## Management review

#### Activities

The Group's primary activity is to deliver safety and support at sea. With its modern fleet of Emergency Response and Rescue Vessels (ERRVs) and Service Operation Vessels (SOVs), the Group provides emergency response and rescue services for the oil and gas industry and accommodation and maintenance services for the wind farm operators.

#### Activity 2018

#### Result for the year

Revenue for the Group in 2018 was MDKK 986 against MDKK 906 in 2017. The result for the year was MDKK -357 compared to MDKK -205 in 2017. This was slightly below expectations, however Management considers the result for the year as fair, given the short period of ownership of the ESVAGT Group and difficult market conditions during 2018.

#### Market and activities

The off-shore oil and gas market remained negative during 2018 with few new activities in Norway and Denmark. In UK the market improved slightly, and more drilling activities were seen. During 2018 ESVAGT managed to secure more contracts in the UK market for its ERRV fleet and increased its market share in the UK spot market. The off-shore wind activities remained satisfactory with continued installation of new wind turbines across the North Sea.

#### Investments

During 2018 ESVAGT scrapped two old ERRVs, ESVAGT PROMOTOR and ESVAGT GAMMA and took delivery of one new ERRV, ESVAGT INNOVATOR and one new SOV, ESVAGT DANA. ESVAGT DANA was intended used as crew change vessel but later upgraded as SOV to meet the increasing demand for service vessels within the off-shore wind industry. ESVAGT's new building program comprises today of four SOVs for delivery in 2019, 2020 (two units) and 2021. All four newbuilds are on long contracts to MHI Vestas.

#### Equity

On 31 December 2018 the equity was MDKK -442 with an equity ratio of -8.9% compared to MDKK -68 and a ratio of -1.4% in 2017. Capital position and going concern is further explained in note 1.

#### Expectations for 2019

Based on the improved oil price, ESVAGT expects a higher activity level in the off-shore oil and gas market, mainly seen in the harsher environments i.e. West of Shetland in UK and the Barents Sea in Norway where exploration and appraisal drilling is taking place. ESVAGT also expects the Tyra re-development in Denmark will require more ERRVs. The activity level in the off-shore wind market is expected to remain positive in 2019. Therefore, our guidance for 2019 is a slightly better result compared to 2018.

#### Uncertainties regarding recognition and measurement

As a natural consequence of the current low activity in the oil and gas industry, returns on investments within the industry in general have declined and could potentially indicate the need for an impairment of assets.

ESVAGT regularly assess the valuation of its vessels, also including impairment testing. When performing such assessments and tests, future outlooks are considered. The ESVAGT Management expects the oil and gas industry to recover over the coming years and based upon the impairment tests performed, concludes that there is no need for impairment of its fleet. Management believes that ESVAGT with its asset base, experience and skills are well positioned when the market recovers.

#### Subsequent events

No events have occurred after 31 December 2018 which may significantly affect the financial year 2018.

#### Risks

The Group is, in the opinion of the Management, not exposed to commercial, operational or financial risks beyond what is common and natural for its business and the industry in which it operates.

In accordance with its strategy the Group constantly strives towards a reasonable balance between long term and short-term contracts for its fleet.

#### Development activities

During 2018 the Group held expenses of 0.2 MDKK (2017: 0.2 MDKK) related to development of the Fast Rescue Boats and Safe Transfer Boats.

#### **Business** model

As described above, the Group's operation is divided in two segments, providing Emergency Response and Rescue Services for the oil and gas industry and accommodation and maintenance services for the wind farm operators.

#### Corporate Social Responsibility

The Group does not have a formalized overall CSR policy, but a number of corporate policies providing guidance on what we stand for as a company, e.g. HSE, Quality, HR and Compliance. These policies govern how we act and engage with our customers, colleagues, suppliers and the community. They are applicable to all employees and available in our ESVAGT Integrated Management System Manual.

#### Health, safety and environment

We want to "Make the Sea a Safe place to work" as well as supporting the green energy transition are main issues for us. We want to be the world leader in our business area with focus on avoiding harm to people, the environment and our assets. We care about the wellbeing of our employees and want to give safety the absolute priority. Safety is our license to operate.

Zero incidents will always be a key objective in the group and we continuously strive to conduct all activities in a manner protecting the health and safety of our employees, customers, partners and owners. Risk of safety incidents with both "Crew change at sea" in FRB boats as well as the "Sliding access" concepts are focus areas and these are controlled by means of continuously improving employee competence level, prepare and comply with additional procedures as well as optimizing employee training and equipment. Both programmes have had high focus during 2018 and will continue in 2019. A yearly customer satisfaction survey has been completed and the result has been positive with a response rate of 99%. Working groups have been formed to address and optimize job satisfaction and well-being.

Environmental improvement and climate change are focus areas for the group. Both in terms of our services towards customers, where oil spill recovery and response are an integrated part of the group's primary services, but also in terms of our operations where continuous environmental improvements and energy optimization are an integral part of our HSE & QA programme. Risk of being precluded by customers due to high emission of Sox, NOx and CO2, lack of protecting the biodiversity and habitat as well as contamination incidents are controlled by high focus on fuel reduction and energy efficiency as well as implementing new procedures and equipment. The fuel focus and monitoring in 2018 were incorporated into the onboard Ship Energy Efficiency Management Plan (SEEMP) with the specific purpose of associated action plans and targets to ensure reduction in the consumption. During 2018 the new version of ISO 14001:2015 was implemented onshore and on selected vessels offshore.

