Principal activity:

The purpose of Joël Raucq Holding ApS is investments as a parent company, recruitment, technology and related business at the discretion of management.

The annual report of Joël Raucq Holding ApS for 2018 has been presented in accordance with the provisions of the Danish Financial Statements Act regarding reporting medium-sized class B enterprises.

The significant areas of the accounting policies, which are presented using the same policies as last year, are mentioned below.

GENERALLY REGARDING RECOGNITION AND MEASUREMENT

Income is recognised in the Income Statement as earned, including value adjustments of financial assets and liabilities. Likewise, all expenses including depreciation/amortisation, impairment losses, and reversals which are due to changes in estimated amounts previously recognised in the Income Statement, are recognised in the Income Statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits will flow to the Company and when the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that the future economic benefits will flow out of the Company and when the measurement of the value of the liability is reliable.

On initial recognition, assets and liabilities are recognised at cost. Subsequently, assets and liabilities are measured as described below for each item.

Allowances are made for predictable losses and risks that arise before the presentation of the Annual Report and that confirm or invalidate circumstances that existed at the balance sheet date.

The carrying value of the tangible fixed assets, are reviewed annually to determine, if there are any indication of impairment, besides what is determined as normal depreciation. If this is the case, the assets will be written down to its recoverable amount.

THE INCOME STATEMENT:**Other external costs:**

Other external costs include costs relating to administration.

Income from investments in group enterprises and associates:

The proportionate share of the profit for the year in group enterprises and associates, adjusted for internal gains and losses, is recognized in the Parent Company's income statement.

Tax on results for the year:

Tax on results for the year which comprises current tax and changes in deferred tax is recognised in the Income Statement with the portion of taxes related to the taxable income for the year whereas the portion attributable to entries on equity is recognised directly in equity.

The parent company and the Danish group companies are jointly taxed. Danish corporation tax is distributed among the jointly taxed Danish companies in proportion to their taxable income. The parent company acts as the administration company for the joint taxation circuit and is responsible for settling taxes etc. to the Danish tax authorities.

ASSETS:**Financial assets:**

Investments in group enterprises and associates are measured at the proportionate share of the company's' equity value, adjusted for internal gains and losses.

Net revaluation of investments in group enterprises and associates are recognized as reserve for net revaluation using the equity method under equity, to the extent that the carrying

Dividends from group enterprises that are expected to be adopted prior to the approval of the annual report of the company are not tied-up on the reserve for net revaluation.

Receivables:

Receivables are measured at amortised cost which usually equals nominal value. The value will be adjusted to meet expected losses.

Cash funds:

Cash equivalents consist of bank deposits and cash. Cash and cash equivalents are carried at fair value.

LIABILITIES:**Tax payable and deferred tax:**

The parent company as the management company is liable for the subsidiaries' corporate taxes to the tax authorities.

Current tax liabilities and current tax receivable are recognised in the balance sheet as tax calculated on the taxable income for the year adjusted for tax on previous years' taxable income and taxes paid on account/prepaid.

Receivable and payable joint taxation contributions are recognized in balance as "Receivable joint taxation contributions" or "Payable joint taxation contributions".

Deferred tax is measured according to the balance sheet liability method in respect of temporary differences between the carrying amount and the tax base of assets and liabilities.

Deferred tax is measured according to the balance sheet liability method in respect of temporary differences between the carrying amount and the tax base of assets and liabilities. In cases, e.g. in respect of shares in which the statement of the tax base can be made according to alternative taxation rules, deferred tax is measured on the basis of the planned use of the asset or settlement of the liability, respectively.

Deferred tax assets including the tax value of tax loss carryforwards, are measured at the expected realisable value, either by elimination in tax on future earnings or by set-off against deferred tax liabilities within the same legal tax entity and jurisdiction. Any deferred net tax assets are measured at net realisable value.

Liabilities:

Liabilities concerning debts to suppliers and other debts are measured at amortised cost which usually corresponds to the nominal value.
