## Management's report

---

Today, the executive board has presented the annual report of REI Mariendalsvej ApS for the financial year 2020.

The annual report has been presented in accordance with the Danish Financial Statements Act.

We consider the accounting policies appropriate and, in our opinion, the financial statements provide a fair presentation of the company's assets, equity and liabilities, and financial position at 31 December 2020 and of the company's results of activities in the financial year 1 January - 31 December 2020.

We are of the opinion that the management commentary presents a fair account of the issues dealt with.

Copenhagen, 28 June 2021

## Independent auditor's report

---

To the shareholders of REI Mariendalsvej ApS

### Opinion

We have audited the financial statements of REI Mariendalsvej ApS for the financial year 1 January - 31 December 2020, which comprise income statement, statement of financial position, statement of changes in equity and notes, including accounting policies. The financial statements have been prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements present a fair view of the company's assets, equity and liabilities, and financial position at 31 December 2020 and of the results of the company's activities for the financial year 1 January - 31 December 2020 in accordance with the Danish Financial Statements Act.

### Basis for opinion

We conducted our audit in accordance with international standards on auditing and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the section "Auditor's responsibilities for the audit of the financial statements". We are independent of the company in accordance with international ethical requirements for auditors (IESBA's Code of Ethics), and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Emphasis of matter

We draw attention to Note 3 of the financial statements, which describes the uncertainty regarding recognition and measurement of the Company's investment properties. Our opinion is not modified in respect of this matter.

### Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation of financial statements that provide a fair view in accordance with the Danish Financial Statements Act. Management is also responsible for such internal control as the management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

## Independent auditor's report

---

### Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements, as a whole, are free from material misstatement, whether due to fraud or error, and to issue an auditor's report including an opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with international standards on auditing, and the additional requirements applicable in Denmark, will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with international standards on auditing, and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of the internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's preparation of the financial statements using the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists arising from events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and contents of the financial statements, including disclosures in notes, and whether the financial statements reflect the underlying transactions and events in a manner that presents a fair view.

## Independent auditor's report

---

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in the internal control that we identify during our audit.

### Statement on the management commentary

Management is responsible for the management commentary.

Our opinion on the financial statements does not cover the management commentary, and we express no assurance opinion thereon.

In connection with our audit of the financial statements, it is our responsibility to read the management commentary and to consider whether the management commentary is materially inconsistent with the financial statements or the evidence obtained during the audit, or whether it otherwise appears to contain material misstatement.

Furthermore, it is our responsibility to consider whether the management commentary provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we believe that management commentary is consistent with the financial statements and that it has been prepared in accordance with the provisions of the Danish Financial Statement Act. We did not discover any material misstatement in the management commentary.

### 1. Accounting policies

The annual report for REI Mariendalsvej ApS has been presented in accordance with the Danish Financial Statements Act regulations concerning reporting class B enterprises. Furthermore, the company has decided to comply with certain rules applying to reporting class C enterprises.

The accounting policies are unchanged from last year, and the annual report is presented in DKK.

### Income statement

#### Gross profit

Gross profit comprises the revenue, changes in inventories of finished goods, and work in progress, work performed for own account and capitalised, other operating income, and external costs.

The enterprise will be applying IAS 11 and IAS 18 as its basis of interpretation for the recognition of revenue.

#### Revenue

Rental income comprises income from the lease of property and from overhead costs collected and is recognised in the income statement for the period relating to the lease payment. Income from the heating account is recognised in the statement of financial position as a balance with lessees.

#### Other external costs

Other external costs comprise costs for administration and premises.

#### Costs concerning investment properties

Costs concerning investment properties comprise operating costs, repair and maintenance costs, taxes, charges, and other costs.

#### Value adjustment of investment property

Value adjustment of investment property comprises value adjustments of properties at fair value and profit or loss from the disposal of properties.

#### Depreciation, amortisation, and writedown for impairment

Depreciation, amortisation, and writedown for impairment comprise depreciation, amortisation, and writedown for the year and profit and loss on the disposal of intangible and tangible assets.

## Notes

---

### 1. Accounting policies (continued)

#### Financial income and expenses

Financial income and expenses are recognised in the income statement with the amounts concerning the financial year. Financial income and expenses comprise interest income and expenses, financial expenses from financial leasing, realised and unrealised capital gains and losses relating to securities, debt and transactions in foreign currency, amortisation of financial assets and liabilities as well as surcharges and reimbursements under the advance tax scheme, etc.

#### Tax on net profit or loss for the year

Tax for the year comprises the current income tax for the year and changes in deferred tax and is recognised in the income statement with the share attributable to the net profit or loss for the year and directly in equity with the share attributable to entries directly in equity.

The company is subject to Danish rules on compulsory joint taxation of Danish group enterprises.

The current Danish income tax is allocated among the jointly taxed companies proportional to their respective taxable income (full allocation with reimbursement of tax losses).

## Statement of financial position

#### Investment property

At the initial recognition, investment property is measured at cost, comprising the cost of the property and directly associated costs, if any.

Hereafter, investments are measured individually on the basis of a return-based cash flow model based on expected future net cash flows over a period of 10 years. The required rate of return is determined by an external assessor. Fair value measurement is made on the basis of estimated lease income and expected operating costs, including scheduled maintenance. Compared to the previous financial year, the method of measurement remains unchanged.

Costs adding new or improved qualities to an investment property compared to its condition at the time of acquisition, thereby improving the future return on the property, are added to the cost as an improvement. Costs which do not add new or improved qualities to an investment property are recognised in the income statement under the item "Costs concerning investment property".

Like other property, plant, and equipment except for land, investment property has a limited economic life. The impairment taking place concurrently with the ageing of the investment property is reflected in the continuing measurement of the investment property at fair value.

