## **Management's Statement**

Today, Management has considered and adopted the Annual Report of DP Cleantech Global Engineering Services ApS for the financial year 1 January 2020 - 31 December 2020.

The result of the year -3.258.449 DKK is considered satisfactory. It should be mentioned that the loss of the year is caused by a write-down of receivables at a group company of 3.640.329 DKK.

The Annual Report is presented in accordance with the Danish Financial Statements Act.

In our opinion, the Financial Statements give a true and fair view of the assets, liabilities and financial position of the Company at 31 December 2020 and of the results of the Company's operations for the financial year 1 January 2020 - 31 December 2020.

We recommend that the Annual Report be adopted at the Annual General Meeting.

Herlev, 6 August 2021

### **Executive Board**

Jens Schaltz Bertelsen  
CEO

## Independent Auditors' Report

To the shareholders of DP Cleantech Global Engineering Services ApS

### Opinion

We have audited the financial statements of DP Cleantech Global Engineering Services ApS for the financial year 1 January 2020 - 31 December 2020, which comprise an income statement, balance sheet and notes. The financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Company's financial position at 31 December 2020 and of the results of its operations for the financial year 1 January 2020 - 31 December 2020 in accordance with the Danish Financial Statements Act.

### Basis of opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and additional requirements applicable in Denmark. Our responsibility under those standards and requirements are further described in our auditors' report under "Auditors' responsibility for the audit of the financial statements". As required by the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and additional requirements applicable in Denmark, we are independent of the Company, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Material going concern uncertainty

Without modifying our opinion, we wish to note that the Company's ability to continue as a going concern is associated with uncertainty. We refer to note 9 in the financial statements, which reflects uncertainty as to whether binding commitments will be entered into for the financing of the Company's operations for the coming years. However, as Management believes that such commitments will be entered into, due to letter of financial support provided by DP Clean Tech (Hong Kong) Limited for the period until June 30, 2022, the financial statements have been prepared on a going concern basis.

### Management's responsibility for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control as Management considers necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern; disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting in preparing the financial statements unless Management either intends to either liquidate the Company or suspend operations, or has no realistic alternative but to do so.

### The auditor's responsibility for the audit of the financial statements

Our responsibility is to obtain reasonable assurance as to whether the financial statements are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is no guarantee that an audit conducted in accordance with ISAs and additional requirements applicable in Denmark will always detect material misstatements. Misstatements can arise from fraud or error and can be considered material if it would be reasonable to expect that these - either individually or collectively - could influence the economic decisions taken by the users of financial statements on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and additional requirements applicable in Denmark, we exercise professional judgement and maintain an attitude of professional skepticism throughout the audit. We also:

- \* Identify and assess the risk of material misstatements in the financial statements, whether due to fraud or

## Independent Auditors' Report

error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for a material misstatement resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or override of internal control.

- \* Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- \* Evaluate whether the accounting policies used are appropriate and whether the accounting estimates and the related disclosures made by Management are reasonable.
- \* Conclude on whether Management's use of the going concern basis of accounting in preparing the financial statements is appropriate and, based on the audit evidence obtained, conclude on whether a material uncertainty exists relating to events or conditions, which could cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may imply that the Company can no longer remain a going concern.
- \* Evaluate the overall presentation, structure and contents of the financial statements, including note disclosures, and whether the financial statements reflect the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control which we identify during our audit.

### Statement on Management's Review

Management is responsible for the Management's review.

Our opinion on the financial statements does not cover the Management's review, and we do not express any form of opinion providing assurance regarding the Management's review.

Our responsibility in connection with our audit of the financial statements is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the financial statements or with the knowledge we have gained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review meets the disclosure requirements in the Danish Financial Statements Act.

Based on our procedures, we are of the opinion that the Management's review is in accordance with the financial statements and has been prepared in accordance with the requirements in the Danish Financial Statements Act. In our opinion, the Management's review is not materially misstated.

## Management's Review

### The Company's principal activities

The Company's material activities comprise sales, project and engineering activities related to biomass power plant solutions in the renewable energy sector.

### Development in the activities and the financial situation of the Company

The Company's Income Statement of the financial year 1 January 2020 - 31 December 2020 shows a result of DKK -3.258.449 and the Balance Sheet at 31 December 2020 a balance sheet total of DKK 1.251.134 and an equity of DKK -256.800. The net loss is the result of a write-down of DKK 3,640,329 of intergroup receivables. This represents a reduction of more than 50% of the company's share capital. The Management expect that the share capital will be restored by its normal operating activities.

