Statement by the Supervisory Boards and the Executive Board

The Supervisory Board and the Executive Board have today discussed and adopted the annual report of EvoBus Danmark A/S for the financial year 1 January - 31 December 2020.

The annual report has been prepared in accordance with the Danish Financial Statements Act.

We consider the accounting policies applied to be appropriate. Accordingly, the annual report gives a true and fair view of the Company's assets, liabilities and financial position at 31 December 2020 and of the result of the Company's operations for the financial year 1 January – 31 December 2020.

In our opinion, the Management's review gives a fair review of the development in the Company's operations and financial matters, of the results for the year and the Company's financial position.

We recommend that the annual report be approved at the annual general meeting.

Independent auditor's report

To the shareholder of EvoBus Danmark A/S

Opinion

We have audited the financial statements of Evobus Danmark A/S for the financial year 1 January – 31 December 2020 comprising accounting policies, income statement, balance sheet, statement of changes in equity and notes. The financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Company's assets, liabilities and financial position at 31 December 2020 and of the results of the Company's operations for the financial year 1 January – 31 December 2020 in accordance with the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these rules and requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's responsibility for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control that Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements in Denmark will always detect a material misstatement when it exists. Misstatements may arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

Independent auditor's report

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also

- identify and assess the risks of material misstatement of the company financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.

- conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on the Management's review

Management is responsible for the Management's review.

Our opinion on the financial statements does not cover the Management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Independent auditor's report

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the Management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statement Act. We did not identify any material misstatement of the Management's review.

Net Financials	-643	-310	-491	-427	-186
Profit/loss before tax	456	-185	7.966	2.958	7.039
Net profit/loss for the year	245	-161	6.199	2.296	5.395
Balance sheet total					
Balance sheet total	75.698	117.536	183.461	86.668	144.730
Investments in property, plant and equipment	250	7.714	6.032	1.693	3.981
Equity	24.906	24.661	31.021	24.822	22.526
Gross Margin ratio	24,7%	19,4%	17,6%	20,2%	13,9%
Solvency ratio	32,9%	21,0%	16,9%	28,7%	15,6%
Average number of full time employee					
Average number of full time employee	50	54	55	53	52

The ratios have been prepared in accordance with the recommendations and guidelines issued by the Danish Society of Financial Analysts. For definitions, see under accounting policies.

The key figures and ratios for the year 2016 have been changed as the company has changed its accounting policies regarding sale of busses with repurchase commitments. See description under accounting policies.

Financial statements 1 Januar - 31 December

Managements' review

Principal activities of the Company

The Company was acquired by the Mercedes-Benz Group in 1995, and EvoBus Danmark A/S was established as a wholly-owned subsidiary of Mercedes-Benz Danmark A/S. As of November 28th 2018 EvoBus Danmark A/S is wholly-owned subsidiary of EvoBus GmbH.

The principal activities of the Company are import, export, repairs, conversion and sale of new and used busses. Moreover, the Company sells spare parts and accessories to busses.

Development in the year

The overall market volume of registered vehicles >8 ton in the segments City and Coachs, was significantly reduced compared to previous year. The marketshare for the company was 34% (2019: 17%). The overall market situation influenced the area of used vehicles in a negative way. Market demand is low with the effect that market prices are declining. The aftersales market is as well affected negatively by the overall marketsituation.

End of the year result is clearly affected by the overall market situation. To minimize the effects of the declining market, extra cost saving measures has been implemented. The result for 2020 was slightly positive DKK 246 thousand (DKK -161 thousand).

Outlook

Management of Evobus Danmark A/S is expecting a positive long term development for the business. In 2021 it is expected that the sales volume of new vehicles will be above the level of the previous year, but the challenges within the coach segment will likely continue. The aftersales and used bus area are highly dependent on the overall market situation, and it is here the main uncertainties short term persists.

Particular risks

Financial risks

Funding is raised through a cash pool in Daimler AG. If the expected improvement in both earnings and cash flows is not realised in 2021 the Company is able to draw on the Group's cash pool.

Financial statements 1 Januar - 31 December

Managements's review

Credit risks

In all material respects, the Company's credit risks relate to garage customers. The Company is not subject to any significant risks in relation to individual customers. The Company's policy for assuming credit risks entails that credit ratings of all customers are made on an ongoing basis.

