Statement by the General Partner

The General Partner has today discussed and approved the annual report of Frontier Energy II Alpha K/S for the financial year 1 January – 31 December 2021.

The annual report has been prepared in accordance with the International Financial Reporting Standards (IFRS) as adopted by the EU and additional requirements in the Danish Financial Statements Act.

It is our opinion that the financial statements give a true and fair view of the limited partnership's financial position at 31 December 2021 and of the results of the limited partnership's operations and cash flows for the financial year 1 January – 31 December 2021.

Further, in our opinion, the Management's review gives a fair review of the development in the limited partnership's operations and financial matters and the results of the limited partnership's operations and financial position.

We recommend that the annual report be approved at the annual general meeting.

Copenhagen, 31 March 2022

Independent auditor's report

To the limited partners and the general partner of Frontier Energy II Alpha K/S

Opinion

We have audited the financial statements of Frontier Energy II Alpha K/S for the financial year 1 January – 31 December 2021, which comprise statement of comprehensive income, statement of financial position, statement of changes in equity and capital commitment, statement of cash flows and notes, including accounting policies. The financial statements are prepared in accordance with International Financial Reporting Standards as adopted by the EU and additional requirements of the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the financial position of the limited partnership at 31 December 2021 and of the results of the limited partnership's operations and cash flows for the financial year 1 January – 31 December 2021 in accordance with International Financial Reporting Standards as adopted by the EU and additional requirements of the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Statement on the Management's review

Management is responsible for the Management's review.

Our opinion on the financial statements does not cover the Management's review, and we do not express any assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the financial statements, or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the Management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatements of the Management's review.

Independent auditor's report (continued)

Management's responsibilities for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with International Financial Reporting Standards as adopted by the EU and additional requirements of the Danish Financial Statements Act and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the limited partnership's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the limited partnership or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit conducted in accordance with ISAs and additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the limited partnership's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the limited partnership's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the limited partnership to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the financial statements, including the note disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

Independent auditor's report (continued)

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Management's review

Operating review

Principal activities

Frontier Energy II Alpha K/S is a private equity limited partnership, which was established on 15 December 2016.

The objective of Frontier Energy II Alpha K/S is to achieve the highest possible financial return on the commitments of the partners by making, developing and realising investments in renewable energy and energy efficiency assets in countries in Sub-Saharan Africa.

Frontier Energy II Alpha K/S has capital commitments totalling USD 202,904 thousand.

An Investment Management Agreement has been entered into with Frontier Investment Management ApS, under which Frontier Investment Management ApS as Investment Manager is responsible for the administration of and for providing investment advisory services to Frontier Energy II Alpha K/S. The limited partnership has therefore no employees.

Development in financial position

During 2021, Frontier Energy II Alpha K/S invested an additional USD 13,486 thousand (2020: USD 11,848 thousand) in portfolio companies and related projects.

In 2021, four projects (Cedate, Kakaka, Rewenzori and Selenkei) started commercial operation.

Profit for the year

In 2021, value adjustment of investments in portfolio companies amounted to USD 18,679 thousand (2020: USD 1,692 thousand).

In 2021, Frontier Energy II Alpha K/S realised a profit of USD 16,875 thousand (2020: profit of USD 425 thousand). Cost of USD 3,811 thousand relates to management fee, including VAT (2020: USD 3,867 thousand) and USD 50 thousand relates to general partner fee (2020: USD 47 thousand).

Balance sheet and capital structure

At 31 December 2021, the limited partnership had called a total net amount of USD 124,022 thousand (31 December 2020: USD 96,845 thousand) of the total capital commitment of USD 202,904 thousand, corresponding to 61% (31 December 2020: 48%).

At year-end 2021, total equity (net asset value) amounted to USD 132,690 thousand (31 December 2020: USD 89,186 thousand).

Management's review

Operating review (continued)

Uncertainty about the measurement of investments

Portfolio companies are small or medium-sized, unlisted companies which develop or operate projects within renewable energy, energy efficiency, and carbon credit-generating assets in countries in Sub-Saharan Africa. The investments are measured at fair value. As there is no active market for such or similar assets, the fair value of the investments, including receivables from the portfolio companies, is determined using valuation methods and assumptions made by management. Accordingly, the measurement of the investments, including receivables from the portfolio companies, is by nature subject to uncertainty.

