Statement by the Executive Board

Today, the Executive Board has discussed and approved the annual report of Renoldi Invest ApS for the financial year 1 January - 31 December 2022.

The annual report is prepared in accordance with the Danish Financial Statements Act.

In my opinion, the consolidated financial statements and the parent company financial statements give a true and fair view of the financial position of the Group and the Company at 31 December 2022 and of the results of the Group's and the Company's operations and of the consolidated cash flows for the financial year 1 January - 31 December 2022.

Further, in my opinion, the Management's review gives a fair review of the matters discussed in the Management's review.

I recommend that the annual report be approved at the annual general meeting.

Odense, 9 May 2023
Executive Board:

.....
Lone Nielsen

Independent auditor's report

To the shareholder of Renoldi Invest ApS

Opinion

We have audited the consolidated financial statements and the parent company financial statements of Renoldi Invest ApS for the financial year 1 January - 31 December 2022, which comprise income statement, balance sheet, statement of changes in equity and notes, including accounting policies, for the Group and the Parent Company, and a consolidated cash flow statement. The consolidated financial statements and the parent company financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent company financial statements give a true and fair view of the financial position of the Group and the Parent Company at 31 December 2022, and of the results of the Group's and Parent Company's operations as well as the consolidated cash flows for the financial year 1 January - 31 December 2022 in accordance with the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the consolidated financial statements and the parent Company financial statements" (hereinafter collectively referred to as "the financial statements") section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Management's responsibilities for the financial statements

Management is responsible for the preparation of consolidated financial statements and parent company financial statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Group's and the Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Group or the Parent Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

Independent auditor's report

- ▶ Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Parent Company's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- ▶ Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Parent Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Parent Company to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and contents of the financial statements, including the note disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.
- ▶ Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on the Management's review

Management is responsible for the Management's review.

Our opinion on the financial statements does not cover the Management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the Management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of the Management's review.

Management's review

Business review

The main activity of the Group is the dissemination of the sale of furniture and other homeware items - primarily imported from the Far East.

The group includes a real estate company, where intra-group renting is the primary activity.

The main activity of the parent company is the management of assets of the Group's cash and cash equivalents.

Reference is also made to the company's group overview page 6 regarding the composition of the group.

Financial review

The income statement for 2022 shows a profit of DKK 2,974 thousand against a profit of DKK 57,166 thousand last year, and the balance sheet at 31 December 2022 shows equity of DKK 472,029 thousand.

The Group's development is still primarily influenced by the subsidiary Trade Point A/S, Direct Container's activity.

Trade Point A/S, Direct Container's activity level has increased in the financial year as expected, despite continued challenges in both raw material prices and the freight situation.

The Group's subsidiary in Germany primarily focuses on e-commerce, and the level of activity has decreased as the demand in the German online market decreased after COVID and uncertainties for consumers. The level of activity in the Group's other subsidiaries is of limited scope.

The Group's overall result is satisfactory, even though it is lower than expected, as we see positive effects from continued digitalization and strengthening of the organisation. Continued restructuring, integration and digitalization of the German entity combined with challenges in the market situation, such as material prices, freight rates etc., has resulted in lower margins and higher cost.

Financial risks and use of financial instruments

Currency Risks:

As a result, profit, cash flow and equity are affected by the price development of primarily USD.

The Group carries out an ongoing monitoring of price developments and limited hedging of currency risks.

Credit risk:

The company's exposure to credit risk arises from the company's operating activities in the form of receivables from sales and prepayment for goods. The maximum credit risk corresponds to the accounting value of receivables from sales and prepayments for goods. A fixed procedure for dealing with credit agreements has been established, using insurance as far as possible. Overall, there is not considered to be a large credit risk for the company.

Management's review

Statutory CSR report

As previously mentioned, the Group's main activity is the sale of furniture and other homeware items - primarily imported from the Far East, which means none of the companies in the Group have own production. The main activity of the group lies in the subsidiary Trade Point A/S, Direct Container.

