Company information

Reporting company GAB Holding IVS
Forhåbningsholms Alle 37, 3 th
1904 Frederiksberg C

CVR-nr: 38422197
Reporting period: 01/01/2018 - 31/12/2018

Statement by Management

Management has today considered and approved the annual report for the financial year 01. January 2018 - 31. December 2018 for GAB Holding IVS.

The annual report is presented in accordance with the Danish Financial Statements Act.

Management believes that the financial statements give a true and fair view of the company's assets, liabilities and financial position and of the result.

The annual report is submitted for approval by the General Assembly.

Management considers the conditions for opting out of audit to be met.

Copenhagen, the 19/04/2019

Management

Geir Atli Björnsson

Management's Review

Primary activity

The primary activity of the Company is to function as a holding company and to perform activities related to other investments.

Development in activities and finances

Profit for the year is negative by DKK 5,500 which is satisfactory as the Company currently is in a start-up phase.

Events after the balance sheet date

No events have occurred after the balance sheet date to this date which would influence the evaluation of this annual report.

Accounting Policies

The annual report has been prepared in accordance with the regulation applying to Reporting class B.

The accounting policies applied for these financial statements are consistent with those applied last year.

Recognition and measurement

Assets are recognised in the balance sheet when it is probable as a result of a prior event that future economic benefits will flow to the Company, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when the Company has a legal or constructive obligation as a result of a prior event, and it is probable that future economic benefits will flow out of the Company, and the value of the liability can be measured reliably.

On initial recognition, assets and liabilities are measured at cost. Measurement subsequent to initial recognition is effected as described below for each financial statement item.

Anticipated risks and losses that arise before the time of presentation of the annual report and that confirm or invalidate affairs and conditions existing at the balance sheet date are considered at recognition and measurement

Income is recognised in the income statement when earned, whereas costs are recognised by the amounts attributable to this financial year.

Income statement

Other external costs

Other external costs include administrative expenses.

Financial income and expenses

These items comprise interest income and expenses, financial fees etc as well as tax surcharge and tax relief under the Danish Tax Prepayment Scheme.

Tax on profit for the year and corporate tax

Tax on the profit for the year amounts to 22% of the accounting result adjusted for non-taxable and non-deductible items.

Tax on the profit for the year is composed of the expected tax on the year's taxable income adjusted for the year's change in deferred tax. Changes in deferred tax as a result of changes in tax rates are recognized in the income statement.

Corporation tax, relating to the financial year, which has not been settled at the balance sheet date, is classified as corporation tax under either receivables or liabilities.

Balance sheet

Investments in associates

Investments in associates are recognised and measured at cost.

Associates with a negative equity value are measured at zero value, and any receivables from these enterprises are written down by the Company's share of such negative equity if it is deemed irrecoverable. If

the negative equity exceeds the amount receivable, the remaining amount is recognised under provisions if the Company has a legal or constructive obligation to cover the liabilities of the relevant enterprise.

Investments in associates are written down to the lower of recoverable amount and carrying amount.

Equity

Management's proposed dividend for the financial year is presented as a separate item under equity.

Reserve for entrepreneurial companies

The reserve for entrepreneurial companies includes the statutory reserve under the Danish Companies Act.

An amount corresponding to a minimum of 25% of the profit for the year is allocated annually until the reserve, including the share capital, is at least DKK 50,000. In the event of a deficit, there is no deposit on the reserve.

Provisions for deferred tax

Deferred tax is measured according to the balance sheet liability method. Provision is made for deferred tax with 22% of all temporary differences between the carrying amount and the tax value of assets and liabilities and taking into account the planned use of the asset and settlement of the liability, respectively.

The tax value of taxable loss carryforwards is included in the calculation of the deferred tax if it is probable that the losses can be utilized.

Deferred tax assets are measured at net realizable value, whereby they are recognized at the value that they are expected to be utilized for the foreseeable future, either by offsetting tax on future earnings or by offsetting deferred tax liabilities.

Liabilities

Liabilities are measured at amortized cost corresponding to nominal value.