#### Quality

Whatever we do – we do it with quality. Customer focus and flexibility is essential for us. With focus on constant improvements we will continuously strive to improve the way we work – innovation is a prerequisite to meet our customer's expectations. Risk of damaging customer facilities as well as customers becoming dissatisfied with our business concept or performance due to lack of fulfilment of contractual obligation. This is controlled by encouraging and having continued focus on the ESVAGT Standard and the operational excellence. The group facilitates a yearly customer satisfaction survey, where a selected number of customers are invited to evaluate various parameters of our performance. The result is followed closely, and actions are identified and addressed. In 2018 the result indicated a slightly lower response rate from our customers than previous years, though the top priority remains safety and general technical performance of vessel. Additionally, the new version of ISO 9001:2015 was implemented during 2018.

#### HR

Out strength is people with skills, enthusiasm, and dedication – a ship is only as good as its crew. We want to develop a strong and engaged organization and always have access to the human capital. We want to have the best in class people and attract strong candidates. Risk of the inability to attract and retain talented employees both onshore and offshore as well as losing focus on ESVAGT Standard values and the lack of optimal internal cooperation/teamwork due to growth/ change in the organization. This is controlled by increased focus on maintaining good communication with relevant stakeholders as well as having continued focus and plans on introducing the ESVAGT Standards and "House Rules" for all new employees. The employees undergo continuous training and education and we constantly measure commitment

and job satisfaction. A yearly customer satisfaction survey has been completed and the result for 2018 has been positive with a response rate of 99%. Working groups have been formed with both onshore and offshore employees to address and optimize job satisfaction and well-being.

The group operates within an area that historically employees more men than women. In 2018 the group continued to promote diversity and create equal opportunities for everyone. This approach is embedded in all professional relations and on all levels within the organisation. All evaluation processes focus on the experience and education of new candidates and we offer the same opportunities and terms of employment for women as well as men, aiming for employing the most qualified candidate for any position. During 2018 the owner group appointed a new Chairman of the Board for ESVAGT but nevertheless, the target of a female board member by 2020 remains unchanged. In 2018 one out of six Senior Management positions in the group was undertaken by a female employee and additionally, two new female managers were appointed.

#### Compliance

Being a good corporate citizen, shall always be an integral part of the way we do business. We are committed to work with our employees and stakeholders to promote responsible practices in general and throughout our supply chain around the world. We strive to continually improve within the areas of human rights, labour standards and the environment and to work against any form of corruption. Risk of breach of international conventions regarding social responsibility, corruption and fraud as well as new regulatory compliance requirements. This is controlled by fully implementing the ESVAGT Code of Conduct as well as the whistleblowing & anti-corruption system.

We strongly believe that implementing a 'Code of Conduct' towards our partners and in our supply chain has created value for all parties and this is a step to establish a long-term sustainable relationship with our stakeholders and the societies where we operate. Our Code of Conduct complies with the UN Global Compact and our respect for universally recognized normative standards such as the United Nations Universal Declaration of Human Rights and the core labour conventions of the International Labour Organization.

The group is committed to the highest standards of transparency and accountability and has implemented a whistleblowing system that offers protection for individuals who want to voice concerns or reveal illegal, unethical or dangerous practices. The group encourages all partners and stakeholder to act if they encounter any deviations and to report this to our Whistleblowing system. In 2018 our anti-corruption programme was a focus area. All new onshore employees and all new vessel's officers completed the mandatory e-learning programme successfully and they were all registered in our system. As far as registration of hospitality & facility payment is concerned, this is still a focus area. During 2018 we registered only a few incidents, the reason being both the general increased focus on transparency as well as the fact that the group currently only operated in markets with low risk of being exposed to corruption or bribery.

#### CSR Risks and opportunities evaluation

The group has a strategic risk & opportunity register which is being reviewed and controlled twice a year by the senior management. Through ISO 9001 quality certification, ISO 14001 environmental certification and ISM Code safe management certification we ensure that there are no major HSE, Quality, HR or Compliance risks associated with the group activities.

The group is, in the opinion of the management, not exposed to commercial, operational or financial risks beyond what is common and natural for its business and the industry in which it operates. In accordance with its strategy, the group strives for an appropriate balance between long term and short-term contracts for its fleet, taking into account market conditions.

### Due diligence

Exercising due diligence is essential to our efforts to uphold our integrity. By thinking due diligence into the way we work, risks are identified and dealt with. This is implemented throughout our management systems certified according to ISO 9001 (quality management), ISO 14001 (environmental management) and the ISM Code (safe management and operation of ships at sea as well as our product label).

<sup>\*)</sup> The company has adopted IFRS as per 1.1.2017, the comparative figures for 2016 have been adjusted accordingly. Comparative figures for 2013-2015 are stated under Danish GAAP.

The key figures and financial ratios have been prepared on a consolidated basis. The financial ratios have been calculated in accordance with the recommendations of the Association of Danish Financial Analysts (2015).

## Management's Statement

The Executive Board have today considered and adopted the Annual Report of ERRV Holdings ApS for the financial year 1 January - 31 December 2018.

The Financial Statements are prepared in accordance with International Financial Reporting Standards as adopted by the EU, and further requirements in the Danish Financial Statements Act.

In our opinion the consolidated Financial Statements and the separate Financial Statements give a true and fair view of the Group's and the Company's financial position at 31 December 2018 and the results of the Group's and Company's operations and cash flows for the financial year 1 January – 31 December 2018.

In our opinion, Management's Review includes a true and fair account of the development in the operations and financial circumstances of the Group and the Company, of the results for the year and of the financial position of the Group and the Company.

We recommend that the Annual Report be adopted at the Annual General Meeting.

