Management's report

Today the Executive Board has discussed and approved the Annual Report of HDM Africa ApS for the period 1. juli 2020 - 30. juni 2021.

The Annual Report has been prepared in conformity with the Financial Statements Act.

The Executive Board declares that the company complies with the provisions of section 135 of the Danish Financial Statements Act and thus has the opportunity to present an unaudited annual report.

I consider the accounting policies chosen appropriate so that the financial statements give a true and fair view of the company's assets and liabilities, financial position and the result. At the same time, it is my opinion that the management's report contains a true and fair account of the matters covered by the report.

The annual report is recommended for approval by the general meeting.

Management commentary

Main activity of the company

The purpose of the company is to act as a holding company in owning shares in a foreign subsidiary and in the Management's estimation, related business.

Development in the activities and the financial situation of the Company

The company's operations have developed as expected and the result for the year is considered satisfactory.

Material events after the reporting date

No events have occurred after the reporting date that may materially affect the financial position of the company.

Accounting policies

GENERAL INFORMATION

The financial statements of HDM Africa ApS for the financial year 2020/21 have been prepared in conformity with the provisions of the Financial Statements Act on class B enterprises combined with a few rules on class C enterprises.

With reference to section 110 of the Financial Statements Act, no consolidated financial statements have been prepared.

The accounting policies applied in the financial statements are consistent with those of the previous year. The reporting currency is Danish kroner.

Recognition and measurement in general

The financial statements have been prepared under the historical cost convention.

Income is recognised in the income statement when earned. Value adjustments of financial assets and liabilities measured at fair value or amortised cost are also recognised in the income statement. Costs incurred to generate the earnings for the year are also recognised in the income statement, including amortisation, depreciation, impairment losses and provisions as well as reversals resulting from changed accounting estimates of amounts previously recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future financial benefits will flow to the Company and it is possible to obtain a reliable measurement of the individual assets.

Liabilities are recognised in the balance sheet when it is probable that future financial benefits will flow from the Company and it is possible to obtain a reliable measurement of the individual liabilities.

On initial recognition, assets and liabilities are measured at cost. Subsequently, assets and liabilities are measured as described for each item.

Certain financial assets and liabilities are measured at amortised cost, whereby a constant effective interest is recognised over life of the individual asset or liability. Amortised cost is determined as original cost less any repayments and with the addition/deduction of the accumulated amortisation of the difference between cost and nominal amount. In this way capital losses and capital profits are spread over the useful life.

Anticipated losses and risks arising before the presentation of the financial statements and confirming or disconfirming facts and circumstances known at the reporting date are taken into consideration at recognition and measurement.

The functional currency used is Danish kroner. All other currencies are considered foreign currencies.

INCOME STATEMENT

General information

Certain income and expenses have been aggregated in the item designated 'Gross profit' with reference to section 32 of the Financial Statements Act.

Other external expenses

Other external expenses include costs for distribution, sales, advertising, administration, premises, bad debts, rental expenses under operating leases, etc.

Income or loss from investments in subsidiaries and associates

Dividends from equity investments are recognised as income in the financial year in which the dividends are declared.

Financial income and expenses

Accounting policies

Financial income and expenses are recognised in the income statement based on the amounts which relate to the financial year. Financial income and expenses include interest revenue and expenses.

Tax on net profit for the year

Tax for the year comprises current tax and changes in deferred tax. The share attributable to the profit or loss for the year is recognised in the income statement, and the share attributable directly to equity is recognised directly in equity.

BALANCE SHEET

Fixed assets investments

Investments in subsidiaries and associates are recognised in the balance sheet at cost. Where the net realisable value is lower than cost, the investments are written down to this lower value.

Payables

Other payables, comprising trade payables and amounts owed to Group enterprises and associates and other accounts payable, are measured at amortised cost, which normally corresponds to the nominal value.
