Management Review

Activities

ERRV's primary activity is to hold shares in the ESVAGT Group who delivers safety and support at sea.

Activity 2020

Result for the year

The loss for the year was MDKK -636 compared to MDKK -338 in 2019. Interest costs on loans from related parties exceeds the result from subsidiaries as in 2019. The result from subsidiaries ended below expectations, however management considers the result for the year as fair, given the continuing difficult market conditions during 2020.

Market and activities

ERRV ApS operates primarily through its subsidiary ESVAGT, who operates within the oil & gas and wind industry primarily in the North Sea.

Equity

On 31 December 2020 the equity of is MDKK -1.172 with an equity ratio of -47,0% compared to MDKK -771 and a ratio of -30,3% in 2019.

Loss of equity and going concern

The lenders have expressed their continuing interest in assuring that ERRV ApS can continue as a going concern and have expressed their intention not to call the loans already extended and any additional future loans that may be extended to the company, unless the liquidity position of the company is adequate to justify such repayment. The equity will be re-established through the subsidiary future earnings.

Expectations for 2021

Based on the subsidiary ESVAGT A/S expects a higher activity following the deliveries of the three new-build SOVs for Vestas Offshore Wind and expected increase in Exploration and Production Oil market activities leads to an expected loss before financial items in the range of DKK 30-60 million.

Uncertainties regarding recognition and measurement

As a natural consequence of the currently low activity in the oil and gas industry, returns on investments within the industry in general have declined.

ERRV ApS regularly assess the valuation of its subsidiaries, including also impairment testing. When performing such assessments and tests, future outlooks are considered. The ERRV management expects the oil and gas industry to recover over the coming years and based upon the impairment tests performed, concludes that there is no need for impairment of the investment in the subsidiary. Management believes that the ESVAGT Group with its asset base, experience and skills is well positioned when the market recovers.

Financial Risks

A consolidated overview of the ERRV ApS financial risks is included in note 13.

Statutory statement regarding environment, social issues and governance in accordance with section 99a of the Danish Financial Statements Act

For our statutory statement regarding environment, social issues and governance, we refer to our 2020 ESG Report, which can be found at https://www.esvagt.com/files/8816/1856/4735/ESVAGT_Sustainability_ESG_Report_2020.pdf.

Statutory statement regarding the underrepresented gender in accordance with section 99b of the Danish Financial Statements Act

For our statutory statement regarding the underrepresented gender, we refer to our 2020 ESG Report, which can be found at https://www.esvagt.com/files/8816/1856/4735/ESVAGT_Sustainability_ESG_Report_2020.pdf.

Management's Statement

The Executive Board and Board of Directors have today considered and adopted the Annual Report of ERRV ApS for the financial year 1 January – 31 December 2020.

The Financial Statements are prepared in accordance with International Financial Reporting Standards as adopted by the EU, and further requirements in the Danish Financial Statements Act.

In our opinion the consolidated Financial Statements and the separate Financial Statements give a true and fair view of the Group's and the Company's financial position at 31 December 2020 and the results of the Group's and Company's operations for the financial year 1 January – 31 December 2020.

We recommend that the Annual Report be adopted at the Annual General Meeting.

Independent Auditor's Report

To the Shareholders of ERVV ApS

Opinion

In our opinion, the Financial Statements give a true and fair view of the financial position of the Company at 31 December 2020, and of the results of the Company's operations for the financial year 1 January - 31 December 2020 in accordance with International Financial Reporting Standards as adopted by the EU and further requirements in the Danish Financial Statements Act.

We have audited the Financial Statements of ERVV ApS for the financial year 1 January - 31 December 2020, which comprise income statement and statement of comprehensive income, balance sheet, statement of changes in equity, cash flow statement and notes, including a summary of significant accounting policies ("financial statements").

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the financial statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, in our view, Management's Review is in accordance with the Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement in Management's Review.

Management's Responsibilities for the Financial Statements

Management is responsible for the preparation of Financial Statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and

are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

1. Capital position and going concern

The purpose of ERRV ApS is to hold the shares in ESVAGT A/S. The investment had a carrying value of MDKK 2.496 at 31 December 2020 (2019: MDKK 2.550) and is mainly financed via interest bearing loans from related parties amounting to MDKK 3.668 (2019: MDKK 3.320). The income from ESVAGT A/S amounted to MDKK -290 in 2020 (2019: MDKK -25) deducting the interests on the loans from related parties amounted to MDKK 346 resulting in a loss for the year of MDKK 636 (2019: 338 MDKK).

