Hansol Denmark ApS
Annual report 2019
CVR no. 35 47 33 78

Statement by the Executive Board

The Executive Board has today discussed and approved the annual report of Hansol Denmark ApS for the financial year 1 January – 31 December 2019.

The annual report has been prepared in accordance with the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent company financial statements give a true and fair view of the Group's and the Parent Company's assets, liabilities and financial position at 31 December 2019 and of the results of the Group's and the Parent Company's operations and consolidated cash flows for the financial year 1 January – 31 December 2019.

Further, in our opinion, the Management's review gives a fair review of the development in the Group's and the Parent Company's operations and financial matters, of the results for the year and of the Group's and the Parent Company's financial position.

We recommend that the annual report be approved at the annual general meeting.

Independent auditor's report

To the shareholders of Hansol Denmark ApS

Opinion

We have audited the consolidated financial statements and the parent company financial statements of Hansol Denmark ApS for the financial year 1 January – 31 December 2019 comprising income statement, balance sheet, statement of changes in equity and notes, including accounting policies, for the Group as well as for the Parent Company and a cash flow statement for the Group. The consolidated financial statements and the parent company financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent company financial statements give a true and fair view of the Group's and the Parent Company's assets, liabilities and financial position at 31 December 2019 and of the results of the Group's and the Parent Company's operations and consolidated cash flows for the financial year 1 January – 31 December 2019 in accordance with the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the consolidated financial statements and the parent company financial statements" section of our report.

We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these rules and requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's responsibility for the consolidated financial statements and the parent company financial statements

Management is responsible for the preparation of consolidated financial statements and parent company financial statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control that Management determines is necessary to enable the preparation of consolidated financial statements and parent company financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements and the parent company financial statements, Management is responsible for assessing the Group's and the Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the consolidated financial statements and the parent company financial statements unless Management either intends to liquidate the Group or the Company or to cease operations, or has no realistic alternative but to do so.

Independent auditor's report

Auditor's responsibilities for the audit of the consolidated financial statements and the parent company financial statements

Our objectives are to obtain reasonable assurance as to whether the consolidated financial statements and the parent company financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements in Denmark will always detect a material misstatement when it exists. Misstatements may arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these consolidated financial statements and parent company financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also

- identify and assess the risks of material misstatement of the consolidated financial statements and parent company financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Parent Company's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the consolidated financial statements and the parent company financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Parent Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements and the parent company financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Company to cease to continue as a going concern.
- evaluate the overall presentation, structure and contents of the consolidated financial statements and the parent company financial statements, including the disclosures, and whether the consolidated financial statements and the parent company financial statements represent the underlying transactions and events in a manner that gives a true and fair view.
- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Independent auditor's report

Statement on the Management's review

Management is responsible for the Management's review.

Our opinion on the consolidated financial statements and the parent company financial statements does not cover the Management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements and the parent company financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the consolidated financial statements or the parent company financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the Management's review is in accordance with the consolidated financial statements and the parent company financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of the Management's review.

Financial ratios are calculated in accordance with the guidelines "Recommendations and Ratios" issued by the Danish Society of Financial Analysts. The financial ratios have been calculated as follows:

Gross margin	$\frac{\text{Gross profit/loss} \times 100}{\text{Revenue}}$
Operating margin	$\frac{\text{Operating profit/loss} \times 100}{\text{Revenue}}$
Return on invested capital	$\frac{\text{Operating profit/loss} \times 100}{\text{Average invested capital}}$
Current ratio	$\frac{\text{Current assets} \times 100}{\text{Current liabilities}}$

Management's review

Operating review

The Group's principal activities

The Group's main activity is production and marketing of documentation paper rolls used in payment systems as well as production and marketing of self-adhesive labels used within food retail and the food industry and by logistic providers.

Development in activities and financial position

The Group generated revenue of DKK 800.3 million, and gross profit amounted to DKK 112.0 million compared with DKK 106.2 million in 2018. Revenue and gross profit are primarily affected by average sales prices, sales volume, raw material prices, and foreign exchange rate fluctuations in GBP and to a smaller extent in SEK. Volume and market share are substantially unchanged.

