# Statement by Management on the annual report

The Board of Directors and the Executive Board have today considered and approved the annual report of Marius Pedersen Holding A/S for the financial year 01.01.2023 - 31.12.2023.

The annual report is presented in accordance with the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent financial statements give a true and fair view of the Group's and the Parent's financial position at 31.12.2023 and of the results of their operations and the consolidated cash flows for the financial year 01.01.2023 - 31.12.2023.

Per Madsen

We believe that the management commentary contains a fair review of the affairs and conditions referred to therein.

We recommend the annual report for adoption at the Annual General Meeting.

# Independent auditor's report

#### To the shareholders of Marius Pedersen Holding A/S

#### **Opinion**

We have audited the consolidated financial statements and the parent financial statements of Marius Pedersen Holding A/S for the financial year 01.01.2023 - 31.12.2023, which comprise the income statement, balance sheet, statement of changes in equity and notes, including a summary of significant accounting policies, for the Group as well as the Parent, and the consolidated cash flow statement. The consolidated financial statements and the parent financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent financial statements give a true and fair view of the Group's and the Parent's financial position at 31.12.2023 and of the results of their operations and the consolidated cash flows for the financial year 01.01.2023 - 31.12.2023 in accordance with the Danish Financial Statements Act.

#### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs) and additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the consolidated financial statements and the parent financial statements" section of this auditor's report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

# Management's responsibilities for the consolidated financial statements and the parent financial statements

Management is responsible for the preparation of consolidated financial statements and parent financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of consolidated financial statements and parent financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements and the parent financial statements, Management is responsible for assessing the Group's and the Entity's ability to continue as a going concern, for disclosing, as applicable, matters related to going concern, and for using the going concern basis of accounting in preparing the consolidated financial statements and the parent financial statements unless Management either intends to liquidate the Entity or to cease operations, or has no realistic alternative but to do so.

# Auditor's responsibilities for the audit of the consolidated financial statements and the parent financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements and the parent financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in

Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements and parent financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements and the parent
  financial statements, whether due to fraud or error, design and perform audit procedures responsive to
  those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.
  The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from
  error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of
  internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the consolidated financial statements and the parent financial statements, and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements and the parent financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements and the parent financial statements, including the disclosures in the notes, and whether the consolidated financial statements and the parent financial statements represent the underlying transactions and events in a manner that gives a true and fair view.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# Statement on the management commentary

Management is responsible for the management commentary.

Our opinion on the consolidated financial statements and the parent financial statements does not cover the management commentary, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements and the parent financial statements, our responsibility is to read the management commentary and, in doing so, consider whether the management commentary is materially inconsistent with the consolidated financial statements and the parent financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the management commentary provides the information required by relevant law and regulations.

Based on the work we have performed, we conclude that the management commentary is in accordance with the consolidated financial statements and the parent financial statements and has been prepared in accordance with the requirements in the relevant law and regulations. We did not identify any material misstatement of the management commentary.

#### **Primary activities**

Innovation and entrepreneurship are part of our DNA and have been since 1925. Marius Pedersen was already then focused on recycling and minimising waste of resources – sustainability is deeply rooted in our company history. Waste recycling and the circular economy are essential tools to achieving results and supporting sustainability goals.

We have a clear ambition to be our customers' partner and expert in all aspects of waste management and recycling.

We collect all types of waste, solid as liquid waste, from waste producers, and constantly work being in control of as much as possible of the value adding chain of waste – from collecting and treatment of waste to selling secondary resources – with respect of adding value to our customers and our owners.

#### Group activities include:

- Sorting, treatment and handling recyclable waste at our waste management facilities.
- Trading of recyclable waste in the context of circular economy.
- Services concerning handling of waste and recyclables from the customer to final recycling, recovery or disposal

   being consulting, renting of equipment, transport and collection services, sewage and sludge services,
   waste management reporting and for customer segments within trade, industrial production, service and
   retail, building and construction, and the public sector and institutions.
- In addition, the Group executes contractor business and furthermore owns companies in Denmark, the Czech Republic and Slovakia, primarily handling waste management and other environmental activities.

#### **Development in activities and finances**

#### Activities

The market for waste management for the Marius Pedersen Group is competitive. The market is grounded on the Waste Management Act from EU and national legislation. New business opportunities arise from changes in waste law and change in the focus on new waste handling activities and market demands.