CSR risks

With the chosen business model, and its reliance on manufacturers in especially China and Vietnam, follows the risk of violations against workers' rights and human rights. Conducting business in these cultures also involves increased risk of corruption and bribery. Environmentally, the material risks confine to CO2 emissions from extracting and processing raw materials and the emissions from the actual furniture production. Finally, the risk of deforestation impacts the Group two-fold; the risk of contributing to deforestation by demanding wooden products; and the negative impact of deforestation on the supply chain where certain wood species become increasingly unavailable.

The following paragraphs clarify how the Group addresses the above risks through policies, procedures, due diligence practices, and key performance indicators for each of the four CSR reporting areas.

Human Rights

Tradepoint is a member of amfori, which is a trade organization that empowers their members with tools for mainly social due diligence. For social responsibility, amfori runs the Business Social Compliance Initiative (BSCI) which Tradepoint as an amfori member adheres to. Through the amfori membership, Tradepoint and suppliers obtain access to trainings that educate supply chain actors about social risk and due diligence.

Through contractual agreements with Tradepoint, suppliers are obliged to follow the BSCI Code of Conduct, which is based on internationally recognized principles for human and workers' rights. The Code of Conduct prohibits child labour, forced labour, discrimination and makes demands regarding safety, reasonable working hours, fair remuneration and freedom of association etc. Through the contract (Appendix 4 to the framework contract) suppliers commit to maintain valid third-party verification for complying with the BSCI Code of Conduct (or a similar standard).

In 2022, the share of procurement from BSCI risk country suppliers in compliance with the BSCI requirement remained stable at 98%.

BSCI KPI	
%-share of procurement in compliance with the BSCI requirement	
2022	98%
2021	98%
2020	98%

Because the Group adheres to the BSCI Code of Conduct no separate policy exists on social responsibility and human rights.

In the coming years, the Group will implement measures for social concerns to comply with the future reporting framework established by the Corporate Sustainable Reporting Directive (CSRD).

Management's review

Climate and environment

In 2022, the Group established a Sustainability Strategy, which outlines four focus areas on the journey towards a more sustainable business, namely (1) responsible raw materials; (2) sustainable products; (3) ESG reporting with initial focus on CO₂-emissions; and (4) sustainable operations. The Sustainability Strategy specifies commitments and actions, including:

- ▶ A pilot project with a CO₂-measuring tool called MÅLBAR, which provides an understanding of how various materials impact the final CO₂-footprint of a product.
- ▶ Interviews and action plans with strategic suppliers.
- ▶ A supplier guideline for sustainability to ensure suppliers' awareness and understanding of "sustainability".
- ▶ An ESG-reporting practice that prepares the company for upcoming EU directives and regulations on sustainability.

The Sustainability Strategy also specifies how the Group commits to more sustainable trade through the use of third-party certifications. The chosen third-party certifications help mitigate several environmental and social risks associated with different raw materials such as the risk of deforestation, which is highly pertinent for the furniture industry.

The following paragraphs explain how the Group applies third-party certifications as due diligence systems and risk mitigating measures, and how they further contribute to a well-established compliance practice that ensures compliance with legislative measures.

FSC

The Forest Stewardship Council (FSC) is an international, non-governmental organization dedicated to promoting responsible management of the world's forests. Tradepoint strives to only use FSC-certified wood in products and packaging by the end of 2024.

Trade Point A/S, Direct Container and the subsidiaries Trade Point Int. ApS, Trade Point Germany GmbH and Trade Point Asia Ltd. are FSC certified and complies with both procedures and requirements according to conditions for the certification. The FSC certification is audited and approved once a year. The third-party audits in 2022 were conducted without remarks.

The FSC standard mitigates risks of illegal forestry e.g., through the use of a blockchain system, which also promotes the Group's compliance with the European Timber Regulation (EUTR).

FSC KPI	
% of FSC-certified products (based on revenue)	
2022	22,71%
2021	11,13%
2020	7,24%

EUTR

In order to comply with the 'EU Timber Regulation', Trade Point A/S, Direct Container and its subsidiaries systematically works to secure documentation and information about products and supply chains through a due diligence system. This can also be subject to audits from the authorities.

Management's review

OEKO-TEX and GRS

The Group aims to expand the assortment of OEKO-TEX and GRS-certified products. While OEKO-TEX verifies the safety of products and their production processes for health and the environment, GRS mainly verifies the recycled content of products and is, therefore, an important tool towards more circular design.