Profit from ordinary activities before financial expenses and tax amounted to DKK 24.5 million as against an amount of DKK 22.7 million in 2018. All companies in the group have shown progress and improved performance during 2019. Also in 2019, the paper market has maintained an increased price level for raw materials worldwide during 2018, which we have reflected in our local market and sales prices since 2018.

Results for the year after tax were positive at DKK 22.5 million as against DKK 20.9 million in 2018. Besides the fluctuating foreign exchange rates, the results met our expectations for 2019.

As of 31 December 2019, equity amounted to DKK 193.5 million. The Group's solvency ratio accounted for 56% as against 53% at the end of 2018.

The Group's company in the UK has recognised a loss of DKK 5.7 million in the actuarial report for the pension scheme. This amount has been offset against equity. Also this company has from 2019 capitalised their deferred tax assets of DKK 4.1 million due to steadily improved performance.

Outlook

Due to the deterioration in the economic outlook as a consequence of the COVID-19 situation, it is expected that the Group's financial results for 2020 will be adversely affected. In the light of the significantly increased market uncertainty and the risk of revenue and credit losses due to an extended COVID-19 process of up to five months affecting the retail market for the Group's consumer products, the Group adjusts projected EBIT from the range of DKK 30-32 million to the interval of DKK 17-22 million.

Financial risks

The Group only has short-term financing, which has to be renewed every year in May/June. During 2019, the banks confirmed their intention to renew the financing regardless of change of control. In 2020, the major banks have also confirmed their intention to continue and renew the financing despite the change of control in April 2020. Based on this, it is the assessment of Management that the Group and the Company will have sufficient financing for the expected business activity for the coming year.

The Company's activities pose financial risks arising from debtors, cash and cash equivalents and credits at credit institutions in Danish kroner as well as in foreign currencies.

The fluctuations in exchange rates have had a negative impact on the Company's results. The Group is, to some extent, exposed to changes in interest rates, and fluctuations in exchange rates also have an impact on the Company's cash flows.

The Company's receivables are split on many customers ensuring that the credit risk is not concentrated.

The Company does not speculate in foreign currencies.

Management's review

Operating review

Development activities

The Group and the Company have no specific development activities.

Environmental matters and climate impact

Pursuant to the EU ban on BPA thermal paper, the Group has not sold any products using BPA thermal paper since 1 January 2020. Other than this, at the current stage, we have not implemented policies for environment and climate. The group of companies all have activities in the western part of Europe, which is already subject to environmental and climate laws. Consequently, we see no need for further implementation of individual company-specific policies to these topics.

There is no particular environmental impact from the Group's production.

Anti-corruption

Currently, we have not implemented an anti-corruption policy. Having operating activities in Western Europe where anti-corruption laws are already imposed, we believe there is no need for further implementation of individual company-specific policies to this topic.

Human rights

The Group of companies has not formulated specific policies for human rights and social and staff matters. We have carefully considered the need for such policies, and being a company with operating activities in Western Europe where human rights laws are already imposed, we see no need for implementation of further individual company-specific policies to these topics.

Goals and policies for the underrepresented gender

We believe our future competitiveness relies on the ability to attract and retain a diverse workforce. The goals are to:

- ◆ increase the number of females in the Management
- ◆ broaden out talent pool and look beyond traditional sources
- ◆ motivate diverse people and support them in reaching their full potential.

The target for 2021 is that female board members are to account for 25% of the board members. No female board members served on the Board of Directors in 2019. The Diversity Policy has been adopted by the Board of Directors. However, in 2019 due to the pending change of control, the Company could not replace its board members. Also, the Company had to recruit candidates for executive positions within the Hansol Group, which set limits for possible diversity and undertaken the necessary activities on annual basis.

Results 2019:

During 2019, the Group reached the targeted female manager level of 40%.

Outlook for 2020:

to sustain the level of female managers up to 40%.

Management's review

Operating review

Events after the balance sheet date

After the balance sheet date, as the Group was having sufficient cash, the Group repaid all outstanding loans with Shinhan Bank GmbH and decided not to extend its facility with Danske Bank, which expired in March 2020. Also, the Group is negotiating to renew its credit facility maturing in June 2020 and expects to issue agreements during June 2020. The bank has confirmed their intention to renew the financing.

