Merrild Kaffe ApS
Annual report 2021

Statement by Management

The Board of Directors and the Executive Board have today discussed and approved the annual report of Merrild Kaffe ApS for the financial year 1 January - 31 December 2021.

The annual report has been prepared in accordance with the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent company financial statements give a true and fair view of the financial position of the Group and the Parent Company at 31 December 2021 and of the results of their operations and consolidated cash flows for the financial year 1 January - 31 December 2021.

Further, in our opinion, the Management's review gives a fair review of the development in the Group's and the Parent Company's operations and financial matters, the results for the year and the Group's and the Parent Company's financial position.

We recommend that the annual report be approved at the annual general meeting.

Independent auditor's report

To the shareholders of Merrild Kaffe ApS ApS

Opinion

We have audited the consolidated financial statements and the parent company financial statements of Merrild Kaffe ApS for the financial year 1 January - 31 December 2021, which comprise income statement, balance sheet, statement of changes in equity and notes, including accounting policies, for the Group and the Parent Company, and a consolidated cash flow statement. The consolidated financial statements and the parent company financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent company financial statements give a true and fair view of the financial position of the Group and the Parent Company at 31 December 2021 and of the results of the Group's and the Parent Company's operations as well as the consolidated cash flows for the financial year 1 January - 31 December 2021 in accordance with the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the consolidated financial statements and the parent company financial statements" (hereinafter collectively referred to as "the financial statements") section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Management's responsibilities for the financial statements

Management is responsible for the preparation of consolidated financial statements and parent company financial statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Group's and the Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Group or the Parent Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

Independent auditor's report

As part of an audit conducted in accordance with ISAs and additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Parent Company's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- ▶ Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Parent Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Parent Company to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and contents of the financial statements, including the note disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.
- ▶ Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on the Management's review

Management is responsible for the Management's review.

Our opinion on the financial statements does not cover the Management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statements Act.

Merrild Kaffe ApS
Annual report 2021

Independent auditor's report

Based on the work we have performed, we conclude that the Management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of the Management's review.

Average number of full-time employees	76	70	67	69

Financial ratios are calculated in accordance with the Danish Finance Society's guidelines.

The financial ratios stated under "Financial highlights" have been calculated as follows:

Gross margin $\frac{\text{Gross profit/loss} \times 100}{\text{Revenue}}$

Equity ratio $\frac{\text{Equity ex. non-controlling interest at year end} \times 100}{\text{Total equity and liabilities at year end}}$

Return on equity $\frac{\text{Profit/loss for the year after tax ex. non-controlling interests} \times 100}{\text{Average equity ex. non-controlling interests}}$

Management's review

Main activity

The main activity in the Parent Company, Merrild Kaffe ApS, is sale of coffee, coffee pads and instant coffee to the retail consumer market as well as coffee and machinery to the professional market. The Company's products are sold primarily in Denmark, the North Atlantic as well as in the Baltic countries.

Strategy

It is the Company's strategy to deliver quality products within the Company's business areas. It is the strategy on an ongoing basis to support the qualitative development of the total market and to gain market share at the same time as the earnings capacity is maintained.

Financial review

Development in the year

The income statement of the Company for 2021 shows a profit of DKK'000 16,442, and at 31 December 2021 the balance sheet of the Company shows equity of DKK'000 83,232.

The management considers the result satisfying.

Subsidiaries and associated companies

Merrild Kaffe ApS is 100% owner of the company Merrild Baltic SIA.

The income statement of Merrild Baltic SIA for 2021 shows a profit of €'000 760 equals DKK'000 5,653 and at 31 December 2021 the balance sheet of the Company shows equity of €'000 2,410 equals DKK'000 17,923.

Since Covid-19 started impacting the business in early 2020, we have in our markets seen a shift from out of home consumption to in home consumption. Distribution of coffee from Lavazza Italy have not been affected by the outbreak of the Covid-19 virus. All goods to and from Italy floats freely.