OEKO-TEX and GRS benefit the daily work of living up to the rules and regulations of the REACH Regulation, as the standards have high focus on chemicals and environmental conditions.

In June 2022, Tradepoint obtained the GRS-certification, which opens new opportunities to meet customers' growing demand for products made of recycled materials. The GRS-certification is an important step for Tradepoint in the evolving circular economy. A third-party auditor will conduct annual GRS-audits within the Group.

BEPI

The Business Environmental Performance Initiative (BEPI) is the environmental "sister" to amfori's BSCI scheme. BEPI offers a supplier self-assessment with focus on eight environmental performance areas. Beyond the overall environmental management system, the assessment includes criteria on Energy & Climate; Water & Effluents; Emissions to Air; Waste; Chemicals; Biodiversity; and Nuisances.

In 2022, customers' demand that suppliers incorporate the BEPI assessment. To meet this demand, the Group will increasingly integrate the BEPI assessment in the progress and evaluation of suppliers' environmental performance.

Anti-corruption and bribery

The risk of corruption and bribery is inherent in a global supply chain. The Group has taken measures against corruption and bribery by ensuring that all employees across the Group have received and acknowledged receipt of the "Bribery and anti-corruption policy".

Furthermore, the framework contract with suppliers entails an "Honesty Agreement" (Appendix 6), in which suppliers are informed that any kind of private rebates, gifts and other benefits to Tradepoint employees are unacceptable. Likewise, suppliers are obliged to inform the Group if any employees of the Group attempt to influence the cooperation with gifts, cash, loans or seek commissions, reprisals or the like.

If employees accept bribes, the Group reserves the right to immediate dismissal.

In 2022, 21 and 1 incidents of corrupt behaviour were recorded by the Group's Chinese and Vietnamese teams respectively. All incidents were attempts to bribe our employees in the value chain in the Far East. All attempts were either refused or returned and reported to the management. In the coming years, the Group will continue to encourage its business partners and employees to share details on corrupt behaviour, to ensure that no incidents of corruption will occur in the future.

In 2022, the existing policies and procedures implemented in prior years were followed.

Management's review

Social and employee relations

Poor working conditions lead to increased risks of poor well-being, which can affect employees physically and psychologically. It is therefore the Group's policy to be an attractive and modern workplace where employees demonstrate well-being, job satisfaction and continuous development. Management must be visible and present with an open and unpretentious communication. The Group also focuses on being a socially well-functioning workplace.

The Group follows the laws and regulations in force at any time regarding employment and does not influence the employees' choice of labor union. The Group has a policy on compulsory pension scheme and enroll the employee in health insurance at the start of employment.

New employees are introduced to the Group in general, as well as its personnel policy, through scheduled introductory meetings at the start of employment. In addition, the Group's personnel policy is available on the joint drive for all employees.

To support the personnel policy, the Group has a defined set of values. The values: Team Spirit, Trust, Passion and tradesmanship to reflect the Group's desired behavior and must contribute to the Group and its employees acting accordingly.

To maintain focus as well as the desired behavior; continued focus through 'Introduction to new employees' workshops as well as initiation of 'DISC ' workshops in the different departments. These workshops were conducted for all new employees in 2022 and will continue in 2023 and beyond. In addition, there is still a focus on team and joint meetings in the Group. To support the collaboration, we have a yearly team day.

A large part of the core competencies of the Group are employee-dependent, as they possess knowledge and experience with the value chain. The Group therefore has a strong interest in retaining and developing its employees.

Account of the gender composition of Management

The Group believes that diversity among employees, including gender equality, contributes positively to the working environment and strengthens the company's performance and competitiveness. A separate Policy for the Under-Represented Sex was adopted in November 2022 and is also available on the joint drive.

Renoldi Invest ApS only has one person in the top management level, why no targets have been set for the gender distribution herein. As there are no other employees in the company there have not been set a target for other management positions in the company.

Management's review

Data ethics

The group has policies describing how data ethics is considered and included in the use of data and design and implementation of technologies used for processing of data at the Trade Point Group. The policy applies in all aspects of processing of data whether the data enables identification of a natural person ("personal data") or not.