The company has continued its normal operating activities. Apart from the outbreak of the Corona virus, there have been no isolated events during the financial year that are of such a significant nature that they require mention in the management's report.

The rapid spread of the Corona virus in Denmark and the rest of the world since March 2020 has necessitated a number of restrictions from the Danish authorities, which could potentially have major socio-economic consequences. The company is currently not directly affected by the restrictions implemented.

If the outbreak of the Corona virus becomes prolonged and the authorities implement further measures to stem the spread of infection, the socio-economic consequences could become significant. In such a scenario, the company may also be adversely affected. However, the authorities have already launched several financial support measures, and it is to be expected that further support measures will be implemented in the event of a prolonged outbreak that will mitigate the consequences of the restrictions.

The outbreak of the Corona virus and the restrictions imposed have not significantly affected the year's activities and economic development.

The development and result for the year are considered satisfactory in these circumstances.

### Post financial year events

During Covid-19 period in 2020 the financial support from the group enterprises has not always been available in due time. Specifically, senior managers of the Company participated in a group-wide deferred compensation arrangement that was agreed by the group's senior executive team as a means of support for the global group during Covid-19 outbreak.

### Expectations for the future

The Company complies with the prepared budget for 2021 and Management expects a positive result for the financial year 2021.

### Risks

The Company is exposed to a financial risk if DP Cleantech (Hong Kong) Limited fails to deliver according to its current intention to support to finance the operations.

## **Accounting Policies**

### **Reporting Class**

The Annual Report of DP Cleantech Global Engineering Services ApS for 2020 has been presented in accordance with the provisions of the Danish Financial Statements Act applying to enterprises of reporting class B.

The Annual Report has been presented in accordance with the provisions of the Danish Financial Statements Act applying to enterprises of reporting class B, with the adoption of individual rules from class C.

The accounting policies applied remain unchanged from last year.

### **Reporting currency**

The Annual Report is presented in Danish crowns.

## **General Information**

### **Basis of recognition and measurement**

The financial statement have been prepared under the historical cost princip.

Income is recognised in the Income Statement as it is earned, including value adjustments of financial assets and liabilities that are measured at fair value or amortised cost. Moreover, all expenses incurred to achieve the earnings for the year are recognised in the Income Statement, including depreciation, amortisation, impairment losses and provisions as well as reversals due to changed accounting estimates of amounts that have previously been recognised in the Income Statement.

Assets are recognised in the Balance Sheet when it is probable that future economic benefits attributable to the asset will accrue to the Company, and the value of the asset can be measured reliably.

Liabilities are recognised in the Balance Sheet when it is probable that future economic benefits attributable to the asset will flow out of the Company, and the value of the liability can be measured reliably.

At initial recognition, assets and liabilities are measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

Certain financial assets and liabilities are measured at amortised cost, which involves the recognition of a constant effective interest rate over the term. Amortised cost is calculated as original cost less repayments and with the addition/deduction of the accumulated amortisation of the difference between the cost and the nominal amount. This way, exchange losses and gains are allocated over the term.

In connection with recognition and measurement, consideration is given to predictable losses and risks occurring prior to the presentation of the Annual Report, i.e. losses and risks which prove or disprove matters which exist at the balance sheet date.

## **Income Statement**

### **Gross profit/loss**

The Company has decided to aggregate certain items of the Income Statement in accordance with the provisions of Section 32 of the Danish Financial Statements Act.

Gross profit is a combination of the items of revenue, change in inventories of finished goods, work in progress and goods for resale, other operation income, cost of raw and consumables and other external expenses.

## Accounting Policies

### Revenue

Revenue is recognised in the income statement if the goods have been delivered and the risk has passed to the buyer before year-end and if the revenue can be reliably calculated and expected to be received. Revenue is recognised exclusive of VAT and net of sales discounts.

Income from delivery of services is recognised on a straight-line basis in net sales, as the service is delivered.

### Other external expenses

Other external costs include costs for distribution, sales, advertising, administration, premises, loss of debtors, operating leasing costs etc.

### Staff expenses

Staff expenses comprise wages, salaries and other pay-related costs, such as sickness benefits for enterprise employees less wage/salary reimbursement, pensions and social security costs.

### Amortisation and impairment of tangible and intangible assets

Amortisation and impairment of intangible and tangible assets has been performed based on a continuing assessment of the useful life of the assets in the Company. Non-current assets are amortised on a straight line basis, based on cost, on the basis of the following assessment of useful life and residual values:

	Useful life	Residual value
Other fixtures and fittings, tools and equipment	3-10 years	0%
Leasehold improvements	5 years	0%

Profit or loss resulting from the sale of intangible or tangible assets is determined as the difference between the selling price less selling costs and the carrying amount at the date of sale, and is recognised in the Income Statement under other operating income or expenses.