The Company's finance system has an embedded credit rating system, in which customers are rated on a regular basis based on historical data.

Environmental issues

Impact on the external environment

In order to control environmental issues, the Company has prepared an environmental policy including an objective. The policy is based on environmentally sound operations and forms a natural part of the Daimler Group's objective to handle natural resources and energy as carefully as possible and to apply the best technology available in order to minimise any environmental impact.

Events after the balance sheet date

No events of significance to the Company's operations, financial position after the end of the financial year have occurred.

Financial statements 1 January - 31 December

Accounting policies

The annual report of EvoBus Danmark A/S for 2020 has been prepared in accordance with the provisions applying to reporting class C medium-sized entities under the Danish Financial Statements Act.

The accounting policies used in the preparation of the financial statements are consistent with those of last year.

Omission of cash flow statement

Pursuant to section 86 (4) of the Danish Financial Statements Act, no cash flow statement has been prepared. The Company's cash flows are included in the cash flow statement in the consolidated financial statements of Daimler AG.

Foreign currency translation

On initial recognition, transactions denominated in foreign currencies are translated at the exchange rates at the transaction date. Foreign exchange differences arising between the exchange rates at the transaction date and at the date of payment are recognised in the income statements as financial income or financial expenses.

Receivables and payables and other monetary items denominated in foreign currencies are translated at the exchange rates at the balance sheet date. The difference between the exchange rates at the balance sheet date and at the date at which the receivable or payable arose or was recognised in the latest financial statements is recognised in the income statements as financial income or financial expenses.

Income statement

Revenue

Revenue is recognised in the income statement when transfer of the most significant reward and risks to the buyer has taken place and provided that the income can be reliably measured and payments is expected to be received. Revenue is measured at fair value of the agreed consideration excluding VAT and taxes charged on behalf of third parties. All discounts granted are deducted in revenue.

In case of sales with repurchase commitments the sales revenue are to reflect the expected value of returns using the rules relating to variable consideration. Consequently revenue is reduced by the expected amount of future returns for contracts entered with repurchase commitments.

In subsequent periods, the Company updates its expected levels of returns, adjusting the measurement of the refund liability and thereby revenue.

Sale of busses with repurchase commitments not fulfilling the requirements for a 'sale with right of return' is classified as operating leases as the residual value entails a not insignificant risk for the Company. The busses are included in the Company's non-current assets and are depreciated to residual value on a straight-line basis.

Payments from customers which represent rent payments in accordance with operating leases and other lease agreements are recognised in the income statement on a straight-line basis over the term of the agreement so that the repurchase value remains at the expiry of the agreement.

Financial statements 1 January - 31 December

Accounting policies continued

Production costs

Production costs comprise costs, including depreciation and amortisation and salaries, incurred in generating the revenue for the year.

Distribution costs

Costs incurred in distributing goods sold during the year and in conducting sales campaigns, etc., during the year are recognised as distribution costs. Also, costs relating to sales staff, advertising, exhibitions and depreciation are recognised as distribution costs.

Administrative expenses

Administrative expenses comprise expenses incurred during the year for company management and administration, including expenses for administrative staff, management, office premises, office expenses and depreciation.

Other operating income and costs

Other operating income and costs comprise income and costs secondary to the Company's primary operation.

Financial income and expenses

Financial income and expenses comprise interest income and expense, gains and losses on securities, payables and transactions denominated in foreign currencies and amortisation of financial assets and liabilities.

Tax on profit for the year

Mercedes-Benz Danmark A/S, CVR no. 14 81 51 98, is the administrative company for the joint taxation and consequently settles all corporation tax payments with the tax authorities.

The current Danish corporation tax is allocated by settlement of joint taxation contributions between the jointly taxed companies in proportion to their taxable income. In this relation, companies with tax loss carryforwards receive joint taxation contributions from companies that have used these losses to reduce their own taxable profits.

Tax for the year comprises joint taxation contributions for the year and changes in deferred tax for the year. The tax expense relation to the profit/loss for the year is recognised in the income statement, and the tax expense relating to amounts directly recognised in equity is recognised directly in equity.

