## Management's statement

The Management have today discussed and approved the annual report of Seed Capital Denmark III K/S for the financial year 1 January – 31 December 2020.

The annual report has been prepared in accordance with International Financial Reporting Standards as adopted by the EU and additional requirements of the Danish Financial Statements Act.

It is our opinion that the financial statements give a true and fair view of the Company's assets, liabilities and financial position at 31 December 2020 and of the results of the Company's operations for the financial year 1 January – 31 December 2020.

Further, in our opinion, the Management's review gives a fair review of the development in the Company's operations and financial matters and the results of the Company's operations and financial position.

We recommend that the annual report be approved at the annual general meeting.

## Independent auditor's report

To the Limited Partners of Seed Capital Denmark III K/S

### Opinion

We have audited the financial statements of Seed Capital Denmark III K/S for the financial year 1 January – 31 December 2020, which comprise income statement, statement of comprehensive income, balance sheet, statement of changes in equity, cash flow statement and notes, including accounting policies. The financial statements are prepared in accordance with International Financial Reporting Standards as adopted by the EU and additional requirements of the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the financial position of the Company at 31 December 2020 and of the results of the Company's operations and cash flows for the financial year 1 January – 31 December 2020 in accordance with International Financial Reporting Standards as adopted by the EU and additional requirements of the Danish Financial Statements Act.

### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Independence

We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these rules and requirements.

### Statement on the Management's review

Management is responsible for the Management's review.

Our opinion on the financial statements does not cover the Management's review, and we do not express any assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is

materially inconsistent with the financial statements, or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the Management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatements of the Management's review.

### **Management's responsibilities for the financial statements**

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with International Financial Reporting Standards as adopted by the EU and additional requirements of the Danish Financial Statements Act and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

### **Auditor's responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit conducted in accordance with ISAs and additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from

fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.

- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- ▶ Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and contents of the financial statements, including the note disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## Management's Review

This annual report relates to the sixth financial year of Seed Capital Denmark III K/S for the period 1 January – 31 December 2020.

### Objective

Seed Capital Denmark III K/S' objective is to invest in technology, research-based and knowledge-intensive companies focusing on medical technology, information and communication technologies and other high-technology areas, either in the form of share capital or the granting of subordinate, convertible loans and other related investment activities.

### Capital

Seed Capital Denmark III K/S has a total capital base of DKK 819 million. At 31 December 2020, the limited partners and the general partners had paid in DKK 556 million – 68% of total commitment.

### The management of the Company

Seed Capital Denmark III K/S has no employees. A management agreement has been entered into between Seed Capital Denmark III K/S and Seed Capital Management III I/S under which Seed Capital Management III I/S (hereinafter referred to as the management company) will be in charge of operations in Seed Capital Denmark III K/S.

### Investments

Seed Capital Denmark III K/S invests in the seed stage of a company's life cycle. Investments in these stages are inherently subject to risk. Follow-up investments will be made in the most promising companies all the way to exit.

Seed Capital Denmark III K/S' individual companies need a high level of involvement to ensure correct strategic focus, competencies and financial resources as well as follow-up on the strategy and continued active development of the company.

## Activities in 2020

The Fund's investment period expired on 31 May 2020. Hereafter, only follow-up investments in the existing companies in the portfolio have been made for the purpose of further developing the value in these companies. In 2020, no investments in new portfolio companies were completed.

At the end of 2020, the active portfolio comprised of 13 companies. In total, DKK 448 million has been invested in these companies.

Several of the portfolio companies attracted new funding from external investors at a higher price per share compared to the previous funding rounds. In most of the funding round, Seed Capital Denmark III K/S participated and in 2020 total commitments of DKK 123 million were made. Three of the companies completed a Series B funding round in 2020 and one of the companies received a Series C funding. Total new funding to the portfolio companies in Seed Capital Denmark III K/S was DKK 1.2 billion in 2020.

A strong growth in revenues in the portfolio companies has continued in 2020 and has contributed to the added value of the portfolio in Seed Capital Denmark III K/S. Thus, the value of the portfolio has increased substantially during the year and the result for the year amounted to DKK +469million.

