Accounting policies

Reporting class

The annual report of Better Energy Poland Development A/S for 2021 has been presented in accordance with the provisions of the Danish Financial Statements Act applying to enterprises of reporting class B with addition of certain provisions for reporting class C.

The accounting policies applied remain unchanged from last year.

Reporting currency

The annual report is presented in Danish kroner (DKK).

Recognition and measurement

Assets are recognised in the balance sheet when it is probable as a result of a prior event that future economic benefits will flow to the company, and the value of the assets can be measured reliably.

Liabilities are recognised in the balance sheet when the company has a legal or constructive obligation as a result of a prior event, and it is probable that future economic benefits will flow out of the company, and the value of the liabilities can be measured reliably.

On initial recognition, assets and liabilities are measured at cost. Measurement subsequent to initial recognition is affected as described below for each financial statement item. Anticipated risks and losses that arise before the time of presentation of the annual report and that confirm or invalidate affairs and conditions existing at the balance sheet date are considered at recognition and measurement.

Income is recognised in the income statement when earned, whereas costs are recognised by the amounts attributable to this financial year.

Foreign currency translation

On initial recognition, foreign currency transactions are translated applying the exchange rate at the transaction date. Receivables, payables and other monetary items denominated in foreign currencies that have not been settled at the balance sheet date are translated using the exchange rate at the balance sheet date.

Exchange differences that arise between the rate at the transaction date and the one in effect at the payment date or the rate at the balance sheet date are recognised in the income statement as financial income or financial expenses. Property, plant and equipment, intangible assets, inventories and other non-monetary assets that have been purchased in foreign currencies are translated using historical rates.

Income statement

Gross profit/loss

The company has decided to aggregate certain items of the income statement in accordance with the provisions of Section 32 of the Danish Financial Statements Act.

Gross profit or loss comprises revenue and other external expenses.

Revenue

Revenue is recognised net of VAT, duties and sales discounts and is measured at fair value of the consideration fixed.

Other external expenses include expenses for operation and administration.

Financial income

Financial income comprises interest income, including interest income on receivables from group enterprises, amortisation of financial assets, payables and transactions in foreign currencies, fair value adjustments of financial interests as well as tax relief under the Danish Tax Prepayment Scheme etc.

Accounting policies

Financial expenses

Financial expenses comprise interest expenses, including interest expenses on payables to group enterprises, amortisation of financial liabilities, payables and transactions in foreign currencies, fair value adjustments of financial interests as well as tax surcharge under the Danish Tax Prepayment Scheme etc.

Tax on profit for the year

Tax for the year, which consists of current tax for the year and changes in deferred tax, is recognised in the income statement by the portion attributable to the profit for the year and recognised directly in equity by the portion attributable to entries directly in equity.

The company is jointly taxed with all Danish group entities. The current Danish income tax is allocated among the jointly taxed entities proportionally to their taxable income (full allocation with a refund concerning tax losses).

Balance sheet

Inventories

The cost of work in progress and manufactured goods are the cost of raw materials, consumables, direct payroll, and direct and indirect production costs. Indirect production costs include indirect materials, wages and salaries as well as maintenance and depreciation of production machinery, buildings and equipment, factory administration and management, and capitalised product development costs.

Receivables

Receivables are measured at amortised cost, usually equalling nominal value, less writedowns for bad and doubtful debts.

Impairment of accounts receivables past due is established on individual assessment of receivables.

Other receivables

Other receivables comprise non-financial assets, which are measured at cost.

Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and in hand as well as short-term securities with a term of less than three months which can be converted directly into cash at bank and in hand and involve only an insignificant risk of value changes.

Deferred tax

Deferred tax is recognised on all temporary differences between the carrying amount and the tax-based value of assets and liabilities, for which the tax-based value is calculated based on the planned use of each asset or the planned settlement of each liability.

Deferred tax assets, including the tax base of tax loss carryforwards, are recognised in the balance sheet at their estimated realisable value, either as a set-off against deferred tax liabilities or as net tax assets within each legal entity.

Current tax liabilities

Current tax liabilities and current tax receivables are recognised in the balance sheet as calculated tax on the expected taxable income for the year, adjusted for tax on taxable income for previous years as well as for tax prepaid.

Liabilities

Other liabilities, comprising deposits, trade payables and other accounts payable, are measured at amortised cost, which usually corresponds to the nominal value.
