Crystal Nordic A/S
Annual report 2022
CVR no. 37 36 93 06

Statement by the Board of Directors and the Executive Board

The Board of Directors and the Executive Board have today discussed and approved the annual report of Crystal Nordic A/S for the financial year 1 January – 31 December 2022.

The annual report has been prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Company's assets, liabilities and financial position at 31 December 2022 and of the results of the Company's operations for the financial year 1 January – 31 December 2022.

Further, in our opinion, the Management's review gives a fair review of the matters discussed in the Management's review.

We recommend that the annual report be approved at the annual general meeting.

Copenhagen, 30 June 2023

Independent auditor's report

To the shareholder of Crystal Nordic A/S

Opinion

We have audited the financial statements of Crystal Nordic A/S for the financial year 1 January – 31 December 2022 comprising income statement, balance sheet, statement of changes in equity and notes, including accounting policies. The financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Company's assets, liabilities and financial position at 31 December 2022 and of the results of the Company's operations for the financial year 1 January – 31 December 2022 in accordance with the Danish Financial Statements Act.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report.

We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's responsibility for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control that Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements in Denmark will always detect a material misstatement when it exists. Misstatements may arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of financial statement users made on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also

- identify and assess the risks of material misstatement of the company financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.

Independent auditor's report

- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on the Management's review

Management is responsible for the Management's review.

Our opinion on the financial statements does not cover the Management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the Management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of the Management's review.

Notes

1 Accounting policies

The annual report of Crystal Nordic A/S for 2022 has been prepared in accordance with the provisions applying to reporting class B entities under the Danish Financial Statements Act with opt-in from higher reporting classes.

Change in comparative figures

With effect on 1. January 2022 the Company has merged with Crystal Nordic Shipowning Partner ApS and Crystal Nordic Shipowning K/S.

The merger of the parent and subsidiaries has been implemented using the values applied in the financial statements. As a consequence of the merger, the comparative figures for 2021 have been adjusted accordingly, and impacted the result of the 2021 figures with EUR 1,852, the equity with EUR 0 and the balance sheet with EUR -250,229.

Consequently the accounting policies have been adapted as well.

Intra-group business combinations

The uniting-of-interests method is applied to business combinations such as the acquisition and disposal of equity investments, mergers, demergers, contribution of assets, share exchanges, etc., between entities controlled by the Parent Company. The uniting of interests is considered completed as from the earliest accounting period included in the annual report, however, no earlier than the date when the companies became subject to joint control, including restatement of comparative figures. Differences between the agreed consideration and the carrying amount of the acquired entity is recognised in equity.

Foreign currency translation

On initial recognition, transactions denominated in foreign currencies are translated at the exchange rates at the transaction date. Foreign exchange differences arising between the exchange rates at the transaction date and the date of payment are recognised in the income statement as financial income or financial expenses.

Receivables, payables and other monetary items denominated in foreign currencies are translated at the exchange rates at the balance sheet date. The difference between the exchange rates at the balance sheet date and the date at which the receivable or payable arose or was recognised in the latest financial statements is recognised in the income statement as financial income or financial expenses.

Income statement

Gross profit

Pursuant to section 32 of the Danish Financial Statements Act, the Company has decided only to disclose gross profit.

Revenue

Revenue is recognised in the income statement when:

- The income creating activities have been carried out on the basis of a binding agreement.
- The income can be measured reliably.

Financial statements 1 January – 31 December

Notes

1 Accounting policies (continued)

- It is probable that the economic benefits associated with the transaction will flow to the Company.
- Costs relating to the transaction can be measured reliably.

Revenue comprises time charter. Revenue is recognised when it meets the general criteria mentioned above and the stage of completion can be measured reliably. The stage of completion is based on the number of day in service multiplied with the daily charter rate.

Cost of sales

Cost of sales are mainly operation and maintenance expenses of vessels.

Other operating income

Other operating income comprises income of a secondary nature as viewed in relation to the Company's primary activities.