When Trade Point processes data or designs, purchases or implements technologies, especially new technologies, for processing of data, the principles for data ethics described below must be assessed and included in the considerations during the design process and/or prior to the purchase or implementation of the processing activity or the technology used for the processing of data. The processing of data shall, always, comply with applicable legislation. For example, the processing of personal data requires a specific legal basis according to the General Data Protection Regulation ("GDPR").

Technologies for the processing of data, shall be designed to respect principles of data ethics, including the principles laid down in our policies and the general processing principles as laid down in the GDPR. Solutions are currently being implemented together with providers.

Data shall be processed in ways that are consistent with the intentions, expectations and understanding of the disclosing party. For example, personal data may not be processed for new purposes which are incompatible with the purposes for which the personal data was originally collected.

A sufficient level of security shall be implemented in and around technologies used for processing of data. The security measures shall include technical as well as organizational measures, and the sufficient level of security shall be assessed based on a risk assessment of the specific processing activity and the technology used for the processing of data.

Trade Point Group has only business to business relationships which entails that the group is primarily in possession of business-to-business information, including contact information regarding contact persons with business partners. Employees data is collected only for the needed use as a normal employment. Employees enjoy extra protection when it comes to use of data. Because of this, Trade Point shows extra consideration in relation to use of such data.

Events after the balance sheet date

No events materially affecting the Group's and the Company's financial position have occurred subsequent to the financial year-end.

Outlook

The Group expects moderate growth as in most markets there remains great uncertainty with war, inflation and increased interest rates in Europe, which is expected to influence the demand especially in the first half of 2023. It is expected that the Group will keep the market share and in a market that is expected to have a moderate growth. Revenue is expected to grow to MDKK 1,300-1,350, while operating profit expected to be between 65-75 MDKK.

As in previous years, there are uncertain factors linked to exchange rate developments. The outlook is based on a neutral result on the development in USD.

Consolidated financial statements and parent company financial statements 1 January - 31 December

Notes to the financial statements

1 Accounting policies

The annual report of Renoldi Invest ApS for 2022 has been prepared in accordance with the provisions in the Danish Financial Statements Act applying to large reporting class C entities.

The accounting policies used in the preparation of the financial statements are consistent with those of last year.

Consolidated financial statements

Control

The consolidated financial statements comprise the Parent Company and subsidiaries controlled by the Parent Company.

Control means a parent company's power to direct a subsidiary's financial and operating policy decisions. Besides the above power, the parent company should also be able to yield a return from its investment.

In assessing if the parent company controls an entity, de facto control is taken into consideration as well.

The existence of potential voting rights which may currently be exercised or converted into additional voting rights is considered when assessing if an entity can become empowered to direct another entity's financial and operating decisions.

Preparation of consolidated financial statements

The consolidated financial statements are prepared as a consolidation of the parent company's and the individual subsidiaries' financial statements, which are prepared according to the group's accounting policies. On consolidation, intra-group income and expenses, shareholdings, intra-group balances and dividends, and realised and unrealised gains on intra-group transactions are eliminated. Unrealised gains on transactions with associates are eliminated in proportion to the group's interest in the entity. Unrealised losses are eliminated in the same way as unrealised gains if they do not reflect impairment.

In the consolidated financial statements, the accounting items of subsidiaries are recognised in full. Non-controlling interests' share of the profit/loss for the year and of the equity of subsidiaries which are not wholly-owned are included in the group's profit/loss and equity, respectively, but are disclosed separately.

Acquisitions and disposals of non-controlling interests which are still controlled are recognised directly in equity as a transaction between shareholders.

Investments in associates and joint ventures are recognised in the consolidated financial statements using the equity method.

The group's activities in joint operations are recognised on a line-by-line basis.

Non-controlling interests

On initial recognition, non-controlling interests are measured at the fair value of the non-controlling interests' equity interest.

Goodwill relating to the non-controlling interests' share of the acquiree is recognised.

Foreign currency translation

On initial recognition, transactions denominated in foreign currencies are translated at the exchange rate at the transaction date. Foreign exchange differences arising between the exchange rates at the transaction date and the date of payment are recognised in the income statement as financial income or financial expenses.

