MANAGEMENT'S STATEMENT

The Management has today discussed and approved the Annual Report of Verdane Capital VIII K/S for the financial year 1 January 2015 - 31 December 2015.

The Annual Report has been prepared in accordance with the International Financial Reporting Standards, which is approved by EU and further Danish disclosure requirements according to the Danish Financial Statements Act.

It is my opinion that the financial statements give a true and fair view of the Company's financial position at 31 December 2015 and of the results of the Company's operations and cash flow for the financial year 1 January 2015 - 31 December 2015.

Further, in my opinion, the Management's review gives a fair review of the matters discussed in the Management's review.

I recommend that the Annual Report be approved at the General Partner meeting.

Copenhagen, 25 February 2016

On behalf of the General Partner:
Verdane Capital VIII GP ApS

Birger Nergaard

INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL STATEMENT

To the Limited Partners of Verdane Capital VIII K/S.

Independent auditor's report on the financial statements

We have audited the financial statements of Verdane Capital VIII K/S for the financial year 1 January 2015 – 31 December 2015, which comprise a summary of comprehensive income statement, balance sheet, cash flow statement, accounting policies and notes. The financial statements are prepared in accordance with the International Financial Reporting Standards, which is approved in EU and further disclosure requirements according to the Danish Financial Statements Act.

Management's responsibility for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with International Financial Reporting Standards, which is approved in EU and further disclosure requirements according to the Danish Financial Statements Act. Management is also responsible for such internal control that Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing and additional requirements under Danish audit regulation. This requires that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance as to whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by Management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Our audit has not resulted in any qualifications.

INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL STATEMENT

Opinion

In our opinion, the Financial Statements give a true and fair view of the financial position at 31 December 2015 of the Company and of its results of the Company's operations and cash flows for 2015.

Statement on the Management's Review

Pursuant to the International Financial Reporting Standards and further disclosure requirements according to the Danish Statements Act, we have read the Management's review. We have not performed any other procedures in addition to the audit of the financial statements. On this basis, it is our opinion that the information provided in the Management's review is consistent with the financial statements.

REVIEW

Principal activities of the Company

The Company contributes venture capital to competitive enterprises.

Development in activities and financial matters

The Company's financial position and the result of the year will be shown in the following income statement of the financial year 1 January 2015 - 31 December 2015 and the balance sheet as per 31 December 2015.

The past year and follow-up on development expectations from last year

At the end of 2015, the portfolio was valued at a 1.3x multiple to cost. The positive value development in 2015 was mainly driven by improved operating performance across the portfolio, both in terms of revenue and profitability, and an exit of one holding in the first quarter of the year.

In total, three new investments were added to the portfolio, of which two were direct investments and one was a portfolio investment that closed in the fourth quarter of the year. To support growth and value creation in the portfolio, several follow-on investments were made during 2015.

The Company's net profit was MSEK 76, which is considered satisfactory by the Management.

Employees

There have been no employees in the Company during the period.

Consolidated financial statements

The Company meets the conditions of being an investment entity and is exempt from preparing consolidated financial statements for 2014. For further explanation, please refer to the disclosures.

FINANCIAL HIGHLIGHTS

Financial Highlights

The financial highlights and ratios for the Fund per December 31, 2015, were as follows:

NOTES TO THE FINANCIAL STATEMENTS

1. Summary of significant accounting policies

General information

The Annual Report of the Company has been prepared in accordance with the provisions of the International Financial Reporting Standard which is approved by the EU and further disclosure requirements according to the Danish Financial Statements Act for Class B companies.

The Annual Report is prepared in TSEK which is the functional currency of the Company.

Currency exchange rate (SEK/DKK):

31/12/15: 81.22

31/12/14: 78.56

The most significant elements of the accounting principles applied are described below.

New standards, amendments and interpretations not yet adopted

A number of new standards and amendments to standards and interpretations are effective for annual periods beginning after 1 January 2015, and have not been applied in preparing these financial statements. None of these is expected to have a significant effect on the financial statements.

There are no IFRSs or IFRIC interpretations that are not yet effective that would be expected to have a material impact on the financial statements.

However, as of next year, the Company has to comply with the requirements of IAS 24 – Related Party Transactions. Where an entity receives management personnel services from a third party (management entity, in this case the General Partner Company), the fees paid for those services must be disclosed by the entity.

