## Statement by management on the annual report

The supervisory and executive boards have today discussed and approved the annual report of DCC Holding Denmark A/S for the financial year 1 April 2019 - 31 March 2020.

The annual report is prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the company's financial position at 31 March 2020 and of the results of the company's operations for the financial year 1 April 2019 - 31 March 2020.

In our opinion, management's review includes a fair review of the matters dealt with in the management's review.

Management recommends that the annual report should be approved by the company in general meeting.

## Independent auditor's report

### *To the shareholder of DCC Holding Denmark A/S*

#### **Opinion**

We have audited the financial statements of DCC Holding Denmark A/S for the financial year 1 April 2019 - 31 March 2020 comprising, income statement, balance sheet, statement of change in equity, and notes including accounting policies. The financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the company's assets, liabilities and financial position at 31 March 2020 and of the results of the company's operations for the financial year 1 April 2019 - 31 March 2020 in accordance with the Danish Financial Statements Act.

#### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report.

We are independent of the company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these rules and requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Management's responsibility for the financial statements**

Management is responsible for the preparation of financial statements, that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control, that management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless management either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

## Independent auditor's report

### **Auditor's responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements in Denmark will always detect a material misstatement when it exists. Misstatements may arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of financial statement users made on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- conclude on the appropriateness of management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## Independent auditor's report

### **Statement on management's review**

Management is responsible for management's review.

Our opinion on the financial statements does not cover management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read management's review and, in doing so, consider whether management's review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of management's review.

## Management's review

### Business review

DCC Holding Denmark A/S serves as holding company for the Company's subsidiaries DCC Energi Danmark A/S, DCC Energi Center A/S, Dansk Fuels A/S and DCC & Shell Aviation Denmark A/S.

DCC Holding Denmark A/S is a subsidiary of DCC Holding A/S, which owns 60% of the contributed capital. The residual contributed capital is owned by DLG Service A/S, which owns 40%. The ultimate parent company is DCC plc, which is domiciled in Ireland.

Through the subsidiaries the customers of the DCC Holding Denmark group may now profit from access to a nationwide network of petrol stations, sales and delivery of fuel and heating to private households and the Danish business sectors within transport, industry, service and agriculture and aviation fuel for Danish airports as well as fuel card solutions under the trademarks Shell and Euro Shell.

It is part of the Company's strategy to generate profitable growth and to secure its investments on the Danish energy market. This is executed with particular focus on the oil industry with risk diversification relative to market groups requiring energy and relative to seasonal fluctuations.

On 1 July 2019 the group entity, Dansk Fuels A/S, approved the de-merger of the Company's Aviation Business to DCC & Shell Aviation Denmark A/S, cvr. No. 39990466. Further, the subsidiary DCC Holding Denmark A/S sold 49 % of the shares in DCC & Shell Aviation Denmark A/S to Shell Overseas Investments B.V.

### Recognition and measurement uncertainties

The recognition and measurement of items in the annual report is not associated with any uncertainty.

### Unusual matters

The company's financial position at 31 March 2020 and the results of its operations for the financial year ended 31 March 2020 are not affected by any unusual matters.

However in the subsidiary DCC & Shell Aviation Denmark A/S the Covid-19 pandemic influenced the results for March where the subsidiary already here were met by airline cancellations leading to lower through-put volumes in Copenhagen airport as well as upcountry. The Covid-19 pandemic has a negative impact on DCC & Shell Aviation Denmark A/S's sales of aviation fuel. Although air traffic has resumed to a certain extent, at the time of the presentation of the accounts, it is still far too uncertain to assess when air travel activity will return to levels up to March 11, 2020.

Except from the decrease in the activity in DCC & Shell Aviation Denmark A/S, the Covid-19 pandemic does not expect to have a material impact on the results from subsidiaries in 2020/21.

### Financial review

The company's income statement for the year ended 31 March 2020 shows a profit of DKK 147,446 thousand, and the balance sheet at 31 March 2020 shows equity of DKK 720,940 thousand.

## Management's review

The Company's results rely directly on the results of the owned subsidiaries. The most important goals and results for the Company's subsidiaries for the year under review have been to increase profitability and to further strengthen the Company's market position without reducing the service level offered to customers and business partners.

The results for the year in the subsidiaries have not been material effected by the Covid-19 pandemic. The Group managed to capture market shares and regularly invests in further strengthening its market position within refined oil products and biogenic fuels. Accordingly, results for the year are considered satisfactory.

### **Significant events occurring after the end of the financial year**

No events have occurred after the balance sheet date which could significantly affect the company's financial position.

On 9 July 2015, the contributed capital was increased from DKK 501 thousand to DKK 835 thousand by contribution of existing business at a price of 92,964.

## Notes

### 1 Accounting policies

The annual report of DCC Holding Denmark A/S for 2019/20 has been prepared in accordance with the provisions of the Danish Financial Statements Act applying to enterprises of reporting class B as well as selected provisions as regards larger entities.