Consolidated financial statements and parent company financial statements 1 January - 31 December

Notes to the financial statements

1 Accounting policies (continued)

Receivables and payables and other monetary items denominated in foreign currencies are translated at the exchange rate at the balance sheet date. The difference between the exchange rates at the balance sheet date and the date at which the receivable or payable arose or was recognised in the most recent financial statements is recognised in the income statement as financial income or financial expenses.

Derivative financial instruments

On initial recognition, derivative financial instruments are recognised at cost in the balance sheet and are subsequently measured at fair value. Positive and negative fair values of derivative financial instruments are presented as separate items in the balance sheet.

Fair value adjustments of derivative financial instruments designated and qualifying as hedging of future assets or liabilities are recognised as separate items in the balance sheet and in the hedging reserve under equity. If the forecast transaction results in the recognition of assets or liabilities, amounts previously recognised in equity are transferred to the cost of the asset or liability, respectively. If the forecast transaction results in income or expenses, amounts previously recognised in equity are transferred to the income statement in the period in which the hedged item affects the income statement.

Fair value adjustments of derivative financial instruments that do not qualify for hedge accounting are recognised in the income statement on an ongoing basis.

Income statement

Revenue

The Company has chosen IAS 11/IAS 18 as interpretation for revenue recognition.

The group's turnover consists mainly of the intermediation of sales of trade goods, mainly imported from the Far East.

Income from the sale of commercial goods, which includes furniture and utility items, etc., are included in the net turnover, when the transition of the most significant benefits and risks to the buyer has taken place, the income can be reliably calculated and payment is expected to be received. The timing of the most significant benefits and risks is based on standardised delivery experiences based on Incoterms® 2010.

Net sales are measured at the fair value of the agreed consideration excluding VAT and taxes collected on behalf of third parties. All kinds of discounts given are recognized in net sales.

Revenue is measured at the fair value of the agreed consideration excluding VAT and taxes charged on behalf of third parties. All discounts and rebates granted are recognised in revenue.

Other operating income

Other operating income comprise items of a secondary nature relative to the Company's core activities, including gains on the sale of fixed assets and public subsidies.

Cost of sales

Cost of sales includes the cost of goods used in generating the year's revenue.

Other external expenses

Other external expenses include the year's expenses relating to the Company's core activities, including expenses relating to distribution, sale, advertising, administration, premises, bad debts, payments under operating leases, etc.

Consolidated financial statements and parent company financial statements 1 January - 31 December

Notes to the financial statements

1 Accounting policies (continued)

Staff costs

Staff costs include wages and salaries, including compensated absence and pension to the Company's employees, as well as other social security contributions, etc. The item is net of refunds from public authorities.

Depreciation

The item comprises depreciation of property, plant and equipment.

The cost net of the expected residual value for completed development projects and acquired IP rights is amortised over the expected useful life. Acquired IP rights include patents, rights and licences.

The basis of amortisation/depreciation, which is calculated as cost less any residual value, is amortised/depreciated on a straight line basis over the expected useful life. The expected useful lives of the assets are as follows:

Acquired intangible assets	7 years
Buildings	40 years
Other fixtures and fittings, tools and equipment	3-5 years

Land is not depreciated.

Profit/loss from investments in subsidiaries

The income statement includes the proportional share of the underlying companies' profit or loss after elimination of internal profit/loss and after tax. In subsidiaries, the full elimination of internal profit and loss is carried out without regard to ownership shares., only proportional elimination of profit and loss is carried out, taking into account ownership shares.

The proportionate share of the individual subsidiaries' profit/loss after tax after full elimination of internal gains/losses are recognised in the parent company's income statement.

Financial income and expenses

Financial income and expenses are recognised in the income statements at the amounts that concern the financial year. Net financials include interest income and expenses as well as allowances and surcharges under the advance-payment-of-tax scheme, etc.

Tax

The parent company is covered by the Danish rules on mandatory joint taxation of the Group's Danish subsidiaries. Subsidiaries are included in the joint taxation arrangement from the date at which they are included in the consolidated financial statements and up to the date when they are no longer consolidated.

The parent company acts as management company for the joint taxation arrangement and consequently settles all corporate income tax payments with the tax authorities.