In 2023 Marius Pedersen Group has made the following acquisitions:

#### Denmark:

Marius Pedersen A/S acquired 100% of the shares in Henry Andersen & Søn A/S and 100% of the shares in RC Plast A/S.

#### Czech Republic:

Marius Pedersen a.s. acquired 100% of the shares in SPL Jablonec nad Nisou s.r.o.

#### Slovakia:

Marius Pedersen a.s. acquired 100% of the shares in TEDOS Ltd.

Despite the financial impact from high inflation and the war in Ukraine revenue and earnings in 2023 have been the best in the company's history. We have seen turnover growth in all 3 markets (Denmark, Czech Republic and Slovakia), coming from acquisitions/merge and dedicated focus on sales activities in each business line, as well as focus on new services, productivity and efficiency.

The overall impact on earnings from high inflation and the war in Ukraine have been limited for the Marius Pedersen Group. Some customers/industries have been impacted negatively, effecting our earnings negatively, but this has been offset by higher activity at other customers/industries.

#### **Development in finances**

Profit after tax for the financial year covering the period 1 January 2023 to 31 December 2023 is 473,8 MDKK which is an increase of 57,9 MDKK compared to 2022. Operating profit is 645,4 MDKK which is 94,6 MDKK higher than 2022. Revenue is 4.763,3 MDKK in 2023 increasing by 270,7 MDKK. Profit for the year is considered very satisfactory. See further comments to the results under Development in activities.

#### Profit/loss for the year in relation to expected developments

In the annual report for 2022 we stated an expectation for the year 2023 to be lower than 2022, due to the low visibility and uncertainties coming from the high inflation and the possible recession in Europe. As mentioned above the overall impact on earnings has been limited for the Marius Pedersen Group, consequently both turnover and earnings came out higher than anticipated.

#### Uncertainty relating to recognition and measurement

The recognition and measurement of provisions for restorations and monitoring of landfills is subject to estimates and assumptions about future events and therefore subject to uncertainties cf. note 2.

#### **Outlook**

The outlook for 2024 is positively impacted by the acquisitions and investments done in 2023 but also subject to uncertainties and impacted by the possible recession in Europe, which has lowered visibility on what to expect in 2024. The Group has experienced low impact from a possible recession so far, but it is yet too early to predict the long-term impact on our different customer segments. We however expect Revenue and Profit for the year to be slightly higher than 2023, i.e. revenue of 4.800-5.000 MDKK and Profit for the year to be around 480-500 MDKK.

Investments in the Group for 2023 has been on a high level and amounts to 950,5 MDKK. We invest heavily in new sorting and processing technology in all three countries. As a major player in waste recycling, we provide the service to waste producers, ensuring that their waste is processed for recycling, and we are also a supplier of raw materials processed from recycled waste products to the industrial sector. In 2024 we expect that re- and new investments without acquisitions will remain on a high level and be around 925-950 MDKK.

In the past we have completed several acquisitions in Slovakia, Czech Republic and Denmark. We welcome potential acquisition opportunities in the three countries being within the waste management business of collection and transport activities, sorting of waste activities and processing waste into new resources.

#### **Use of financial instruments**

#### Financial risks and interest risks

The Group has a financial policy which operates with a low risk profile. This means that currency, interest and credit risk only occur based on commercial conditions. All bank debt is based on floating interest. The Group's use of derivative financial instruments is regulated by a written policy approved by the board of directors and internal procedures which among others controls the derivative financial instrument that can be used. The Group has not used any derivative financial instruments.

#### **Currency risks**

The Group's result from group enterprises is dependent on changes in exchange rates (CZK, EUR), since the foreign group enterprises' results and equity at the end of the year are being converted into Danish kroner based on the average rate and the rate of the balance sheet date.

#### **Business risks**

The Group's most significant risks are linked to the ability of being strongly positioned on the activity areas on which the Group's services are directed. The Group continuously invests in new equipment and facilities to secure optimum utilization and efficiency

#### **Environmental performance**

The Company acts in accordance with current environmental and safety legislation which helps to create a healthy and safe environment.

The Company continuously evaluates the total activities to constantly reduce the environmental impact. Business relations are also encouraged to choose systems or products that secure the highest possible amount of recycling or reduction in the use of natural resources.

The Company has ISO-14001 certifications covering all environmental activities of the Company. The Company is also ISO-9001 certified.

To promote environmental and safety conscience in general the Company is educating and creating awareness among its employees for them to take responsibility for environment, health and safety.