The above shift in the market have affected our overall result positively. Merrild Kaffe have not made use of any government aid scheme related to Covid-19.

Merrild Baltic SIA is working as Merrild Kaffe ApS's agent in the Baltics and assist Merrild Kaffe ApS with sales to the Baltic countries.

Outlook

The expected development

Merrild Kaffe ApS expects an increase in its activity, as well as earnings, based on continued growth and further expansion in other categories and brands.

Special risks

Operation risks

In There seems to be no material operating risks. The Company purchases the main part of its products from group companies which ensures a stable supply.

Market risks

The retail industry is characterized by few, but large, chains that represent a significant share of the Company's turnover. In the same way, the Company has a significant market share in competition with correspondingly larger providers of comparable products. To strengthen the Company's market position, significant marketing investments and further development of brands and business concepts have taken place.

Management's review

Financial risks

The Management considers the Company's financial resources to be sufficient.

Currency risks

The Company has Domestic sales of goods as well as exports. These transactions are, however, as a rule, effectuated primarily in DKK or EURO, why the currency risk is assessed to be limited.

If deemed necessary, currency forward contracts for the hedging of future cash flows in foreign currencies are used.

Interest rate risks

The Company has only deposits with normal market interest conditions and thus has only minor risk related to interest rate level.

The Company's shareholders have chosen not to enter interest rate transactions to hedge interest rate risks, as in the case of a group internal balance.

Credit risks

The Company's policy for the assumption of credit risks implies that all major customers and other business partner's continuous credit is assessed. Mentioned policy minimizes/eliminates the risk.

Knowledge resources

Intellectual capital

Since the Company operates in a highly competitive market for all its products, it is essential constantly to recruit and retain employees with a high level of expertise in sales and marketing.

The company through continuous education and training initiatives secures that the needed high knowledge level is maintained.

The Company's support functions must have the professional skills and demonstrate the stability that ensures retention of skills and the ability to act as a support function. This is also ensured through the company's training and personnel policies as well as knowledge sharing internally and within the Group companies.

Research and development activities

R&D activities primarily are managed by central group functions in the parent company, but the company also holds costs for local market tracking, ad-hoc research, and product development.

Business model

The main activities of Merrild Kaffe consist of purchasing and selling coffee and tea to retail stores and professionals under the Merrild, Lavazza and Carte Noire brands. Additionally, the company also sells coffee machinery to the professional market. Merrild Kaffe's main geographic markets are Denmark, the North Atlantic and the Baltic countries.

Management's review

Account of the Statutory reporting on Social Responsibility, cf. section 99a in the Danish Financial Statements Act

Merrild Kaffe values ethical behavior and cooperates with suppliers, entrepreneurs, partners and distributors to ensure responsible business practices throughout the value chain. The company recognizes the social and environmental risks associated with coffee production and focuses its CSR-efforts on three main strategic areas in the value-chain:

- ▶ The source
- ▶ The company
- ▶ The products

Merrild Kaffe seeks to minimize the lifecycle impact of the final products as well as increase transparency for customers. By working with CSR across the value chain, Merrild Kaffe and its parent company Luigi Lavazza S.p.A. ensures that all significant risks are identified, considered and improved wherever possible. The company conducts lifecycle assessments of its products - from farm to cup. These assessments are then used to identify areas for potential improvement concerning both environmental and climate impact. The results of the most recent assessments show that the most significant impact happens during the stages of farming and brewing.

In 2017, Lavazza Group also took up the challenge issued by the United Nations by pursuing and promoting the 17 Sustainable Development Goals set out in the 2030 Agenda for Sustainable

Development: the UN Global Goals, thus the goals are today the framework for the Lavazza Groups sustainability effort and strategy.

