## Management's statement on the annual report

The Management have today discussed and approved the annual report of Saga VII Management Invest K/S for the financial year 1 October 2018 - 30 September 2019.

The annual report has been prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the partnership's financial position at 30 September 2019 and of the results of its operations for the financial year 1 October 2018 - 30 September 2019.

Furthermore, in our opinion, the Management's review includes a fair review of the developments in the partnership's activities and financial matters.

We recommend that the annual report be approved at the annual general meeting.

Copenhagen, 6 February 2020

# Independent auditor's report

## To the limited partners of Saga VII Management Invest K/S

### Opinion

We have audited the financial statements of Saga VII Management Invest K/S for the financial year 1 October 2018 – 30 September 2019, which comprise accounting policies, income statement, balance sheet and notes. The financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the financial position of the partnership at 30 September 2019, and of the results of the partnership's operations for the financial year 1 October 2018 – 30 September 2019, in accordance with the Danish Financial Statements Act.

### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Independence

We are independent of the partnership in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these rules and requirements.

### Management's responsibilities for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the partnership's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the partnership or to cease operations, or has no realistic alternative but to do so.

### Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit conducted in accordance with ISAs and additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.

## Independent auditor's report

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the partnership's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the partnership's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the partnership to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the financial statements, including the note disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### Statement on the Management's review

Management is responsible for the Management's review.

Our opinion on the financial statements does not cover the Management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statement Act.

Based on the work we have performed, we conclude that the Management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of the Management's review.

## Management's review

### Main activity of the partnership

Saga VII Management Invest K/S' (Saga VII Management Invest) purpose is to investment in Saga VII EUR K/S and Saga VII USD K/S.

### Performance in the financial year

The financial year resulted in a loss of EUR 28 thousand. The result is in line with management's expectations.

In the financial year an amount of EUR 205 thousand was paid-in by the limited partners, corresponding to 7.0% of the limited partners' committed capital. An amount of EUR 174 thousand was contributed to the portfolio funds during the financial year, corresponding to 5.6% of the commitments to the portfolio funds.

### Special risk

#### Financial risk

The objective of Saga VII Management Invest is to supply risk capital to the portfolio funds, and also to their investments in competitive companies in the European and North America small and mid market private equity. The highest factor of risk is therefore the changes in the value of the companies in which Saga VII Management Invest's portfolio funds invest in, which to a significant extent depend on the valuations of comparable listed companies on the quoted market. The valuation of investments in portfolio funds is based on estimates and could therefore be connected with some degree of uncertainty.

#### Interest rate risk

Saga VII Management Invest is less sensitive to the changes in interest rate levels.

#### Foreign exchange currency risk

Saga VII Management Invest's investments in portfolio funds have been made in EUR and USD. As the capital committed to Saga VII Management Invest is also in EUR and USD the currency risk is therefore considered as not material. Saga VII Management Invest does not hedge its exposure toward currency rate fluctuations.

### Investment Activity

Saga VII Management Invest is fully committed to Saga VII EUR and Saga VII USD.

The portfolio funds have performed as expected.

### Cash resources

Saga VII Management Invest's cash resources as of 30 September 2019, include cash and cash equivalents and outstanding commitments from the limited partners and are estimated as satisfactory to cover Saga VII Management Invest's liabilities.

## **Management's review**

### **Expectation for 2019/20**

Following a strong 2018, European companies experienced a significant reduction in earnings growth in 2019 amid increased macroeconomic and geopolitical uncertainty. The private equity market followed suit with a slowdown in investment and exit activity this year. Nevertheless, the private equity market remains active and robust, and returns are solid – especially compared to other asset classes. The expectation is that this will continue into 2020.

Due to the nature of a fund-of-fund a loss is expected in the beginning of the fund's lifetime mainly due to fund operating expenses on Saga VII Management Invest and portfolio funds level. The above-mentioned will affect the result for 2019/20 which is expected to be lower than the current year.

### **Events after the end of the accounting period**

There have been no events after the end of the financial year and to the signing of the annual report which are considered of significance to the annual report.

# Financial statement for the period 1 October – 30 September

## Accounting policies

The annual report of Saga VII Management Invest has been prepared in accordance with the Danish Financial Statements Act for a reporting class B entity with the adjustments following the legal form and operating activities of the partnership.

The accounting policies applied are consistent with those of last year.

The annual report has been prepared in the functional currency EUR.

