Ledelsespåtegning

The Executive Board has today submitted the Annual Report for 2016/2017 for SUSU Sushi ApS

The annual report is prepared in accordance with legal requirements.

We consider the accounting policies to be appropriate so that the annual report gives a true and fair view of the company's assets and liabilities, financial position and profit and loss account.

According to the provisions of section 10a of the Danish Financial statement act, the statement for next year will not be audited pursuant to section 135 of the Danish Financial Statements Act. 1, Item. 2nd. The company's management will therefore also pay the accounts for the following year without audit.

The annual report is submitted to the general meeting's approval.

Profit & Loss

General about recognition and measurement

Income is recognized in the income statement as they are earned, including value adjustments of financial assets and liabilities. The income statement also recognizes all costs, including depreciation and write-downs.

Assets are recognized in the balance sheet when it is probable that future economic benefits will flow to the company and the value of the asset can be measured reliably.

Liabilities are recognized in the balance sheet when it is probable that future economic benefits will leave the company and the value of the liability can be measured reliably.

At initial recognition, assets and liabilities are measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

Corporation tax and deferred tax

Tax on profit for the year, which consists of current tax for the year and deferred tax for the year, is recognized in the income statement with the part attributable to the profit for the year and directly to equity, with the part attributable to entries directly to equity.

The current tax is calculated using the tax rate applicable for the year.

Current tax receivables are recognized in the balance sheet as receivables to the extent that are paid too much, while current tax liabilities are recognized as short-term debt to the extent that no payment has been made.

Deferred tax is recognized in the balance sheet as the tax on all temporary differences. Deferred tax is calculated at the tax rate applicable on the date when it is expected to be realized on the basis of adopted legislation before the end of the financial year.

Deferred tax assets are recognized by the value that they can be expected to be realized.

Profit & loss

Proceeds from the sale are included in the income statement.

Other external costs include local costs, staff costs in addition to salary and expenses, and other administrative expenses, etc.

Personnel costs include salaries and salaries as well as salary-related costs.

Depreciation and write-downs include depreciation and write-downs of intangible and tangible fixed assets for the year.

Financial income and expenses include interest, realized and unrealized exchange rate adjustments, securities securitization and mortgage lending.

Balance sheet

Tangible fixed asset

Other plant, plant and equipment are measured at cost less accumulated depreciation and write-downs.

The depreciation basis, which is calculated as cost less any residual value and impairment losses, is distributed on a straight-line basis over the expected useful lives of the assets, which comprise:

IT equipment and fixtures: 4 years

New acquisitions with a cost below DKK 13,200 are expensed in full in the acquisition year.

Tangible fixed assets leased and meeting the terms of financial leasing are treated according to the same guidelines as owned assets.

Profits and losses on current replacement of property, plant and equipment are recognized as income under "Other external expenses", respectively.

Securities and investments

Investments in affiliated companies are valued at net asset value.

Other securities and investments are valued at cost.

Listed securities are measured at fair value (market price) at the balance sheet date

Receiveables

Receiveables are stated at amortized cost. Because of short-term receivables, the amortized cost corresponds substantially to the nominal value. A deduction is made for impairment losses.

Short & long term liabilities

Other liabilities are recognized at cost at the time of the formation of the debt. Subsequent, they are calculated at amortized cost.