Environment and Climate

Policy

Merrild Kaffe wants to make coffee production more resilient to climate change and minimize the environmental impacts of coffee production. This is done through cooperation with small-scale farmers through the Lavazza foundation, to jointly face climate change effects, promote good agricultural practices and support a sustainable social development. This is also reflected in the company's strategy to pursue growth within organic or other sustainability certified coffee products.

Since 2001, Lavazza Group has been actively participating in International Coffee Partners (ICP), an organization that brings together eight European coffee companies committed to sustainability projects in coffee-producing countries. Its mission is to launch, develop and monitor projects that spread agricultural best practices among small coffee growers, while fostering their direct involvement, so that they take charge of improving their working and living conditions.

Lavazza Group also participates, as founding member, in the Coffee & Climate initiative. An initiative that aims to study the effects of climate change on coffee and provide small growers the technical tools they need to respond effectively to this challenge. From 2010 to date, approximately 80.000 farmers have been trained in C&C solutions and projects has been implemented in four regions, here Vietnam, Tanzania, Brazil, and Central America.

We expect to continue our work within the area in the future.

Management's review

Risks, actions and results

Coffee is a product of the land, and like land, it is threatened by the ongoing changes in our climate. The current climatic instability is menacing the supply of high-quality coffee. If we fail to take action to stem this phenomenon, millions of hectares risk vanishing in the span of a few decades, and millions of coffee growers risk losing their livelihoods, and Merrild Kaffe will not be able to access the high-quality coffee, which we rely on for our products. This risk is further accelerated by unsustainable farming practices, such as excessive use of pesticides.

To mitigate this risk, Merrild works with several projects through the parent company Luigi Lavazza S.p.A. and the Lavazza foundation. Lavazza's commitment to CSR comes to life through the [Lavazza Foundation](#), which promotes and implements economic, social, and environmental sustainability projects in coffee producing communities across the globe. More than 97,000 coffee producers have benefitted from Lavazza Foundation activity, through 24 projects in 17 countries.

The Foundation caters to the needs of coffee producers, improving the yield and quality of their products by providing trainings and resources that encourage the development of entrepreneurial skills.

The main tools used to achieve these goals are:

- ▶ The spread of good agricultural practices that foster coffee quality and respect for the environment, support reforestation, and spread farming techniques that enable growers to respond effectively to the effects of climate change.
- ▶ To support coffee growers in building and managing their own organizations, like associations, cooperatives and companies.

In addition, the Lavazza Foundation's projects also aim to:

- ▶ promote gender equality within families and communities;
- ▶ help young people realize their full potential through training programs that motivate them not to abandon coffee-growing lands and to become coffee entrepreneurs instead;
- ▶ promote the diversification of products in order to reduce risks and facilitate greater food production;
- ▶ support reforestation;
- ▶ spread farming techniques that enable growers to respond effectively to the effects of climate change;
- ▶ introduce technologies to support traditional coffee-growing techniques.

Labor conditions

Policy

Merrild Kaffe ApS wants to provide a good working environment, where employees thrive.

Risks, actions and results

Merrild Kaffe only has a sales office in Denmark, and the most prominent risk for Merrild Kaffe related to labor conditions is that of not having a healthy physical and mental work environment.

To mitigate this risk, Merrild conducts an annual employee satisfaction survey. In 2021, the results showed an average score of 4.4/5 of general job satisfaction, which Merrild deems highly satisfactory.

Merrild Kaffe has also adopted Lavazza's Employee Code of Conduct, which provides guidance and support for each employee, and outlines the main ethical rules and rules of conduct for each employee.

We expect to continue our work within the area in the future.

Management's review

Human rights

Policy

Merrild Kaffe wants to contribute positively to the local communities where the coffee is grown. Merrild Kaffe respects the internationally recognized human rights and does not accept any violations of these.

We only wish to collaborate with suppliers, who share our commitment to respecting human rights, having the highest health and safety practices, and minimizing the environmental impact.

We expect to continue our work within the area in the future.