Value adjustments are recognised in the income statement under the item "Value adjustments of property".

## Notes

---

### 1. Accounting policies (continued)

#### Receivables

Receivables are measured at amortised cost, which usually corresponds to nominal value.

In order to meet expected losses, impairment takes place at the net realisable value. The company has chosen to use IAS 39 as a basis for interpretation when recognising impairment of financial assets, which means that impairments must be made to offset losses where an objective indication is deemed to have occurred that an account receivable or a portfolio of accounts receivable is impaired. If an objective indication shows that an individual account receivable has been impaired, an impairment takes place at individual level.

Accounts receivable for which there is no objective indication of impairment at the individual level are evaluated at portfolio level for objective indication of impairment. The portfolios are primarily based on the debtors' domicile and credit rating in accordance with the company's and the group's credit risk management policy. Determination of the objective indicators applied for portfolios are based on experience with historical losses.

Impairment losses are calculated as the difference between the carrying amount of accounts receivable and the present value of the expected cash flows, including the realisable value of any securities received. The effective interest rate for the individual account receivable or portfolio is used as the discount rate.

#### Prepayments and accrued income

Prepayments and accrued income recognised under assets comprise incurred costs concerning the following financial year.

#### Cash on hand and demand deposits

Cash on hand and demand deposits comprise cash at bank and on hand.

#### Income tax and deferred tax

Current tax liabilities and current tax receivable are recognised in the statement of financial position as calculated tax on the taxable income for the year, adjusted for tax of previous years' taxable income and for tax paid on account.

The company is jointly taxed with consolidated Danish companies. The current corporate income tax is distributed between the jointly taxed companies in proportion to their taxable income and with full distribution with reimbursement as to tax losses. The jointly taxed companies are comprised by the Danish tax prepayment scheme.

Joint taxation contributions payable and receivable are recognised in the statement of financial position as "Income tax receivable" or "Income tax payable".

## Notes

---

### 1. Accounting policies (continued)

According to the rules of joint taxation, REI Mariendalsvej ApS is unlimitedly, jointly, and severally liable to pay the Danish tax authorities the total income tax, including withholding tax on interest, royalties, and dividends, arising from the jointly taxed group of companies.

Deferred tax is measured on the basis of temporary differences in assets and liabilities with a focus on the statement of financial position. Deferred tax is measured at net realisable value.

Adjustments take place in relation to deferred tax concerning elimination of unrealised intercompany gains and losses.

Deferred tax is measured based on the tax rules and tax rates applying under the legislation prevailing in the respective countries on the reporting date when the deferred tax is expected to be released as current tax. Changes in deferred tax due to changed tax rates are recognised in the income statement, except for items included directly in the equity.

Deferred tax assets, including the tax value of tax losses allowed for carryforward, are recognised at the value at which they are expected to be realisable, either by settlement against tax of future earnings or by set-off in deferred tax liabilities within the same legal tax unit. Any deferred net tax assets are measured at net realisable value.

#### Liabilities other than provisions

Financial liabilities other than provisions related to borrowings are recognised at the received proceeds less transaction costs incurred. In subsequent periods, the financial liabilities are recognised at amortised cost, corresponding to the capitalised value when using the effective interest rate. The difference between the proceeds and the nominal value is recognised in the income statement during the term of the loan.

Liabilities other than provisions relating to investment properties are measured at amortised cost.

Other liabilities concerning payables to suppliers, group enterprises, and other payables are measured at amortised cost which usually corresponds to the nominal value.

#### Accruals and deferred income

Payments received concerning future income are recognised under accruals and deferred income.

### 2. Staff costs

Average number of employees	0	0

<b>Carrying amount, 31 December 2020</b>	<b><u>445.400.000</u></b>	<b><u>450.100.000</u></b>

The measurement of properties is made using a returnbased cash flow model based on expected future net cash flows over a period of 10 years. The required rate of return is determined by an external assessor. The fair value measurement is made on the basis of estimated rental income and expected operating costs, including scheduled maintenance. Cash flows beyond the 10th year (terminal value) is determined according to a netrent model based on the 10th year, but at average estimates as to vacant periods, improvement costs, major maintenance costs, and investments. Cash flows from each year and the value of the terminal year are discounted with the required rate of return determined for each individual property with addition of inflation.

Compared to the previous financial year, the methods of measurement remain unchanged.

The property, which is located in Copenhagen, is mainly used as student housing, senior housing properties and fitness, totalling 13.700 squaremeters.

The external assessor has applied a Discount Rate of 5.45 % with an Exit Capitalisation Rate of 3.95%.

The effects of COVID-19 on the property market in general as well as the individual effects on the valuation properties in particular cannot be conclusively determined with regard to the rental and investment markets. Furthermore, the current reactions to COVID-19 make it clear that the valuation is based on unprecedented circumstances.

## Notes

---

### 4. Contingencies

#### Contingent liabilities

The company has issued a performance guarantee towards the main contractor of 18 mio. DKK. The performance guarantee runs until march 20, 2023. The performance guarantee has been released in april 2021.

#### Joint taxation

With REI Denmark Copenhagen ApS, company reg. no 36 04 52 13 as administration company, the company is subject to the Danish scheme of joint taxation and unlimitedly, jointly, and severally liable, along with the other jointly taxed companies, for the total corporation tax.

The company is unlimitedly, jointly, and severally liable, along with the other jointly taxed companies, for any obligations to withhold tax on interest, royalties, and dividends.

The total tax payable under the joint taxation scheme totals DKK 0.

The liability relating to obligations in connection with withholding tax on dividends, interest, and royalties represents an estimated maximum of DKK 0.

Any subsequent adjustments of corporate taxes or withholding tax, etc., may result in changes in the company's liabilities.