As of 1 April 2020, the ultimate ownership of the Group has been changed from Hansol Paper Co., Ltd. and Mirae Asset Daewoo Hunters PEF to Harbour Investment GmbH. There have been no material financial impact of the change in ownership.

In early 2020, the outbreak of the coronavirus has affected large parts of the world. As a result of the outbreak of COVID-19 and the global/Danish measures taken to limit the spread of the virus, the demand for the Group's products/services began to significantly decrease from April. In May, our company in UK temporarily suspended most of its production while selling existing finished products. Entities in other countries continue their operations. The Group is actively applying for the governments' aid packages in the relevant countries which can help the Group cope with the economic crisis. Management expects that the demand for the Group's products/services will recover gradually from June as the governments in several countries will be easing lockdown measures. Also, Management estimates that there is no uncertainty about the Group's ability to continue as a going concern. The outbreak of the coronavirus occurred during 2020 and did not exist at the balance sheet date of 31 December, 2019. The effect of the virus outbreak is considered a non-adjusting subsequent event and thus does not affect the financial reporting for the financial year ended 31 December 2019.

Notes

1 Accounting policies

The annual report of Hansol Denmark ApS for 2019 has been prepared in accordance with the provisions applying to reporting class C large entities under the Danish Financial Statements Act.

The accounting policies used in the preparation of the consolidated financial statements and parent company financial statements are consistent with those of last year.

Consolidated financial statements

The consolidated financial statements comprise the Parent Company, Hansol Denmark ApS, and subsidiaries in which Hansol Denmark ApS directly or indirectly holds more than 50% of the votes or in some other way exercises control.

On consolidation, intra-group income and expenses, shareholdings, intra-group balances and dividends and realised and unrealised gains and losses on intra-group transactions are eliminated.

Equity investments in subsidiaries are set off against the proportionate share of subsidiaries' fair value of net assets and liabilities at the date of acquisition.

Business combinations

When acquiring new entities, the purchase method is applied under which identifiable assets and liabilities are measured at fair value at the date of acquisition. Restructuring costs recognised in the acquirer at the acquisition date that are not a part of the acquisition are included in the pre-acquisition balance sheet and thus the determination of goodwill. Restructuring that is adopted after the acquisition is recognised in the income statement. The tax effect of revaluations is recognised as deferred tax.

Positive differences (goodwill) between cost and the fair value of identifiable assets and liabilities acquired, including restructuring provisions, are recognised as intangible assets and amortised systematically in the income statement based on an individual assessment of the useful life. Negative goodwill is recognised as income in the income statement at the acquisition date when the usual conditions for recognition of income are met.

Goodwill and negative goodwill from acquired entities may be adjusted until 12 months after the acquisition date.

Newly acquired or newly established entities are recognised in the consolidated financial statements at the date of acquisition or establishment. Divested or wound-up entities are recognised in the consolidated income statement up to the date of divestment or winding-up. Comparative figures are not restated to reflect acquisitions, divestments or windings-up.

The uniting-of-interests method is applied to business combinations such as the acquisition and disposal of equity investments, mergers, demergers, contribution of assets, share exchanges, etc., between entities controlled by the Parent Company. The uniting of interests is considered to have been completed at the date of the acquisition without restatement of comparative figures. Differences between the agreed consideration and the carrying amount of the acquired entity is recognised in equity.

Gains or losses on the divestment of subsidiaries and associates are calculated as the difference between the sales amount and the carrying amount of net assets at the date of disposal, including non-amortised goodwill and projected costs of divestment or winding-up.

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

1 Accounting policies (continued)

Items of subsidiaries are fully recognised in the consolidated financial statements. The non-controlling interests' proportionate share of the subsidiaries' profit and of equity is included as part of the Group's profit and equity, respectively, but is presented separately.

Foreign currency translation

On initial recognition, transactions denominated in foreign currencies are translated at the exchange rates at the transaction date. Foreign exchange differences arising between the exchange rates at the transaction date and the date of payment are recognised in the income statement as financial income or financial expenses.