Risks, actions and results

The most material risk associated with human rights has to do with the supply chain and more specifically with the working conditions in the coffee plantations. For this reason, it is mainly through our procurement of coffee beans that Merrild Kaffe has the largest impact on human rights.

Procurement is managed through the parent company Lavazza. Mutual commitments and responsibilities between Lavazza and the supplier are communicated through the Code of Conduct, which was updated in 2017. The Code of Conduct is built in the ten principles of the UN Global Compact, the Universal Declaration for Human Rights, the International Labor Standards of the ILO, and Children's Rights and Business Principles developed by Save the Children, UNICEF and UN Global Compact.

Lavazza asks suppliers to sign and accept the Supplier Code of Conduct and to act in accordance with the rules set out. All new direct suppliers were communicated and asked to sign the Code of Conduct in 2019.

We are not aware of any incidents of human rights abuse in our value chain in 2021.

Anti-corruption

Policy

Merrild Kaffe does not accept corruption or bribery in any form and does not allow our employees to receive any gifts or entertainment, that may influence their business decisions.

We expect to continue our work within the area in the future.

Risks, actions and results

The most material risks associated with anti-corruption are related gifts and entertainment to our purchasers, which may influence the purchasing decisions

To mitigate these risks, we inform our employees of our stand towards corruption and bribery, as well as our gift giving and receiving principles.

We did not experience any violations of this in 2021.

COVID-19

Policy

Merrild Kaffe ApS follows recommendations issued by the Danish government on an ongoing basis.

Risks, actions and results

The most material risks associated with Covid-19 are closing of the distributions channel which we deem very unlikely to happen as our main products are food products.

As we deem the risks on our distributions channel very low and outside our governance, we have not established extraordinary measures and tasks to mitigate these circumstances, besides following the guidelines and restrictions from the Danish government.

Management's review

Donations

Besides working with sustainability to improve the lives of coffee farmers, Merrild Kaffe has decided to donate coffee annually to various local organizations in Denmark.

In 2021, the company made a fiscal donation of Christmas funds to Dansk Folkehjælp and Mødrehjælpen. To the later Merrild also donated 128.000 cups of coffee as well as ad hoc coffee is donated to organizations that reduce food waste and support veterans and other exposed groups of the Danish society (e.g., Kirkens Korshærs homeless shelters and community centers). Merrild also support Team Rynkeby Ringe Charity event and furthermore, Merrild Kaffe is a major partner for Muskelsvindfonden (The Muscular Dystrophy Foundation) sponsoring national events as Grøn Koncert and Cirkus Summarum.

The sponsorship includes a fiscal donation to the foundation and collection though sale of coffee at the events, the earnings go uncut to the foundation. Merrild are also engaged with Dansk Naturfrednings Forening (Danish Society for Nature Conservation) including a fiscal donation and having all employees in Merrild participate in yearly collection of waste in our local community.

Account of Data Ethics, cf. section 99d in the Danish Financial Statements Act

Policy

The data ethics policy should be a complement and a broader foundation than the regulatory framework that applies to the work on data in the GDPR context. The data ethics policy also includes the implementation of IT systems as well as new technologies and their ethical evaluation.

Merrild Kaffe ApS processes data about our employees, customers, consumers, and other business partners. Data is always provided through a contractual relationship, explicit consent, or legal interest in processing this data. It is important for us to always state clearly what we use the data for and that under no circumstances is it used for purposes other than the information provided if the data is collected based on consent or a contract.

The data ethics policy must ensure that there is an ongoing focus on areas where there may be a debate on the processing of data in relation to fundamental values and ethics.

Use of data

Merrild's data ethics policy is based on the information Merrild Kaffe ApS stores and processes. The policy applies to customer data, employee data and data about business partners, suppliers, and distributors.

Principles of data ethics policy

Data ethics have a basic premise that all data must be processed in a responsible manner. It is important that all stakeholders have confidence in our data management and that the data ethics mindset is incorporated at all levels of the organization working with data.