## Independent Auditor's Report

To the Shareholders of ERRV Holdings ApS

#### Opinion

In our opinion, the Consolidated Financial Statements and the Parent Company Financial Statements give a true and fair view of the Group's and the Parent Company's financial position at 31 December 2018 and of the results of the Group's and the Parent Company's operations and cash flows for the financial year 1 January to 31 December 2018 in accordance with International Financial Reporting Standards as adopted by the EU and further requirements in the Danish Financial Statements Act.

We have audited the Consolidated Financial Statements and the Parent Company Financial Statements of ERRV Holdings ApS for the financial year 1 January - 31 December 2018, which comprise income statement and statement of comprehensive income, balance sheet, statement of changes in equity, cash flow statement and notes, including a summary of significant accounting policies, for both the Group and the Parent Company ("financial statements").

#### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the financial statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financials Statements Act.

Based on the work we have performed, in our view, Management's Review is in accordance with the Consolidated Financial Statements and the Parent Company Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statement Act. We did not identify any material misstatement in Management's Review.

#### Management's Responsibilities for the Financial Statements

Management is responsible for the preparation of Consolidated Financial Statements and Parent Company Financial Statements that give a true and fair view in accordance with International Financial Reporting Standards as adopted by the EU and further requirements in the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Group's and the Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Group or the Parent Company or to cease operations, or has no realistic alternative but to do so.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Parent Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Parent Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Parent Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business
  activities within the Group to express an opinion on the Consolidated Financial Statements. We are responsible
  for the direction, supervision and performance of the group audit. We remain solely responsible for our audit
  opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### Notes

#### 1. Capital position and going concern

The purpose of ERRV Holdings ApS is to hold the shares in ERRV ApS, which is the holding company of ESVAGT A/S. The investment in ERRV ApS had a carrying value of MDKK 0 at 31 December 2018 (2017: MDKK 0) hence the share capital was lost and the company is subject to the rules of capital loss in the Danish Company's Act.

Impairment tests have been carried out regarding the investment in ESVAGT A/S, which did not result in any impairment.

The lenders of the loans in ERRV ApS have expressed their continuing interest in assuring that ERRV Holdings ApS and ERRV ApS can continue as a going concern and have expressed their intention not to call the loans already extended and any additional future loans that may be extended to ERRV Holdings ApS and ERRV ApS, unless the liquidity position of the ERRV Holdings ApS and ERRV ApS are adequate to justify such repayment.

#### 2. Accounting policies

The Annual Report for the period 1 January – 31 December 2018 comprises the consolidated financial statement of the parent company ERRV Holdings ApS and subsidiaries controlled by the parent company (the group).

#### Measurement basis

The Consolidated financial statements have been prepared on the historical cost basis except for derivative financial instruments which are measured at fair value.

#### Changes in accounting principles

With effect from 1 January 2018 ERRV Holdings ApS has applied IFRS 9 and 15. IFRS 9's effect on the recognized amounts was immaterial. IFRS 15 "Revenue from contracts with customers" resulted in changes in accounting policies and adjustments to the amounts recognized in the Statement of profit and loss. IFRS 15 didn't have any effect on the Balance Sheet. In accordance with the transition provisions in IFRS 15, the group has adopted the new rules retrospectively and has restated comparatives for the 2017 financial year. The adjustments comprised of reclassification of revenue regarding fuel, due to The Group being principal according to IFRS 15, instead of agent. In summary, the following adjustments were made to the amounts recognized in the Statement of profit and loss at the date of initial application (1 January 2018) and the beginning of the earliest period presented (1 January 2017):

|                          | 2017<br>IAS 18<br>TDKK | Reclassi-<br>fication<br>TDKK | 2017<br>IFRS 15<br>TDKK |
|--------------------------|------------------------|-------------------------------|-------------------------|
| Net revenue              | 866.948                | 38.589                        | 905.537                 |
| Other operating expenses | (186.397)              | (38.589)                      | (224.986)               |

#### Adoption of new and amended standards

The IASB has issued a number of new or amended standards and interpretations effective for financial years beginning after 1 January 2019. Some of these have not yet been endorsed by the EU. Most relevant to the Group is IFRS 16 "Leasing" which was issued in January 2016. It will result in almost all leases being recognized on the balance sheet, as the distinction between operating and finance leases is removed. Under the new standard, an asset (the right to use the leased item) and a financial liability to pay rentals are recognized. The only exceptions are short-term and low-value leases. The standard is effective for annual periods beginning on or after 1 January 2019 and earlier application is permitted.

The group has reviewed the leasing arrangements over the last year. The standard will affect the accounting for the groups operating leases. As at the reporting date, the group has non-cancellable operating lease commitments of TDKK 12.918, see note 19. Of these commitments approximately TDKK 143 relate to short-term leases which will be recognized on a straight-line basis as expense in profit or loss.

For the remaining lease commitments, the group expect to recognize right-of-use assets of approximately TDKK 8.787 on 1 January 2019 and lease liabilities of TDKK 8.787. The group expects that net profit after tax will decrease by approximately TDKK 126 for 2019 as a result of adopting the new rules. Adjusted EBITDA used to measure segment results is expected to increase by approximately TDKK 808, as the operating lease payments were included in EBITDA, but the amortisation of the right of-use assets and interest on the lease liability are excluded from this measure. Operating cash flows will increase, and financing cash flows decrease by approximately TDKK 808 as repayment of the principal portion of the lease liabilities will be classified as cash flows from financing activities.

The group will apply the standard from its mandatory adoption date of 1 January 2019. The group intends to apply the simplified transition approach and will not restate comparative amounts for the year prior to first adoption.

There are no other IFRS' or IFRIC interpretations that are not yet effective that is expected to have a material impact on the Group.

#### Basis of consolidation

Subsidiaries are all entities over which the group has control. The group controls an entity when the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases.

