The accounting policies applied remain unchanged from last year.

Reporting currency

Income Statement

Gross loss

The Company has decided to aggregate certain items of the Income Statement in accordance with the provisions of Section 32 of the Danish Financial Statements Act.

Gross profit is a combination of the items of revenue, change in inventories of finished goods, work in progress and goods for resale, other operation income, cost of raw and consumables and other external expenses.

Revenue

Revenue consists of a micro donation from Fonden for entreprenørskab.

Micro donations granted as cover for costs, are recognized as revenue in the income statement when the costs are paid. Micro donations are therefore recognized on a systematic basis and concurrently with compliance with the terms attached to the achievement of the donation.

Tax on net profit for the year

Tax on net profit/loss for the year comprises current tax on expected taxable income of the year and the year's adjustment of deferred tax less the part of the tax of the year that relates to changes in equity. Current and deferred tax regarding changes in equity is recognised directly in equity.

The Company and the Danish associates are taxed jointly. The Danish income tax is distributed between profit- and loss-making Danish enterprises in relation to their taxable income (full distribution).

Accounting Policies

Deferred tax

Deferred tax and the associated adjustments for the year are determined according to the balance-sheet liability method as the tax base of all temporary differences between carrying amounts and the tax bases of assets and liabilities.

Deferred tax assets, including the tax base of tax losses allowed for carryforward, are recognised at the value at which they are expected to be used, either by elimination in tax on future earnings or by set-off against deferred tax liabilities in enterprises within the same legal entity and jurisdiction.

Deferred tax is measured on the basis of the tax rules and tax rates that will be effective under the legislation applicable at the balance sheet date when the deferred tax is expected to crystallise as current tax.

Current tax liabilities

Current tax liabilities and current tax receivables are recognised in the Balance Sheet as calculated tax on the expected taxable income for the year, adjusted for tax on taxable income for previous years as well as for tax prepaid.

Other payables

Other payables are measured at amortised cost, which usually corresponds to the nominal value

Contingent assets and liabilities

Contingent assets and liabilities are not recognised in the Balance Sheet but appear only in the notes.