Impairment tests have been carried out regarding the investment in ESVAGT A/S, which did not result in any impairment.

Interests on the loans from group companies are accruing; hence no payments of installments or interests are taking place. The lenders have expressed their continuing interest in assuring that ERRV ApS can continue as a going concern and have expressed their intention not to call the loans already extended and any additional future loans that may be extended to the company unless the liquidity position of the company is adequate to justify such repayment.

2. Accounting policies

The Annual Report for the period 1 January – 31 December 2020 comprises the separate financial statement of ERRV ApS and have been prepared on a going concern basis and in accordance with the International Financial Reporting Standards (IFRS) as adopted by the EU and further requirements in the Danish Financial Statements Act.

These separate financial statements contain information of ERRV ApS an individual company and do not contain consolidated financial information as the parent of a group. The company has taken advantage of the exemption under IFRS 10 Consolidated financial statements from the requirement to prepare consolidated financial statements as it and its subsidiaries are included by full consolidation in the consolidated financial statements of its parent ERRV Holdings ApS, cf. note 10 Related parties.

Measurement basis

The financial statements have been prepared on the historical cost basis.

New and amended standards adopted by the group

The group has applied the following standards and amendments for the first time for their annual reporting period commencing 1 January 2020:

- Amendments to IAS 1 and IAS 8 "Definition of Material"
- Amendments to IFRS 3 "Definition of a Business"
- Amendments to IFRS 16 "Covid-19 Related Rent Concessions"
- Revised Conceptual Framework for Financial Reporting

The amendments listed above did not have any impact on the amounts recognized in prior periods and are not expected to significantly affect the current or future periods.

New standards and interpretations not yet adopted

Certain new accounting standard and interpretations have been published that are not mandatory for 31 December 2020 reporting periods and have not been early adopted by the group. These standards are not expected to have a material impact on the group in the current or future periods and on foreseeable transactions.

Foreign currency translation

Functional and presentation currency

The functional currency of ERRV ApS is DKK.

The financial statements are presented in Danish Kroner (DKK) and have been rounded to the nearest thousand.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognized in profit or loss.

Foreign exchange gains and losses that relate to borrowings are presented in the statement of profit or loss, within finance costs. All other foreign exchange gains and losses are presented in the statement of profit or loss on a net basis within other income or other expenses.

Other operating expenses

Other operating expenses comprise administration, office expenses etc.

Financial income and expenses

Financial income and expenses comprise interest income and expenses, realized and non-realized capital gains/losses on transactions in foreign currency, amortization of financial assets and liabilities etc.

Income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions, where appropriate, on the basis of amounts expected to be paid to the tax authorities.

Investment in subsidiaries

Investments in subsidiaries are recognized according to the equity method after initially beginning measured at cost.

Under the equity method, the investments are initially recognized at cost and adjusted thereafter to recognize the company's share of profits or losses of the investee in profit or loss, and the company's share of movements in other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from subsidiaries are recognized as a reduction in the carrying amount of the investment.

Adjustments are made for unrealized group internal gains and losses. Accounting policies of equity-accounted investees have been changed where necessary to ensure consistency with the policies adopted by the group.

Subsidiaries with negative equity are recognized at DKK 0, provided ERRV ApS has not provided guarantees or otherwise is liable for the subsidiary.

The carrying amount of equity-accounted investments is tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

Equity**Dividend distribution**

Dividends are recognized as a liability in the period in which they are adopted at the Annual General Meeting.

Loans from related parties

Loans from related parties are initially recognized at fair value, net of transaction costs incurred and are subsequently measured at amortized cost. Any differences between the proceeds and the redemption value are recognized in the income statement over the period of the loans using the effective interest method.

Other liabilities

Other liabilities covering trade payables and other debt are recognized at amortized cost, which is usually equivalent to the nominal value.

Statement of cash flow

The cash flow statement shows the company's cash flows during the year distributed on operating, investing and financing activities, changes in cash and cash equivalents at the beginning and at the end of the year.