On consolidation, elimination is made of intra-group income and costs, shareholdings, intra-group balances and dividend and realized and unrealized profits or losses on transactions between the consolidated companies.

#### Consolidation

The Consolidated financial statements comprise the parent company ERRV Holdings ApS and its subsidiaries.

Subsidiaries are entities controlled by ERRV Holdings ApS. Control is based on the power to direct the relevant activities of an entity and the exposure, or right, to variable returns arising from it. Control is usually achieved by directly or indirectly owning or in other ways controlling more than 50% of the voting rights or by other rights, such as agreements on management control.

Consolidation is performed by summarizing the financial statements of the parent company and its subsidiaries which have been prepared in accordance with the Groups accounting policies. Intra-group income and expenses, shareholdings, dividends, intra-group balances and gains on intra-group transactions are eliminated.

Non-controlling interests' share of profit/loss for the year and of equity in subsidiaries are included as part of ERRV Holdings ApS profit and equity respectively but shown as separate items.

#### Foreign currency translation

#### Functional and presentation currency

Items in the financial statements of each of the reporting companies of the Group are measured in the currency of the primary economic environment in which the company operates (the functional currency).

The functional currency of ERRV Holdings ApS is DKK. The financial statements are presented in Danish Kroner (DKK). The financial statements have been rounded to the nearest thousand.

#### Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognized in profit or loss.

Foreign exchange gains and losses that relate to borrowings are presented in the statement of profit or loss, within finance costs. All other foreign exchange gains and losses are presented in the statement of profit or loss on a net basis within other income or other expenses.

#### Group companies

The results and financial position of all the group entities that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- a) Assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet;
- b) Income and expenses for each income statement are translated at average exchange rates; and
- c) All resulting exchange differences are recognized in other comprehensive income.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate. Exchange differences arising are recognized in other comprehensive income. Contingent consideration is classified either as equity or a financial liability. Amounts classified as a financial liability are subsequently remeasured to fair value with changes in fair value recognized in profit or loss.

#### Derivatives

Derivatives are initially recognized at fair value on the date a derivative contract is entered and are subsequently remeasured at their fair value. The method of recognizing the resulting gain or loss depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged. Foreign exchange forwards are used to hedge the currency risk related to recognized and unrecognized transactions.

The effective portion of changes in the value of derivative financial instruments designated to hedge future transactions is recognized under equity until the hedged transactions are realized. At that time, the cumulated gains/losses are transferred to the items under which the hedged transactions are recognized. The effective portion of changes in the value of derivative financial instruments used to hedge the value of the recognized financial assets and liabilities is recognized in the income statement together with changes in the fair value of the hedged assets or liabilities which can be attributed to the hedging relationship. The ineffective portion of hedge transaction are recognized in the income statement as financial income or expenses for interest and currency-based instruments.

#### Revenue recognition

The group provide support and services to the offshore industry comprising standby and emergency response and rescue, oil spill contingency, tanker assist, rig move and supply duties. Revenue from providing services is recognized in the accounting period in which the services are rendered. Revenue is recognized based on the actual service provided to the end of the reporting period as a proportion of the total services to be provided because the customer receives and uses the benefits simultaneously. This is determined based on the days spent relative to the total number of days the contract covers.

Support and service contracts include multiple deliverables, such as charter, crew, fuel and services. Except for fuel, the deliverables are integrated in the services and cannot be provided separately. The services in a charter excluding fuel are therefore accounted for as one performance obligation. A part of the contract price is allocated to a separate performance obligation for fuel based on its stand-alone selling price, which is directly observable.

The contracts do not contain any variable elements.

#### Other income and other expenses

Other income comprises of other activities, e.g. property rent and gains of sales of fixed assets. Other income is recognized when the agreed service or asset is delivered, and the control has been transferred to the purchaser.

Other expenses comprises of other activities, e.g. loss of sales of fixed assets.

#### Other operating expenses

Other operating expenses comprise repair and maintenance, stores, vessel fuel, training and travel costs, expenses related to marketing, administration, office expenses, bad debt, leases etc.

#### Staff expenses including pensions and similar liabilities

Staff expenses comprise wages and salaries, pensions, social security costs and other staff costs to the company's employees.

The Group has entered into pension and similar agreements with most employees. Obligations relating to defined contribution plans are recognized in the income statement in the period in which they are earned.

#### Amortisation, depreciation and impairment

Amortisation, depreciation and impairment comprise amortisation, depreciation and impairment of intangible assets and property, plant and equipment.

#### Financial income and expenses

Financial income and expenses comprise interest income and expenses, realized and non-realized capital gains/losses on transactions in foreign currency, amortisation of financial assets and liabilities etc.

#### Income tax and deferred tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions, where appropriate, on the basis of amounts expected to be paid to the tax authorities.

The Group's vessels activities are subject to the tonnage taxation scheme under which the computation of taxable income includes an amount, calculated on the basis of the fleet's tonnage.

Deferred income tax is recognized on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the Consolidated Financial Statements. However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill; deferred income tax is not accounted for if it arises from the initial recognition of an asset or liability in a transaction other than a business combination that, at the time of the transaction, affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realized, or the deferred income tax liability is settled.

Deferred income tax assets are recognized only to the extent that it is probable that future taxable profit will be available, against which the temporary differences can be utilized.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

#### Intangible assets

#### Goodwill

Goodwill arises on the acquisition of subsidiaries and represents the excess of the consideration transferred over the group's interest in net fair value of the net identifiable assets, liabilities and contingent liabilities of the acquire.

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the CGU's, or groups of CGU's, that is expected to benefit from the synergies of the combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes.