Staff costs

Staff costs comprise wages and salaries, including holiday allowance, pension and other social security costs, etc., to the Company's employees, excluding reimbursements from public authorities.

Financial income and expenses

Financial income and expenses comprise interest income and expense, gains and losses on securities, payables and transactions denominated in foreign currencies, amortisation of financial assets and liabilities as well as surcharges and refunds under the on-account tax scheme, etc.

Tax on profit/loss for the year

Tax for the year comprises current corporation tax for the year and changes in deferred tax, including changes in tax rates. The tax expense relating to the profit/loss for the year is recognised in the income statement, and the tax expense relating to amounts directly recognised in equity is recognised directly in equity.

Financial statements 1 January – 31 December

Notes

1 Accounting policies (continued)

Balance sheet

Property, plant and equipment

Property, plant and equipment includes vessels and dockings, and are measured at cost less accumulated depreciation and impairment losses. The cost comprises the cost acquisition and any expenses incurred during the period of construction. Other borrowing costs are taken to the income statement. Depreciation is charged over the expected economic lives of the assets, and the depreciation methods, expected lives and residual values are reassessed individual for the assets at the end of each financial year.

The estimated useful lives are as follows:

Vessels	6-25 years
Dockings	2,5 years

Vessels: Vessels are measured at cost less accumulated depreciation and write-downs. All major components of vessels except for dry-docking assets are depreciated on a straight-line basis to the estimated residual value over their estimated useful lives, which Crystal Nordic A/S estimates to be 25 years. Depreciation is based on cost less the estimated residual value. Residual value is estimated as the light weight tonnage of each vessel multiplied by scrap value per ton. The useful life and residual value of vessels are reviewed at least at each financial year-end based on market conditions, regulatory requirements and the Company's business plans. Moreover, the Company evaluates the the carrying amount of the vessels to determine whether events have occurred that indicate impairment and would require an adjustment of the carrying amounts.

Dockings: The fleet of own vessels is required to undergo planned dry-dockings for major repairs and maintenance, which cannot be carried out while the vessels are operating. Dry-dockings are generally required every 2,5-5 years depending on the nature of the work. Costs relating to dry-dockings are capitalised and depreciated on a straight-line basis over a period of 2,5 years. The residual value is estimated at zero. A portion of the cost of acquiring a new vessel is allocated to the components expected to be replaced or refurbished at the next dry-docking. For new buildings, the initial drydocking asset is estimated on the basis of expected costs related to the firstcoming docking, which is based on experience with similar vessels. At subsequent dry-dockings, the asset comprises the actual docking costs incurred.

Impairment of fixed assets

The carrying amount of property, plant and equipment is subject to an annual test for indications of impairment other than the decrease in value reflected by depreciation or amortisation.

Impairment tests are conducted of individual assets or groups of assets when there is an indication that they may be impaired. Write-down is made to the recoverable amount if this is lower than the carrying amount.

The recoverable amount is the higher of an asset's net selling price and its value in use. The value in use is determined as the present value of the forecast net cash flows from the use of the asset or the group of assets, including forecast net cash flows from the disposal of the asset or the group of assets after the end of the useful life.

Financial statements 1 January – 31 December

Notes

1 Accounting policies (continued)

Inventories

Inventories are measured at cost in accordance with the FIFO method. Where the net realisable value is lower than cost, inventories are written down to this lower value.

Receivables

Receivables are measured at amortised cost, usually equalling nominal value less writedowns for bad and doubtful debts.

Cash at bank and in hand

Cash at bank and in hand comprise cash and bank deposits.

Prepayments

Prepayments comprise prepayment of costs incurred relating to subsequent financial years.

Liabilities

Financial liabilities are recognised at cost at the date of borrowing, corresponding to the proceeds received less transaction costs paid. In subsequent periods, the financial liabilities are measured at amortised cost using the effective interest method. Accordingly, the difference between cost and the nominal value is recognised in the income statement over the term of the loan together with interest expenses.

Other liabilities are measured at amortised cost.

Financial statements 1 January – 31 December