The Company has in 2019/20 changed the presentation of the income statement from cost by function to cost by nature in order to better reflect the activity of the Company. The change does not have any impact on the net profit/loss for the period. Comparative figures have been adjusted.

With the exception of changes in the presentation of the income statement, the accounting policies applied are consistent with those of last year.

The annual report for 2019/20 is presented in DKK'000

Pursuant to sections §112, of the Danish Financial Statements Act, the company has not prepared consolidated financial statements.

#### **Basis of recognition and measurement**

Income is recognised in the income statement as earned, including value adjustments of financial assets and liabilities. All expenses, including amortisation, depreciation and impairment losses, are also recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits will flow to the company and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow from the company and the value of the liability can be measured reliably.

On initial recognition, assets and liabilities are measured at cost. On subsequent recognition, assets and liabilities are measured as described below for each individual accounting item.

Certain financial assets and liabilities are measured at amortised cost using the effective interest method. Amortised cost is calculated as the historic cost less any installments and plus/less the accumulated amortisation of the difference between the cost and the nominal amount.

On recognition and measurement, allowance is made for predictable losses and risks which occur before the annual report is presented and which confirm or invalidate matters existing at the balance sheet date.

## Notes

### 1 Accounting policies

#### **Income statement**

##### **Other external expenses**

Other external expenses comprise legal and accounting expenses as well as expenses for services performed by the subsidiary DCC Energi Center A/S.

##### **Income from investments in subsidiaries**

The proportionate share of the profit for the year of subsidiaries is recognised in the company's income statement after full elimination of intra-group profits/losses.

##### **Financial income and expenses**

Financial income and expenses are recognised in the income statement at the amounts relating to the financial year. Net financials include interest income and expenses, realised and unrealised exchange rate adjustments as well as surcharges and allowances under the advance-payment-of-tax scheme.

##### **Tax on profit for the year**

The company is subject to the Danish rules on compulsory joint taxation.

On payment of joint taxation contributions, the current Danish income tax is allocated between the jointly taxed entities in proportion to their taxable income. Entities with tax losses receive joint taxation contributions from entities that have been able to use tax losses to reduce their own taxable profits.

Tax for the year, which comprises the current tax charge for the year and changes in the deferred tax charge, is recognised in the income statement as regards the portion that relates to the profit/loss for the year and directly in equity as regards the portion that relates to entries directly in equity.

#### **Balance sheet**

##### **Fixed asset investments**

##### **Investments in subsidiaries**

Equity investments in subsidiaries are recognised and measured according to the equity method as a consolidation method.

This entails that the equity investments are measured at the proportionate share of the entities' equity value plus non-amortised goodwill and less or plus unrealised intra-group gains and losses.

Net revaluations of investments in subsidiaries and associates are taken to the net revaluation reserve according to the equity method in so far as that the carrying amount exceeds the cost. Dividends from subsidiaries which are expected to be declared before the annual report of DCC Holding Denmark A/S is adopted are not taken to the net revaluation reserve.

## Notes

### 1 Accounting policies

#### Receivables

Receivables are measured at amortised cost.

An impairment loss is recognised if there is objective evidence that a receivable or a group of receivables is impaired. If there is objective evidence that an individual receivable is impaired, an impairment loss for that individual asset is recognised.

#### Equity

##### Reserve for net revaluation according to the equity method

The reserve for net revaluation according to the equity method in the company's financial statements comprises net revaluation of investments in subsidiaries and associates relative to the cost.

#### Dividends

Proposed dividends are disclosed as a separate item under equity. Dividends are recognised as a liability when declared by the annual general meeting of shareholders.

#### Income tax and deferred tax

Current tax liabilities and current tax receivables are recognised in the balance sheet as the estimated tax on the taxable income for the year, adjusted for tax on the taxable income for previous years and tax paid on account.

Joint taxation contributions payable and receivable are recognised in the balance sheet as 'Joint taxation contributions receivable' or 'Joint taxation contributions payable'.

Deferred tax is measured according to the liability method in respect of temporary differences between the carrying amount of assets and liabilities and their tax base, calculated on the basis of the planned use of the asset and settlement of the liability, respectively.

Deferred tax is measured according to the tax rules and at the tax rates applicable in the respective countries at the balance sheet date when the deferred tax is expected to crystallise as current tax. Deferred tax adjustments resulting from changes in tax rates are recognised in the income statement, with the exception of items taken directly to equity.

#### Liabilities

Liabilities which includes payable to affiliated entities and other payables are measured at amortised cost, which is usually equivalent to nominal value.

## Notes

### 1 Accounting policies

#### Foreign currency translation

On initial recognition, foreign currency transactions are translated applying the exchange rate at the transaction date. Foreign exchange differences arising between the exchange rates at the transaction date and at the date of payment are recognised in the income statement as financial income or financial expenses.