Goodwill impairment reviews are undertaken annually or more frequently if events or changes in circumstances indicate a potential impairment. The carrying value of goodwill is compared to the recoverable amount, which is the higher of value in use and the fair value less costs of disposal. Any impairment is recognized immediately as an expense and is not subsequently reversed.

#### Development projects

Development projects comprise engineer costs related to specific development projects of The Group's Fast Rescue Boats and Safe Transfer Boats. Development projects are capitalized when development projects imply a technical and/or operational advantage for the Group and where the financial net present value of these projects exceeds the development expenses.

Intangible assets are measured at cost less of accumulated depreciation and impairment losses.

Depreciation to estimated residual value is recognized in the income statement on a straight-line basis over the useful life, which is:

- Development projects: 3 years

#### Tangible assets

Premises on leased land, vessels, docking costs and other operating equipment and fixtures are measured at cost less accumulated depreciation and accumulated impairment losses.

Cost comprise the cost of acquisition and expenses directly related to the acquisition up until the time when the asset is ready for use. Borrowing costs from specific as well as general borrowing directly related to assets with a long production period are attributed to costs during the period of construction.

Depreciation based on cost reduced by any residual value is calculated on a straight-line basis over the expected useful lives of the assets, which are:

- Premises on leased land: 20-30 years
- Vessels: Up to 25 years
- Docking costs: 2,5-5 years
- Other fixtures and fittings: 3-5 years

New build vessels are depreciated over 25 years. Used vessels are depreciated over a shorter period based on the vessel age upon time of purchase. Charter contracts related upgrades and other improvements are depreciated over expected useful life of 3-5 years.

Expenses for docking of vessels are recognized when incurred in the carrying number of vessels and depreciated over the period until next docking.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Gains and losses arising from disposal of tangible assets are calculated as the difference between the sales price less sales costs and the carrying amount at the time of sale. Gains and losses are recognized in the profit and loss account as other operating income or other operating costs.

#### Impairment of non-financial assets

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. An impairment loss is recognized in the income statement when the impairment is identified.

Intangible assets that have an indefinite useful life and intangible assets not yet available for use are not subject to amortisation and are tested annually for impairment. Tangible and intangible assets that are subject to amortisation are reviewed whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less cost of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are largely independent cash inflows (cash-generating units). Prior impairment of non-financial assets (other than goodwill) are reviewed for possible reversal at each reporting date.

#### Leases

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Group is classified as a finance lease.

Finance leases are capitalized at the commencement of the lease at the inception date fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease liability to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognized in finance costs in the statement of profit or loss.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Group will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

An operating lease is a lease other than a finance lease. Operating lease payments are recognized as an operating expense in the statement of profit or loss on a straight-line basis over the lease term.

#### Investment in subsidiaries

#### Income statement

Investments in subsidiaries are recognized according to the equity method and measured at the proportionate share of the entities' net asset values calculated in accordance with the Group's accounting policies.

#### Balance sheet

Investments in subsidiaries are measured at pro rata share of the subsidiaries' equity in accordance with the accounting policies of the parent company. Adjustments are made for unrealized group internal gains and losses and for remaining value of positive or negative goodwill. Subsidiaries with negative equity are recognized at DKK 0, provided ERRV Holdings ApS has not provided guarantees or otherwise is liable for the subsidiary.

#### Inventories

Inventories comprise of bunkers and other consumables. Inventories are measured at cost according to the FIFO-method. Write-down is made to a possibly lower net realizable value.

#### Receivables

Receivables are initially recognized at fair value adjusted for any transaction costs. Subsequently, receivables are measured at amortized cost, which usually corresponds to the nominal value. Write-down is made for bad debts based on the expected loss.

#### Prepayments

Prepayments comprise various prepaid expenses such as prepaid insurance, subscriptions etc. Prepayments are measured at cost.

#### Cash and cash equivalents

Cash and cash equivalents comprise "Cash at bank and in hand".

#### Equity

#### Reserve for foreign currency translation

The reserve for exchange adjustments consists of exchange rate differences that occur when translating the foreign subsidiaries financial statements from their functional currency into the Group's presentation currency. On disposal of the net investment, the reserve for exchange adjustments of that foreign subsidiary is recognized in the income statement. Reduction of a net investment in a foreign operation which does not result in loss of control is not treated as a disposal.

#### Cash flow hedges

The effective portion of changes in the value of derivative financial instruments designated to hedge future transactions is recognized under equity until the hedged transactions are realized.

#### Dividend distribution

Dividends are recognized as a liability in the period in which they are adopted at the Annual General Meeting.

#### Bank and Credit institutions

Borrowings from credit institutions are initially recognized at fair value, net of transaction expenses incurred. Borrowings from credit institutions are subsequently measured at amortized cost. Any differences between the proceeds and the redemption value are recognized in the income statement over the period of the borrowings using the effective interest method.

#### Other liabilities

Other debt or liabilities covering trade payables and other debt are recognized at amortized cost, which is usually equivalent to the nominal value.

#### Prepayments received from customers

Prepayments received from customers comprise amounts received from customers prior to delivery of the goods agreed or completion of the service agreed.

#### Statement of cash flow

The cash flow statement shows the Group's cash flows during the year distributed on operating, investing and financing activities, changes in cash and cash equivalents at the beginning and at the end of the year.

Cash flows from operating activities are calculated by the indirect method using the profit before depreciation adjusted for changes in working capital and non-cash operating items such as depreciation, amortisation and impairment losses, and provisions. Working capital comprises current assets less short-term debt excluding items included in cash and cash equivalents.

Cash flows from investing activities comprise cash flows from acquisitions and disposals of intangible assets, property, plant and equipment as well as fixed asset investments.

Cash flows from financing activities comprise cash flows from the raising and repayment of long-term debt as well as payments to and from shareholders.

