MANAGEMENT COMMENTARY

Primary activities

VitalityGuard is a digital health care company primarily obtaining knowledge about the health care conditions of companies' employees through surveys. Such surveys are utilised by the companies for their prevention efforts in general, just as VitalityGuard provides a coach at the disposal of employees with health care issues. VitalityGuard typically supports Dansk Sundhedssikring's customers with prevention measures in addition to delivering services to own customers.

Development in activities and finances

Profit/loss for the year after tax resulted in a loss of DKK 3,119 thousand against a loss of DKK 2,307 thousand in 2019. According to Management, the result for 2020 are satisfactory, as the loss is caused by extraordinary write-downs on intangible assets.

Outlook

VitalityGuard continues to support primarily Dansk Sundhedssikring's customers with prevention activities and analyses. This will lead to improved profitability of the business and create expectations for increased revenue and earnings in 2021

Going concern

Due to the loss of capital, the Company is subject to section 119 of the Danish Companies Act. The Company's majority shareholder has issued a letter of intent in which it is confirmed that the owners are willing to support in terms of liquidity, capital and subordination vis-a-vis other accounts payable to the necessary extent.

Events after the balance sheet date

No events have occurred after the balance sheet date to this date, which would influence the evaluation of this annual report.

STATEMENT BY MANAGEMENT ON THE ANNUAL REPORT

The Board of Directors and the Executive Board have today considered and approved the annual report of VitalityGuard A/S for the financial year 01.01.2020 - 31.12.2020.

The annual report is presented in accordance with the Danish Financial Statements Act. In our opinion, the financial statements give a true and fair view of the Company's financial position at 31 December 2020 and of its financial performance for the financial year 1 January to 31 December 2020.

We believe that the management commentary contains a fair review of the affairs and conditions referred to therein.

We recommend the annual report for adoption at the Annual General Meeting.

INDEPENDENT AUDITOR'S REPORT

To the share holder of VitalityGuard A/S

Opinion

We have audited the financial statements of VitalityGuard A/S for the financial year 01.01.2020 - 31.12.2020, which comprise the income statement, balance sheet, statement of changes in equity, cash flow statement and notes, including a summary of significant accounting policies. The financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Entity's financial position at 31.12.2020 and of the results of its operations and cash flows for the financial year 01.01.2020 - 31.12.2020 in accordance with the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the Auditor's responsibilities for the audit of the financial statements section of this auditor's report. We are independent of the Entity in accordance with the International Ethics Standards Board of Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's responsibilities for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Entity's ability to continue as a going concern, for disclosing, as applicable, matters related to going concern, and for using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Entity or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements, and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures in the notes, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on the management commentary

Management is responsible for the management commentary.

Our opinion on the financial statements does not cover the management commentary, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the management commentary and, in doing so, consider whether the management commentary is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the management commentary provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the management commentary is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of the management commentary.

9. Consolidation

Sundhedsgruppen A/S, Hørkær 12B, 2730 Herlev prepares the consolidated financial statements for the Group in which VitalityGuard A/S is a subsidiary.

10. Contingent liabilities

The Company participates in a Danish joint taxation arrangement in which Daytona Midco Limited serves as the administration company. According to the joint taxation provisions of the Danish Corporation Tax Act, the Company is therefore, from the financial year 2019, liable for income taxes etc for the jointly taxed companies and, from the establishment of the Company, also for obligations, if any, relating to the withholding of tax on interest, royalties and dividends for the jointly taxed companies. The jointly taxed companies' total known net liability in the joint taxation arrangement is stated in the financial statements of the administration company.

11. Accounting policies

Reporting class

This annual report has been presented in accordance with the provisions of the Danish Financial Statements Act governing reporting class B enterprises with addition of a few provisions for reporting class C enterprises.

The accounting policies applied for these financial statements are consistent with those applied last year.

Recognition and measurement

Assets are recognised in the balance sheet when it is probable as a result of a prior event that future economic benefits will flow to the Company, and the value of the assets can be measured reliably.

Liabilities are recognised in the balance sheet when the Company has a legal or constructive obligation as a result of a prior event, and it is probable that future economic benefits will flow out of the Company, and the value of the liabilities can be measured reliably.

On initial recognition, assets and liabilities are measured at cost. Measurement subsequent to initial recognition is effected as described below for each financial statement item.

Anticipated risks and losses that arise before the time of presentation of the annual report and that confirm or invalidate affairs and conditions existing at the balance sheet date are considered at recognition and measurement.

Income is recognised in the income statement when earned, whereas costs are recognised by the amounts attributable to this financial year.

Income statement

Gross profit or loss

Gross profit or loss comprises revenue, changes in inventories of manufactured goods and work in progress, own work capitalised, other operating income, expenses for raw materials and consumables used and other external expenses.