The investments are subject to individual risks, including but not limited to local operational risks, environmental risks, political risks, social risks as well as compliance risks and other related risks for development projects within the renewable energy sector in countries in Sub-Saharan Africa. In determining the fair value of the investments, management considers the impact from these risks. The risks may potentially materialize negatively compared to the investment managers expectations, adversely impacting the fair value.

Environmental aspects and Corporate Social Responsibility

Frontier Energy is dedicated to developing and implementing projects that are environmentally and socially sustainable. When developing and building a project, Frontier strives to benefit the neighbouring community and to adhere to global best practice, including IFC performance standards. As part of this work, Frontier's community relationship officers engage with the neighbouring community and make an Environmental & Social Impact Assessment.

Events after the balance sheet date

No events have occurred after the balance sheet date that may have a significant influence on the assessment of the annual report.

Outlook

The limited partnership expects to make additional investments in the coming years. The limited partnership will call capital from the limited partners as needed in connection with the ongoing execution of activities in accordance with the Limited Partnership Agreement.

The future results of the limited partnership depend, in all material respects, on the development in the value of the limited partnership's investments in portfolio companies. The implications of the ongoing war in Ukraine and the corresponding sanctions imposed on Russia, etc., have led to a significant increase in energy and commodity prices. The future development of the war and the increasing geopolitical tensions, including the economic effects on the fund's investments are uncertain.

Financial statements for the period 1 January – 31 December

Notes to the financial statements

1 Summary of significant accounting policies

Corporate information

The financial statements of Frontier Energy II Alpha K/S(the limited partnership) for the year ended 31 December 2021 were approved and authorised for issue by the General Partner on 31 March 2022. Frontier Energy II Alpha K/S is a limited partnership incorporated and domiciled in Denmark.

Basis of preparation

The separate financial statements of Frontier Energy II Alpha K/S (the limited partnership) have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the EU and the provisions applying to reporting class b-sized enterprises under the Danish Financial Statements Act. These separate financial statements have been prepared as the only financial statements of the limited partnership.

The financial statements are prepared based on the standards and interpretations that are effective as of 31 December 2021. The accounting policies are unchanged from 2020.

The separate financial statements have been prepared on a historical-cost basis, except for financial assets held at fair value through profit or loss. The separate financial statements are presented in USD and all values are rounded to the nearest thousand USD, except where otherwise indicated.

Group structure and activity

The limited partnership is an investment entity. Accordingly, the limited partnership has decided to use the exemption in IFRS 10 to not prepare consolidated financial statements and instead the controlled subsidiaries are accounted for at fair value through profit or loss in accordance with IFRS 9.

Functional and presentation currency

The limited partnership's majority of returns are USD related, the capital is raised in USD and the performance is evaluated in USD terms and the liquidity of the limited partnership is also managed in USD. Therefore, the limited partnership concludes that USD is its functional currency. The limited partnership's presentation currency is also USD.

Statement of comprehensive income

Foreign currency translation

Transactions denominated in foreign currencies (non-USD) are translated at the exchange rates at the transaction date. Foreign exchange differences arising between the exchange rates at the transaction date and at the date of payment are recognised in the income statement as financial income or financial expenses.

Receivables and payables and other monetary items denominated in foreign currencies (non-USD) are translated at the exchange rates at the balance sheet date. The difference between the exchange rates at the balance sheet date and at the date at which the receivable or payable arose is recognised in the income statement as financial income or financial expenses.

Financial statements for the period 1 January – 31 December

Notes to the financial statements

1 Summary of significant accounting policies (continued)

Value adjustment of investments in portfolio companies

Realised and unrealised fair value adjustments of investments in portfolio companies, including receivables from portfolio companies and loans are recognised in a separate item in the income statement.

Fees, set-up costs and other external costs

Other external costs include travel, administration, auditor and legal, costs for broken deals, etc. Fees are recognised on an accrual basis.

Financial income and expenses

Financial income and expenses comprise interest income and expenses, realised and unrealised gains and losses on securities as well as payables and transactions denominated in foreign currencies (non-USD).

Statement of financial position

Investments

Investments in portfolio companies

Portfolio companies are the companies in which the limited partnership invests in order to create added value for the investors of the limited partnership.

In accordance with the exception under IFRS 10 Consolidated Financial Statements, the limited partnership does not consolidate subsidiaries in the separate financial statements. Investments in subsidiaries are accounted for as financial instruments at fair value through profit or loss in accordance with IFRS 9.