#### Research and development activities

The Company is continuously developing new services and concepts and do research in future business opportunities. These costs have been charged to the profit and loss accounts.

#### Statutory report on corporate social responsibility

As a leading Danish company in the waste and resource management industry, we see waste as a valuable resource. We continually strive to maximise the amount of recycled waste and minimise the amount of waste incinerated or ending up in a landfill.

Marius Pedersen Group is highly focused on utilising the resources in waste in the context of the circular economy. We advise customers to choose solutions supporting the highest possible degree of waste sorting for recycling, reuse and utilisation and in accordance with applicable environmental regulation.

The CSR report concentrates on the issues and aspects that are particularly relevant to our industry based on their impact. The issues are described in accordance with section 99a of the Danish Financial Statements Act and cover the activities of Marius Pedersen A/S. It is the intention of the Group, where possible, to include companies in the Czech Republic and Slovakia in the future.

The CSR report is published at:

https://www.mariuspedersen.dk/om-os/kvalitets-miljoeledelse/csr

#### Statutory report on the underrepresented gender

7

2023

30.00

**Supreme management body**Total number of members

Underrepresented gender (%)

At any time, the Group aims to have a harmonious and competent management. The composition of management always considers the characteristics and capabilities of each member of the management and how they can positively contribute to the Group.

The Group has an independent board of directors; the board of directors in the two Danish companies Marius Pedersen A/S and Marius Pedersen Holding A/S consist of the same general assembly elected members. In 2023 number of female board members has increased by one and the gender distribution is hereafter 30/70% (female/male) compared to 17/83% in 2022. With 2 female and 5 male board members as of February 2023 we achieved a balanced composition as per the definitions of the Danish Business Authority. Therefore, we do not have a specific target for change or increase but aim to at least maintain a gender distribution of 30/70% (female/male) in the Supreme Management Body.

#### Other management levels

Other management level consists only of two members consequently no requirements for reporting is needed.

#### Policy and Action when recruiting for management

We have a policy supporting a balanced gender composition. The Group's employees should all experience that they have the same opportunities for career and management positions regardless of gender. the Group has an open and unbiased culture in which the individual can exploit its skills in the best possible way regardless of gender.

At any time, the Group aims to have a harmonious and competent management at all levels of the organization therefore occupation of management positions considers the candidate's qualifications and competencies relevant to the responsibility. A management position in the organization will always be filled with the best candidate based on an overall assessment. At appointment of management positions, the Group will aim to invite at least one candidate of the underrepresented gender if the candidate has the desired and required qualifications and thereby, we expect over time to get a more balanced gender composition.

#### Statutory report on data ethics policy

Our approach to data ethics is pursuant to section 99d of the Danish Financial Statements Act.

The company policy for data ethics focus on protecting the users (customers, suppliers, employees etc.) privacy and ensuring that their data is used in a responsible manner. It describes our commitment beyond data privacy laws and lays out our defined principles, also for non-personal data. The Data Ethics Policy is published at: https://www.mariuspedersen.dk/om-os/kvalitets-miljoeledelse/csr

#### **Events after the balance sheet date**

Marius Pedersen A/S has in January 2024 signed an agreement to aquire 100% of the shares in EHJ Energi & Miljø A/S, Denmark.

In February 2024, a now former employee of Marius Pedersen a.s, Czech Republic, was suspected in a case involving potential bribery in the Czech Republic. The police is currently investigating the matter.

Marius Pedersen a.s., Czech Republic, or any other company in Marius Pedersen Group Czech, is not involved and is not charged or indicted.

Parent company Marius Pedersen A/S Denmark has initiated an external independent investigation into the matter led by a leading law firm in Czech Republic. The investigation is ongoing. The final result of the investigations is not yet known, but we do not expect any findings or conclusions that will materially impact the accounts of 2023.

Despite from above no events have occurred after the balance sheet date which influences the evaluation of this annual report.

# Notes to consolidated financial statements

#### 1 Events after the balance sheet date

Marius Pedersen A/S has in January 2024 signed an agreement to aquire 100% of the shares in EHJ Energi & Miljø A/S, Denmark.

In February 2024, a now former employee of Marius Pedersen a.s, Czech Republic, was suspected in a case involving potential bribery in the Czech Republic. The police is currently investigating the matter.

Marius Pedersen a.s., Czech Republic, or any other company in Marius Pedersen Group Czech, is not involved and is not charged or indicted.

