Management's Statement

The Executive Board has today considered and adopted the Annual Report of Capviva Solarpark Vandel Holding ApS for the financial year 1 January - 31 December 2020.

The Annual Report is prepared in accordance with the Danish Financial Statements Act.

In our opinion the Financial Statements and the Consolidated Financial Statements give a true and fair view of the financial position at 31 December 2020 of the Company and the Group and of the results of the Company and Group operations and of consolidated cash flows for 2020.

In our opinion, Management's Review includes a true and fair account of the matters addressed in the Review.

We recommend that the Annual Report be adopted at the Annual General Meeting.

Haslev, 17 March 2021

Executive Board

Jacob Simonsen Anders Dolmer Executive Officer Executive Officer

Independent Auditor's Report

To the Shareholder of Capviva Solarpark Vandel Holding ApS

Opinion

In our opinion, the Consolidated Financial Statements and the Parent Company Financial Statements give a true and fair view of the financial position of the Group and the Parent Company at 31 December 2020 and of the results of the Group's and the Parent Company's operations and of consolidated cash flows for the financial year 1 January - 31 December 2020 in accordance with the Danish Financial Statements Act.

We have audited the Consolidated Financial Statements and the Parent Company Financial Statements of Capviva Solarpark Vandel Holding ApS for the financial year 1 January - 31 December 2020, which comprise income statement, balance sheet, statement of changes in equity and notes, including a summary of significant accounting policies, for both the Group and the Parent Company, as well as consolidated statement of cash flows ("the Financial Statements").

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the Financial Statements" section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the Financial Statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the Financial Statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financials Statements Act.

Based on the work we have performed, in our view, Management's Review is in accordance with the Consolidated Financial Statements and the Parent Company Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement in Management's Review.

Independent Auditor's Report

Management's responsibilities for the Financial Statements

Management is responsible for the preparation of consolidated financial statements and parent company financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, Management is responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the Financial Statements unless Management either intends to liquidate the Group or the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to
 fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a
 material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's and the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the Financial Statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions

Independent Auditor's Report

may cause the Group and the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and contents of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that gives a true and fair view.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Solvency ratio	4%	2%	1%
Return on equity	48%	58%	112%

IAccording to section 128(4) of the Danish Financial Statements Act, the Group has omitted to disclose the financial highlights for the financial years 2017 and 2016.

Management's Review

Key activities

The purpose of the Group is development and operation of solar projects at the former Flyveplads Vandel, Denmark.

Development in the year

The income statement of the Group for 2020 shows a profit of TDKK 11,824, and at 31 December 2020 the balance sheet of the Group shows equity of TDKK 30,337.

The past year and follow-up on development expectations from last year

The fiscal year 2020 has resulted in an increase in profit before tax of DKK 4.061 thousand from DKK 14.632 thousand in 2019 to DKK 18.693 thousand in 2020.

During the financial year, the Group has focused on reducing its fixed costs, which can be seen by the positive development in profit before tax for 2020.

In 2020, the Group's cash and cash equivalents increased by DKK 2.117 thousand to DKK 51.616 thousand. The cash is used for pays instalments of the Groups debt. The debt has been reduced by DKK 53.448 thousand in 2020.

Targets and expectations for the year ahead

The Group expects profit before tax in 2021 to be at the same level as in 2020.

Operating risks

A major part of the turnover is covered by long term power purchase agreements, which reduces the business risk. Management has reduced operational risk by entering into longterm operation, maintenance, commercial, technical and director agreements with competent and stable business partner in Denmark.

The weather conditions in Denmark may influence the Group's performance in terms of hours of sunshine.

Foreign exchange risks

The Group's debt instruments in foreign currency means that the result, cash flows and equity are affected by the exchange rate and interest rate for EUR. It is the Group's policy to hedge commercial currency risks. Hedging takes place primarily via currency swaps to hedge expected interest rate developments in EUR.

Management's Review

Interest rate risks

The Group's debt instruments consist of instruments with a floating rate. It is the Group's policy to hedge commercial interest rate risks. Hedging takes place primarily via interest rate swaps to hedge changes in interest rates.

External environment

The Group runs its power producing activities in accordance with applicable laws, focusing on the lowest possible climate and environmental impact of production, and it is contributed through its investments in sustainable energy.

Uncertainty relating to recognition and measurement

Recognition and measurement in the Annual Report have not been subject to any uncertainty.