On payment of joint taxation contributions, the Danish corporate income tax charge is allocated between the jointly taxed entities in proportion to their taxable income. Entities with tax losses receive joint taxation contributions from entities that have been able to use the tax losses to reduce their own taxable income.

Consolidated financial statements and parent company financial statements 1 January - 31 December

Notes to the financial statements

1 Accounting policies (continued)

Tax for the year, which comprises the current income tax charge, joint taxation contributions and deferred tax adjustments, including adjustments arising from changes in tax rates, is recognised in the income statement as regards the portion that relates to the profit/loss for the year and directly in equity as regards the portion that relates to entries directly in equity.

Balance sheet

Intangible assets

Other intangible assets include other acquired intangible rights.

Other intangible assets are measured at cost less accumulated amortisation and impairment losses.

Property, plant and equipment

Items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses. Cost includes the acquisition price and costs directly related to the acquisition until the time at which the asset is ready for use.

Gains or losses are calculated as the difference between the selling price less selling costs and the carrying amount at the date of disposal. Gains and losses from the disposal of property, plant and equipment are recognised in the income statement as other operating income or other operating expenses.

Leases

Leases that do not transfer substantially all the risks and rewards incident to the ownership to the Company are classified as operating leases. Payments relating to operating leases and any other rent agreements are recognised in the income statement over the term of the lease. The Company's aggregate liabilities relating to operating leases and other rent agreements are disclosed under "Contingent liabilities".

Investments in subsidiaries

Equity investments in subsidiaries are measured according to the equity method. Equity investments in joint ventures are also measured according to the equity method in the consolidated financial statements.

On initial recognition, equity investments in subsidiaries are measured at cost, i.e. plus transaction costs. The cost is allocated in accordance with the acquisition method; see the accounting policies regarding business combinations.

The cost is adjusted by shares of profit/loss after tax calculated in accordance with the Group's accounting policies less or plus unrealised intra-group gains/losses.

Identified increases in value and goodwill, if any, compared to the underlying entity's net asset value are amortised in accordance with the accounting policies for the assets and liabilities to which they can be attributed. Negative goodwill is recognised in the income statement.

Dividend received is deducted from the carrying amount.

Equity investments in subsidiaries measured at net asset value are subject to impairment test requirements if there is any indication of impairment.

Consolidated financial statements and parent company financial statements 1 January - 31 December

Notes to the financial statements

1 Accounting policies (continued)

Impairment of fixed assets

The carrying amount of intangible assets, property, plant and equipment and investments in subsidiaries and associates is assessed for impairment on an annual basis.

Impairment tests are conducted on assets or groups of assets when there is evidence of impairment. The carrying amount of impaired assets is reduced to the higher of the net selling price and the value in use (recoverable amount).

The recoverable amount is the higher of the net selling price of an asset and its value in use. The value in use is calculated as the present value of the expected net cash flows from the use of the asset or the group of assets and the expected net cash flows from the disposal of the asset or the group of assets after the end of the useful life.

Previously recognised impairment losses are reversed when the reason for recognition no longer exists. Impairment losses on goodwill are not reversed.

Inventories

Inventories are measured at cost in accordance with the FIFO method. Where the net realisable value is lower than cost, inventories are written down to this lower value. The net realisable value of inventories is calculated as the sales amount less costs of completion and expenses required to effect the sale and is determined taking into account marketability, obsolescence and development in the expected selling price.

Goods for resale are measured at cost, which comprises the cost of acquisition plus delivery costs as well as other expenses directly attributable to the acquisition.

Receivables

The Company has chosen IAS 39 as interpretation for impairment write-down of financial receivables. Receivables are measured at amortised cost.

An impairment loss is recognised if there is objective evidence that a receivable or a group of receivables is impaired. If there is objective evidence that an individual receivable has been impaired, an impairment loss is recognised on an individual basis.

Receivables in respect of which there is no objective evidence of individual impairment are tested for objective evidence of impairment on a portfolio basis. The portfolios are primarily based on the debtors' domicile and credit ratings in line with the Company's risk management policy. The objective evidence applied to portfolios is determined based on historical loss experience.

