## MANAGEMENT COMMENTARY

### ***Principal activities***

The Company's primary activity comprises rental of premises as well as relevant activities related to investment property.

### ***Development in activities and financial and economic position***

Due to an internal error the Company did not withhold dividend tax when distributing dividends in 2018 and 2019. For that reason an amount equal to the withholding tax has been recorded as a receivable with the shareholders and a debt to the tax authorities in the accounts. One shareholder has refused to return the withholding tax amount to the Company, as they believed the distribution was liquidation proceeds and not dividend. The shareholder has furthermore indicated that any claim has fallen under a 3-year statute of limitations. The management disagrees with these positions.

There is a significant risk that the company will have to have file for bankruptcy should the shareholder continue to refuse to return the payable withholding tax.

### ***Significant events after the end of the financial year***

No events have occurred after the balance sheet date which could significantly affect the company's financial position.

## ACCOUNTING POLICIES

The Annual Report of Baker Street ApS for 2022 has been presented in accordance with the provisions of the Danish Financial Statements Act for enterprises in reporting class B and certain provisions applying to reporting class C.

The Annual Report is prepared consistently with the accounting principles applied last year.

### INCOME STATEMENT

#### **Other external expenses**

Other external expenses include administrative costs.

#### **Financial income and expenses**

Financial income and expenses include interest income and expenses, financial expenses of finance leases, realised and unrealised gains and losses arising from securities, debt and transactions in foreign currencies, as well as charges and allowances under the tax-on-account scheme, etc. Financial income and expenses are recognised by the amounts that relate to the financial year. Interest income and expenses are calculated on amortised cost prices.

#### **Tax**

The tax for the year, which consists of the current tax for the year and changes in deferred tax, is recognised in the Income Statement by the share that may be attributed to the profit for the year, and is recognised directly in equity by the share that may be attributed to entries directly to equity.

### BALANCE SHEET

#### **Receivables**

Receivables are measured at amortised cost which usually corresponds to nominal value. The value is written down to meet expected losses.

#### **Tax payable and deferred tax**

Current tax liabilities and receivable current tax are recognised in the Balance Sheet as the calculated tax on the taxable income for the year, adjusted for tax on the taxable income for previous years and taxes paid on account.

Deferred tax is measured on the temporary differences between the carrying amount and the tax value of assets and liabilities.

Deferred tax assets, including the tax value of tax loss carryforwards, are measured at the amount at which the asset is expected to be used within a reasonable number of years, either by setoff against tax on future earnings or by setoff against deferred tax liabilities within the same legal tax entity.

Deferred tax is measured on the basis of the tax rules and tax rates that under the legislation in force on the Balance Sheet date will be applicable when the deferred tax is expected to crystallise as current tax. Any changes in the deferred tax resulting from changes in tax rates, are recognised in the income statement, except from items recognised directly in equity.

#### **Liabilities**

The amortised cost of current liabilities corresponds usually to the nominal value.