Unusual events

The financial position at 31 December 2020 of the Group and the results of the activities and cash flows of the Group for the financial year for 2020 have not been affected by any unusual events.

Subsequent events

No events materially affecting the assessment of the Annual Report have occurred after the balance sheet date.

14 Derivative financial instruments

The Group has entered one interest rate swap and 5 cross currency swap contracts recognized as non-current other payables. The interest rate swap are recognized at a negative fair value of DKK 4.974 thousand and the cross currency swaps are recognized at a negative fair value of 5.043. The principal amount on all the swaps are EUR 58.346 thousand equivalent to DKK 435.115 thousand. The Group swaps from floating interest rates to a fixed interest rate on the interest rate swap. On the cross currency swaps the Group swaps from fixed interest rates of 1,54-2,23% in DKK to fixed interest rates of 1,25-1,95% in EUR. The swaps will expire between the next 5-14 years.

17 Contingent assets, liabilities and other financial obligations

Charges and security

As security for mortgage debt totaling DKK 378.522 thousand, the Group has granted charges totaling EUR 87.450 thousand equivalent to DKK 650.567 thousand on solarplants carried at DKK 577.894 thousand at 31 December 2020.

According to note 8 cash of DKK 33.138 thousand is placed as restricted cash.

Rental and lease obligations

The Group has entered land lease agreements until 2045 and 2047. The land lease depends on the revenue so the total commitment cannot be measured reliably but is estimated to be between DKK 7.150-7.750 thousand per year.

The Group has entered commercial, technical and director agreements with an estimated annual fee of total DKK 2.057 thousand.

Additionally, the Group has an operation and maintenance agreement until at least 2035. The operation and maintenance agreement cost mainly depends on the revenue so the total commitment cannot be measured reliably but is estimated to be between DKK 1.500-1.800 thousand per year.

Other contingent liabilities

The group companies are jointly and severally liable for tax on the jointly taxed incomes etc of the Group. The total amount of corporation tax payable by the Group amounts to TDKK 0. Moreover, the group companies are jointly and severally liable for Danish withholding taxes by way of dividend tax, tax on royalty payments and tax on unearned income. Any subsequent adjustments of corporation taxes and withholding taxes may increase the Company's liability.

18 Related parties

Transactions

The Company has chosen only to disclose transactions which have not been made on an arm's length basis in accordance with section 98(c)(7) of the Danish Financial Statements Act. All transactions have been carried out under the arm'slength principle.

Ownership

The following shareholder is recorded in the Company's register of shareholders as holding at least 5% of the votes or at least 5% of the share capital:

CAPVIVA Solar Germany I GmbH

19 Accounting Policies

The Annual Report of Capviva Solarpark Vandel Holding ApS for 2020 has been prepared in accordance with the provisions of the Danish Financial Statements Act applying to medium-sized enterprises of reporting class C.

The accounting policies applied remain unchanged from last year.

The Consolidated and Parent Company Financial Statements for 2020 are presented in TDKK.

Recognition and measurement

Revenues are recognised in the income statement as earned. Furthermore, value adjustments of financial assets and liabilities measured at fair value or amortised cost are recognised. Moreover, all expenses incurred to achieve the earnings for the year are recognised in the income statement, including depreciation, amortisation, impairment losses and provisions as well as reversals due to changed accounting estimates of amounts that have previously been recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits attributable to the asset will flow to the Company, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow out of the Company, and the value of the liability can be measured reliably.

Assets and liabilities are initially measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

Certain financial assets and liabilities are measured at amortised cost, which involves the recognition of a constant effective interest rate over the maturity period. Amortised cost is calculated as original cost less any repayments and with addition/deduction of the cumulative amortisation of any difference between cost and the nominal amount. In this way, capital losses and gains are allocated over the maturity period.

Recognition and measurement take into account predictable losses and risks occurring before the presentation of the Annual Report which confirm or invalidate affairs and conditions existing at the balance sheet date.

Basis of consolidation

The Consolidated Financial Statements comprise the Parent Company, Capviva Solarpark Vandel Holding ApS, and subsidiaries in which the Parent Company directly or indirectly holds more than 50% of the votes or in which the Parent Company, through share ownership or otherwise, exercises control. Enterprises in which the Group holds between 20% and 50% of the votes and exercises significant influence but not control are classified as associates.

