Statement by Management on the annual report

The Executive Board has today discussed and approved the annual report of Cylindo ApS for the financial year 1. maj 2016 - 30. april 2017.

The annual report has been prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Company's financial position at 30. april 2017 and of the results of the the Company's operations for the financial year 1. maj 2016 - 30. april 2017.

In our opinion, Management's review includes a fair review of the matters dealt with in the Management's review

We recommend the adoption of the annual report at the annual general meeting.

Copenhagen, 26/7 - 17

Independent auditor's report

To the shareholders of Cylindo ApS

Opinion

We have audited the financial statements of Cylindo ApS for the financial year 1. maj 2016 - 30. april 2017, which comprise an income statement, balance sheet, statement of changes in equity, notes and summary of significant accounting policies, including a summary of significant accounting policies. The financial statements are prepared under the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Company's financial position at 30 april 2017 and of the results of the Company's operations for the financial year 1 May 2016 - 30 April 2017 in accordance with the Danish Financial Statements Act.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's Responsibilities for the Audit of the financial statements" section of our report. We are independent of the company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's Responsibilities for the financial Statements

Management is responsible for the preparation of Financial Statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of Financial Statements that are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the Financial Statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Independent auditor's report

Auditor's Responsibilities for the Audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the Financial Statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that gives a true and fair view.

Independent auditor's report

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the Financial Statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the Financial Statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that Management's Review is in accordance with the Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statement Act. We did not identify any material misstatement of Management's Review.

Management's review

Business activities

The Company's primary activities are related to development and providing visual content and software as a service to its costumers.

Business review

Year 2016/17 has been an important year for the company as the company successfully has executed a turn around, which has involved reduction af cost via reduction of staff in Denmark at the same time as the staff in Macedonia has been significantly increased. At the same time sales staff in USA has also been increased and the company is now well positioned for future growth.

Sales of the company's core product have increased significantly in 2016/17 compared with the previous year and the sales team is working on exciting new prospects. As a result of the very positive development in sales, gross profit has reached 1,730,578 DKK or an improvement of 3,467,109 DKK compared with the year before.

During 2016/17 the development department has focused on developing the company's core product and has successfully built the infrastructure for further capacity scale. For the year 2017/18 the company will release new versions of the core product that will a) activate new revenue streams through add-on product offerings b) increase market relevance for adjacent industries c) drastically reduce unit cost, i.e. improve service margins and d) make running costs more efficient, i.e. improve SaaS margin.

The Company's income statement for the year ended 30 April shows a profit of DKK 868.213, and the balance sheet at 30. april 2017 showes negative equity of DKK 3.512.342.

Expectations to next fiscal year

Management expect to continue the positive development in sales and in gross profit in 2017/18 and expect also a significant higher profit for year 2017/18.

Significant events occurring after end of reporting period

No events have occurred after the balance sheet date which could significantly affect the group's and the parent company's financial position.

5 Contingent assets, liabilities and other financial obligations

The Company is jointly taxed with its Parent Company, and is jointly and severally liable with the other jointly taxed entities for the payment of income taxes and withholding taxes on dividends, interest and royalties.

6 Charges and securities

As security for mortgage debt to Vækstfonden totalling DKK 2.250 thousand, the Company has granted floating charge of DKK 2.250 thousand.

Accounting policies

The annual report of Cylindo ApS for 2016/17 has been prepared in accordance with the provisions of the Danish Financial Statements Act applying to enterprises of reporting class B as well as selected provisions as regards larger entities.

The accounting policies applied are consistent with those of last year.

Basis of recognition and measurement

Income is recognised in the income statement as earned, including value adjustments of financial assets and liabilities. All expenses, including amortisation, depreciation and impairment losses, are also recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits will flow to the company's and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow from the company's and the value of the liability can be measured reliably.

On initial recognition, assets and liabilities are measured at cost. On subsequent recognition, assets and liabilities are measured as described below for each individual accounting item.

Certain financial assets and liabilities are measured at amortised cost using the effective interest method. Amortised cost is calculated as the historic cost less any instalments and plus/less the accumulated amortisation of the difference between the cost and the nominal amount.

On recognition and measurement, allowance is made for predictable losses and risks which occur before the annual report are presented and which confirm or invalidate matters existing at the balance sheet date.

Income statement

Revenue

Revenue is measured at the fair value of the agreed consideration, excluding VAT and other indirect taxes. Revenue is net of all types of discounts granted.

Other external costs

Other external costs include expenses related to distribution, sale, advertising, administration, etc.

Accounting policies

Staff costs

Staff costs include wages and salaries, including compensated absence and pensions, as well as other social security contributions, etc. made to the entity's employees. The item is net of refunds made by public authorities.

Amortisation, depreciation and impairment losses

Amortisation, depreciation and impairment losses comprise the year's amortisation, depreciation and impairment of intangible assets and property, plant and equipment.

Financial income and expenses

Financial income and expenses are recognised in the income statement at the amounts relating to the financial year. Net financials include interest income and expenses, financial expenses relating to finance leases, realised and unrealised capital/exchange gains and losses on securities and foreign currency transactions, amortisation of mortgage loans and surcharges and allowances under the advance-payment-of-tax scheme, etc.

Tax on profit/loss for the year

Tax for the year, which comprises the current tax charge for the year and changes in the deferred tax charge, including changes arising from changes in tax rates, is recognised in the income statement as regards the portion that relates to entries directly in equity.

Balance sheet

Intangible assets

Development costs and costs relating to rights developed by the company are recognised in the income statement as costs in the year of acquisition. Development costs and costs relating to rights developed by the company is amortised on a straightline basis over its useful life, which is assessed to be 5 years.

Investments in subsidiaries and associates

Investment in subsidiaries and associates are measured at cost. If cost exceeds the recoverable amount, a write-down is made to this lower value.

Receivables

Receivables are measured at amortised cost.

Accounting policies

Prepayments

Prepayments comprise costs incurred concerning subsequent financial years.

Income tax and deferred tax

Current tax liabilities and current tax receivables are recognised in the balance sheet as the estimated tax on the taxable income for the year, adjusted for tax on the taxable income for previous years and tax paid on account.

Deferred tax is measured according to the liability method in respect of temporary differences between the carrying amount of assets and liabilities and their tax base, calculated on the basis of the planned use of the asset and settlement of the liability, respectively.

Liabilities

Financial liabilities are recognised on the raising of the loan at the proceeds received net of transaction costs incurred. On subsequent recognition, the financial liabilities are measured at amortised cost, corresponding to the capitalised value, using the effective interest method. Accordingly, the difference between the proceeds and the nominal value is recognised in the income statement over the term of the loan.

Other liabilities, which include trade receivables, payables to group entities and other payables, are measured at amortised cost, which is usually equivalent to nominal value.

Deferred income

Deferred income comprises payments received concerning income in subsequent reporting years.

Foreign currency translation

On initial recognition, foreign currency transactions are translated applying the exchange rate at the transaction date. Foreign-exchange differences arising between the exchange rates at the transaction date and at the date of payment are recognised in the income statement as financial income or financial expenses. If foreign currency transactions are considered cash flow hedges, the value adjustments are taken directly to equity.

Receivables and payables and other monetary items denominated in foreign currencies are translated at the exchange rates at the balance sheet date. The difference between the exchange rates at the balance sheet date and the date at which the receivable or payable arose or was recognised in the latest financial statements is recognised in the income statement as financial income or financial expenses.
