# Ledelsespåtegning

The Director has approved the Annual Report for CASAD & ASSOCIATES ApS for its first reporting period, January 1, 2016 to December 31, 2016.

The annual report was prepared in accordance with legal requirements.

It is my opinion that the financial statements give a true and fair view of the assets, liabilities and financial position of the company as of December 31, 2016 and of the results of the company's operations for this first financial reporting period.

The management report contains, in my view a fair statement of the matters discussed.

I have submitted the Annual Report for approval at the General Meeting, April 19, 2017.

# Ledelsesberetning

## MAIN ACTIVITIES.

The company is a developer of intellectual property and technology. Some of its activities are traditional services provided for a fee, including patent drafting and prosecution, scientific-technical consulting, and other counseling. Other activities include entrepreneurial commercialization projects in which the company is a stakeholder.

## DEVELOPMENT IN ACTIVITIES AND FINANCIAL STATUS.

This second financial statement for the company shows a net loss of 43.416,79 kr. This reflects a heavy investment of time and extensive travel during this year initiating two major entrepreneurial projects - commercialization in Denmark of a novel bioenergy technology (patent pending) and commercialization in Greece of emerging technologies for large scale cultivation and valorisation of macroalgae. It is anticipated that losses sustained this year will be fully recouped when these projects begin to show returns in 2018. The result is, therefore, acceptable. Accounts receivable at the end of the financial year were 400.000,00 kr.

Concerning the company's financial position and results of the company's operations in the past year, refer to the income statement and balance sheet.

## EVENTS FOLLOWING CLOSURE.

From the balance sheet date until today, no events have occurred which affect the assessment of the annual report.