We, the Organization, will ensure that the risk of unintended consequences is minimized, for example, by publishing, misuse or tampering with appropriate safeguards. We only initiate cooperation with third parties, who we trust and handle the personal data that the data processor makes an initial assessment of the supplier before a data processing agreement is drawn up.

Transparency

In relation to employee data, all processes are described, and we work with need-to-know access. We only use data for the purpose for which it was obtained. Employees, consumer, customers, or other stakeholders may at any time request information, update, or deletion of the data we process if we do not have a factual purpose for the storage of data. In addition, integrity, security, and decency in all relations are keywords for Merrild Kaffe ApS.

Merrild Kaffe ApS does not sell or disclose information unless we are obliged to do so.

Management's review

Deleting data

Merrild Kaffe ApS continuously works to delete personal data and other data that is no longer relevant. We always comply with our group guidelines in relation to personal data including anonymization and deletion of data.

Equality and justice

We don't want to use data in a way that can create unintended patterns or other biases. Methods that involve the risk of bias or discrimination will not be used. If new technological solutions are developed, the focus will be on the inclusion of different professional backgrounds, competences, and insights to ensure that attention is paid to whether the results may discriminate against specific groupings such as gender, age, ethnicity, or the like.

Professional integrity

All companies' employees receive training in GDPR and good data behavior in relation to storage, processing, and deletion. This is both e-learning and part of the onboarding conducted by HR and the IT department. The e-learning ends with a test that is mandatory for all employees.

We encourage an open dialogue about the risks of data management and that all employees take a stand if data processes and/or systems conflict with the employee's professional knowledge. If new technological solutions are put into operation, an assessment of the value, disadvantages or risks to all stakeholder parties is made.

Responsibility

Ethically correct handling of data and personal data is a common concern for everyone in Merrild Kaffe ApS. We do what we say, we keep what we promise, and we are always transparent and orderly in our work and the way we do business. To maintain trust, it is important that all employees are aware that they have a responsibility for proper and safe use when handling data. We are very concerned that all our employees behave properly - that is, ethically correct, and our employees are all subject to a privacy policy as part of their employment contract.

Account of the gender composition of Management cf. 99 b of the Danish Financial Statements Act

It is Merrild Kaffe's policy to promote gender equality in all managerial levels, including the board of directors. While the professional qualifications and educational background of candidates continues to guide hiring decisions at Merrild Kaffe, the company strives to develop and ensure diversity through various initiatives. If possible, HR seeks to ensure that at least one candidate of the underrepresented gender is represented in the recruitment process.

In 2021, the top management of Merrild Kaffe consisted of 57 % men and 43 % women.

As a company's strategy to have more women in the Board, we have changed the board composition from three men to two men and one woman by 31st of December 2021.

Uncertainty relating to recognition and measurement

The recognition and measurement of assets and liabilities in the financial statement of 2021 are not subject to any significant uncertainties.

Subsequent events

Since Covid-19 started impacting the business in early 2020, we have in Denmark seen a shift from out of home consumption to in home consumption. Distribution of coffee from Lavazza Italy have not been affected by the outbreak of the Covid-19 virus. All goods to and from Italy can float freely

In the beginning of 2022, we see a normalization in the market and witness a swing back to normal market conditions.

No other subsequent events have occurred that could materially affect the assessment of the company's financial position.

Consolidated financial statements and parent company financial statements 1 January - 31 December

Notes

1 Accounting policies

The annual report of Merrild Kaffe ApS for 2021 has been prepared in accordance with the provisions in the Danish Financial Statements Act applying to large reporting class C entities.

Effective from the financial year 2020, the Company has implemented amending act no. 1716 of 27 December 2018 to the Danish Financial Statements Act. The implementation of the amending act has not affected the Company's accounting policies on recognition and measurement of assets and liabilities but has solely entailed new and amended presentation and disclosure requirements.