The active portfolio of 13 companies as per end 2020 are:

<b>Investment</b>	<b>Business concept</b>
Templafy	Enterprise template management in the cloud
OrderYOYO	E-commerce platform for take-away restaurants
Coinify	Digital currency payment processing platform
Lunar Way	Mobile based neo-bank for the millennial generation
Tonsser	Utility empowering young football players to unlock their potential
VEO	AI to Record and automatically edit football and other matches
Dixa	Real-time channel-neutral customer service platform
Cardlay	Front to end solutions for payment providers/banks
Forecast	Automated complete resource & project management platform
Grandhood	Innovative low-cost pension solution to SME's
Good Monday	A flexible and scalable office management platform
Superb	A guest experience solution for restaurants
Tattoodo	The world's largest tattoo community

## Business development and outlook

The financial result is expected to be positive in the coming years with new milestones reached in the portfolio companies and with new funding at higher valuations.

It is expected that the investment activity for the next years will be at a lower level compared to the previous years.

Following the Covid-19 pandemic outbreak the necessary measures were implemented in the portfolio companies to address any impact of a consequence because of the pandemic. Most of the portfolio companies have a business model that has shown robust during the Covid-19 pandemic and they have been growing their businesses despite the impact from lockdowns and restrictions in many countries. The Covid-19 situation will continuously be monitored closely and may influence the financial position and results of Seed Capital Denmark III K/S if the consequences will be long-term or worsened compared to current situation. The quantitative impact from this is very uncertain and cannot accurately and reliably be estimated.

## Comprehensive income for the year ended 31 December 2020

		2020	2019
	Note	(000 DKK)	(000 DKK)
Income from investments in portfolio companies	2	478.399	133.823

8. Liquidity risks
9. Credit risks
10. Interest risks
11. Currency risks
12. Contingent liabilities
13. Related party transactions
14. Accounting standards not yet adopted

## Notes

### **1 Accounting policies**

The Annual Report of Seed Capital Denmark III K/S has been presented in accordance with International Financial Reporting Standards (IFRS) as adopted by the EU and additional requirements of the Danish Financial Statements Act regarding reporting class B enterprises as further outlined in the Danish Executive Order on Adoption of IFRS issued in accordance with the Danish Financial Statement act.

In order to give a fair view of the activities in the Company as a venture company, unrealized and realized gains and losses of portfolio companies has been included in the Operating Profit/Loss.

#### **Changes in accounting policies**

Seed Capital Denmark III K/S has adopted all new or amended standards (IFRS) as adopted by EU effective for the financial year 1 January 2020 - 31 December 2020. The implementation has not had any material impact on the financial statement for 2020.

#### **Significant accounting policies and estimates**

When preparing the financial statement, the General Partners makes several accounting estimates forming the basis for the presentation, recognition and measurement of the Entity's assets and liabilities. The most significant accounting estimates and assessments are presented in note 7.

#### **Recognition and measurement**

Income is recognised in the profit and loss account as earned, including value adjustments of financial assets and liabilities. Equally, costs incurred to generate the year's earnings are recognised, including depreciation, amortisation, impairment and provisions.

Assets are recognised in the balance sheet when it is probable that future economic benefits will flow to the Company and the value of the asset can be reliably measured.

Liabilities are recognised in the balance sheet when an outflow of economic benefits is probable and when the liability can be reliably measured.

On initial recognition, assets and liabilities are measured at cost or for financial assets and financial liabilities at fair value. Subsequently, assets and liabilities are measured as described below for each individual item.

**Foreign currency translation**

On initial recognition, foreign currency transactions are translated to the functional currency at the exchange rates at the transaction date. Foreign exchange differences arising between the rate at the transaction date and the rate at the date of payment are recognised in profit or loss as financial income or financial expenses.

Receivables and payables and other monetary items denominated in foreign currencies are translated to the functional currency at the exchange rates at the date of the statement of financial position.

The difference between the exchange rates at the end of the reporting period and at the date at which the receivable or payable arose or was recognised in the latest annual report is recognised in profit or loss as financial income or financial expenses.

Exchange rate adjustments relating to investments in portfolio companies are presented in the statement of comprehensive income together with other fair value adjustments concerning the investments.

**Profit and loss account****Unrealized and realized results of investments in portfolio companies**

Unrealized and realized gains or losses from exits, distributions in investments in portfolio companies are included in the Profit and Loss account under Income from investments in portfolio companies.

**Other financial income and other financial costs**

Interest income and expense and similar items comprise interest income and expense, gains and losses on securities (excluding income or expenses from portfolio companies) as well as payables and transactions denominated in foreign currencies.