Financial statements 1 January - 31 December

Accounting policies continued

Property, plant and equipment

Land and buildings, and fixtures and fittings, tools and equipment are measured at cost less accumulated depreciation and impairment losses.

The basis of depreciation is calculated as cost less any residual value at the end of the expected useful life. Land is not depreciated.

Cost comprises the purchase price and any costs directly attributable to the acquisition until the date when the asset is available for use.

Depreciation is made on a straight-line basis over the expected useful life. The expected useful lives are as follows :

Buildings	20-50 years
Fixtures and fittings, tools and equipment	3 - 8 years

The useful life and residual value are reassessed annually. Changes are treated as accounting estimates, and the effect on depreciation is recognised prospectively.

Depreciation is recognised in the income statement as production costs, distribution costs and administrative expenses, respectively.

Property, plant and equipment are written down to the recoverable amount if this is lower than the carrying amount. Annual impairment tests are conducted of individual assets or groups of assets when there is an indication that they may be impaired.

Gains and losses on the disposal of property, plant and equipment are determined as the difference between the selling price less selling costs and the carrying amount at the date of disposal. Gains and losses are recognised in the income statement as other operating income and other operating costs, respectively.

Inventories

Spare parts as well as new used busses are measured at cost in accordance with the FIFO method. Where the net realisable value is lower than cost, write-down is made to this lower value.

Goods for resale are measured at cost, comprising purchase price plus delivery costs.

The net realisable value of inventories is calculated as the sales amount less costs of completion and costs necessary to make the sale and is determined taking into account marketability, obsolescence and development in expected selling price.

Financial statements 1 January - 31 December

Accounting policies continued

Receivables

Receivables are measured at amortised cost. Write-down is made for bad debt losses.

Cash pooling agreement

The Company's cash pooling agreement is recognised as payables to group companies or receivables from group companies as the overall financial commitment with the bank rests with Daimler AG

Prepayments

Prepayments comprise costs incurred concerning subsequent financial years.

Equity

Dividends

Proposed dividends are recognised as a liability at the date when they are adopted at the annual general meeting (declaration date). The expected dividend payment for the year is disclosed as a separate item under equity.

Provisions

Provisions comprise anticipated costs related to warranties, etc. Provisions are recognised when, as a result of past events, the Company has a legal or constructive obligation and it is probable that there may be an outflow of resources embodying economic benefits to settle the obligation.

Provisions are measured at net realisable value. If the obligation is expected to be settled far into the future, the obligation is measured at fair value.

Liabilities other than provisions

Other liabilities are measured at amortised cost normally equalling net realisable value.

Corporation tax and deferred tax

In accordance with the joint taxation rules, EvoBus Danmark A/S liability to the Danish tax authorities is settled when the Company pays its joint taxation contributions to the administrative company.

Current tax payable and receivable is recognised in the balance sheet as tax computed on the taxable income for the year, adjusted for tax on the taxable income of prior years and for tax paid on account.

Financial statements 1 January - 31 December

Accounting policies continued

Corporation tax and deferred tax

Deferred tax is measured using the balance sheet liability method on all temporary differences between the carrying amount and the tax value of assets and liabilities. However, deferred tax is not recognised on temporary differences relating to other items where temporary differences arise at the date of acquisition without affecting either profit/loss for the year or taxable income. Where different tax rules can be applied to determine the tax base, deferred tax is measured based on Management's planned use of the asset or settlement of the liability, respectively.

Deferred tax assets, including the tax value of tax loss carryforwards, are recognised at the expected value of their utilisation, either as set-off against tax on future income or as a set-off against deferred tax liabilities in the same legal tax entity and jurisdiction.

Deferred tax is measured in accordance with the tax rules and at the tax rate at the balance sheet date when the deferred tax is expected to crystallise as current tax.

Deferred income

Deferred income comprises payments received concerning income in subsequent years.

Financial highlights overview

Financial highlights are calculated as follows :

Gross margin $\text{Gross profit} \times 100 / \text{Revenue}$

Solvency ratio $\text{Equity at year end} \times 100 / \text{Total assets}$

Financial statements 1 January - 31 December