In accordance with the exception within IAS 28 Investments in Associates and Joint Ventures, the limited partnership does not account for its investments in associates using the equity method. Instead, the limited partnership has elected to measure its investments in associates at fair value through profit or loss.

Initial measurement

Investments in portfolio companies, comprising subsidiaries and their investments in subsidiaries as well as associates, are upon initial recognition measured at fair value, typically based on cash injections into the portfolio companies or the fair value of contributions-in-kind into the portfolio companies (typically equal to the monetary equivalent of directly attributable costs incurred by the limited partnership on behalf of the portfolio companies for the development of new projects, including detailed technical and commercial evaluations, environmental approvals and other licenses, etc., related to the project activities of the portfolio companies).

For new projects under development, directly attributable project costs incurred are recognised as prepayments, when there is a high probability that a project will be implemented through the establishment or acquisition of a portfolio company.

Subsequent measurement

Subsequently, investments in portfolio companies are measured at fair value through profit or loss. Value adjustments are recorded in the income statement.

Dividends from investments in portfolio companies are recognised in the income statement at the time of declaration (usually at the time of adoption at the annual general meeting).

Financial statements for the period 1 January – 31 December

Notes to the financial statements

1 Summary of significant accounting policies (continued)

Fair value measurement

The limited partnership measures its investments in subsidiaries and associates at fair value at each reporting date.

For fair value of investments in portfolio companies, including receivables from portfolio companies and loans, reference is made to note 6.

Receivables from portfolio companies and loans

In addition to equity investments, the limited partnership holds investments in receivables and loans on a fair value basis for investment income and fair value gains. The receivables from portfolio companies and loans are managed, and its performance evaluated, on a fair value basis.

Initial measurement

Receivables from portfolio companies and loans are recognised at the trade date, initially measured at fair value.

Subsequent measurement

Subsequently, receivables from portfolio companies and loans are measured at fair value through profit or loss. Value adjustments are recorded in the income statement.

Other receivables

Other receivables are recognised at the trade date, initially measured at fair value.

The limited partnership holds other receivables other than those classified at fair value through profit and loss with the objective of collecting the contractual cash flows, and therefore, measures them subsequently at amortised cost using the effective interest method.

The limited partnership applies the simplified approach to measure the expected credit loss and a lifetime expected loss allowance for all other receivables.

The limited partnership's approach to expected credit loss reflects a probability-weighted outcome, the time value of money and reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

As a practical expedient and due to the limited number of other receivables, the expected credit loss is based on days past due, historically observed loss rates, the nature of the other receivable and adjusted for forward-looking factors specific to the debtor and the economic environment.

Financial liabilities

Non-current liabilities are recognised at the date of borrowing at the net proceeds received less transaction costs paid. In subsequent periods, the financial liabilities are measured at amortised cost using the effective interest method. Accordingly, the difference between the proceeds and the nominal value is recognised in the income statement under financial expenses over the term of the loan.

Other financial liabilities are measured at amortised cost.

Tax

The limited partnership is not an independent tax entity, and therefore tax is not recognised in the financial statements.

Financial statements for the period 1 January – 31 December

Notes to the financial statements

1 Summary of significant accounting policies (continued)

Statement of cash flows

The cash flow statement shows the limited partnership's cash flows from operating, investing and financing activities for the year, the year's changes in cash and cash equivalents as well as the limited partnership's cash and cash equivalents at the beginning and the end of the year.

Cash flows from operating activities

Cash flows from operating activities are calculated as profit/loss for the year adjusted for non-cash operating items and changes in working capital, excluding payments in connection with acquisition and disposal of portfolio companies.

Cash flows from investing activities

Cash flows from investing activities comprise cash payments in connection with acquisition and disposal of portfolio companies, etc., including loans in this respect.

Cash flows from financing activities

Cash flows from financing activities comprise payment of contributed capital as well as rising of loans, repayment of interest-bearing debt, and payments to limited partners.

Cash and cash equivalents

Cash and cash equivalents comprise cash and bank overdraft facilities used as part of the short-term liquidity management.