#### Consolidated Key Figures

The key figures and financial ratios have been prepared on a consolidated basis. The financial ratios have been calculated in accordance with the recommendations of the Association of Danish Financial Analysts (2015).

#### 3. Critical accounting estimates and judgements

The group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

The judgments, estimates and assumptions made are based on historical experience and other factors that Management considers to be reliable, but which by their very nature are associated with uncertainty and unpredictability. These assumptions may prove incomplete or incorrect, and unexpected events or circumstances may arise. The most critical judgments estimate and assumptions for the individual items are described below.

The Group is also subject to risks and uncertainties that may lead to actual results differing from these estimates, both positively and negatively.

#### Impairment testing of goodwill

The group tests annually whether goodwill has suffered any impairment, in accordance with the accounting policy stated in note 10. The recoverable amounts of cash-generating units have been determined based on value-in-use calculations. Estimates are made of the development in revenues, gross profits, operating margins, future capital expenditures, discount rates and growth expectations in the terminal period. These estimates are based on an assessment of current and future developments in the cash-generating units and on historical data and assumptions of future expected market developments, including expected long-term average market growth rates. Management has reassessed the allocation of goodwill between the two segments.

#### Useful life of vessels

The vessels are estimated to operate in 25 years, before they are taken out of the fleet. Some vessels operate longer than that, and the depreciations are calculated individually when the useful lives and residual values are reviewed, and adjusted if appropriate, at the end of each year.

Key Management Compensation

Key Management includes Board of Directors and Executive Management in the Group, in total 9 persons by end 2018 (7 in 2017). The compensation paid or payables to key management for employee services is shown below:

| Wages and salaries                                              | 6.497 | 5.088 | 0                                                  | 0 |

The group's activities are primarily subject to taxation under the Danish Tonnage Taxation legislation. Tax may materialize if the group leaves the tonnage tax regime.

Deferred tax relates to tangible fixed assets not covered by tonnage taxation activities.

#### Impairment test for goodwill

Goodwill is monitored by management per segment: Off-shore oil & gas and Off-shore Wind.

The group tests whether goodwill has suffered any impairment on an annual basis. The recoverable amount of the segment is determined based on value-in-use calculations which require the use of assumptions. The calculations use cash flow projections based on financial budget for 2019 and business plan for 2020-2023 as approved by management.

The off-shore oil & gas activities comprise safety and support by means of Emergency Response and Rescue Vessels (ERRV). Activities within oil & gas are performed by a fleet that includes both generic ERRV vessels and larger, more purposebuild vessels.

The off-shore wind activities comprise service activities performed by means of Service Operation Vessels (SOV), including transfer of crew and goods from vessel to off-shore wind turbine. SOVs are large size, purposebuild vessels.

For small/mid-size ERRV vessels, that comprise a uniform and generic type of vessels, cash flows beyond the forecast period are extrapolated using the estimated growth rates stated below. These growth rates are consistent with forecasts included in industry reports specific to the industry.

For large size ERRV vessels and purposebuild SOV vessels these are in general on long term contracts with contract expiry post 2023. The long term cashflows, including assumptions related to day rate and utilization, from these vessels have been assessed and forecasted by management for each vessel individually.

The value-in-use calculation includes cash flow from each underlying asset (vessel) over that asset's lifetime. Lifetime is assumed to be 25 years per asset. Residual value upon end on asset's lifetime is considered and included in the projected cash flow.

Furthermore, the value-in-use calculation assumes an infinite cash flow from the segments that goodwill is allocated to, with continuous reinvestment in underlying assets. This infinite cash flow is calculated as a terminal value for each underlying asset (vessel). Residual values upon end on vessel lifetime are considered and included in the projected cash flow.

Part of revenue in the underlying activities is invoiced in foreign currencies, mainly EUR, GBP and NOK. For the value-in-use calculation day rate forecasts are made in these relevant foreign currencies. The fx rate assumptions applied for calculation of the forecasted cash flow is based on fx forward rate level on 31st December 2018.

For 2018, the allocation of goodwill to segments have been adjusted. The updated allocation of goodwill is made in accordance with fair-value calculation based on cash flow projections in business plan approved by management at the time of the acquisition that goodwill relates to.

Key assumptions, long term growth rate and discount rate used in the value-in-use calculations are as follows:

| Group information and assumptions | 2018<br>Oil & Gas | 2017<br>Oil & Gas | 2018<br>Wind | 2017<br>Wind |
|-----------------------------------|-------------------|-------------------|--------------|--------------|
| Goodwill, distributed (MDKK)      | 275               | 275               | 218          | 218          |
| Utilization (annual growth rate)  | 0%                | 0%                | 0%           | 0%           |
| Day Rates (annual growth rate)    | 1%                | 1%                | 1%           | 1%           |
| Inflation rate                    | 1%                | 1%                | 1%           | 1%           |
| Long term growth rate             | 1%                | 1%                | 1%           | 1%           |
| Pre-tax discount rate             | 8%                | 8%                | 8%           | 8%           |

Day Rates: Day rates are based on committed contracts, and for post-contract periods and for vessels not on long term contract based on management's view on market trends. Assessment of market trends is supported by independent 3rd party opinion. In management's view the day rate levels for ERRV activities are expected to improve in 2019 compared to 2018, and further improve over the forecast period until 2023. For Wind/SOV activities, day rates are closely linked to specific contracts and therefore no specific trend for day rate level has been assumed. Growth in day rates beyond the forecast period follows above annual growth rates.

Utilization: The forecast for vessel utilization is based on committed commercial contracts, past performance and management's expectations of market development. Utilization on ERRV activities is forecast to improve in 2019 compared to 2018 and to remain stable over remainder of the forecast period until 2023. No growth in utilization is expected beyond the forecast period.