Parent company Marius Pedersen A/S Denmark has initiated an external independent investigation into the matter led by a leading law firm in Czech Republic. The investigation is ongoing. The final result of the investigations is not yet known, but we do not expect any findings or conclusions that will materially impact the accounts of 2023.

Despite from above no events have occurred after the balance sheet date which influences the evaluation of this annual report.

#### 2 Uncertainty relating to recognition and measurement

The statement of the carrying amount of certain liabilities requires estimates, estimates and assumptions about future events. The estimates made are based on historical experience and other factors that management deems sound in the circumstances, but which are inherently subject to uncertainty. Assumptions may be incomplete and inaccurate, and unexpected events or circumstances may occur.

The recognition and measurement of provisions for expected future costs of restoration and monitoring of landfills is subject to significant uncertainties, particularly with regard to the time perspective.

It is management's assessment that the total restoration and monitoring costs amount to 718,336 DKK'000 which are included as long-term and short-term commitments respectively.

# Notes to parent financial statements

#### 1 Events after the balance sheet date

Marius Pedersen A/S has in January 2024 signed an agreement to aquire 100% of the shares in EHJ Energi & Miljø A/S, Denmark.

In February 2024, a now former employee of Marius Pedersen a.s, Czech Republic, was suspected in a case involving potential bribery in the Czech Republic. The police is currently investigating the matter .

Marius Pedersen a.s., Czech Republic, or any other company in Marius Pedersen Group Czech, is not involved and is not charged or indicted.

Parent company Marius Pedersen A/S Denmark has initiated an external independent investigation into the matter led by a leading law firm in Czech Republic. The investigation is ongoing. The final result of the investigations is not yet known, but we do not expect any findings or conclusions that will materially impact the accounts of 2023.

Despite from above no events have occurred after the balance sheet date which influences the evaluation of this annual report.

	3,441	2,661

## **9 Contingent liabilities**

Marius Pedersen Holding A/S and its Danish subsidiaries are jointly taxed. The company thus has secondary liability with respect to income taxes etc. and any obligation to withhold taxes on interest, royalties and dividends applying to the jointly taxed companies. Such secondary liability is, however, capped at an amount equal to the portion of the shares capital in the Company held directly or indirectly by the ultimate parent

# 10 Assets charged and collateral

Shares in Marius Pedersen A/S, DKK'000 3,084,993 have been pledged as security for bank debt amounting to DKK'000 925,337.

## 11 Related parties with controlling interest

Ultimate parent: Entreprenør Marius Pedersen Fond, Faaborg-Midtfyn, CVR 11 59 41 74. Balances and transactions between the Company and its subsidiaries, which are related parties of the company, have been eliminated on consolidation and are not disclosed in this note. Details of transactions between the Group and other related parties are:

## 12 Transactions with related parties

Services	0	4,000	
Dividend	30,000	60,000	
Outstanding amount	25,399	19,401	

# **Accounting policies**

## **Reporting class**

This annual report has been presented in accordance with the provisions of the Danish Financial Statements Act governing reporting class C enterprises (large).

#### **Changes in accounting policies**

The accounting policies applied to these consolidated financial statements and parent financial statements are consistent with those applied last year.

The Group have changed their accounting policies with a change in the presentation of profit from sale of intangible assets and property, plant and equipment which now is recognised in other operating income and a reclassification of trade payables from other payables. Comparative figures and key figures have been adjusted accordingly.

# **Recognition and measurement**

Assets are recognised in the balance sheet when it is probable as a result of a prior event that future economic benefits will flow to the Entity, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when the Entity has a legal or constructive obligation as a result of a prior event, and it is probable that future economic benefits will flow out of the Entity, and the value of the liability can be measured reliably.

On initial recognition, assets and liabilities are measured at cost. Measurement subsequent to initial recognition is effected as described below for each financial statement item.

Anticipated risks and losses that arise before the time of presentation of the annual report and that confirm or invalidate affairs and conditions existing at the balance sheet date are considered at recognition and measurement.

Income is recognised in the income statement when earned, whereas costs are recognised by the amounts attributable to this financial year.

### **Consolidated financial statements**

The consolidated financial statements comprise the Parent and the group enterprises (subsidiaries) that are controlled by the Parent. Control is achieved by the Parent, either directly or indirectly, holding more than 50% of the voting rights or in any other way possibly or actually exercising controlling influence. Enterprises in which the Group, directly or indirectly, holds between 20% and 50% of the voting rights and exercises significant, but not controlling, influence are regarded as associates.