On consolidation, items of a uniform nature are combined. Elimination is made of intercompany income and expenses, shareholdings, dividends and accounts as well as of realised and unrealised profits and

19 Accounting Policies (continued)

losses on transactions between the consolidated enterprises.

The Parent Company's investments in the consolidated subsidiaries are set off against the Parent Company's share of the net asset value of subsidiaries stated at the time of consolidation.

Translation policies

Transactions in foreign currencies are translated at the exchange rates at the dates of transaction. Exchange differences arising due to differences between the transaction date rates and the rates at the dates of payment are recognised in financial income and expenses in the income statement. Where foreign exchange transactions are considered hedging of future cash flows, the value adjustments are recognised directly in equity.

Receivables, payables and other monetary items in foreign currencies that have not been settled at the balance sheet date are translated at the exchange rates at the balance sheet date. Any differences between the exchange rates at the balance sheet date and the rates at the time when the receivable or the debt arose are recognised in financial income and expenses in the income statement.

Fixed assets acquired in foreign currencies are measured at the transaction date rates.

Derivative financial instruments

Derivative financial instruments are initially recognised in the balance sheet at cost and are subsequently remeasured at their fair values. Positive and negative fair values of derivative financial instruments are classified as "Other receivables" and "Other payables", respectively.

Changes in the fair values of derivative financial instruments are recognised in the income statement unless the derivative financial instrument is designated and qualify as hedge accounting, see below.

Hedge accounting

Changes in the fair values of financial instruments that are designated and qualify as fair value hedges of a recognised asset or a recognised liability are recognised in the income statement as are any changes in the fair value of the hedged asset or the hedged liability related to the hedged risk.

Changes in the fair values of derivative financial instruments that are designated and qualify as hedges of expected future transactions are recognised in retained earnings under equity as regards the effective portion of the hedge. The ineffective portion is recognised in the income statement. If the hedged transaction results in an asset or a liability, the amount deferred in equity is transferred from equity and recognised in the cost of the asset or the liability, respectively. If the hedged transaction results in an income or an expense, the amount deferred in equity is transferred from equity to the income statement in the period in which the hedged transaction is recognised. The amount is recognised in the same item as the hedged transaction.

19 Accounting Policies (continued)

Changes in the fair values of financial instruments that are designated and qualify as hedges of net investments in independent foreign subsidiaries or associates are recognised directly in equity as regards the effective portion of the hedge, whereas the ineffective portion is recognised in the income statement.

Income Statement

Revenue

Revenue from the sale of electricity is recognised when the risks and rewards relating to the electricity sold have been transferred to the purchaser, the revenue can be measured reliably and it is probable that the economic benefits relating to the sale will flow to the Company.

Revenue is measured at the consideration received and is recognised exclusive of VAT.

Costs related to sale of electricity

Expenses for operation and maintenance, insurance, land lease, electricity costs etc. used in generating the year's revenue.

Other external expenses

Other external expenses comprise indirect production costs and expenses for premises, sales and distribution as well as office expenses, etc.

Gross profit/loss

With reference to section 32 of the Danish Financial Statements Act, gross profit/loss is calculated as a summary of revenue, other operating income, costs related to sale of electricity and consumables and other external expenses.

Amortisation, depreciation and impairment losses

Amortisation, depreciation and impairment losses comprise amortisation, depreciation and impairment of intangible assets and property, plant and equipment.

Other operating income and expenses

Other operating income and other operating expenses comprise items of a secondary nature to the main activities of the Group, including gains and losses on the sale of intangible assets and property, plant and equipment.

19 Accounting Policies (continued)

Income from investments in subsidiaries

The item "Income from investments in subsidiaries" in the income statement includes the proportionate share of the profit for the year.

Financial income and expenses

Financial income and expenses are recognised in the income statement at the amounts relating to the financial year.

Tax on profit/loss for the year

Tax for the year consists of current tax for the year and changes in deferred tax for the year. The tax attributable to the profit for the year is recognised in the income statement, whereas the tax attributable to equity transactions is recognised directly in equity.

The Company is part of a joint taxation with all Danish Group Companes. The tax effect of the joint taxation is allocated to enterprises in proportion to their taxable incomes.

Balance Sheet

Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and less any accumulated impairment losses.

Cost comprises the cost of acquisition and expenses directly related to the acquisition up until the time when the asset is ready for use.

