Management's review

Main activity

Danske Private Equity Partners V (EUR-A) K/S ("Danske PEP V (EUR-A)") is a fund-of funds with a geographical focus on investments in Western Europe. Investments are mainly made in small and mid market buy-out funds.

Development in the financial year

The financial year resulted in a profit of EUR 7.6 million, corresponding to an annual IRR of 14.5%. Gains on investments in portfolio funds amounted to EUR 11.4 million. Administrative running costs in the form of a management fee to Danske Private Equity A/S amounted to EUR 0.3 million. Financial expenses amounted to EUR 3.4 million, which mainly relates to foreign exchange loss on portfolio fund investments (GBP).

The result is better than our expectations.

In the financial year, an aggregate amount of EUR 20.6 million was paid-up by the Limited Partners, bringing the accumulated paid-up capital to EUR 91.9 million, corresponding to 72.5% of the Limited Partners' committed capital. An aggregate amount of EUR 19.4 million was contributed to the portfolio funds during the financial year, bringing total contributions to the portfolio funds to EUR 84.1 million, corresponding to 65.8% of the commitments to the portfolio funds.

An aggregate amount of EUR 21.9 million was distributed from the portfolio funds during the financial year, bringing total distributions from portfolio funds as of September 30, 2016 to EUR 46.1 million, corresponding to 54.9% of the contributed capital to portfolio funds. In the financial year an aggregate amount of EUR 23.4 million was distributed to the Limited Partners, bringing the accumulated distributions as of September 30, 2016 to EUR 47.6 million, corresponding to 51.8% of the Limited Partners' paid-up capital.

Special risks

Financial risks

The objective of Danske PEP V (EUR-A) is to supply risk capital to the portfolio funds, and also to their investments in competitive companies in the European Small and Mid Market. The highest factor of risk is therefore the changes in the value of the companies in which Danske PEP V (EUR-A)'s portfolio funds invest in, which to a significant extent depend on the valuations of comparable listed companies on the quoted market. The valuation of investments in portfolio funds is an accounting estimate and could be connected with some uncertainty.

Interest rate risks

Danske PEP V (EUR-A) is less sensitive to the changes in interest rate levels.

Foreign exchange currency risks

Danske PEP V (EUR-A)'s investments in portfolio funds have been made in EUR and GBP. As the capital in Danske PEP V (EUR-A) is in EUR, Danske PEP V (EUR-A) is influenced by currency fluctuations in GBP. The currency risk is therefore considered as material. Under Danske PEP V (EUR-A)'s investment policy, Danske PEP V (EUR-A) does not hedge its exposure toward currency rate fluctuations.

Investment activity

In the period from inception to September 30, 2016 Danske PEP V (EUR-A) has invested in six portfolio funds.

The portfolio funds have in general performed well.

Management's review

Cash resources

Danske PEP V (EUR-A)'s cash resources as of September 30, 2016, include cash and cash equivalents, undrawn credit facilities and outstanding commitments from the Limited Partners, and are estimated as satisfactory to cover Danske PEP V (EUR-A)'s liabilities including investment obligations, management fees etc.

Expectations for 2016/17

During the financial year, the valuations of the portfolio funds' investments have developed positively. European companies are generally experiencing stable earnings and the private equity market is characterized by relatively high exit activity. This development is expected to carry on in 2017, although political uncertainty remains significant and may impact the markets.

The development in valuations of the portfolio funds' investments will still be influenced mainly by the development of the individual portfolio companies' results and their ability to generate cash as well as the valuations of comparable listed companies.

The above-mentioned development along with the general economic development as well as the development in EUR/GBP will affect the result for 2016/17.

On the basis of this, the result is expected to be in line with the current year.

Post balance sheet events

No events have occurred, after the balance sheet date and to the signing of the annual report which is considered of significance to the annual report.

Accounting policies

Balance sheet

Investment assets

Investments in portfolio funds are measured in accordance with the IPEV Valuation Guidelines or similar guidelines depending on the country of origin of the portfolio funds according to which investments are measured at the fair value in the balance sheet in accordance with the Danish Financial Statement Act § 38. Revaluations are included in the profit and loss account.

In the portfolio funds, the fair value of the funds' portfolio companies are recognised and measured as follows:

Listed portfolio companies

The portfolio companies are measured to the current market value on the balance sheet day. If securities in the portfolio companies are subject to a lock-up provision, the provision is considered when measuring the fair value of the portfolio company. If shares are not actively traded the portfolio companies are measured as investments in unlisted portfolio companies.

Unlisted portfolio companies

Investments in portfolio companies are measured at fair value on price of recent investment either by way of an increase of capital or a part sale and by the use of valuation methodologies based on the earnings multiples, net assets, discounted cash flows or industry valuation benchmarks.

Other debtors

Other debtors are measured at amortised cost after deduction of write-downs for anticipated losses.

Prepayments and accrued income

Prepayments and accrued income included in assets primarily comprise prepaid management fee to Investment Manager, Danske Private Equity A/S.

Other liabilities

Financial liabilities are recognised at the date of borrowing at the net proceeds received less transaction costs paid. In subsequent periods, the financial liabilities are measured at fair value.

Other payables include a performance fee to Manager, Danske Private Equity A/S and administration costs due. Liabilities are measured at net realised value.

Foreign currency translation

Transactions in foreign currency are translated into (EUR) according to the currency rate ruling on the transaction day.