Impairment losses are calculated as the difference between the carrying amount of the receivables and the present value of the expected cash flows, including the realisable value of any collateral received. The effective interest rate for the individual receivable or portfolio is used as discount rate.

Prepayments

Prepayments recognised under "Assets" comprise prepaid expenses regarding subsequent financial reporting years.

Securities and investments

Securities and investments consisting in listed shares and bonds are measured at fair value (market price) at the balance sheet date. Investments not admitted to trading on an active market are measured at cost.

Consolidated financial statements and parent company financial statements 1 January - 31 December

Notes to the financial statements

1 Accounting policies (continued)

Equity

Reserve for net revaluation according to the equity method

The net revaluation reserve according to the equity method includes net revaluations of investments in subsidiaries and associates relative to cost. The reserve can be eliminated in case of losses, realisation of investments or a change in accounting estimates. The reserve cannot be recognised at a negative amount.

Translation reserve

The translation reserve comprises the share of foreign exchange differences arising on translation of financial statements of entities that have a functional currency other than DKK, foreign exchange adjustments of assets and liabilities considered part of the Company's net investments in such entities and foreign exchange adjustments regarding hedging transactions that hedge the Company's net investments in such entities. The reserve is dissolved on the sale of foreign entities or if the conditions for effective hedging no longer exist. When equity investments in subsidiaries and associates in the parent company financial statements are subject to the limitation requirement in the net revaluation reserve according to the equity method, foreign exchange adjustments will be included in this equity reserve instead.

Proposed dividends

Dividend proposed for the year is recognised as a liability once adopted at the annual general meeting (declaration date). Dividends expected to be distributed for the financial year are presented as a separate item under "Equity".

Provisions

Provisions comprise anticipated expenses relating to warranty commitments, onerous contracts, restructurings, etc. Provisions are recognised when the Company has a legal or constructive obligation at the balance sheet date as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation.

Provisions are measured at net realisable value or at fair value if the obligation is expected to be settled far into the future.

Income taxes

Current tax payables and receivables are recognised in the balance sheet as the estimated income tax charge for the year, adjusted for prior-year taxes and tax paid on account.

Deferred tax is measured according to the liability method on all temporary differences between the carrying amount and the tax base of assets and liabilities. However, deferred tax is not recognised on temporary differences relating to goodwill which is not deductible for tax purposes and on office premises and other items where temporary differences, apart from business combinations, arise at the date of acquisition without affecting either profit/loss for the year or taxable income. Where alternative tax rules can be applied to determine the tax base, deferred tax is measured based on Management's intended use of the asset or settlement of the liability, respectively.

Deferred tax is measured according to the tax rules and at the tax rates applicable at the balance sheet date when the deferred tax is expected to crystallise as current tax. Deferred tax assets are recognised at the expected value of their utilisation; either as a set-off against tax on future income or as a set-off against deferred tax liabilities in the same legal tax entity. Changes in deferred tax due to changes in the tax rate are recognised in the income statement.

Consolidated financial statements and parent company financial statements 1 January - 31 December

Notes to the financial statements

1 Accounting policies (continued)

As management company for all the entities in the joint taxation arrangement, the parent company is liable for payment of the subsidiaries' income taxes vis à vis the tax authorities as the subsidiaries pay their joint taxation contributions. Joint taxation contributions payable or receivable are recognised in the balance sheet as income tax receivables or payables.

Liabilities

Financial liabilities are recognised at the date of borrowing at the net proceeds received less transaction costs paid. On subsequent recognition, financial liabilities are measured at amortised cost, corresponding to the capitalised value, using the effective interest rate. Accordingly, the difference between the proceeds and the nominal value is recognised in the income statement over the term of the loan. Financial liabilities also include the capitalised residual lease liability in respect of finance leases.

Other liabilities are measured at net realisable value.

Cash flow statement

The cash flow statement shows the Company's net cash flows broken down according to operating, investing and financing activities, the year's changes in cash and cash equivalents as well as the cash and cash equivalents at the beginning and the end of the year.

Cash flows from operating activities are calculated as the profit/loss for the year adjusted for non cash operating items, changes in working capital and paid corporate income tax.

Cash flows from investing activities comprise payments in connection with acquisitions and disposals of entities and activities and of intangible assets, property, plant and equipment and investments.