Interest expenses on loans raised directly for financing the construction of property, plant and equipment are recognised in cost over the period of construction.

Depreciation based on cost reduced by any residual value is calculated on a straight-line basis over the expected useful lives of the assets, which are:

Plant and machinery

25 years

The fixed assets' residual values are determined at nil.

Depreciation period and residual value are reassessed annually.

19 Accounting Policies (continued)

Impairment of fixed assets

The carrying amounts of property, plant and equipment are reviewed on an annual basis to determine whether there is any indication of impairment other than that expressed by amortisation and depreciation.

If so, the asset is written down to its lower recoverable amount.

Investments in subsidiaries

Investments in subsidiaries are recognised and measured under the equity method.

The item"Investments in subsidiaries" in the balance sheet include the proportionate ownership share of the net asset value of the enterprises calculated on the basis of the fair values of identifiable net assets at the time of acquisition.

The total net revaluation of investments in subsidiaries is transferred upon distribution of profit to "Reserve for net revaluation under the equity method" under equity. The reserve is reduced by dividend distributed to the Parent Company and adjusted for other equity movements in the subsidiaries.

Subsidiaries with a negative net asset value are recognised at DKK o. Any legal or constructive obligation of the Parent Company to cover the negative balance of the enterprise is recognised in provisions.

Other fixed asset investments

Other fixed asset investments consist of deposits.

Receivables

Receivables are measured in the balance sheet at the lower of amortised cost and net realisable value, which corresponds to nominal value less provisions for bad debts.

Prepayments

Prepayments comprise prepaid expenses concerning rent, insurance premiums, subscriptions and interest.

Provisions

Provisions are recognised when - in consequence of an event occurred before or on the balance sheet date - the Group has a legal or constructive obligation and it is probable that economic benefits must be given up to settle the obligation.

19 Accounting Policies (continued)

Deferred tax assets and liabilities

Deferred income tax is measured using the balance sheet liability method in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes on the basis of the intended use of the asset and settlement of the liability, respectively.

Deferred tax assets are measured at the value at which the asset is expected to be realised, either by elimination in tax on future earnings or by set-off against deferred tax liabilities within the same legal tax entity.

Deferred tax is measured on the basis of the tax rules and tax rates that will be effective under the legislation at the balance sheet date when the deferred tax is expected to crystallise as current tax. Any changes in deferred tax due to changes to tax rates are recognised in the income statement or in equity if the deferred tax relates to items recognised in equity.

Current tax receivables and liabilities

Current tax liabilities and receivables are recognised in the balance sheet as the expected taxable income for the year adjusted for tax on taxable incomes for prior years and tax paid on account. Extra payments and repayment under the on-account taxation scheme are recognised in the income statement in financial income and expenses.

Financial debts

Loans, such as loans from credit institutions, are recognised initially at the proceeds received net of transaction expenses incurred. Subsequently, the loans are measured at amortised cost; the difference between the proceeds and the nominal value is recognised as an interest expense in the income statement over the loan period.

Mortgage loans are measured at amortised cost, which for cash loans corresponds to the remaining loan. Amortised cost of debenture loans corresponds to the remaining loan calculated as the underlying cash value of the loan at the date of raising the loan adjusted for depreciation of the price adjustment of the loan made over the term of the loan at the date of raising the loan.

Other debts are measured at amortised cost, substantially corresponding to nominal value.

Cash Flow Statement

The cash flow statement shows the Group's cash flows for the year broken down by operating, investing and financing activities, changes for the year in cash and cash equivalents as well as the Group's cash and cash equivalents at the beginning and end of the year.

Cash flows from operating activities

Cash flows from operating activities are calculated as the net profit/loss for the year adjusted for changes

19 Accounting Policies (continued)

in working capital and non-cash operating items such as depreciation, amortisation and impairment losses, and provisions. Working capital comprises current assets less short-term debt excluding items included in cash and cash equivalents.

Cash flows from investing activities

Cash flows from investing activities comprise cash flows from acquisitions and disposals of intangible assets, property, plant and equipment as well as fixed asset investments.

Cash flows from financing activities

Cash flows from financing activities comprise cash flows from the raising and repayment of long-term debt as well as payments to and from shareholders.

Cash and cash equivalents

Cash and cash equivalents comprise "Cash at bank and in hand".

The cash flow statement cannot be immediately derived from the published financial records.