NOTES TO THE FINANCIAL STATEMENTS

Explanation on omitting consolidated financial statements

Verdane Capital VIII K/S has multiple unrelated investors and holds multiple investments in both subsidiaries and in associates. The Company has been deemed to meet the definition of an investment entity per IFRS 10 as the following conditions exist:

- 1) The Company has obtained funds for the purpose of providing investors with professional investment management services,
- 2) the Company's business purpose, which was communicated directly to investors, is investing for capital appreciation and investment income and
- 3) the investments are measured and evaluated on a fair value basis.

As the Company meets the conditions above, it is exempt from consolidating its subsidiaries. Instead, it records its controlled investments as financial assets at fair value through profit or loss.

Foreign currency translation

Transactions denominated in foreign currencies are translated at the exchange rates at the date of the transaction.

Receivables, liabilities and other items in foreign currencies which have not been settled at the balance sheet date are translated at the exchange rates at the balance sheet date.

Realised and unrealised exchange rate adjustments are included in the income statement as financial income/expenses.

NOTES TO THE FINANCIAL STATEMENTS

Balance sheet

Investments in portfolio companies etc.

Investments in subsidiaries, associates, other securities and investments comprise investments in portfolio companies and are measured at fair value on the balance sheet date. Value adjustments are recognised in the income statement.

Investments in portfolio companies are measured according to the guidelines of the “International Private Equity and Venture Capital” (IPEV) “Valuation Guidelines” which is why investments are recognised at fair value at the balance sheet date.

Investments in portfolio companies traded in an active market are measured on the basis of the last market price. Unlisted portfolio companies are valued either by way of a capital increase round or part sale based on the value of comparable companies as well as by applying traditional measurement methods.

Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets traded in active markets (such as publicly traded derivatives and equity securities publicly traded on a stock exchange) are based on quoted market prices at the close of trading on the reporting date.

Fair value for unlisted equity securities are determined by the General Partner using valuation techniques. Such valuation techniques may include earnings multiples and discounted cash flows. The Partnership adjust the valuation model as deemed necessary for factors such as non-maintainable earnings, tax risk, growth stage and cash traps.

In determining fair value, the General Partner in many instances relies on the financial data of investee portfolio companies and on estimates by the management of the investee portfolio companies as to the effect of future developments. Although the General Partner uses its best judgement, and cross-references results of primary valuation models against secondary models in estimating the fair value of investments, there are inherent limitations in any estimation techniques.

The fair value estimates presented herein are not necessarily indicative of an amount the Partnership could realise in a current transaction. Future confirming events will also affect the estimates of fair value. The effect of such events on the estimates of fair value, including the ultimate liquidation of investments, could be material to the financial statements.

Receivables

Receivables are measured at amortised cost. Write-downs for bad debt are based on individual assessment of receivables.

Liabilities

Liabilities are measured at amortised cost equal to nominal value.

NOTES TO THE FINANCIAL STATEMENTS

Comprehensive income statement

Value adjustments of investments

The value adjustment of investments in to portfolio companies comprises value adjustment realized on sale and value adjustments unrealized on any revaluation or impairment of investments in portfolio companies at fair value. Dividend received from investments are included in value adjustments.

Management fee

Management fee comprises of management fee for the period calculated according to the Limited Partnership Agreement.

Administrative expenses

Administrative expenses comprise expenses for establishing the Company and managing the operations of the company, including audit costs, legal advisors and other general expenses.

Financial items

Financial income and expense and similar items are recognised in the income statement with the amounts relating to the reporting period. Net financials include interest income and expense and realised and unrealised exchange rate gains and losses on foreign currency transactions.

Tax on profit/loss for the year

The Company is not independently liable to tax and consequently tax has not been recognized.

Cash Flow Statement

The cash flow statement shows the Company's cash flows for the year broken down by operating and financing activities, changes for the year in cash and cash equivalents as well as the Company's cash and cash equivalents at the beginning and end of the year.

Cash flows from operating activities are calculated as the net profit/loss for the year adjusted for changes in working capital and non-cash operating items. Working capital comprises current assets less short-term debt excluding items included in cash and cash equivalents.

Cash flows from financing activities comprise cash flows from payments/distributions and contributions to and from shareholders/limited partners.