### Financial income and expenses

Financial income and expenses are recognised in the Income Statement based on the amounts that concern the financial year. Financial income and expenses include interest revenue and expenses, finance charges in respect of finance leases, realised and unrealised capital gains and losses regarding securities, accounts payable and transactions in foreign currencies, repayment on mortgage loans, and surcharges and allowances under the tax prepayment scheme.

### Tax on net profit for the year

Tax on net profit/loss for the year comprises current tax on expected taxable income of the year and the year's adjustment of deferred tax less the part of the tax of the year that relates to changes in equity. Current and deferred tax regarding changes in equity is recognised directly in equity.

## Accounting Policies

### Balance Sheet

#### Tangible assets

Tangible assets are measured at cost on initial recognition and subsequently at cost less accumulated depreciation and impairment losses.

The depreciable amount is calculated taking into consideration the residual value of the asset at the end of its useful life, reduced by impairment losses, if any. The depreciation period and the residual value are determined at the data of acquisition. If the residual value exceeds the carrying amount of the asset, depreciation is discontinued.

In case of changes in depreciation period or residual value, the effect of a change in depreciation period is recognised prospectively in accounting estimates.

Cost includes the purchase price and expenses directly related to the acquisition until the time when the asset is ready for use. The cost of self-constructed assets includes costs for materials, components, subcontractors, direct payroll costs and indirect production costs.

The cost of composite asset is disaggregated into components, which are separately depreciated if the useful lives of the individual components differ.

#### Receivables

Receivables are measured at amortised cost. Write-downs are made to cover losses where an objective is assessed to have occurred indication that a receivable is impaired. If there is an objective indication that a individual receivable is impaired, write-downs are made at individual level.

Impairment losses are calculated as the difference between the carrying amount of receivables and the present value of the expected cash flows, including the realizable value of any received collateral. Please see note 2.

#### Accrued income, assets

Accrued income recognised in assets comprises prepaid costs regarding subsequent financial years.

#### Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and in hand as well as short-term securities with a term of less than three months which can be converted directly into cash at bank and in hand and involve only an insignificant risk of value changes.

Equity comprises the working capital and a number of equity items that may be statutory or stipulated in the articles of association.

#### Current tax liabilities

Current tax liabilities and current tax receivables are recognised in the Balance Sheet as calculated tax on the expected taxable income for the year, adjusted for tax on taxable income for previous years as well as for tax prepaid.

#### Liabilities

Financial liabilities are recognised initially at the proceeds received net of transaction expenses incurred. In subsequent periods, financial liabilities are measured at amortised cost, corresponding to the capitalised value using the effective interest method, so that the difference between the proceeds and the nominal value is recognised in the Income Statement over the life of the financial instrument.

Other liabilities, comprising deposits, trade payables and other accounts payable, are measured at amortised cost, which usually corresponds to the nominal value.

**Accounting Policies**

**Contingent assets and liabilities**

Contingent assets and liabilities are not recognised in the Balance Sheet but appear only in the notes.

	2020	2019
<b>7. Contributed capital</b>		
Balance at the beginning of the year	100.000	100.000
<b>Balance at the end of the year</b>	<b>100.000</b>	<b>100.000</b>

The Company was established on 13 March 2013 with a capital of DKK 80,000

**8. Retained earnings**

Balance at the beginning of the year	2.901.649	3.863.752
Additions during the year	-3.258.449	-962.103
<b>Balance at the end of the year</b>	<b>-356.800</b>	<b>2.901.649</b>

**9. Uncertainties relating to going concern**

The company's revenue is derived exclusively from provision of services to other companies within the group for the execution of international projects. Therefore the Company is depending on monthly cash transfers from other group sister companies or from the mother company, either as settlement of outstanding invoices or, in some cases, as loans. However DP Cleantech (Hong Kong) Limited has provided a letter of financial support in order to support the operations until June 30 2022.

**10. Contingent liabilities**

A contingent liability exists regarding the rental. At the balance sheet date it amounts to 6 months lease or DKK 80,000 including VAT.

**11. Ownership**

The Company has registered the following shareholder to hold more than 5% of the voting share capital:  
DP Clean Tech (Hong Kong) Limited, 33/F Shui On Centre, No 6-8 Harbour Road, Wanchai, Hong Kong.

**12. Related parties**

DP Clean Tech (Hong Kong) Limited, Hong Kong - Immediate Parent  
Silverrock Group Limited, British Virgin Islands - Ultimate Parent