The accounting policies used in the preparation of the financial statements are consistent with those of last year.

Consolidated financial statements

Control

The consolidated financial statements comprise the Parent Company Merrild Kaffe ApS and subsidiaries controlled by Merrild Kaffe ApS.

Control means the power to exercise decisive influence over a subsidiary's financial and operating decisions. Moreover, the possibility of yielding a return from the investment is required.

In assessing whether the Parent Company controls an entity, de facto control is also taken into consideration.

The existence of potential voting rights that may currently be exercised or converted into additional voting rights is considered when assessing whether an entity may become empowered to exercise decisive influence over another entity's financial and operating decisions.

Preparation of consolidated financial statements

The consolidated financial statements are prepared as a consolidation of the Parent Company's and the individual subsidiaries' financial statements, which are prepared according to the Group's accounting policies. On consolidation, intra-group income and expenses, shareholdings, intra-group balances and dividends as well as realised and unrealised gains on intra-group transactions are eliminated. Unrealised gains on transactions with associates are eliminated in proportion to the Group's interest in the entity. Unrealised losses are eliminated in the same way as unrealised gains unless they do not reflect impairment.

The subsidiaries' financial statement items are included 100% in the consolidated financial statements.

Acquisitions and disposals of non-controlling interests that are still controlled are recognised directly in equity as a transaction between shareholders.

Foreign currency translation

On initial recognition, transactions denominated in foreign currencies are translated at the exchange rates at the transaction date. Foreign exchange differences arising between the exchange rates at the transaction date and the date of payment are recognised in the income statement as financial income or financial expenses.

Receivables, payables and other monetary items denominated in foreign currencies are translated at the exchange rates at the balance sheet date. The difference between the exchange rates at the balance sheet date and the date at which the receivable or payable arose or was recognised in the latest financial statements is recognised in the income statement as financial income or financial expenses.

Consolidated financial statements and parent company financial statements 1 January - 31 December

Notes

1 Accounting policies (continued)

Foreign subsidiaries are considered separate entities. The income statements are translated at the average exchange rates for the month, and the balance sheet items are translated at the exchange rates at the balance sheet date. Foreign exchange differences arising on translation of the opening equity of foreign entities at the exchange rates at the balance sheet date and on translation of the income statements from average exchange rates to the exchange rates at the balance sheet date are recognised directly in equity.

Foreign exchange adjustments of balances with foreign subsidiaries that are considered part of the total investment in the subsidiary are recognised directly in equity. Foreign exchange gains and losses on loans and derivative financial instruments designated as hedges of foreign subsidiaries are also recognised directly in equity.

Leases

The Company has chosen IAS 17 as interpretation for classification and recognition of leases.

Leases that do not transfer substantially all the risks and rewards incident to the ownership to the Company are classified as operating leases. Payments relating to operating leases and any other rent agreements are recognised in the income statement over the term of the lease. The Company's aggregate liabilities relating to operating leases and other rent agreements are disclosed under "Contingent liabilities".

Income statement

Revenue

The Company has chosen IAS 11/IAS 18 as interpretation for revenue recognition.

Revenue is measured at the fair value of the agreed consideration exclusive of VAT and taxes charged on behalf of third parties. All discounts and rebates granted are recognised in revenue.

Income from the sale of goods for resale and finished goods, including #, is recognised in revenue when the most significant rewards and risks have been transferred to the buyer, the income can be measured reliably and payment is expected to be received. The date of the transfer of the most significant rewards and risks is based on standardised terms of delivery based on Incoterms® 2010.

Cost of sales

Cost of sales include the cost of goods used in generating the year's revenue.

Other external expenses

Other external expenses include the year's expenses relating to the Company's core activities, including expenses relating to distribution, sale, advertising, administration, premises, bad debts, payments under operating leases, etc.

Staff costs

Staff costs include wages and salaries, including compensated absence and pension to the Company's employees, as well as other social security contributions, etc. The item is net of refunds from public authorities.