Receivables, payables and other monetary items denominated in foreign currencies are translated at the exchange rates at the balance sheet date. The difference between the exchange rates at the balance sheet date and the date at which the receivable or payable arose or was recognised in the latest financial statements is recognised in the income statement as financial income or financial expenses.

Upon recognition of foreign subsidiaries and associates that are independent entities, the income statements are translated into Danish kroner at average exchange rates for the month, and balance sheet items are translated at the exchange rates at the balance sheet date. Foreign exchange differences arising upon translation of foreign subsidiaries' opening equity and results at the exchange rates at the balance sheet date are recognised directly in equity.

Foreign exchange adjustments of balances with independent foreign subsidiaries considered part of the total investment in the subsidiary are recognised directly in equity. Similarly, foreign exchange gains and losses on loans and derivative financial instruments taken out for the purpose of hedging investments in foreign subsidiaries are recognised directly in equity.

Upon recognition of foreign subsidiaries that are integrated entities, monetary items are translated at the exchange rates at the balance sheet date. Non-monetary items are translated at the exchange rates at the date of acquisition or the date of subsequent revaluations of the asset. Income statement items are translated at the exchange rates at the transaction date, whereas items derived from non-monetary items are translated at historical exchange rates for the non-monetary item.

Income statement

Revenue

Revenue from sale of goods is recognised in the income statement if delivery and transfer of risk have taken place before the end of the year and if the income can be measured reliably and is expected to be received. Revenue is recognised less VAT, indirect taxes and all kind of discounts granted in connection with the sale.

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

1 Accounting policies (continued)

Production costs

Production costs comprise costs, including depreciation, amortisation, wages and salaries incurred to generate revenue for the year. Commercial entities recognise their cost of sales, whereas production entities recognise production costs incurred to generate revenue for the year. Such costs include direct and indirect costs for raw materials and consumables, wages and salaries, rent and leases and depreciation of production plant.

Distribution costs

Distribution costs comprise costs incurred to distribute goods sold during the year and to conduct sales campaigns, etc., including costs relating to sales staff, advertising and exhibitions as well as depreciation.

Administrative expenses

Administrative expenses comprise expenses incurred during the year for management and administration of the Group, including expenses for administrative staff, Management, office premises, office expenses and depreciation.

Other operating income and expenses

Other operating income and expenses comprises items secondary to the activities of the Group, including gains/losses on the disposal of intangible assets and property, plant and equipment.

Income from equity investments in group entities

The proportionate share of the individual subsidiaries' profit/loss after tax is recognised in the Company's income statement after full elimination of intra-group gains/losses and amortisation of goodwill.

Financial income and expenses

Financial income and expenses comprise interest income and expense, financial costs regarding finance leases, gains and losses on securities, payables and transactions denominated in foreign currencies, amortisation of financial assets and liabilities as well as surcharges and refunds under the on-account tax scheme, etc.

Tax on profit/loss for the year

The Parent Company is subject to the Danish rules on compulsory joint taxation of the Group's Danish subsidiaries. The subsidiaries are included in the joint taxation from the date when they are included in the consolidated financial statements and up to the date when they are excluded from the consolidation.

On payment of joint taxation contributions, current Danish corporation tax is allocated between the jointly taxed entities in proportion to their taxable income. Entities with tax losses receive joint taxation contributions from entities that have used the losses to reduce their own taxable profit.

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

1 Accounting policies (continued)

Tax for the year comprises current corporation tax for the year and changes in deferred tax, including changes in tax rates. The tax expense relating to the profit/loss for the year is recognised in the income statement, and the tax expense relating to amounts directly recognised in equity is recognised directly in equity.

The Danish corporation tax is allocated to their taxable incomes (full allocation with refund for tax losses).

Balance sheet

Intangible assets

Intangible assets, which include software and customer relations, are measured at cost less accumulated amortisation. Amortisation is provided on a straight-line basis over the expected useful lives of the assets of 2-10 years. Amortisation of goodwill is provided over the estimated useful lives of the assets of 5-10 years, which is fixed on the basis of experience gained by the Management and longest for strategically acquired entities.

