Notes

- To ensure the greatest possible applicability of this document, British English terminology has been used.
- Please note that decimal points have not been used in the usual English way. This means that for instance DKK 146.940 means the amount of DKK 146,940, and that 23,5 % means 23.5 %.

Management's report

The managing director has today presented the annual report of GG Komplementar ApS for the financial year 1 January to 31 December 2019.

The annual report has been presented in accordance with the Danish Financial Statements Act.

I consider the accounting policies used appropriate, and in my opinion the annual accounts provide a true and fair view of the company's assets and liabilities and its financial position at 31 December 2019 and of the company's results of its activities in the financial year 1 January to 31 December 2019.

The managing director considers the requirements of omission of audit of the annual accounts for 2019 as met.

I am of the opinion that the management's review includes a fair description of the issues dealt with.

We recommend that the annual report be approved by the general meeting..

København K, 10 June 2020

Managing Director

Thomas Færch

Auditor's report on compilation of the annual accounts

To the shareholder of GG Komplementar ApS

We have compiled the annual accounts of GG Komplementar ApS for the period 1 January to 31 December 2019 based on the bookkeeping of the company and on further information you have provided.

The annual accounts comprise the accounting policies used, profit and loss account, balance sheet and notes.

We performed this engagement in accordance with ISRS 4410, Compilation Engagements.

We have applied our professional expertise to assist you in the preparation and presentation of the annual accounts in accordance with the Danish Financial Statements Act. We have complied with relevant requirements of the Danish Act on Approved Auditors and Audit Firms and with ethical requirements of the Danish Institute of State Authorised Public Accountants, including principles of integrity, objectivity, professional competence and due care.

The annual accounts and the accuracy and completeness of the information used to compile them are your responsibility.

Since a compilation engagement is not an assurance engagement, we are not required to verify the accuracy or completeness of the information you provided to us to compile the annual accounts. Accordingly, we do not express an audit opinion or a review conclusion on whether the annual accounts are prepared in accordance with the Danish Financial Statements Act.

Management commentary

The principal activities of the company

The company's activity is to be general partner for Gefion Group Ejendomsudvikling K/S.

Development in activities and financial matters

The results from ordinary activities after tax are DKK 18.000 against DKK 4.000 last year. The management consider the results satisfactory.

Events subsequent to the financial year

No events have occurred subsequent to the balance sheet date, which would have material impact on the financial position of the company.

Accounting policies

The annual report for GG Komplementar ApS is presented in accordance with those regulations of the Danish Financial Statements Act concerning companies identified as class B enterprises. Furthermore, the company has chosen to comply with some of the rules applying for class C enterprises.

The accounting policies used are unchanged compared to last year, and the annual accounts are presented in Danish kroner (DKK).

Recognition and measurement in general

Income is recognised in the profit and loss account concurrently with its realisation, including the recognition of value adjustments of financial assets and liabilities. Likewise, all costs, these including depreciation, amortisation, writedown, provisions, and reversals which are due to changes in estimated amounts previously recognised in the profit and loss account are recognised in the profit and loss account.

Assets are recognised in the balance sheet when the company is liable to achieve future, financial benefits and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when the company is liable to lose future, financial benefits and the value of the liability can be measured reliably.

At the first recognition, assets and liabilities are measured at cost. Later, assets and liabilities are measured as described below for each individual accounting item.

At recognition and measurement, such predictable losses and risks are taken into consideration, which may appear before the annual report is presented, and which concern matters existing on the balance sheet date.

Income statement

Gross profit

The gross profit comprises the net turnover and other external costs.

The net turnover is recognised in the profit and loss account if delivery and risk transfer to the buyer have taken place before the end of the year, and if the income can be determined reliably and is expected to be received. The net turnover is recognised exclusive of VAT and taxes and with the deduction of any discounts granted in connection with the sale.

Other external costs comprise costs for administration.

Net financials

Net financials comprise interest. Financial income and expenses are recognised in the profit and loss account with the amounts that concern the financial year.

Accounting policies

Tax of the results for the year

The tax for the year comprises the current tax for the year and the changes in deferred tax, and it is recognised in the profit and loss account with the share referring to the results for the year and directly in the equity with the share referring to entries directly on the equity.

The balance sheet

Debtors

Debtors are measured at amortised cost which usually corresponds to face value. In order to meet expected losses, writedown takes place at the net realisable value.

Corporate tax and deferred tax

Current tax receivable and tax liabilities are recognised in the balance sheet at the amount calculated on the basis of the expected taxable income for the year adjusted for tax on previous years' taxable income and prepaid taxes. Tax receivable and tax liabilities are set off to the extent that legal right of set-off exists and if the items are expected to be settled net or simultaneously.

Deferred tax is measured on the basis of all temporary differences in assets and liabilities with a balance sheet focus.

Deferred tax is measured based on the tax rules and tax rates applying under the legislation on the balance sheet date and prevailing when the deferred tax is expected to be released as current tax.

Liabilities

Other liabilities are measured at amortised cost which usually corresponds to the nominal value.