Other operation income

Other operating income comprises items secondary to the entities' activities, including gains on disposal of intangible assets and property, plant and equipment.

Consolidated financial statements and parent company financial statements 1 January - 31 December

Notes

1 Accounting policies (continued)

Financial income and expenses

Financial income and expenses comprise interest income and expenses, gains and losses on securities, payables and transactions denominated in foreign currencies, amortisation of financial assets and liabilities as well as surcharges and refunds under the on-account tax scheme, etc.

Tax for the year

Tax for the year comprises current income tax and changes in deferred tax for the year due to changes in the tax rate. The tax expense relating to the profit/loss for the year is recognised in the income statement, and the tax expense relating to amounts recognised directly in equity is recognised directly in equity.

Balance sheet

Intangible assets

Goodwill

Goodwill is amortised over the expected economic life of the asset, measured by reference to Management's experience in the individual business segments. Goodwill is amortised on a straight-line basis over the amortisation period, which is estimated at 20 years. The amortisation period is fixed on the basis of the expected repayment horizon and is longest for strategically acquired entities with strong market positions and long-term earnings profiles.

Plant, equipment and leasehold improvements

Plant and machinery and fixtures and fittings, tools and equipment and leasehold improvements are measured at cost less accumulated depreciation and impairment losses. Land is not depreciated.

Cost comprises the purchase price and any costs directly attributable to the acquisition until the date when the asset is available for use. The cost of self-constructed assets comprises direct and indirect costs of materials, components, sub-suppliers, wages and salaries as well as borrowing costs relating to specific and general borrowing directly attributable to the construction of the individual asset.

Individual components, plant and equipment that have different useful lives are accounted for as separate items, which are depreciated separately.

Depreciation is provided on a straight-line basis over the expected useful lives of the assets, which are as follows:

Plant and machinery	4-5 years
Leasehold improvements	5 years

Depreciation is based on the residual value of the asset and is reduced by impairment losses, if any. The depreciation period and the residual value are determined at the acquisition date and are reassessed annually. Where the residual value exceeds the carrying amount of the asset, no further depreciation charges are recognised.

In the case of changes in the depreciation period or the residual value, the effect on the depreciation charges is recognised prospectively as a change in accounting estimates.

Depreciation is recognised in the income statement as production costs, distribution costs and administrative expenses, respectively.

Consolidated financial statements and parent company financial statements 1 January - 31 December

Notes

1 Accounting policies (continued)

Gains and losses on the disposal of items of property, plant and equipment are calculated as the difference between the selling price less selling costs and the carrying amount at the date of disposal. Gains and losses are recognised in the income statement as other operating income or other operating expenses, respectively.

Equity investments in subsidiaries in the parent company financial statements

Equity investments in subsidiaries are measured at cost in the parent company financial statements.

On initial recognition, equity investments in subsidiaries are measured at cost, i.e. plus transaction costs. The cost is allocated in accordance with the acquisition method; see the accounting policies regarding the consolidated financial statements above.

Identified increases in value and goodwill, if any, compared to the underlying entity's net asset value are amortised in accordance with the accounting policies in the consolidated financial statements. Negative goodwill is recognised in the income statement.

Impairment of non-current assets

The carrying amount of intangible assets, plant and equipment, leasehold improvements and equity investments in subsidiaries is tested annually for indication of impairment other than the decrease in value reflected by amortisation/depreciation.

Impairment tests are conducted on individual assets or groups of assets when there is indication of impairment. Write-down is made to the lower of the carrying amount and the recoverable amount.

The recoverable amount is the higher of the net selling price of an asset and its value in use. The value in use is calculated as the present value of the expected net cash flows from the use of the asset or the group of assets and the expected net cash flows from the disposal of the asset or the group of assets after the end of the useful life.

Previously recognised impairment losses are reversed when the reason for recognition no longer exists. Impairment losses on goodwill are not reversed.