## **Basis of consolidation**

The consolidated financial statements are prepared on the basis of the financial statements of the Parent and its subsidiaries. The consolidated financial statements are prepared by combining uniform items. On consolidation, intra-group income and expenses, intra-group accounts and dividends as well as profits and losses on transactions between the consolidated enterprises are eliminated. The financial statements used for consolidation have been prepared applying the Group's accounting policies.

Subsidiaries' financial statement items are recognised in full in the consolidated financial statements. Minority interests' pro rata shares of the profit/loss and the net assets are disclosed as separate items in Management's proposal for the distribution of net profit/loss and equity, respectively.

Investments in subsidiaries are offset at the pro rata share of such subsidiaries' net assets at the acquisition date, with net assets having been calculated at fair value.

#### **Business combinations**

Newly acquired or newly established enterprises are recognised in the financial statements from the time of acquiring or establishing such enterprises. Divested or wound-up enterprises are recognised in the income statement up to the time of their divestment or winding-up.

The purchase method is applied at the acquisition of new enterprises, under which identifiable assets and liabilities of these enterprises are measured at fair value at the acquisition date. Provisions for costs of restructuring of the enterprise acquired are only made in so far as such restructuring was decided by the enterprise acquired prior to acquisition. Allowance is made for the tax effect of restatements.

Positive differences in amount (goodwill) between cost of the acquired share and fair value of the assets and liabilities taken over are recognised in intangible assets, and they are amortised systematically over the income statement based on an individual assessment of their useful lives. If the useful life cannot be estimated reliably, it is fixed at 10 years. Useful life is reassessed annually.

The uniting-of-interests method is applied on acquisition of enterprises and mergers etc. in which the enterprises concerned are controlled by the Parent, under which method the combination is considered completed at the date of acquisition without restatement of comparative figures. Under the uniting-of-interests method, the acquiree's assets and liabilities are recognised at their carrying amounts, adjusted for any differences in accounting policies and accounting estimates. The difference between the consideration agreed and the carrying amount of the acquiree is recognised in equity.

# **Foreign currency translation**

On initial recognition, foreign currency transactions are translated applying the exchange rate at the transaction date. Receivables, payables and other monetary items denominated in foreign currencies that have not been settled at the balance sheet date are translated using the exchange rate at the balance sheet date. Exchange differences that arise between the rate at the transaction date and the rate in effect at the payment date, or the rate at the balance sheet date, are recognised in the income statement as financial income or financial expenses. Property, plant and equipment, intangible assets, inventories and other non-monetary assets that have been purchased in foreign currencies are translated using historical rates.

When recognising foreign subsidiaries and associates that are independent entities, the income statements are translated at average exchange rates for the months that do not significantly deviate from the rates at the transaction date. Balance sheet items are translated using the exchange rates at the balance sheet date. Goodwill is considered belonging to the independent foreign entity and is translated using the exchange rate at the balance sheet date. Exchange differences arising out of the translation of foreign subsidiaries' equity at the beginning of the year at the balance sheet date exchange rates and out of the translation of income statements from average rates to the exchange rates at the balance sheet date are recognised directly in the translation reserve in equity.

Exchange adjustments of outstanding accounts with independent foreign subsidiaries, which are considered

part of the total investment in the subsidiary in question, are recognised directly in the translation reserve in equity.

When recognising foreign subsidiaries that are integral entities, monetary assets and liabilities are translated using the exchange rates at the balance sheet date. Non-monetary assets and liabilities are translated at the exchange rate at the time of acquisition or the time of any subsequent revaluation or writedown. The items of the income statement are translated at the average rates of the months; however, items deriving from non-monetary assets and liabilities are translated using the historical rates applicable to the relevant non-monetary items.

#### **Income statement**

#### Revenue

Revenue from the sale of manufactured goods and goods for resale is recognised in the income statement when delivery is made and risk has passed to the buyer. Revenue from the sale of services is recognised in the income statement when delivery is made to the buyer. Revenue is recognised net of VAT, duties and sales discounts and is measured at fair value of the consideration fixed.

Contract work in progress is included in revenue based on the stage of completion so that revenue corresponds to the selling price of the work performed in the financial year (the percentage-of-completion method).

#### **Production costs**

Production costs comprise expenses incurred to earn revenue for the financial year.

Production costs comprise direct and indirect costs for raw materials and consumables, wages and salaries, rent and lease, and amortisation, depreciation and impairment losses relating to intangible assets and property, plant and equipment included in the production process. In addition, the item includes ordinary writedown of inventories.