**Tax**

The Company is not a tax-paying entity, thus no tax has been expensed.

## Balance sheet

### **Investments**

Investments in portfolio companies are recognized at fair value according to “International Private Equity and Venture Capital” (IPEV) “Valuation Guidelines”, in which investments are recognized at market value at the balance sheet date.

Exchange rate adjustments of investments in portfolio companies are recognized in the profit and loss account under “Income from investments in portfolio companies”.

Fair value is defined as the price that would be received to sell an asset in an orderly transaction between market participants (“exit price”).

The fair value is a market-based and not an entity-specific measurement. The entity uses the assumptions that the market participants would use for the pricing of the asset based on the current market conditions, including risk assumptions. The entity's purpose of holding the asset is thus not taken into account when the fair value is determined.

The fair value measurement is based on the principal market. If a principal market does not exist, the measurement is based on the most advantageous market, i.e. the market that maximizes the price of the asset less transaction and transport costs.

All assets measured at fair value, or in respect of which the fair value is disclosed, are classified based on the fair value hierarchy, see below:

- ▶ Level 1: Value in an active market for similar assets/liabilities
- ▶ Level 2: Value based on recognized valuation methods on the basis of observable market information
- ▶ Level 3: Value based on recognized valuation methods and reasonable estimates (non-observable market information).

### **Receivables**

Earn-out receivables are measured at fair value.

Other receivables are measured at amortized cost. The simplified expected credit loss is applied to measure the lifetime expected loss for receivables measured at amortized cost.

### **Liabilities**

Liabilities are measured at amortized cost.

### **Contingent liabilities**

Contingencies are not recognized in the balance sheet but disclosed in the notes only. Liabilities which exist at the balance sheet date, but which cannot be measured reliable, are considered contingent liabilities.

### **Statement of cash flows**

The cash flow statement shows the cash flows from operating, investing and financing activities for the year, the year's changes in cash and cash equivalents as well as cash and cash equivalents at the beginning and end of the year.

The cash flow effect of acquisitions and disposals of enterprises is shown separately in cash flows from investing activities. Cash flows from acquired businesses are recognized in the cash flow statement from the date of acquisition. Cash flows from disposals of businesses are recognized up until the date of disposal.

Cash flows from operating activities are calculated according to the indirect method as the profit/loss adjusted for non-cash operating items, changes in working capital, interest income and expenses and dividends received.

Cash flows from operations activities comprise payments in connection with investments, including follow-up investments and disposals of portfolio companies.

Cash flows from financing activities comprise changes in the limited partners' contribution and distribution.

Cash flows in currencies other than the functional currency are translated using exchange rates per transaction date.

The fair value of investment in associated companies is DKK 264.028 thousand as per end of 2019

**6 Limited partners' contribution**

The entity's shares are paid successively and pro rate. One of the share classes has a dividend preference attached when the realized return in the Entity exceeds a fixed minimum rate of return p.a. (hurdle rate) of the investors' contributed capital.

**7 Method and assumptions for determining fair value**

Fair value for each unlisted portfolio company is determined based on the method, which best reflect the individual investment.

Fair value is determined following the IPEV Valuation Guidelines. Because the Entity invests venture capital in early stages companies with limited revenue the fair value measurement is subject to high uncertainty.

The fair value is determined in functional currency of the portfolio company, and then translated to DKK at the exchange rate at the balance sheet date.

Upon initial investment, cost of the investments is normally determined to represent fair value. If new investors join and obtain more than just an insignificant share of the company, then the price of recent investment is used as basis or determining the fair value.

The entity's General Partners reviews the investment for potential value adjustments several times during a financial year. If the General Partners reviews lead to value adjustments, the fair value of the portfolio company is determined by the General Partners best estimate.

The Entity uses the following methods to determine fair value:

**Cost:**

Cost is assessed to reflect fair value when no new investors has provided equity to the portfolio company. Furthermore, investments are measured at cost when the uncertainty is too high to determine a fair value.

**Market approach / Price of recent investment:**

If new investors provide equity to the portfolio company and receive more than just an insignificant ownership share, the price of the recent investment is normally deemed to be the best represent of the fair value representing the fair market price. This correspond to a specific and relevant valuation multiple, that combined with observable market multiple at any time can be applied to calibrate the fair value, when the last equity funding round was completed more than 12-18 months before the time of estimating the fair value.