Pre-tax discount rates: Reflect specific risks relating to the relevant segments and countries in which they operate.

#### Impact of possible changes in key assumptions

In 2018, the recoverable amount calculated based on value in use exceeded carrying value by MDKK 90. The recoverable amount exceeded carrying value with MDKK 3 for off-shore oil & gas segment and with MDKK 87 for off-shore wind.

The recoverable amount is however sensitive to changes in key assumptions, in particular to those of return requirement and macro-economic parameters on inflation level and fx rates.

If the pre-tax discount rate (return requirement) applied to the cash flow projections of the CGU's had been 0.5% higher or lower the impact would be as follows:

| Change in pre-tax discount rate | Value in use exceeds carrying amount by MDKK | Change in<br>pre-tax rate<br>of +0.5%<br>MDKK | Change in<br>pre-tax rate<br>of -0.5%<br>MDKK |
|---------------------------------|----------------------------------------------|-----------------------------------------------|-----------------------------------------------|
| Off-shore oil & gas             | 3                                            | -147                                          | 171                                           |
| Off-shore wind                  | 87                                           | -75                                           | 272                                           |
| Total                           | 90                                           | -222                                          | 443                                           |

If the inflation rate, and implicit the growth in day rates for vessels not on contract and for long term growth, had been 1.5% or 2.0% instead of current assumption of 1.0% the impact would be as follows:

|                                                        | Value in use<br>exceeds<br>carrying<br>amount by | Change in inflation/growth rate to 1.5% | Change in inflation/growth rate rate to 2.0% |
|--------------------------------------------------------|--------------------------------------------------|-----------------------------------------|----------------------------------------------|
| Change in inflation/growth in day rates rate from 1.0% | MDKK                                             | MDKK                                    | MDKK                                         |
| Off-shore oil & gas                                    | 3                                                | 147                                     | 314                                          |
| Off-shore wind                                         | 87                                               | 249                                     | 437                                          |
| Total                                                  | 90                                               | 396                                     | 443                                          |

Management finds long term inflation and growth below 1% to be unlikely.

If fx assumptions for GBP and NOK were to change by +/- 5% the impact would be as follows:

|                                 | Value in use exceeds | 5% fall in | 5% increase |
|---------------------------------|----------------------|------------|-------------|
|                                 | carrying             | GBP and    | in GBP and  |
|                                 | amount by            | NOK fx     | NOK fx      |
|                                 |                      | rates      | rates       |
| Change in pre-tax discount rate |                      |            |             |
|                                 | MDKK                 | MDKK       | MDKK        |
| Off-shore oil & gas             | 3                    | -257       | 265         |
| Off-shore wind                  | 87                   | 59         | 114         |
| Total                           | 90                   | -198       | 379         |

The fx rate level by end April 2019 has improved by approx. 4-5% compared to the fx level on 31 December 2018 that was applied for calculation of recoverable amount.

The overall assessment is that reasonable changes to the assumptions in negative directions could result in impairment. However, management does not expect impairment based on the current forecasts.

Comparative amounts for 2017 are not presented as no likely changes in assumptions would have lead to impairment in 2017.

No shares carry any special rights. There are no restrictions connected to the transferability or voting rights of the shares. All shares have been paid in full.

All shares in ERRV Holdings ApS is owned by ERRV Luxembourg Holdings S.á r.l.

#### Capital management

The group's objectives when managing capital are to safeguard the group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce cost of capital.

The management and board of directors monitor the share and capital structure to ensure that the group's capital resources support the strategic goals. The overall target is to secure long-term financing with fixed interest rates at competitive rates. During the year, through a close dialogue with its main lenders and with the shareholders, the Group was able to decide on funding of current operation and future strategic initiatives in line with overall target.

#### Financial leases

The Group has finance leases for other fixtures and fitting. The Group's obligations under finance leases are secured by the lessor's title to the leased assets. Future minimum lease payments under finance leases, together with the present value of the net minimum lease payments are, as follows:

|                                         | Minimum payments | Minimum payments | Minimum payments | Minimum payments |
|-----------------------------------------|------------------|------------------|------------------|------------------|
| Within one year                         | 5.058            | 5.058            | 0                | 0                |

#### 20. Derivative financial instruments

As part of its asset and liability management, the Group uses derivatives for hedging purposes in order to reduce its exposure to market risks.

The group has entered into forwards used to hedge currency risk on contracted long-term revenue, fuel consumption and committed purchase of vessels. Information about the group's exposure to financial risk is provided in note 25.

#### 24. Financial risk management

#### Financial risk factors

The Financial risks of the group are managed centrally. The overall risk management guidelines and policies have been approved by the board of directors. Group finance/Treasury department identifies and evaluates exposures in close cooperation with the group's operating units. The board provides written principles for overall risk management.

#### Market risk

#### Foreign exchange risk

The cost of goods sold, and operating expenses are mainly incurred in DKK. The Group has transactions in other currencies, but the foreign exchange risks related to this are not considered material. Increases or decreases in the exchange rate of such foreign currencies against the functional currency, the DKK, can affect the group's results and cash position negatively or positively.

#### Exposure

The group's exposure to foreign currency risk at the end of the reporting period, expressed in currency units, was as follows:

|                           | EUR       | GBP                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | NOK     | USD     |

#### Interest rate risk

The group's interest rate risk arises from long-term borrowings. Borrowings issued at variable rates expose the group to cash flow interest rate risk. Borrowings issued at fixed rates expose the group to fair value interest rate risk. Group policy is always to ensure that a minimum of 75 per cent of the total outstanding Debt is at fixed rate or effectively bears a fixed rate pursuant to a Hedging Agreement.