Cash and cash equivalents comprise "Cash at bank and in hand" as well as balances in "Other credit institutions". The cash flow statement cannot be immediately derived from the published financial records.

Critical accounting estimates and judgments

Verdane Capital VIII K/S makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are to be reasonable under the circumstances. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are presented below.

Fair value of investments

The fair value of securities that are not quoted in an active market are determined by using valuation techniques described below. The Company's general partner seeks to adhere both to Invest Europe, previously The European Venture Capital Association (EVCA) reporting standards and to the IPEV Valuation Guidelines. The EVCA reporting standards are in line with IFRS.

NOTES TO THE FINANCIAL STATEMENTS

The general partner has chosen to adopt different valuation techniques depending on the portfolio company. For holdings with substantial and sustainable cash flow or earnings, the general partner has adopted a valuation technique using averages of P/E and EBITDA. For holdings without significant profits or positive cash flow, the general partner has maintained cost or the price of a recent investment or the use of multiples based on revenues. Please refer to note 4 for further details on the valuations models and processes.

2. Financial risks and financial instruments

The objective of the Partnership is to achieve medium to long-term capital growth through investing in a selection of unlisted private companies operating mainly in the Nordic market.

The Partnership's activities expose it to a variety of financial risks: operating risk, market risk, foreign exchange risk, interest rate risk and credit risk.

Special operating risks, market risks and credit risks

Operating risks

The object of the Company is to contribute venture capital to competitive enterprises. The most important risk factor is therefore changes in the value of the investments made in portfolio companies.

Market risks

The Partnership's Investment Advisor, Verdane Capital Advisors AS, provides the General Partner and Partnership with investment recommendations. The Investment Advisor's recommendations are reviewed and approved by the General Partner before the investment decisions are implemented. To manage the market price risk, the Investment Advisor, as engaged by the General Partner to do so, reviews the performance of the portfolio companies on a quarterly basis and is often in contact with the management of the portfolio companies for business and operational matters. Any relevant results of these reviews are communicated to the General Partner.

The portfolio of investments is well diversified among various industries. However, the majority of the investments are still in the Nordics and a negative event in the Nordic capital markets would most likely affect the financing and/or exit possibilities in general.

Foreign exchange risks

As the fund operates in their functional currency, besides when investing in portfolio companies, the Company face no foreign exchange risk.

Interest rate risks

The Company is less sensitive to changes in the interest level. Cash carries current interest at fixed-term deposits.

Credit risks

The Company has no significant receivables, why the credit risk is minimal.

Capital risk management

The capital of the Partnership is represented by the net assets attributable to the partners. The Partnership's objective when managing the capital is to safeguard the ability to continue as a going concern in order to provide returns for partners and benefits for other stakeholders and to maintain a strong capital base to support the development of the investment activities of the Partnership. In order to maintain or adjust the capital structure, the General Partner may call unfunded commitment from the limited partners or distribute funds to the limited partners.

NOTES TO THE FINANCIAL STATEMENTS

3. Fair value estimation

The valuations process

The valuations are prepared by the relevant team of the Investment Advisor and are reviewed on a quarterly basis as well as per year end by the Investment Advisor's valuation committee who report and make recommendations to the general partner. The recommendations are reported to the General Partner on a quarterly basis, in line with the quarterly valuations that are provided to investors. The valuation committee considers the appropriateness of the valuation model itself, the significant and key inputs as well as the valuation results using various valuation methods and techniques generally recognized as standard within the industry. The fair value estimates are measured according to the guidelines of the "International Private Equity and Venture Capital" (IPEV) "Valuation Guidelines" which is why investments are recognized at fair value at the balance sheet date.

In determining the valuation recommended to the General Partner for Partnership's investments, the Investment Advisor utilizes comparable trading multiples in arriving at the valuation. In accordance with the Partnership's policy the Investment Advisor determines appropriate public companies based on industry, size, development stage, revenue generation and strategy. The Investment Advisor then calculate a trading multiple for each comparable company identified. The multiple is calculated by dividing the enterprise value (EV) with EBITDA or Sales. The trading multiple is the adjusted or the enterprise value is then adjusted for discounts/premium with regards to such considerations as illiquidity and other differences, advantages and disadvantages between the Partnership's portfolio company and the comparable public companies based in company specific facts and circumstances.