Inventories

Inventories are measured at cost in accordance with the FIFO method. Where the net realisable value is lower than cost, inventories are written down to this lower value.

The net realisable value of inventories is determined as the selling price less costs of completion and costs incurred to effect the sale, taking into account marketability, obsolescence and developments in the expected selling price.

Receivables

Receivables are measured at amortised cost.

The Company has chosen IAS 39 as interpretation for impairment write-down of financial receivables.

Write-down for bad and doubtful debts is made when there is objective evidence that a receivable or a portfolio of receivables has been impaired. If there is objective evidence that an individual receivable has been impaired, an impairment loss is recognised on an individual basis.

Consolidated financial statements and parent company financial statements 1 January - 31 December

Notes

1 Accounting policies (continued)

Prepayments

Prepayments comprise costs incurred concerning subsequent financial years.

Equity

Dividend

Proposed dividend is recognised as a liability at the date when it is adopted at the annual general meeting (declaration date). Dividend expected to be distributed for the year is presented as a separate line item in equity.

Corporation tax and deferred tax

Current tax payables and receivables are recognised in the balance sheet as tax computed on the taxable income for the year, adjusted for tax on taxable income in previous years and tax paid on account.

Deferred tax is measured using the balance sheet liability method on all temporary differences between the carrying amount and the tax base of assets and liabilities. However, deferred tax is not recognised on temporary differences relating to non-deductible goodwill and on office premises and other items where temporary differences – apart from acquisitions – arise at the acquisition date without affecting either profit/loss for the year or taxable income. Where alternative tax rules can be applied to determine the tax base, deferred tax is measured based on Management's intended use of the asset or settlement of the liability, respectively.

Deferred tax assets, including the tax value of tax loss carryforwards, are recognised at the expected value of their utilisation; either as a set-off against tax on future income or as a set-off against deferred tax liabilities in the same legal tax entity and jurisdiction.

Deferred tax is measured according to the tax rules and at the tax rates applicable in the respective countries at the balance sheet date when the deferred tax is expected to crystallise as current tax.

Deferred income

Deferred income recognised as a liability comprises payments received concerning income in subsequent financial reporting years.

Cash flow statement

The cash flow statement shows the Group's cash flows from operating, investing and financing activities for the year, the year's changes in cash and cash equivalents as well as the Group's cash and cash equivalents at the beginning and end of the year.

The cash flow effect of acquisitions and disposals of entities is shown separately in cash flows from investing activities. Cash flows from acquisitions of entities are recognised in the cash flow statement from the date of acquisition. Cash flows from disposals of entities are recognised up until the date of disposal.

Cash flows from operating activities

Cash flows from operating activities are calculated as the Group's share of the profit/loss adjusted for non-cash operating items, changes in working capital and corporation tax paid.

Consolidated financial statements and parent company financial statements 1 January - 31 December

Notes

1 Accounting policies (continued)

Cash flows from investing activities

Cash flows from investing activities comprise payments in connection with acquisitions and disposals of entities, activities and intangible assets, property, plant and equipment and investments.

Cash flows from financing activities

Cash flows from financing activities comprise changes in the size or composition of the Group's share capital and related costs as well as the raising of loans, repayment of interest-bearing debt and payment of dividend to shareholders.

Cash and cash equivalents

Cash and cash equivalents comprise cash and short-term marketable securities with a term of three months or less that are subject to only minor risks of changes in value.

Segment information

The allocation of revenue to activities and geographical markets is disclosed where these activities and markets differ significantly in the organisation of sales of goods and services.

2 Segment information

Split of revenue in business activities (§96) is omitted with reference to section §11, pcs 2, since management believes that the information can cause significant damage, as the industry especially in the professional segment is characterized by few participants.

Revenue in Merrild Kaffe ApS relates to sales in primary Denmark, Baltic and the rest of northern Europa.