Financial statements for the period 1 January – 31 December

Notes to the financial statements

2 Significant accounting judgements, estimates and assumptions

The preparation of the limited partnership's financial statements requires Management to make judgements, estimates and assumptions that affect the reported amounts recognised in the financial statements and disclosure of contingent liabilities. However, uncertainty as to these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Judgements

In the process of applying the limited partnership's accounting policies, Management has made the following judgements, which have impacted the amounts recognised in the financial statements at the most:

Assessment as investment entity

Entities that meet the definition of an investment entity within IFRS 10 are required to measure their subsidiaries at fair value through profit or loss (FVPL) rather than to consolidate them. The criteria which define an investment entity are, as follows:

- An entity that obtains funds from one or more investors for the purpose of providing those investors with investment management services
- An entity that commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income, or both
- An entity that measures and evaluates the performance of substantially all of its investments on a fair value basis

The Limited Partnership Agreement details the limited partnership's objective of achieving the highest possible financial return on the commitments of the limited partners (investors) by making, developing and realising investments in renewable energy and energy efficiency assets in countries located in Sub-Saharan Africa.

The limited partnership reports to its investors via quarterly investor information. All investments are reported at fair value to the extent allowed by IFRS in the limited partnership's annual report.

Management has also concluded that the limited partnership meets the additional characteristics of an investment entity, in that it has more than one investment; the limited partnership's ownership interests are predominantly in the form of equities and convertible shareholder loans; it has more than one investor and has investors that are not related parties.

Management has concluded that the limited partnership meets the definition of an investment entity.

Estimates and assumptions

The key assumptions concerning future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below. The limited partnership based its assumptions and estimates on parameters available when the financial statements were prepared. However, existing circumstances and assumptions about future developments may change due to market changes or circumstances arising beyond the control of the limited partnership. Such changes are reflected in the assumptions when they occur.

Fair value

For fair value of investments in portfolio companies, including receivables from portfolio companies and loans, reference is made to note 6.

Financial statements for the period 1 January – 31 December

Notes to the financial statements

3 Standards issued but not yet effective

In the opinion of Management, no standards or interpretations that are issued, but not yet effective, up to the date of issuance of the limited partnership's financial statements, will significantly impact the limited partnership.

The limited partnership measures its investments at fair value at each reporting date.

Financial statements for the period 1 January – 31 December

Notes to the financial statements

6 Investments (continued)

Net changes in fair value of financial assets and financial liabilities through profit or loss can be specified as:

USD'000	2021	2020
Realised value adjustments for the year	0	0
Unrealised value adjustments for the year	18,679	1,692
Value adjustment of investments	18,679	1,692

Fair value of investments

Equity investments in portfolio companies, including receivables from portfolio companies and loans are measured at fair value through profit or loss. The valuation of investments is based on the valuation prepared by the Investment Manager.

The fair value of the investments is determined using valuation methods and assumptions made by management that best reflects the risks and the stage of development of the investment. The assumptions include energy prices, inflation rates, technical availability and discount rates. In general, the fair value is determined in accordance with IPEV Valuation Guidelines and generally accepted valuation techniques, including discounted cash flow models, benchmarking or other relevant methods.

For projects which have commenced commercial operations, the fair value is determined using discounted cash flows based on the expected cash flows generated from the underlying assets during the operational life. The cash flow projections are based on expected production and contractually agreed prices. The projected cash flows are discounted using the weighted average cost of capital (WACC). The rate of return (WACC) is in the range 6-11% after tax.

The discount rate is based on multiple inputs, including country risk premium, risk-free rate, unlevered beta, cost of equity, cost of debt and equity/debt ratio. In connection with the year-end closing, Management has updated inputs for the calculation of the discount rate. In addition, Management has obtained input from other transactions in East Africa occurring for similar types of projects. It is not possible to obtain benchmarks for sale of projects in operation. Thus, inputs from other transactions have only been used as a benchmark for the calculated discount rate. The Investment Manager is of the opinion that there is a general tendency for increasing appetite for investment in renewables among private as well as publics sector investors in East Africa. Further, the Investment Manager is of the opinion, that the overall trend in terms of return levels for the region is decreasing.

The following inputs have been used by the Investment Manager:

- Country risk premium is set between 5-6%. The risk premium is based on ratings based on credit default swaps and the relative volatility for the specific countries.
- Unlevered beta below 0.5 based on an assessment of the general risk in relation to the independent power producer. This is substantiated by the fact that the generation of revenue is expected to be relatively stable in volume and price, including long-term agreement with typically one customer (the local off-taker) which is expected to consume all the power generated by the independent power producer.
- Cost of debt is set based on the interest rates for the external loans used to fund the specific project.
- Equity/debt ratio is set based on the target capitalization of the portfolio company

For projects under development which have not started commercial operations, the fair value of the investments is typically not considered to be significantly different from the cost of the investments. In determining the fair value, management considers relevant comparable market transactions or share capital issuances with third parties, adjusted as necessary, as well as development progress and the risks relating to successfully completing the development of the projects that may adversely impact the fair value of the investments during the development phase.