## Income Statement

### Gains/losses on portfolio funds' investments etc.

Gains/losses on portfolio funds' investments include income from investments (dividend and interest), realised and unrealised revaluations or depreciations of investments in portfolio funds as well as realised and unrealised exchange rate profit margins and losses related to the investment in portfolio funds etc.

### Fund operating expenses

Fund operating expenses include cost incurred by the partnership.

### Financial income and expenses

Financial income and expenses include interest as well as exchange gains and losses related to accounts receivable and payable.

### Tax

The partnership is not independently liable to tax, and therefore no tax is charged to the profit and loss account.

## Balance sheet

### Investments assets

Investments in portfolio funds and co-investments are measured in accordance with the IPEV Valuation Guidelines or similar guidelines depending on the country of domicile of the portfolio funds, according to which investments are measured at fair value. Revaluations are included in the profit and loss account.

Investments in unlisted private equity funds are valued on the basis of the latest reporting received from the respective sub-funds. The reports from the funds contain a valuation of the private equity fund, including a valuation of each individual portfolio company. The value of a private equity fund consists of the sum of the values of the portfolio companies in which the fund has invested in, and the value of other net assets.

Outstanding investment commitments at the balance sheet date are disclosed as contingent liabilities in the notes.

### Other liabilities

Financial liabilities are recognised at the date of borrowing at the net proceeds received less transaction costs paid. In subsequent periods, the financial liabilities are measured at fair value.

Other payables include potential carried interest and fund operating expenses due. Liabilities are measured at net realised value.

# Financial statement for the period 1 October – 30 September

## Accounting policies

### Foreign currency translation

Transactions in foreign currency are translated into Euro (EUR) according to the currency exchange rate at the transaction date. Investments, accounts receivable and accounts payable in foreign currency are translated into Euro (EUR) according to the currency rate at the balance sheet date.

#### Investments in portfolio funds

The partnership has through investments in portfolio funds ownership of mainly unquoted investments. The partnership has no controlling or significant influence on the portfolio funds in which the partnership has invested.

The portfolio funds in which the partnership has invested all use common accepted guidelines for measuring the fair value. The measuring of the fair value of the investments in underlying portfolio companies are made by the managers of the portfolio funds.

Usually the partnership has no or very little information about specific methods and assumptions used by the managers of the portfolio funds when measuring the fair value of the underlying portfolio companies.

The manager's valuation committee will assess and if considered necessary adjust the valuation of the underlying portfolio companies. At the assessment of the fair value of the underlying portfolio companies reported by the managers, information about the market conditions, company specific information as well as information received through dialog with the managers of the portfolio funds are used.

The value of a private equity fund is measured as the fair value of each investment in portfolio companies owned by the fund with addition of other net assets in the fund. The valuation of a portfolio company in a private equity fund is based on the industry, market position and earnings capacity, and the (i) the peer group multiple, i.e. the market value of comparable listed companies, (ii) transaction multiple in recent M&A transactions involving comparable companies, (iii) value indications from potential buyers of the portfolio company, (iv) market value if the portfolio company

# Financial statement for the period 1 October – 30 September

## Notes

### 1 Investments in portfolio funds (continued)

is publicly traded or (v) future expected proceeds, if there is a concluded agreement on the sale of the portfolio company.

The partnership invests in buy-out funds. The investments made by the portfolio funds are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The three levels of the fair value hierarchy are described below:

Level 1 – Inputs based upon quoted priced for identical assets and liabilities in active markets.

Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active

Level 3 – Unobservable input

#### Fair market value measurements as of 30 September 2019

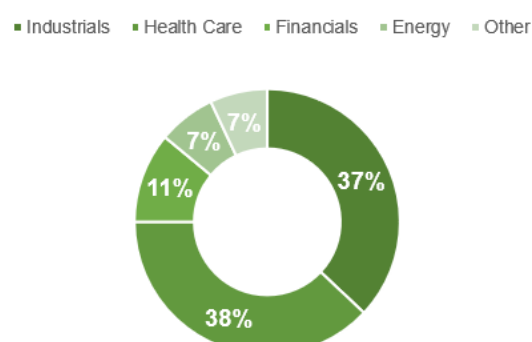

EUR 1,000	Quoted prices Level 1	Observable input Level 2	Unobservable input Level 3	Total
Investments in portfolio funds	0	0	155	155
Total	0	0	155	155

#### The investments divided by Currency and Geography, based on fair market value as of 30 September 2019:

Portfolio funds NAV by Currency

Unrealised FMV by Industry