Revenue

Revenue from the sale of manufactured goods and goods for resale is recognised in the income statement when delivery is made. Revenue is recognised net of VAT, duties and sales discounts in connection with the sale and is measured at fair value of the consideration fixed.

Cost of sales

Cost of sales comprises cost of sales for the year measured at cost, adjusted for ordinary inventory writedowns.

Other external expenses

Other external expenses comprise expenses related to the Company's primary activities, including cost premises, stationary and office supplies, promotion expenses, etc. The item also includes write-down of receivables recognised under current assets.

Staff costs

Staff costs comprise wages and salaries as well as expenses for social security, pensions, etc to the Company's employees.

Depreciation, amortisation and impairment losses

Depreciation and amortisation of property, plant and equipment and intangible assets comprise depreciation and amortisation of the financial year calculated based on the fixed residual values and useful lives of each asset and performed impairment tests and of gains and losses on the sale of property, plant and equipment and intangible assets.

Other financial income

Other financial income comprises interest income received, payables and transactions in foreign currencies, amortisation of financial assets as well as tax relief under the Danish Tax Prepayment Scheme.

Other financial expenses

Other financial expenses comprise interest expenses, including interest expenses from payables to group enterprises, payables and transactions in foreign currencies, amortisation of financial liabilities as well as tax relief under the Danish Tax Prepayment Scheme.

Income taxes

Tax for the year, which consists of current tax for the year and changes in deferred tax, is recognised in the income statement by the portion attributable to the profit for the year and recognised directly in equity by the portion attributable to entries directly in equity.

Notes

Balance sheet

Intellectual property rights, etc.

Intellectual property rights, etc. comprise ongoing and completed development projects with related intellectual property rights, acquired intellectual property rights and prepayments for intangible assets.

Development projects on clearly defined and identifiable products and processes, for which the technical rate of utilisation, adequate resources and a potential future market or development opportunity in the enterprise can be established, and where the intention is to manufacture, market or apply the product or process in question, are recognised as intangible assets.

Other development costs are recognised as costs in the income statement as incurred.

When recognising development costs as intangible assets, an amount equal to the expenses incurred is tied to equity under the reserve for development costs which is reduced concurrently with the amortisation and write-down of the development projects.

Development projects are amortised over a period of seven years.

The cost of development projects comprises costs, including amortisation, that are directly and indirectly attributable to the development projects.

Intellectual property rights are measured at cost less accumulated amortisation. Patents are

Patents are amortised over their remaining duration, and licences are amortised over the term of the agreement. Intellectual property rights are written down to the lower of recoverable amount and carrying amount.

Property, plant and equipment

Other fixtures and fittings, tools and equipment are measured at cost less accumulated depreciation and impairment losses. Cost comprises the acquisition price, costs directly attributable to the acquisition, and preparation costs of the asset until the time when it is ready to be put into operation.

The basis of depreciation is cost less estimated residual value after the end of useful life. Straight-line depreciation is made on the basis of the following estimated useful lives of the assets:

Other fixtures and fittings, tools and equipment 3-5 years

Property, plant and equipment are written down to the lower of recoverable amount and carrying amount.

Inventories

Inventories are measured at the lower of cost using the net realisable value.

Cost consists of purchase price plus delivery costs. Cost of manufactured goods

goods and work in progress consists of costs of raw materials, consumables, direct labour costs and indirect production costs.

Indirect production costs comprise indirect materials and labour costs, costs of maintenance of and depreciation and impairment losses on machinery, factory buildings and equipment applied for the manufacturing process as well as costs of factory administration and management. Financing costs are not included in cost.

The net realisable value of inventories is calculated as the estimated selling price less completion costs and costs incurred to execute sale.

Receivables

Receivables are measured at amortised cost, usually equalling nominal value less provisions for bad debts.

Deferred tax

Deferred tax is recognised on all temporary differences between the carrying amount and tax-based value of assets and liabilities, for which the tax-based value of assets is calculated based on the planned use of each asset.

Deferred tax assets, including the tax base of tax loss carryforwards, are recognised in the balance sheet at their estimated realisable value, either as a set-off against deferred tax liabilities or as net tax assets.

Joint taxation contributions payable or receivable

Current joint taxation contributions receivable or joint taxation contributions payable are recognised in the balance sheet, calculated as tax computed on the taxable income of the year, which has been adjusted for prepaid tax. For tax losses, joint taxation contributions receivable are only recognised if such losses are expected to be used under the joint taxation arrangement.

Cash and cash equivalents

Cash and cash equivalents comprises bank deposits.

Other financial liabilities

Other financial liabilities are measured at amortised cost which usually corresponds to nominal value.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow out of the Company.

Other liabilities are recognised at amortised cost.