Financial statements for the period 1 January – 31 December

Notes to the financial statements

6 Investments (continued)

Investments are classified based on the fair value hierarchy, see below:

Level 1: Value in an active market for similar assets/liabilities

Level 2: Value based on recognised valuation methods on the basis of observable market information

Level 3: Value based on recognised valuation methods and reasonable estimates (non-observable market information).

The following table shows the classification of financial instruments recognised at fair value:

USD'000	2021			
	Level 1	Level 2	Level 3	Total
<i>Investments</i>				
Equity investments in portfolio companies	0	0	39,106	39,106
Receivables from portfolio companies and loans	0	0	85,582	85,582
Total financial assets	0	0	124,688	124,688
 <i>2020</i>				
USD'000	2020			
	Level 1	Level 2	Level 3	Total
<i>Investments</i>				
Equity investments in portfolio companies	0	0	21,346	21,346
Receivables from portfolio companies and loans	0	0	68,784	68,784
Total financial assets	0	0	90,130	90,130

The limited partnership's investments are not quoted in an active market and transactions in such investments do not occur on a regular basis. Therefore, the limited partnership classifies the fair value of these investments as Level 3.

The following table shows a reconciliation from the opening balance to the closing balance for fair value measurements in Level 3 of the fair value hierarchy.

USD'000	2021		
	Equity investments in portfolio companies	Receivables from portfolio companies and loans	Total
Balance at 1 January	21,346	68,784	90,130
Total gains or losses*	19,937	1,135	21,072
Purchases	3,149	10,337	13,486
Reclassifications	-5,326	5,326	0
Total financial assets	39,106	85,582	124,688

Financial statements for the period 1 January – 31 December

Notes to the financial statements

6 Investments (continued)

USD'000	2020		
	Equity investments in portfolio companies	Receivables from portfolio companies and loans	Total
Balance at 1 January	14,576	59,424	74,000

Purchases	5,264	6,584	11,848
Reclassifications	-186	186	0
Total financial assets	21,346	68,784	90,130

* All gains and losses are recognised as value adjustment of investments in portfolio companies or interest income in the profit and loss. 0 (nil) is recognised in Other comprehensive income.

There are no transfers into or out of level 3 in 2021 and 2020.

Uncertainty about the measurement of investments

Portfolio companies are small or medium-sized, unlisted companies which develop or operate projects within renewable energy, energy efficiency, and carbon credit-generating assets in countries in Sub-Saharan Africa. The investments are measured at fair value. As there is no active market for such or similar assets, the fair value of the investments, including receivables from the portfolio companies and loans, is determined using valuation methods and assumptions made by management. Accordingly, the measurement of the investments, including receivables from the portfolio companies and loans, is by nature subject to uncertainty.

The investments are subject to individual risks, including but not limited to local operational risks, environmental risks, political risks, social risks as well as compliance risks and other related risks for development projects within the renewable energy sector in countries in Sub-Saharan Africa. In determining the fair value of the investments, management considers the impact from these risks. The risks may potentially materialize negatively compared to the investment managers expectations, adversely impacting the fair value.

Financial statements for the period 1 January – 31 December

Notes to the financial statements

6 Investments (continued)

The limited partnership meets the definition of an investment entity. Therefore, it does not consolidate its subsidiaries, but recognises them (including related receivables and associates) as investments at fair value through profit or loss. At 31 December 2021, the limited partnership had invested in the following portfolio companies:

Subsidiaries and associates	Country	Ownership interest a)	Equity (100%/ USD'000)	Profit/loss for the year (100%/ USD'000)	Operational start	Investment project description
Rwenzori Hydro Power Ltd. ⁽¹⁾	Uganda	91%	16,431	1,345	Q3 2021	Operation of a hydro power plant

Management fee paid in advance to the Investment Manager		932	0

As of 31 December 2021, management fee of USD 932 thousand has been paid in advance in respect of services covering the period 1 January – 31 March 2022.

