Income is recognised in the income statement as earned, including value adjustments of financial assets and liabilities. All expenses, including amortisation, depreciation and impairment losses, are also recognised in the income statement.

On initial recognition, assets and liabilities are measured at cost. On subsequent recognition, assets and liabilities are measured as described below for each individual accounting item.

Certain financial assets and liabilities are measured at amortised cost using the effective interest method. Amortised cost is calculated as the historic cost less any installments and plus/less the accumulated amortisation of the difference between the cost and the nominal amount.

## NOTES

### 1 UNCERTAINTY ABOUT THE CONTINUED OPERATION (GOING CONCERN)

The company has incurred a net loss of 440 TDKK during the year ended December 31, 2023 and, as of that date, the Company's current liabilities exceeded its current assets by 5,063 TDKK.

The company is dependent on that the IWG Group regularly provides the necessary liquidity to ensure that the company is able to meet its liabilities as they fall due until the annual general meeting where the annual report of 2023 is approved.

No commitments on financial support has been given from the owners, which indicates that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern.

Management however expects that the owners have the ability to pay, for which reason the financial statements for the year ended 31 December 2023 have been prepared on a going concern basis.