In determining the continued appropriateness of the chosen valuation techniques, the valuation committee may perform back testing to consider the various models' actual results and how they have historically aligned with the market transactions.

Fair value hierarchy for financial instruments

International Financial Reporting Standards require Verdane Capital VIII K/S to classify, for disclosure purposes, fair value measurements using a fair value hierarchy that reflects the significance of inputs used in making the measurements. The fair value hierarchy has the following levels:

NOTES TO THE FINANCIAL STATEMENTS

- Level 1: inputs are quoted (unadjusted) in active markets for identical assets or liabilities that Verdane Capital VIII K/S can access at the measurement date;
- Level 2: inputs are inputs other than quoted prices included within level 1 that are observable for the assets or the liability, either direct or indirect;
- Level 3: inputs are unobservable inputs that have been applied in valuing the respective asset or liability.

The determination of what constitutes “observable” requires significant judgement by Verdane Capital VIII K/S. The Company considers observable data to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary and provided by independent sources that are involved in the relevant market.

The following table shows the classification of the financial instruments, measured at fair value. The values is classified in respect of the fair value hierarchy.

	Level 1 MSEK	Level 2 MSEK	Level 3 MSEK	Total MSEK
2015				
Unquoted investments (portfolio Companies)	74.4	0	666.7	741.1
Financial instruments, measured at fair value	74.4	0	666.7	741.1
2014				
Unquoted investments (portfolio Companies)	0	0	425.2	425.2
Financial instruments, measured at fair value	0	0	425.2	425.2

Significant unobservable inputs at level 3

Investments classified within level 3, has been valued based on significant unobservable inputs, as they trade infrequently. As quoted market prices are not available these investments, the general partner has used valuation techniques to determine fair value. In order to asses the valuation made for investments within level 3, the Investment Advisor reviews the performance of the portfolio companies. Furthermore the Investment Advisor is regularly in contact with the management of the portfolio companies in order to make assessments of business and operational matter which are considered in the valuation process. Where appropriate the Investment Advisor also track peer group company multiples, recent transaction results and credit ratings for similar companies.

	EV/EBITDA Range used	EV/EBITDA Weighted average	EV/S Range used	EV/S Weighted average
Level of applied multiples, 2015	N/A	N/A	0.6 – 1.3	1.1
Level of applied multiples, 2014	N/A	N/A	0.7 – 1.2	1.1

NOTES TO THE FINANCIAL STATEMENTS

Sensitivity analyse

The fair value of the Company's portfolio Companies is affected by the development in applied multiples. A change in significant unobservable input will have an affect on the valuation of the portfolio Companies, as well as the fair value will be affected of development in general macro – economic conditions.

A change of applied multiples of 10 % will have the following effect on the fair value.

Change in applied multiples of 10 %, 2015	25.6	MSEK
Change in applied multiples of 10 %, 2014	19.4	MSEK

Total fair value adjustment of investments includes MSEK 132.2 in unrealized fair value adjustment.

4. Financial assets at fair value through profit or loss

Industry of investment	Stage of initial investment	Geography	2015		2014	
			Cost of investment	Fair value	Cost of investment	Fair value
			MSEK	MSEK	MSEK	MSEK
E-commerce	Growth	Scandinavian	159.9	233.0	68.8	59.8
	Mature	Scandinavian	208.5	287.0	132.4	197.2
ICT	Growth	Scandinavian	89.3	125.0	49.3	37.7
Core Candidates		Scandinavian	105.6	96.1	93.9	130.5
Total portfolio			563.3	741.1	344.4	425.2

Industry of investment

The holdings are monitored based on a company classification and by different sector teams. All core companies are categorized within software, consumer internet, energy and industrial.

All portfolio companies are categorized in groups. The groups are Core Companies and Core Candidates, where Core Companies are considered to become the value drivers in the portfolio and therefore are managed and monitored more closely than the Core Candidates.

Stage of investment

Portfolio companies are at various stages of development and categorized from early stage investments as Venture (up to MSEK 25 in revenue) to Growth companies (revenue between MSEK 25-100) and then finally Mature companies (revenue exceeds MSEK 100). An understanding of the stage of investment influences how a company can develop and why, to whom, and at what value, a liquidity event is likely to occur.