9 Capital management and contributed capital

For the purpose of the limited partnership's capital management, capital includes contributed capital and all other equity reserves attributable to the limited partners of the partnership. The committed capital from the limited partners amounted to USD 202,904 thousand at 31 December 2021, of which USD 78,882 thousand was uncalled. Quantitative information about the limited partnership's capital is provided in the statement of changes in equity and capital commitment and below.

The limited partnership's objective for managing capital is to achieve the highest possible financial return on the commitments of the limited partners by making, developing and realising investments in renewable energy and energy efficiency assets in countries located in Sub-Saharan Africa.

The limited partnership will call capital from the limited partners as needed in connection with the execution of activities in accordance with the Limited Partnership Agreement.

Total Other payables	82	294

11 Bank loans and overdrafts

USD'000

	2021	2020
Bank overdraft facility	0	584

12 Financial risk

The limited partnership's objective in managing risk is the creation and protection of the limited partners' investment and return. The limited partnership calls capital based on the limited partners' commitments for the use of making equity investments in portfolio companies. Some risks are inherent in the limited partnership's investment activities, refer to note 6 for details. The limited partnership is exposed to interest rate risk, liquidity risk, credit risk and currency risk.

Risk management structure

The limited partnership's Investment Manager is responsible for identifying and controlling risks and to secure that investments are made in accordance with the Limited Partnership Agreement. The established Investment Committee reviews all proposals made by the investment manager relating to the making or realizing of investments.

The general partner supervises the investment manager and is ultimately responsible and liable for the overall risk management of the limited partnership.

Risk mitigation

The limited partnership has investment policies that set out its overall business strategies, its risk tolerance and its general risk management philosophy for the investments. The Investment Manager assesses the risk profile before entering into investments.

Financial statements for the period 1 January – 31 December

Notes to the financial statements

12 Financial risk (continued)

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. We refer to note 6 for the exposures to investments in loans where the fair value of the investments is exposed to changes in interest rate risk. The loans are with fixed-interest rate terms.

The limited partnership has limited interest-bearing debt, and the limited partnership's interest rate risk primarily relates to the position of cash in banks and bank overdraft facility.

Liquidity risk

Liquidity risk is the risk that the limited partnership will not be able to meet its financial obligations as they fall due. The Investment Manager monitors risk of a shortage of funds on an ongoing basis. The general partner reviews the liquidity position on a quarterly basis based on the quarterly reports prepared by the Investment Manager.

The limited partnership will call capital from the limited partners based on an as-needed basis to enable the limited partnership to make investments, pay expenses incurred by the limited partnership and comply with any obligations undertaken.

The table below summarises the maturity profile of the limited partnership's financial assets and liabilities based on contractual undiscounted receipts and payments:

USD'000	Falling due within 1 year	Falling due between 1-5 years	Falling due after 5 years	No fixed maturity	Total	Carrying amount
2021						
<i>Investments</i>						
Equity investments in portfolio companies	0	0	0	39,106	39,106	39,106
Receivables from portfolio companies and loans	0	0	0	85,582	85,582	85,582
<i>Receivables</i>						
Receivables from limited partners	319	0	0	0	319	319
Other receivables	1,352	0	0	0	1,352	1,352
Cash at bank and in hand	0	0	0	5,687	5,687	5,687
Total financial assets	1,671	0	0	130,375	132,046	132,046
<i>Obligations</i>						
Payable to the Investment Manager	206	0	0	0	206	206
Payable to limited partners	0	0	0	0	0	0
Other payables	82	0	0	0	82	82
Bank overdrafts	0	0	0	0	0	0
Total financial liabilities	288	0	0	0	288	288

Repayment of receivables from portfolio companies and loans is depend on start of commercial operations. The actual repayment is further dependent on available liquid funds, including continued energy production and fulfilment of the power purchase agreements with the local off-taker when commercial operation has commenced. The total balance towards the individual portfolio company is therefore included as 'no fixed maturity' in above table.

Besides the financial assets and liabilities presented in the table above, the limited partnership has entered into certain agreements about investments in portfolio companies in which the limited partnership may be

Financial statements for the period 1 January – 31 December

Notes to the financial statements

12 Financial risk (continued)

committed to provide capital. The limited partnership will call capital from the limited partners as necessary to comply with these commitments. Refer to note 13 for further description.