Cash flows from financing activities comprise changes in the size or composition of the Company's share capital and related expenses as well as raising of loans, repayment of interest bearing debt and payment of dividends to shareholders.

Cash and cash equivalents comprise cash, short term bank loans and short term securities which are readily convertible into cash and which are subject only to insignificant risks of changes in value.

Segment information

The allocation of revenue to activities and geographical markets is disclosed where these activities and markets differ significantly in the organisation of sales of goods and services.

Financial ratios

The financial ratios stated under "Financial highlights" have been calculated as follows:

Operating profit/loss	Profit/loss before financial items adjusted for other operating income and other operating expenses
Return on assets	$\frac{\text{Profit/loss from operating activities} \times 100}{\text{Average assets}}$
Equity ratio	$\frac{\text{Equity incl. non-controlling interests, year-end} \times 100}{\text{Total equity and liabilities, year-end}}$
Return on equity	$\frac{\text{Profit/loss for the year after tax incl. non-controlling interests} \times 100}{\text{Average equity incl. non-controlling interests}}$

Consolidated financial statements and parent company financial statements 1 January - 31 December

Notes to the financial statements

2 Events after the balance sheet date

No events materially affecting the Group's and the Company's financial position have occurred subsequent to the financial year-end.

3 Segment information

The group considers itself operating within one business segment and distinguishes alone between domestic and export turnover. The export turnover amounts to approx. 73 % against 74 % in 2021.

Group

Provisions for deferred tax relate to time differences in property, plant and equipment and Tax loss carryforward.

Based on the budgets, Management considers it likely there will be future taxable income against which tax deductions can be offset.

13 Deferred income

Group

Prepayments include accrual of expenses relating to subsequent financial years, including exhibition cost, leases etc.

14 Securities and investments

Fair value information

DKK'000	Listed securities Group	Listed securities Parent company
Fair value at 31 December	241,560	68,900
Value adjustments in the income statement	-49,770	-15,736

15 Share capital

The share capital is distributed in shares of DKK 100 and multiples thereof.

There has been no change in the company's capital ratio since the company's foundation on 5 September 2011.

16 Provisions

Group

The Group's other provisions include complaints and warranty provisions of DKK 3,300 t.kr. The provision constitutes expected costs under usual warranty obligations on the sale of goods. The obligation is expected to be applied in the coming financial year.

Consolidated financial statements and parent company financial statements 1 January - 31 December

Notes to the financial statements

17 Derivative financial instruments

Group

Fair values

The fair value of the below financial instruments deviates from the value recognised in the Group's balance sheet at 31 December 2022.

Fair value disclosures

The Group has the following assets and liabilities measured at fair value:

DKK'000	<u>FX Forward</u>
Group	
Fair value at year end	234
Unrealised fair value adjustments for the year, recognised in the income statement	83
Unrealised fair value adjustments for the year, recognised in hedging reserve	151
Fair value level	2

18 Contractual obligations and contingencies, etc.

Other financial obligations

Group

Rent and lease liabilities include a rent obligation with an external party regarding the rental of office space with a notice period of 4 months. The obligation to do so amounts to DKK 0.2 million per balance sheet date. Furthermore, the group has liabilities under operating leases for operating equipment and fixtures, totalling DKK 0.5 million, with remaining contract terms of 0-5 years.

Freight obligations include obligations to freight company according to with a notice period of 24 month. As at 31 December 2022, the commitment amounts to DKK 7.3 Million.

Parent company

As management company, the Company is jointly taxed with other Danish group entities. The Company is jointly and severally liable with other jointly taxed group entities for payment of income taxes for the income year as well as withholding taxes on interest, royalties and dividends falling due for payment. The total known net liability of the jointly taxed companies in respect of corporate taxes amount to a receivable of approximately 1.626 t.kr. as of December 31, 2022. Any later corrections to joint taxation income may result in the company's balance being able to Change.

Consolidated financial statements and parent company financial statements 1 January - 31 December

Notes to the financial statements

19 Collateral

Group

The group has not provided any security or other collateral in assets at 31 December 2022.

Parent company

The parent Company has not provided any security or other collateral in assets at 31 December 2022.
