax rates applicable in the respective countries at the balance sheet date when the deferred tax is expected to crystallise as current tax.

Provisions

Other provisions consist of expected costs related to project completions, including demobilization. Provisions are recognized when the Company has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation.

Provisions are measured at net realizable value.

Liabilities other than provisions

The Company has chosen IAS 39 as interpretation for recognition and measurement of liabilities.

Financial liabilities are recognised at the date of borrowing at the net proceeds received less transaction costs paid. On subsequent recognition, financial liabilities are measured at amortised cost, corresponding to the capitalised value, using the effective interest rate. Accordingly, the difference between the proceeds and the nominal value is recognised in the income statement over the term of the loan.

Other liabilities are measured at net realisable value.

Financial statements 1 January - 31 December

Notes

1 Accounting policies (continued)

Key figures

The financial ratios stated under "Financial highlights" have been calculated as follows:

Gross margin	$\frac{\text{Gross profit/loss} \times 100}{\text{Revenue}}$
Profit margin	$\frac{\text{Profit/loss from ordinary activities} \times 100}{\text{Revenue}}$
Current ratio	$\frac{\text{Current assets} \times 100}{\text{Current liabilities}}$
Return on assets	$\frac{\text{Profit/loss from ordinary activities} \times 100}{\text{Average of total assets}}$
Return on invested capital	$\frac{\text{Profit/loss from ordinary activities} \times 100}{\text{Average of invested capital}}$
Solvency ration	$\frac{\text{Equity at year end} \times 100}{\text{Total liablities and equity at year end}}$
Return on equity	$\frac{\text{Profit/loss for the year} \times 100}{\text{Average equity}}$
Definition of invested capital	Equity, lease obligations, debt to mortgage credit institutions and debt to credit institutions

Fair value

Fair value is determined based on the principal market. If no principal market exists, the measurement is based on the most advantageous market, i.e. the market that maximises the price of the asset or liability.

All assets and liabilities that are measured at fair value or whose fair value is disclosed are classified based on the fair value hierarchy, see below:

Level 1: Value based on the fair value of similar assets/liabilities in an active market.

Level 2: Value based on generally accepted valuation methods on the basis of observable market information.

Level 3: Value based on generally accepted valuation methods and reasonable estimates based on non-observable market information.

If a reliable fair value cannot be stated according to the above levels, the asset or liability is measured at cost.
