## Statement of the Board of Directors on the annual report

---

I have on this day presented the annual report for the financial year 01.01.19 - 31.12.19 for Leab ApS.

The annual report is presented in accordance with Danish Financial Statements Act (Årsregnskabsloven).

In my opinion, the financial statements give a true and fair view of the the company's assets, liabilities and financial position as at 31.12.19 and of the results of the the company's activities for the financial year 01.01.19 - 31.12.19.

I believe that the management's review includes a fair review of the matters dealt with in the management's review.

The annual report is submitted for adoption by the general meeting.

Odense C, August 13, 2020

**Executive Board**

Bart Westerkamp

**To the capital owner of Leab ApS****Opinion**

We have audited the financial statements of Leab ApS for the financial year 01.01.19 - 31.12.19, which comprise the income statement, balance sheet, statement of changes in equity and notes to the financial statements, including a summary of significant accounting policies. The financial statements are prepared in accordance with Danish Financial Statements Act (Årsregnskabsloven).

In our opinion the financial statements give a true and fair view of the company's assets, liabilities and financial position at 31.12.19 and of the results of the company's operations for the financial year 01.01.19 - 31.12.19 in accordance with the Danish Financial Statements Act (Årsregnskabsloven).

**Basis for conclusion**

We conducted our audit in accordance with International Standards on Auditing and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report. We are independent of the company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Statement regarding the management's review**

Management is responsible for management's review.

Our opinion on the financial statements does not cover management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read management's review and, in doing so, consider whether management's review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Acts. We did not identify any material misstatement of management's review.

**Management's responsibility for the financial statements**

The Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act. Furthermore the Management is responsible for the internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless management either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

**Auditor's responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with International Standards on Auditing and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

The company has deposited its equity investment in Clayton Power ApS as security for Clayton Power ApS debt to Nordea. The carrying amount of the mortgaged assets totals euro 230,000.

#### 4. Accounting policies

##### GENERAL

The annual report is presented in accordance with the provisions of the Danish Financial Statements Act (*Årsregnskabsloven*) for enterprises in reporting class B with application of provisions for a higher reporting class.

The accounting policies have been applied consistently with previous years.

##### Basis of recognition and measurement

Income is recognised in the income statement as earned, including value adjustments of financial assets and liabilities. All expenses, including depreciation, amortisation, impairment losses and write-downs, are also recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits will flow to the company, and the value of such assets can be measured reliably. Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow from the company, and the value of such liabilities can be measured reliably. On initial recognition, assets and liabilities are measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

On recognition and measurement, account is taken of foreseeable losses and risks arising before the date at which the annual report is presented and proving or disproving matters arising on or before the balance sheet date.

##### CURRENCY

The annual report is presented in euro.

On initial recognition, transactions denominated in foreign currencies are translated using the exchange rates applicable at the transaction date. Exchange rate differences between the exchange rate applicable at the transaction date and the exchange rate at the date of payment are recognised in the income statement as a financial item. Receivables, payables and other monetary items denominated in foreign currencies are translated using the exchange rates applicable at the balance sheet date. The difference between the exchange rate applicable at the balance sheet date and at the date at which the receivable or payable arose or was recognised in the latest annual report is recognised under financial income or expenses in the income statement. Fixed assets and other non-monetary assets acquired in foreign currencies are translated using historical exchange rates.

**4. Accounting policies** - continued -**INCOME STATEMENT****Gross loss**

Gross loss comprises other external expenses.

**Other external expenses**

Other external expenses comprise costs relating to distribution, sales and advertising and administration, premises and bad debts to the extent that these do not exceed normal write-downs.

**Income from equity investments in associates**

Dividends from equity investments measured at cost are recognised as income in the financial year in which the dividend is declared.

**Other net financials**

Interest income and interest expenses, foreign exchange gains and losses on transactions denominated in foreign currencies etc. are recognised in other net financials.

**Tax on profit/loss for the year**

The current and deferred tax for the year is recognised in the income statement as tax on the profit/loss for the year with the portion attributable to the profit/loss for the year, and directly in equity with the portion attributable to amounts recognised directly in equity.

The company is jointly taxed with Danish consolidated enterprises.

In connection with the settlement of joint taxation contributions, the current Danish income tax is allocated between the jointly taxed enterprises in proportion to their taxable incomes. This means that enterprises with a tax loss receive joint taxation contributions from enterprises which have been able to use this loss to reduce their own taxable profit.

#### 4. Accounting policies - continued -

##### **BALANCE SHEET**

##### **Equity investments in associates**

Equity investments in associates are measured in the balance sheet at cost less any impairment losses.

Gains or losses on the divestment of associates are determined as the difference between the divestment consideration and the carrying amount of net assets at the time of sale, including non-amortised goodwill, as well as the expected costs of divestment or discontinuation. Gains and losses are recognised in the income statement under income from equity investments.

##### **Impairment losses on fixed assets**

The carrying amount of fixed assets which are not measured at fair value is assessed annually for indications of impairment over and above what is reflected in depreciation and amortisation.

If the company's realised return on an asset or a group of assets is lower than expected, this is considered an indication of impairment.

If there are indications of impairment, an impairment test is conducted of individual assets or groups of assets.

If dividends are distributed on equity investments in associates exceeding the year earnings from the enterprise in question, this is considered an indication of impairment.

The assets or groups of assets are impaired to the lower of recoverable amount and carrying amount.

The higher of net selling price and value in use is used as the recoverable amount. The value in use is determined as the present value of expected net cash flows from the use of the asset or group of assets as well as expected net cash flows from the sale of the asset or group of assets after the expiry of their useful lives.

Impairment losses are reversed when the reasons for the impairment no longer exist.

##### **Cash**

Cash includes deposits in bank accounts as well as operating cash.

#### 4. Accounting policies - continued -

##### **Current and deferred tax**

Current tax payable and receivable is recognised in the balance sheet as tax computed on the basis of the taxable income for the year, adjusted for tax paid on account.

Joint taxation contributions payable and receivable are recognised as income tax under receivables or payables in the balance sheet.

Deferred tax liabilities and tax assets are recognised on the basis of all temporary differences between the carrying amounts and tax bases of assets and liabilities. However, deferred tax is not recognised on temporary differences relating to goodwill which is non-amortisable for tax purposes and other items where temporary differences, except for acquisitions, have arisen at the date of acquisition without affecting the net profit or loss for the year or the taxable income. In cases where the tax value can be determined according to different taxation rules, deferred tax is measured on the basis of management's intended use of the asset or settlement of the liability.

Deferred tax assets are recognised, following an assessment, at the expected realisable value through offsetting against deferred tax liabilities or elimination in tax on future earnings.

Deferred tax is measured on the basis of the tax rules and at the tax rates which, according to the legislation in force at the balance sheet date, will be applicable when the deferred tax is expected to crystallise as current tax.

##### **Payables**

Short-term payables are measured at amortised cost, normally corresponding to the nominal value of such payables.