#### **Distribution costs**

Distribution costs comprise costs incurred for sale and distribution of the Entity's products, including wages and salaries for sales staff, advertising costs, travelling and entertainment expenses, etc., and amortisation, depreciation and impairment losses relating to intangible assets and property, plant and equipment involved in the distribution process.

## **Administrative expenses**

Administrative expenses comprise expenses incurred for the Entity's administrative functions, including wages and salaries for administrative staff and Management, stationery and office supplies, and amortisation, depreciation and impairment losses relating to intangible assets and property, plant and equipment used for administration of the Entity.

# Other operating income

Other operating income comprises income of a secondary nature as viewed in relation to the Entity's primary activities, including profit from the sale of intangible assets and property, plant and equipment, and salary refunds.

#### Income from investments in group enterprises

Income from investments in group enterprises comprises the pro rata share of the individual enterprises' profit/loss after full elimination of intra-group profits or losses.

#### Income from investments in participating interests

Income from investments in participating interests comprises the pro rata share of the individual participating interests' profit/loss after pro rata elimination of intra-group profits or losses.

#### Other financial income

Other financial income comprises dividends etc. received on other investments, interest income, including interest income on receivables from group enterprises, net capital or exchange gains on securities, payables and transactions in foreign currencies, amortisation of financial assets, and tax relief under the Danish Tax Prepayment Scheme etc.

#### Other financial expenses

Other financial expenses comprise interest expenses, including interest expenses on payables to group enterprises, net capital or exchange losses on securities, payables and transactions in foreign currencies, amortisation of financial liabilities, and tax surcharge under the Danish Tax Prepayment Scheme etc.

#### Tax on profit/loss for the year

Tax for the year, which consists of current tax for the year and changes in deferred tax, is recognised in the income statement by the portion attributable to the profit for the year and recognised directly in equity by the portion attributable to entries directly in equity.

#### **Balance sheet**

#### Goodwill

Goodwill is the positive difference between cost and value in use of assets and liabilities taken over as part of the acquisition. Goodwill is amortised straight-line over its estimated useful life which is fixed based on the experience gained by Management for each business area. Useful life is determined based on an assessment of whether the enterprises are strategically acquired enterprises with a strong market position and a long-term earnings profile and whether the amount of goodwill includes intangi-ble resources of a temporary nature that cannot be separated and recognised as separate assets. If it is not possible to estimate the useful life reliably, it is set at 10 years. Useful lives are reassessed on an annual basis. The amortisation periods used are 5 to 20 years.

Goodwill is written down to the lower of recoverable amount and carrying amount.

#### Intellectual property rights etc.

Intellectual property rights etc. comprise development projects completed and in progress with related intellectual property rights, acquired intellectual property rights and prepayments for intangible assets.

Development projects on clearly defined and identifiable products and processes, for which the technical rate of utilisation, adequate resources and a potential future market or development opportunity in the enterprise can be established, and where the intention is to manufacture, market or apply the product or process in question, are recognised as intangible assets. Other development costs are recognised as costs in the income statement as incurred. When recognising development projects as intangible assets, an amount equalling the costs incurred less deferred tax is taken to equity in the reserve for development costs that is reduced as the development projects are amortised and written down.

The cost of development projects comprises costs such as salaries and amortisation that are directly and indirectly attributable to the development projects.

Indirect production costs in the form of indirectly attributable staff costs and amortisation of intangible

assets and depreciation on property, plant and equipment used in the development process are recognised in cost based on time spent on each project.

Completed development projects are amortised on a straight-line basis using their estimated useful lives which are determined based on a specific assessment of each development project. If the useful life cannot be estimated reliably, it is fixed at 10 years. For development projects protected by intellectual property rights, the maximum period of amortisation is the remaining duration of the relevant rights. The amortisation periods used are 5 to 20 years.

Intellectual property rights acquired are measured at cost less accumulated amortisation. Patents are amortised on a straight-line basis over their remaining duration, and licences are amortised on a straight-line basis over the term of the agreement.

Intellectual property rights etc. are written down to the lower of recoverable amount and carrying amount.

#### Property, plant and equipment

Interest expenses on loans for the financing of the manufacture of property, plant and equipment are included in cost if they relate to the manufacturing period. All other finance costs are recognised in the income statement.