Property, plant and equipment

Land and buildings are measured at cost less accumulated depreciation on buildings. Land and buildings are written down to the recoverable amount if this is lower than the carrying amount and not temporary.

Plant and machinery, including assets held on finance leases, other plant, machinery and equipment and leasehold improvements are measured at cost less accumulated depreciation. Plant and machinery are written down to the recoverable amount if this is lower than the carrying amount and not temporary.

The costs of lease agreements are the lower of the fair values and present values of future lease payments. When calculating the present value of the lease, the internal interest rate is used as discount rate or an approximated value hereof.

Depreciation is provided on a straight-line basis over the expected useful lives of the assets.

Expected useful lives are:

Buildings	25 years
Plant and machinery	5-8 years
Fixtures and fittings, tools and equipment	3-5 years

The useful life and residual value are reassessed annually. Changes are treated as accounting estimates, and the effect on depreciation is recognised prospectively.

Depreciation is recognised in the income statement as production costs, distribution costs and administrative expenses, respectively.

Property, plant and equipment under construction are recognised and measured at cost at the balance sheet date. Upon entry into service, the cost is transferred to the relevant group of property, plant and equipment.

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

1 Accounting policies (continued)

Gains and losses arising from disposals of property, plant and equipment are measured as the difference between the selling price less sales cost and the carrying amount at the time of disposal.

Leases

On initial recognition, leases for fixed assets that transfer substantially all risks and rewards incident to ownership to the Company (finance leases) are recognised in the balance sheet at the lower of fair value and the net present value of future lease payments. When calculating the net present value, the interest rate implicit in the lease or the incremental borrowing rate is used as the discount factor. Assets held under finance leases are subsequently treated as the Company's other fixed assets.

The capitalised lease obligation is recognised in the balance sheet as a liability at amortised cost, allowing the interest element of the lease payment to be recognised in the income statement over the term of the lease.

All other leases are operating leases. Payments relating to operating leases and other leases are recognised in the income statement over the term of the lease. The Company's total obligation relating to operating leases and other leases is disclosed as contractual obligations and contingencies, etc.

Equity investments in group entities

Equity investments in group entities are measured at the proportionate share of the entities' net asset value calculated in accordance with the Group's accounting policies plus or minus unrealised intra-group gains or losses and plus or minus the residual value of positive and negative goodwill calculated in accordance with the acquisition method.

Equity investments in group entities with negative net asset values are measured at DKK 0, and any receivables from these entities are written down by an amount equivalent to the negative net asset value. To the extent that the negative net asset value exceeds the receivable, the residual amount is recognised as provisions.

Net revaluation of equity investments in group entities is tied as a net revaluation reserve under equity according to the equity method to the extent that the carrying amount exceeds cost. Dividends from group entities expected to be adopted in the group entities prior to the approval of the Company's annual report, are not tied up in the revaluation reserve.

Other securities and equity investments

Other securities and equity investments are measured at fair value. The fair value is made up at the market value at the balance sheet date if the securities are listed and at cost if securities are un-listed.

Impairment of fixed assets

The carrying amount of intangible assets and property, plant and equipment as well as equity investments in group entities and associates is subject to an annual test for indications of impairment other than the decrease in value reflected by depreciation or amortisation.

Impairment tests are conducted of individual assets or groups of assets when there is an indication that they may be impaired. Write-down is made to the recoverable amount if this is lower than the carrying amount.

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

1 Accounting policies (continued)

The recoverable amount is the higher of an asset's net selling price and its value in use. The value in use is determined as the present value of the forecast net cash flows from the use of the asset or the group of assets, including forecast net cash flows from the disposal of the asset or the group of assets after the end of the useful life.

Previously recognised write-downs are reversed when the basis for the write-down no longer exists. Writedown of goodwill is not reversed.

Inventories

Inventories are measured at cost in accordance with the FIFO method. Where the net realisable value is lower than cost, inventories are written down to this lower value.

Goods for resale and raw materials and consumables are measured at cost, comprising purchase price plus delivery costs.