#### Sensitivity analysis

Profit or loss is sensitive to higher/lower interest from borrowings and fair value changes of interest rate derivatives as a result of changes in interest rates.

| Interest rates - decrease by 100 basis points | 5.043                           | 0                                    | 5.033                     | 0                                             |

The calculation is based on an increase in both short- and long-term interest. All other variables are held constant. All loans are in EUR and DKK, and due to the fixed rate policy in Denmark against EUR, there is immaterial currency risk on the loans.

#### Credit risks

Credit risk is managed on group basis, except for credit risk relating to accounts receivable balances. Each local entity is responsible for managing and analyzing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered.

Credit risk arises from cash and cash equivalents and deposits with banks and financial institutions, as well as credit exposures to customers, including outstanding receivables. For banks and financial institutions, only independently rated parties with a minimum rating of 'BBB-'are accepted. For customers individual risk limits are set based on internal or external ratings in accordance with limits set by the board. The utilization of credit limits is regularly monitored.

The maximum exposure corresponds to the carrying number of receivables and cash.

#### Liquidity risk

Cash flow forecasting is performed by group finance. Group finance monitors rolling forecasts of the group's liquidity requirements to ensure it has sufficient cash to meet operational needs. Such forecasting takes into consideration the group's debt financing plans and compliance with loan documentation.

The group has undrawn borrowing facilities of mDKK 550 that may be available for future operating activities.

The tables below analyses the group's derivatives and non-derivative financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

|                                                                 | Less than<br>1 year | 1-5 years | >5 years  | Total     |
|-----------------------------------------------------------------|---------------------|-----------|-----------|-----------|

#### Fair value

Financial instruments measured at fair value can be divided into three levels:

- Level 1 Quoted prices in active markets for identical assets or liabilities
- Level 2 inputs other than quoted prices included in level 1 that are observable for the asset or liability
- Level 3 Inputs for the asset or liability that are not based on observable market data.

The fair value of bank borrowings does not differ significantly from the carrying amount. The fair value of derivatives is calculated on level 2 in the fair value hierarchy using direct quotes.

# Significant other observable inputs (Level 2)

| Group                                | 2018<br>TDKK | 2017<br>TDKK |
|--------------------------------------|--------------|--------------|
| Forwards used to hedge currency risk | 16.643       | 0            |
| As at 31.12.                         | 16.643       | 0            |
|                                      |              |              |

#### Measurement of derivatives

The valuation techniques used to measure derivatives include:

- the fair value of interest rate swaps is calculated as the present value of the estimated future cash flows based on observable yield curves
- the fair value of forward foreign exchange contracts is determined using forward exchange rates at the balance sheet date

Derivatives are only used for economic hedging purposes and not as speculative investments. However, where derivatives do not meet the hedge accounting criteria, they are classified as 'held for trading' for accounting purposes and are accounted for at fair value through profit or loss. They are presented as current assets or liabilities to the extent they are expected to be settled within 12 months after the end of the reporting period.

Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument.

For hedges of foreign currency purchases, the group enters hedge relationships where the critical terms of the hedging instrument match exactly with the terms of the hedged item. The group therefore performs a qualitative assessment of effectiveness.

In hedges of foreign currency purchases, ineffectiveness may arise if the timing of the forecast transaction changes from what was originally estimated, or if there are changes in the credit risk of Esvagt or the derivative counterparty and as differences between the spot rate and the forward rate of a contract.

The group uses foreign currency forwards to hedge its exposure to foreign currency risk. Under the group's policy the critical terms of the forwards must align with the hedged items.

The group designates the forward rate of foreign currency forwards in hedge relationships. The intrinsic value of currency foreign is determined with reference to the relevant spot market exchange rate.

The group operates internationally and is exposed to foreign exchange risk, primarily the NOK, GBP and USD. Foreign exchange risk arises from future commercial transactions denominated in currencies that are not DKK or EUR. The risk is measured through forecasts of highly probable expenditures in NOK, GBP and USD. The risk is hedged with the objective of minimizing the volatility of currency cost of highly probable revenue and purchases of property, plant and equipment.

The group treasury's risk management policy is to hedge up to 80% of forecast income and expenses in currencies other than DKK and EUR up to two years in advance.

The effects of the foreign currency related hedging instruments on the group's financial position and performance are as follows:

### Foreign currency forwards as at 31

| December 2018                                                    | NOK      | GBP      | USD      |
|------------------------------------------------------------------|----------|----------|----------|
| Carrying amount in TDKK                                          | - 20.783 | 669      | 3.472    |
| Maturity date                                                    | Jan 2021 | Dec 2019 | Sep 2020 |
| Weighted average hedged rate for the year (incl. forward points) | 76,14    | 835,16   | 608,86   |

#### 25. Events after the balance sheet date

Subsequent to the balance sheet date, no events that could significantly affect the financial statements as of 31 December 2018 have occurred.

#### 26. Composition of the group

| Name                               | Ownership and voting rights | Place of registered office |

| P/F ESVAGT-THOR                    | 51%                         | Faroe Islands              |
| Investments in Associates and Join | nt operations:              |                            |
| EWPL Ocean ApS                     | 50%                         | Denmark                    |

On 10 December 2018 the Group acquired 50% of the shares in the newly founded entity EWPL Ocean ApS. The Group holds substantive participating rights over the significant financial and operating decisions of the above entity, which enables the Group to exercise joint control with the other shareholder. The first financial period for EWPL Ocean ApS ends 31 December 2019. There wasn't any activity in 2018. There are no material commitments or contingent liabilities of the joint operation.