The basis of depreciation is cost less estimated residual value after the end of useful life. Straight-line depreciation is made on the basis of the following estimated useful lives of the assets:

	Useful life
Buildings	25 - 50 years
Plant and machinery	5 -10 years
Other fixtures and fittings, tools and equipment	5 - 8 years

For leasehold improvements and assets subject to finance leases, the depreciation period cannot exceed the contract period.

Estimated useful lives and residual values are reassessed annually.

Items of property, plant and equipment are written down to the lower of recoverable amount and carrying amount.

#### Investments in group enterprises

Investments in group enterprises are recognised and measured in the parent financial statements according to the equity method. This means that investments are measured at the pro rata share of the enterprises' equity value plus unamortised goodwill and plus or minus unrealised intra-group profits or losses. Reference is made to the above section on business combinations for more details about the accounting policies applied to acquisitions of investments in group enterprises.

Group enterprises with negative equity value are measured at DKK 0. Any receivables from these enterprises are written down to net realisable value based on a specific assessment. If the Parent has a legal or constructive obligation to cover the liabilities of the relevant enterprise, and it is probable that such obligation will involve a loss, a provision is recognised that is measured at present value of the costs necessary to settle the obligations at the balance sheet date.

Upon distribution of profit or loss, net revaluation of investments in group enterprises is transferred to the reserve for net revaluation according to the equity method in equity.

Goodwill is the difference between cost of investments and fair value of the pro rata share of assets and liabilities arising from acquisitions. Goodwill is amortised straight-line over its estimated useful life, which is fixed based on the experience gained by Management for each business area. For one amount of goodwill, it has not been possible to estimate useful life reliably, for which reason such useful life has been set at 10 years. For other amounts of goodwill, useful life has been determined based on an assessment of whether the enterprises are strategically acquired enterprises with a strong market position and a long-term earnings profile and whether the amount of goodwill includes intangible resources of a temporary nature that cannot be separated and recognised as separate assets. Useful lives are reassessed annually. The amortisation periods used are 5 to 20 years.

Investments in group enterprises are written down to the lower of recoverable amount and carrying amount.

#### Investments in participating interests

Investments in participating interests are recognised and measured according to the equity method. This means that investments are measured at the pro rata share of the participating interests' equity value plus unamortised goodwill and plus or minus unrealised pro rata intra-group profits and losses. Reference is made to the above section on business combinations for more details about the accounting policies applied to acquisitions of investments in participating interests.

Participating interests with negative equity value are measured at DKK 0. Any receivables from these participating interests are written down to net realisable value based on a specific assessment. If the Parent has a legal or constructive obligation to cover the liabilities of the relevant participating interest, and it is probable that such obligation will involve a loss, a provision is recognised that is measured at present value of the costs necessary to settle the obligations at the balance sheet date.

Upon distribution of profit or loss, net revaluation of investments in participating interests is transferred to the reserve for net revaluation according to the equity method in equity.

Goodwill is the difference between cost of investments and fair value of the pro rata share of assets and liabilities arising from acquisitions. Goodwill is amortised straight-line over its estimated useful life, which is fixed based on the experience gained by Management for each business area. For one amount of goodwill, it has not been possible to estimate useful life reliably, for which reason such useful life has been set at 10 years. For other amounts of goodwill, useful life has been determined based on an assessment of whether the enterprises are strategically acquired enterprises with a strong market position and a long-term earnings profile and whether the amount of goodwill includes intangible resources of a temporary nature that cannot be separated and recognised as separate assets. Useful lives are reassessed annually. The amortisation periods used are 5 to 20 years.

Investments in participating interests are written down to the lower of recoverable amount and carrying amount.

#### Other investments

Other investments comprise listed securities which are measured at fair value (market price) at the balance sheet date, and unlisted equity investments measured at the lower of cost and net realisable value.

#### **Deferred tax**

Deferred tax is recognised on all temporary differences between the carrying amount and the tax-based value of assets and liabilities, for which the tax-based value is calculated based on the planned use of each asset. However, no deferred tax is recognised for amortisation of goodwill disallowed for tax purposes and temporary differences arising at the date of acquisition that do not result from a business combination and that do not have any effect on profit or loss or on taxable income.

Deferred tax assets, including the tax base of tax loss carryforwards, are recognised in the balance sheet at their estimated realisable value, either as a set-off against deferred tax liabilities or as net tax assets.

#### **Inventories**

Inventories are measured at the lower of cost using the FIFO method and net realisable value.

Cost consists of purchase price plus delivery costs. Cost of manufactured goods and work in progress consists of costs of raw materials, consumables, direct labour costs and indirect production costs.

