Management's Statement

The Executive Board has today considered and adopted the Annual Report of Implement Sverige Holding 14 ApS for the financial year 1 January - 31 December 2018.

The Annual Report is prepared in accordance with the Danish Financial Statements Act. The Company complies with the exemption provisions governing the omission to have its Financial Statements audited.

In my opinion the Financial Statements give a true and fair view of the financial position at 31 December 2018 of the Company and of the results of the Company operations for 2018.

I recommend that the Annual Report be adopted at the Annual General Meeting.

Hellerup, 24 April 2019

Executive Board

David Robert Williams
Executive Officer

The Annual General Meeting has decided that the Financial Statements for next year are not to be subject to any audit.

Practitioner's Statement on Compilation of Financial Statements

To the Management of Implement Sverige Holding 14 ApS

We have compiled the Financial Statements of Implement Sverige Holding 14 ApS for the financial year 1 January - 31 December 2018 on the basis of the Enterprise's accounting records and other information you have provided.

The Financial Statements comprise income statement, balance sheet and notes, including a summary of significant accounting policies.

Notes to the Financial Statements

3 Accounting Policies

The Annual Report of Implement Sverige Holding 14 ApS for 2018 has been prepared in accordance with the provisions of the Danish Financial Statements Act applying to enterprises of reporting class B.

The accounting policies applied remain unchanged from last year.

The Financial Statements for 2018 are presented in DKK.

Recognition and measurement

Revenues are recognised in the income statement as earned. Furthermore, value adjustments of financial assets and liabilities measured at fair value or amortised cost are recognised. Moreover, all expenses incurred to achieve the earnings for the year are recognised in the income statement, including depreciation, amortisation, impairment losses and provisions as well as reversals due to changed accounting estimates of amounts that have previously been recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits attributable to the asset will flow to the Company, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow out of the Company, and the value of the liability can be measured reliably.

Assets and liabilities are initially measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

Translation policies

Transactions in foreign currencies are translated at the exchange rates at the dates of transaction. Exchange differences arising due to differences between the transaction date rates and the rates at the dates of payment are recognised in financial income and expenses in the income statement. Where foreign exchange transactions are considered hedging of future cash flows, the value adjustments are recognised directly in equity.

Receivables, payables and other monetary items in foreign currencies that have not been settled at the balance sheet date are translated at the exchange rates at the balance sheet date. Any differences between the exchange rates at the balance sheet date and the rates at the time when the receivable or the debt arose are recognised in financial income and expenses in the income statement.

Income Statement

Other external expenses

Other external expenses comprise costs related to establishment of the company, administration, etc.

Notes to the Financial Statements

3 Accounting Policies (continued)

Gross profit/loss

With reference to section 32 of the Danish Financial Statements Act, gross profit/loss is calculated as a summary of other external expenses.

Tax on profit/loss for the year

Tax for the year consists of current tax for the year and changes in deferred tax for the year. The tax attributable to the profit for the year is recognised in the income statement, whereas the tax attributable to equity transactions is recognised directly in equity.

The Company is jointly taxed with wholly owned Danish and foreign subsidiaries. The tax effect of the joint taxation is allocated to enterprises in proportion to their taxable incomes.

Balance Sheet

Receivables

Receivables are measured in the balance sheet at the lower of amortised cost and net realisable value, which corresponds to nominal value less provisions for bad debts.

Financial debts

Debts are measured at amortised cost, substantially corresponding to nominal value.