Total financial liabilities	1,237	0	0	0	1,237	1,237

Credit risk

Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss for the limited partnership by failing to discharge an obligation. The limited partnership is exposed to the risk of credit-related losses that can occur as a result of a counterparty or limited partner being unable or unwilling to honour its contractual obligations. These credit exposures exist within receivables and cash and cash equivalents.

It is the limited partnership's policy to enter into financial instruments with reputable counterparties.

In 2021 and 2020, the limited partnership accounted for an impairment loss of receivables of USD 0 (nil).

The carrying amount of the limited partnership's financial instruments, as disclosed in the statement of financial position represents the maximum credit exposure, hence, no separate disclosure is provided. Reference is made to the statement of financial position.

Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates.

The limited partnership transacts in other currencies than USD, including DKK, EUR and local currencies in countries in Sub-Saharan Africa. In addition, a part amount of the limited partnership's expenses, are in DKK. Further, the limited partnership's investments (Investments in portfolio companies, receivables from porfolio companies and loans) are for some denominated in currencies other than USD.

Financial statements for the period 1 January – 31 December

Notes to the financial statements

12 Financial risk (continued)

Accordingly, the value of the limited partnership's assets may be affected favourable or unfavourable by fluctuations in currency rates. Therefore, the limited partnership will naturally be subject to foreign exchange risks.

The limited partnership does not hedge its exposure to foreign currency fluctuations.

The net exposure to currency risk during 2021 and 2020 is considered immaterial since loans to portfolio companies mainly are in USD. A sensitivity analysis is therefore not disclosed since the effects on the P&L will be immaterial.

There is no sensitivity effect on other comprehensive income as the limited partnership has no assets classified as fair value through other comprehensive income or designated hedging instruments.

13 Contingencies, etc.

The limited partnership has entered into an Investment Management Agreement with Frontier Investment Management ApS under which Frontier Investment Management ApS as investment manager is to be responsible for the administration of and for providing investment advisory services to Frontier Energy II Alpha K/S. If this agreement is terminated, the limited partnership may under certain circumstances be under an obligation to pay six months' management fees.

Portfolio transfer agreement

In 2017, the limited partnership entered into a portfolio transfer agreement with DI Frontier Market Energy & Carbon Fund K/S (the predecessor fund to Frontier Energy II Alpha K/S). According to this agreement, a part of the portfolio companies in DI Frontier Market Energy & Carbon Fund K/S, including related commitments, will be transferred to the limited partnership. The limited partnership expects that the transfer of remaining two portfolio companies under the portfolio transfer agreement will be finalised during 2022.

The agreed and transferred amounts hat the limited partnership and Frontier Energy II Beta K/S (the parallel partnership) has paied under the portfolio transfer agreement for the two portfolio companies is USD 759 thousand. At 31 December 2021, conditional commitments related to the two portfolio companies awaiting transfer to the limited partnership amounted to USD 2,451 thousand. At 31 December 2021, the pro-rate share between the partnerships is 89.35/10.65, respectively, for Frontier Energy II Alpha K/S and Frontier Energy II Beta K/S.

Commitments regarding investments in portfolio companies

The limited partnership and Frontier Energy II Beta K/S (the parallel partnership) have entered into certain agreements about investments in portfolio companies. At 31 December 2021, total unconditional commitments amounted to USD 1,380 thousand (31 December 2020: USD 2,357 thousand). At 31 December 2021, total conditional commitments amounted to USD 83,292 thousand (31 December 2020: USD 34,044 thousand), which the limited partnerships under certain conditions are committed to contribute to portfolio companies for project funding. At 31 December 2021, the pro-rate share between the partnerships is 89.35/10.65, respectively, for Frontier Energy II Alpha K/S and Frontier Energy II Beta K/S.

The limited partnership does not expect all conditional commitments to materialise and will call capital from the limited partners as needed based on the ongoing investment activities.

In connection with portfolio companies' construction of wind power plants located in Kenya (Chania Green Generation Limited (Chania), the limited partnership's bank has issued guarantees on behalf of the limited partnership to Kenya Power and Lightning. Further, in connection with the Planet Solar Energy Limited investment, a guarantee of USD 1,000 Thousand has been issued during 2021. At 31 December 2021, the total outstanding bank guarantees amounted to USD 4,398 thousand (31 December 2020: USD 3,681 thousand).

Financial statements for the period 1 January – 31 December

Notes to the financial statements

14 Related party disclosures