Indirect production costs comprise indirect materials and labour costs, costs of maintenance of, depreciation on machinery, factory buildings and equipment used in the manufacturing process, and costs of factory administration and management. Finance costs are not included in cost.

The net realisable value of inventories is calculated as the estimated selling price less completion costs and costs incurred to execute sale.

#### **Receivables**

Receivables are measured at amortised cost, usually equalling nominal value, less writedowns for bad and doubtful debts.

#### **Contract work in progress**

Contract work in progress is measured at the selling price of the work carried out at the balance sheet date.

The selling price is measured based on the stage of completion and the total estimated income from the individual contracts in progress. Usually, the stage of completion is determined as the ratio of actual to total budgeted consumption of resources.

If the selling price of a contract in progress cannot be made up reliably, it is measured at the lower of costs incurred and net realisable value.

Each contract in progress is recognised in the balance sheet in receivables or liabilities other than provisions, depending on whether the net value, calculated as the selling price less prepayments received, is positive or negative.

Costs of sales work and of securing contracts, and finance costs are recognised in the income statement as incurred.

#### Tax payable or receivable

Current tax payable or receivable is recognised in the balance sheet, stated as tax computed on this year's taxable income, adjusted for prepaid tax.

### **Prepayments**

Prepayments comprise incurred costs relating to subsequent financial years. Prepayments are measured at cost.

#### Cash

Cash comprises cash in hand and bank deposits.

#### Dividend

Dividend is recognised as a liability at the time of adoption at the general meeting. Proposed dividend for the financial year is disclosed as a separate item in equity. Extraordinary dividend adopted in the financial year is recognised directly in equity when distributed and disclosed as a separate item in Management's proposal for distribution of profit/loss.

#### **Minority interests**

On initial recognition, minority interests are measured at the minority interests' share of the acquiree's net assets measured at fair value. No goodwill related to the minority interests' equity interests in the acquiree is recognised.

#### Other provisions

Other provisions comprise anticipated costs of non-recourse guarantee commitments, returns, loss on contract work in progress, decided and published restructuring, etc.

Other provisions are recognised and measured as the best estimate of the expenses required to settle the liabilities at the balance sheet date. Provisions that are estimated to mature more than one year after the balance sheet date are measured at their discounted value.

Non-recourse guarantee commitments comprise commitments to remedy defects and deficiencies within the guarantee period.

On acquisition of enterprises and investments in group enterprises, provisions are made for costs relating to restructuring in the acquired enterprise that were decided and published at the acquisition date at the latest.

Once it is probable that total costs will exceed total income from a contract in progress, provision is made for the total loss estimated to result from the relevant contract.

#### Mortgage debt

At the time of borrowing, mortgage debt to mortgage credit institutions is measured at cost which corresponds to the proceeds received less transaction costs incurred. Mortgage debt is subsequently measured at amortised cost. This means that the difference between the proceeds at the time of borrowing and the nominal repayable amount of the loan is recognised in the income statement as a financial expense over the term of the loan applying the effective interest method.

# **Lease liabilities**

Lease liabilities relating to assets held under finance leases are recognised in the balance sheet as liabilities other than provisions, and, at the time of inception of the lease, measured at the present value of future lease payments. Subsequent to initial recognition, lease liabilities are measured at amortised cost. The difference between present value and nominal amount of the lease payments is recognised in the income statement as a

financial expense over the term of the leases.

#### Other financial liabilities

Other financial liabilities are measured at amortised cost, which usually corresponds to nominal value.

#### **Cash flow statement**

The cash flow statement shows cash flows from operating, investing and financing activities, and cash and cash equivalents at the beginning and the end of the financial year.

Cash flows from operating activities are presented using the indirect method and calculated as the operating profit/loss adjusted for non-cash operating items, working capital changes, and financial income, financial expenses and income tax paid.

Cash flows from investing activities comprise payments in connection with acquisition and divestment of enterprises, activities and fixed asset investments, and purchase, development, improvement and sale, etc. of intangible assets and property, plant and equipment.

Cash flows from financing activities comprise changes in the size or composition of the contributed capital and related costs, and the raising of loans, repayments of interest-bearing debt, including lease liabilities, purchase of treasury shares and payment of dividend.

Cash and cash equivalents comprise cash and short-term securities with an insignificant price risk.

The consolidated Statement of Cash Flows cannot be derived on the basis of the official Financial Statement alone.