**Listing price:**

A quoted market price in an active market provides the most reliable evidence of fair value and is used without adjustment to measure fair value whenever available.

Below is the split between the different methods used by the Entity:

<b>Method</b>	<b>2020</b>	<b>2019</b>
Cost	1%	5%
Market approach / Price of recent investment	99%	95%
Listing price	0%	0%
	<b>100%</b>	<b>100%</b>

### **Fair value hierarchy for financial instruments measured at fair value in the balance sheet.**

Below is shown the classification of financial instruments, organized in accordance with the fair value hierarchy as required by IFRS:

<b>(000 DKK)</b>	Level I	Level II	Level III	Total
Financial instruments measured at fair value	0,0%	0,0%	100,0%	100,0%
<b>31 December 2020</b>	<b>0,0%</b>	<b>0,0%</b>	<b>100,0%</b>	<b>100,0%</b>

<b>(000 DKK)</b>	Level I	Level II	Level III	Total
Financial instruments measured at fair value	0,0%	0,0%	100,0%	100,0%
<b>31 December 2019</b>	<b>0,0%</b>	<b>0,0%</b>	<b>100,0%</b>	<b>100,0%</b>

### **Movements in financial instruments measured at fair value based on level III**

All investments are measured at fair value based on level III. For further information about movements in financial instruments see note 5.

### **Material non-observable input for level 3**

The measurement of investment in portfolio companies are based on measurement methods, in which material non-observable inputs are included such as assessment of the performance, determination of future earnings and whether a negative development should lead to the recognition of impairment write-downs.

A decrease or increase in the above-mentioned material non-observable inputs may have a direct effect on the measurement of the portfolio companies.

The fair value of the total portfolio is measured at index 2.54 compared to the initial cost. A decrease or increase in the index at 0.05 will change the value of the portfolio with approximately DKK 57.9 million.

### Uncertainty relating to recognition and measurement

In accordance with legislative provisions, the General Partner makes accounting judgements and estimates when preparing the annual report. These judgements and estimates include determination of the fair value of portfolio companies. The Entity invests venture capital in early stages companies with limited revenue. The fair value measurement is therefore subject to high uncertainty.

## 8 Liquidity risks

Specified below is the financial liabilities of the Entity. The liabilities are divided into timing intervals that represents the amounts due for payment.

(000 DKK)	Within	Between	After	Total
	1 year	1 and 5 years	5 years	
Other liabilities	300	0	0	300
<b>31 December 2020</b>	<b>300</b>	0	0	<b>300</b>

## 9 Credit risks

As a part of the investment strategy the Entity provide loans to the portfolio companies. These loans are therefore not considered as a separate credit risk.

In some cases, the Entity has receivables from sales of portfolio companies. Typically, the payment is secured by the buyer depositing the receivable on escrow account in accepted credit institutions. The credit risk is therefore considered limited.

## 10 Interest risks

The Entity is not exposed to any interest risk.

## 11 Currency risks

Some of the Entity's investments are made in foreign currencies such as USD, GBP and EUR. This risk is considered a part of the investment risk thus the Entity does not separately hedge the currency risk.

When exiting a portfolio company the sale can be made in foreign currencies such as USD, GBP and EUR. Receivables in connection to the sale in foreign currency is not separately hedge. As per 31 December 2020 the Entity is not exposed to changes in foreign currencies.

## **12 Contingent liabilities**

The Company has made a management agreement with Seed Capital Management III I/S until the liquidation of the Company. The Company is obliged every quarter to pay a management fee as a percentage of the Company's investments at the end of the preceding quarter.

The Company has undertaken to pay additional capital contributions and convertible debt instruments to the portfolio companies concurrently with the realization of specific milestones. As of 31 December 2020, this liability amounts to a total of DKK 0.7 million.

## **13 Related parties**

The Company's related parties are the following:

- Seed Capital Denmark III K/S has a management agreement with Seed Capital Management III I/S. The Entity has paid DKK 9.2 million in management fee to Seed Capital Management III I/S.
- The limited partners handle investment of committed capital and receive payments according to agreement made.

The Company's agreements with related parties are made based on arm's length principle.

## **14 Accounting standards not yet adopted**

A number of new standards, amendments to standards and interpretations effective for annual periods beginning after January 1, 2021 have been issued. None of these new issues are expected to have a material impact on the financial statements.