Finished goods are measured at cost, comprising the cost of raw materials, consumables, direct wages and salaries and indirect production overheads. Indirect production overheads comprise indirect materials and wages and salaries as well as the maintenance of depreciation of production machinery, buildings and equipment as well as factory administration and management. Borrowing costs are not included in cost.

The net realisable value of inventories is calculated as the sales amount less costs of completion and costs necessary to make the sale and is determined taking into account marketability, obsolescence and development in expected selling price.

Receivables

Receivables are measured at amortised cost.

Write-down is made for bad debt losses where there is an objective indication that a receivable or a portfolio of receivables has been impaired. If there is an objective indication that an individual receivable has been impaired, write-down is made on an individual basis.

Receivables with no objective indication of individual impairment are assessed for objective indication of impairment on a portfolio basis. The portfolios are primarily based on the debtors' registered offices and credit rating in accordance with the Company's credit risk management policy. The objective indicators used in relation to portfolios are determined on the basis of historical loss experience.

Write-downs are calculated as the difference between the carrying amount of receivables and the present value of forecast cash flows, including the realisable value of any collateral received. The effective interest rate for the individual receivable or portfolio is used as discount rate.

Prepayments and deferred income

Deferred income comprises advance invoicing regarding income in subsequent years.

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

1 Accounting policies (continued)

Equity

Dividends

Proposed dividends are recognised as a liability at the time of adoption at the general meeting (declaration of dividends). Dividends expected to be distributed for the financial year is disclosed as a special item under equity.

Net revaluation reserve according to the equity method

Net revaluation reserve according to the equity method comprises net revaluation of equity investments in subsidiaries and associates in proportion to cost.

Dividends that are expected to be received before the balance sheet date are not tied to the reserve.

The reserve can be eliminated in case of loss, realisation of equity investments or changes to accounting estimates.

The reserve cannot be recognised at a negative amount.

Corporation tax and deferred tax

Current tax payable and receivable is recognised in the balance sheet as tax computed on the taxable income for the year, adjusted for tax on the taxable income of prior years and for tax paid on account.

Deferred tax comprises the difference between the carrying amount and tax values and is recognised as provisions. If the deferred tax becomes a tax asset, the item is recognised under current assets with the value at which the tax asset is expected to be realised.

Deferred tax is measured on the basis of the tax rules and rates in force in the respective countries at the balance sheet date at the time when the deferred tax is expected to crystallize as current tax. Changes in deferred tax due to changes in tax rates are recognised in the income statement.

Provisions

Provisions are recognised when the Group, as a consequence of previous events, has a legal or actual obligation and when it is likely that the fulfilment of the obligation will lead to an outflow of financial resources in the Group.

Provisions are made for restructuring when decided at the balance sheet date at the latest. Other provisions include provision for unfunded pension obligations in foreign subsidiary, based on an actuarial calculation. Adjustments of unfunded pension obligations are recognised directly in equity.

Liabilities other than provisions

Debts to credit institutions are recognised at received proceeds less transaction costs when borrowed.

The capitalised value of residual finance leases is recognised as financial liabilities.

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

1 Accounting policies (continued)

Liabilities including payables to suppliers, subsidiaries and associated companies and other debts are measured at amortised cost.

Finance lease obligation comprise the capitalised residual lease obligation of finance leases.

Other liabilities are measured at net realisable value.

Cash flow statement

The cash flow statement shows the Group's cash flows from operating, investing and financing activities for the year, the year's changes in cash and cash equivalents as well as the Group's cash and cash equivalents at the beginning and end of the year.

Cash flows from operating activities

Cash flows from operating activities are calculated as the Group's share of profit/loss for the year adjusted for non-cash operating items, changes in working capital and corporation tax paid.

Cash flows from investing activities

Cash flows from investing activities comprise payments in connection with acquisitions and disposals of entities and activities, intangible assets, property, plant and equipment and investments.

Cash flows from financing activities

Cash flows from financing activities comprise changes in size or composition of the Company's share capital and costs in this respect as well as raising of loans, instalments on interest-bearing debt and distribution of dividends to owners.

Cash and cash equivalents

Cash and cash equivalents comprise cash and utilised short-term loans and overdraft facilities equivalent to cash.

