Management report

Direktionen har dags dato behandlet og godkendt årsrapporten for regnskabsår 1. januar 2016 - 31. december 2016 for EMW Global APS.

The management has today discussed and adopted the first Annual Report for the financial year 1 January 2016 - 31 December 2016 for EMW Global ApS.

Årsrapporten er aflagt i overensstemmelse med årsregnskabsloven.

The Annual Report has been prepared in accordance with the Danish Financial Statements Act.

Vi anser den valgte regnskabspraksis for hensigtsmæssig således at årsrapporten, efter vor opfattelse, giver et retvisende billede af selskabets aktiver, passiver, den finansielle stilling samt resultat.

We consider the accounting principles applied appropriate, and in our opinion, the Annual Report gives a true and fair view of the financial position and the results of operations.

Årsrapporten indstilles til generalforsamlingens godkendelse.

We recommend the Annual Report to be approved in the ordinary general meeting.

Fravælg af revision for det kommende regnskabsår

Selskabet har fravælg af revision for det kommende regnskabsår.
The Company has chosen not to audit the financials this year

Ledelsesberetning

Hovedaktiviteter

Main activities are investments in other companies and consulting management projects

Udviklingen i aktiviteter og økonomiske forhold

Considering current market circumstances the management find the current report satisfactory and are confident that the future outlook will improve

Begivenheder efter regnskabets afslutning

No unusual activities have taken place after the annual accounts were submitted

Anvendt regnskabspraksis

Årsrapporten er aflagt i overensstemmelse med årsregnskabslovens bestemmelser for Regnskabsklasse B.

Generelt

The annual report of the Company has been prepared in accordance with the provisions of the Danish Financial Statements Act for Class B companies.

Recognition and measurement

Revenues are recognised in the income statement as earned. Furthermore, value adjustments of financial assets and liabilities measured at fair value or amortised costs are recognised. Moreover, all expenses incurred to achieve the earnings for the year are recognised in the income statement, including depreciation, amortisation, write downs and provisions.

Assets are recognized in the balance sheet when it is likely that the future financial benefits will accrue on the company and when the value of the asset can be measured reliably.

Liabilities are recognized in the balance sheet when it is likely that the future financial benefits will be deducted from the company and when the value of the liability can be measured reliably.

Income statement

Other external expenses comprise expenses for distribution, sale, marketing, administration, premises, bad debts, etc.

Financial items

Interest income and expense and similar items are recognized in the income statement with the amounts relating to the financial year. The financial items comprise interest income and expense, realized and unrealized exchange rate gains and losses resulting from transactions in foreign currencies.

Tax on profit/loss for the year

Tax for the year consists of current tax for the year and deferred tax for the year. The tax attributable to the profit for the year is recognised in the income statement, whereas the tax attributable to equity transactions is recognised directly in equity.

Any changes in deferred tax due to changes to tax rates are recognised in the income statement.

Balance

Balance sheet

Financial fixed assets

Receivables

Receivables are measured at amortised cost. Write-down is made for bad debt losses based on an individual assessment of receivables.

Tax assets, receivables and liabilities

Current tax liabilities and outstanding current tax are recognized in the balance sheet as computed tax on the taxable income for the year adjusted for tax on previous years' taxable income as well as for tax paid on account.

Deferred tax is measured according to the liability method in respect of temporary differences between accounting and tax values of assets and liabilities. In cases, e.g. regarding shares where computation of the tax value can be made according to alternative tax rules, deferred tax is measured either on basis of the planned use of the asset or on settlement of the liability.

Deferred tax is measured on basis of the tax rules and tax rates ruling at balance sheet date, when the deferred tax is expected to become current tax. Changes in deferred tax because of changes in tax rates are recognized in the income statement.

Liabilities

Liabilities are measured at amortized cost equal to nominal value.