Cash flows from operating activities are calculated by the indirect method using the operating profit adjusted for changes in working capital and non-cash operating items. Working capital comprises current assets less short-term debt excluding items included in cash and cash equivalents.

Cash flows from investing activities comprise cash flows from acquisitions and disposals of intangible assets, property, plant and equipment as well as fixed asset investments.

Cash flows from financing activities comprise cash flows from the raising and repayment of long-term debt as well as payments to and from shareholders.

Cash and cash equivalents

Cash and cash equivalents comprise "Cash at bank and in hand".

3. Critical accounting estimates and judgements

ERRV ApS makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

Impairment testing of investments in subsidiaries

ERRV ApS tests annually whether investments in the subsidiary has suffered any impairment, in accordance with the accounting policy stated in note 2. The recoverable amounts of investments have been determined based on value-in-use calculations. Estimates are made of development in revenues, gross profits, operating margins, future capital expenditures, discount rates and growth expectations in the terminal period. These estimates are based on an assessment of current and future developments in the subsidiary and on historical data and assumptions of future expected market developments, including expected long-term average market growth rates.

4. Financial expenses

	2020 TDKK	2019 TDKK
<i>Interest expenses on financial liabilities not measured at fair value:</i>		
Interest expenses to parent	43	35
Interest expenses to related parties	346.109	312.638
Interest expenses, credit institutions	0	0

100.000	1	100	0
		200	100

No shares carry any special rights. There are no restrictions connected to the transferability or voting rights of the shares. All shares have been fully paid in.

All shares in ERRV ApS are owned by ERRV Holdings ApS.

Capital Management

The company's objectives when managing capital are to safeguard the company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce cost of capital.

The management monitor the share and capital structure to ensure that the company's capital resources support the strategic goals. The overall target is to have secured long term financing with fixed interest rates at competitive rates.

The company has not adopted any specific key ratios.

The Company's policy for managing capital is unchanged from last year.

9. Loan from related parties

	Currency	Maturity	Carrying Amount
2020			
Fixed-rate loans	DKK	On demand	3.666.077
2019			
Fixed-rate loans	DKK	On demand	3.319.968

10. Related parties

The Company is included in the consolidated financial statements for its parent company ERRV Holding ApS, Hammerensgade 1, 2nd floor, 1100 Copenhagen, Denmark.

The ultimate controlling party is ERRV Luxembourg Holdings S.à.r.l., Luxembourg.

The following balances arising from sales/purchases of goods and services are outstanding at the end of the period in relation to transactions with related parties:

	2020 TDKK	2019 TDKK
Loans to related parties		
<i>Loans to related parties</i>		
Beginning of the period	3.319.968	3.003.330
Interest charged	346.152	312.638

Accrued interests	346.109	312.638
Loan from related parties at 31.12	3.666.077	3.319.968

13. Financial risk management

Financial risk factors

The financial risks the company is exposed to is managed centrally by the ERRV Holdings ApS group. The overall risk management guidelines and policies have been approved by the board of directors in the Group. Group finance/Treasury department identifies and evaluates exposures in close co-operation with the group's operating units. The board provides written principles for overall risk management.

Market risk

Foreign exchange risk

As all transactions are in DKK, the company is not exposed to any foreign exchange rate risk.

Interest rate risk

As all loans are issued at a fixed rate, the income statement is not sensitive to higher/lower interest rates on borrowings.

Credit risks

Credit risk arises from cash and cash equivalents and deposits with banks and financial institutions. For banks and financial institutions, only independently rated parties with a minimum rating of 'BBB' are accepted. The maximum exposure corresponds to the carrying amount of cash.

Liquidity risk

Cash flow forecasting is performed by management. The management monitors forecasts of the liquidity requirements to ensure it has sufficient cash to meet the company's operational needs. Such forecasting takes into consideration the company's debt financing plans and compliance with loan documentation.

For 2020 and 2019, the company's financial liabilities do all have contractual maturities of less than one year. However, loans from related parties, due on demand, will not be called unless the liquidity position of the company is adequate to justify repayment.

14. Events after the balance sheet date

Subsequent to the balance sheet date, no events that could significantly affect the financial statements as of 31 December 2020 have occurred.