Segment information

Pursuant to section 96(1) of the Danish Financial Statements Act, the Group does not disclose any segment information, as the Group only operates within one business segment and on one European market.

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

16 Contractual obligations, contingencies, etc.

Contingent liabilities

The Group is a party to pending lawsuits. In Management's opinion, the outcome of these lawsuits will not affect the Group's financial position.

The Group's Danish entities are jointly and severally liable for tax on the Group's jointly taxed income and for certain withholding taxes such as dividend tax and royalty tax as well as for the joint registration for VAT. The jointly taxed entities' total net liability to SKAT amounted to DKK 344 thousand at 31 December 2019. Any subsequent corrections of the taxable income subject to joint taxation or withholding taxes on dividends, etc., may entail an increase in the entities' liability. The Group as a whole is not liable to any other parties.

The Group's Danish entities are jointly and severally liable for the joint VAT registration.

Operating lease obligations

Remaining leasehold obligations at the balance sheet date amount to DKK 2.7 million.

Remaining lease obligations on IT equipment at the balance sheet date amount to DKK 245 thousand.

Remaining lease obligations on cars at the balance sheet date amount to DKK 1,097 thousand.

17 Mortgages and collateral

For the credit facilities in the Danish subsidiary, Schades Nordic ApS, the Company has provided the following floating charges to banks:

- DKK 20 million for the first priority credit with a liability of 3.5 million as at 31 December 2019

- DKK 10 million for the second priority credit with a liability of 0 million as at 31 December 2019.

The floating charge is secured upon production equipment and machinery (carrying amount of DKK 1.9 million), intellectual property rights and inventories (carrying amount of DKK 13.1 million) and trade receivables (carrying amount of DKK 36.7 million).

For bank debt in the Group, the companies Schades ApS, Schades Nordic ApS and Heipa Technische Papiere GmbH have provided a guarantee with joint and several liability for the total bank balance of DKK 13.0 million.

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

18 Related party disclosures

Hansol Denmark ApS' related parties comprise the following:

Control

Hansol Paper Ltd., 23RD FL, B-Pine Avenue BLD, Eluji Street, 100 Jung Gu, Seoul, Korea

Hansol Paper Ltd, holds the majority of the share capital in the Company.

Hansol Denmark ApS is part of the consolidated financial statements of Hansol Paper Ltd., Seoul, Korea, which is the smallest and the largest group in which the Company is included as a subsidiary,

The consolidated financial statements of Hansol Paper Ltd, can be obtained by contacting the Company at the address above.

Other related parties

The Group's and the Company's related parties are the Parent Company, subsidiaries and other companies of the same group as well as members of their Executive Boards and Boards of Directors.

Related party transactions

The Group recognised the following transactions with related parties in 2019:

Sale of goods and services to related parties amounts to DKK 36.7 million.

Costs of goods and services from related parties amount to DKK 150.6 million.

The Parent Company recognised the following transactions with related parties in 2019:

Sale of goods and services to related parties amounts to DKK 0 million.

Costs of goods and services from related parties amount to DKK 0 million.

The Parent Company has chosen not to disclose transactions with fully owned subsidiaries in accordance with section 98c(3) of the Danish Financial Statements Act.

Receivables and payables from/to related parties are disclosed in the balance sheet.

19 Disclosure of events after the balance sheet date

In early 2020, the outbreak of the coronavirus affected large parts of the world. As a result of the outbreak of COVID-19 and the global/Danish measures taken to limit the spread of the virus, the demand for the Group's products/services decreased significantly from April. In May, our company in UK temporarily suspended most of its production while selling existing finished products. Entities in other countries continue their operations. The Group is actively applying for the governments' aid packages in the relevant countries which can help the Group cope with the economic crisis. Management expects that the demand for the Group's products/services will recover gradually from June as the governments in several countries will be easing lockdown measures. Also Management estimates that there is no uncertainty about the Group's ability to continue as a going concern. The outbreak of the coronavirus occurred during 2020 and did not exist on the balance sheet date of 31 December, 2019. The effect of the virus outbreak is considered a non-adjusting subsequent event and thus does not affect the financial reporting for the financial year ended 31 December 2019.
