## Management's Statement

The Executive and Supervisory Boards have today considered and adopted the Annual Report of EPOS Group A/S for the financial year 1 January – 31 December 2023.

The Annual Report is prepared in accordance with the Danish Financial Statements Act.

In our opinion, the Financial Statements give a true and fair view of the financial position at 31 December 2023 of the Company and of the results of the Company operations for 2023.

We recommend that the Annual Report be adopted at the Annual General Meeting.

Ballerup, 17 May 2024

Chairman

# Independent Auditor's Report

To the Shareholder of EPOS Group A/S

## Opinion

In our opinion, the Financial Statements give a true and fair view of the financial position of the Company at 31 December 2023, and of the results of the Company's operations for the financial year 1 January - 31 December 2023 in accordance with the Danish Financial Statements Act.

We have audited the Financial Statements of EPOS Group A/S for the financial year 1 January - 31 December 2023, which comprise income statement, balance sheet, statement of changes in equity and notes, including a summary of significant accounting policies ("financial statements").

## Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the financial statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, in our view, Management's Review is in accordance with the Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement in Management's Review.

## Management's Responsibilities for the Financial Statements

Management is responsible for the preparation of Financial Statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## Management's review

### Main activity

The main activity of EPOS Group A/S is development, production, and sale of virtual collaboration technologies (headsets, speakerphones, and video) for business enterprises and headsets for digital gaming. The development of products is driven by EPOS Group A/S and is done in cooperation with other intra-group parties and external parties. EPOS Group A/S carries out production planning and introduction of new products in production whereas the physical production of units itself is outsourced to a third party. Our staff supports the selection of raw materials and supplies from a third party, thus affecting the choice of suppliers to such third party. All sales are made to subsidiaries and affiliates for resale to external customers.

### Development in activities and finances

The company was established in 2019 and from the very start we planned to invest significantly in research & development and marketing activities in order to build a relevant product portfolio and establish a brand.

Revenue in 2023 amounted to DKK 592,719 thousand, which is a decline of DKK 193,682 thousand compared with 2022 and DKK 273,651 thousand below the estimated figure. The decline is primarily due to weaker demand for Gaming products and subsequent winding down of the Gaming business and more uncertainty about global growth in general.

The result for the reporting period is a loss of DKK -368,374 thousand, which is a decrease of DKK 130,243 thousand compared with 2022 and a larger than estimated deficit of DKK 254,650 thousand. The growing deficit is primarily due to lower gross profit resulting from a reduction in sales and a decline in gross margin per unit sold. The adverse trend in gross margin relates to the selling of co-branded inventory which is not allowed to be sold after November 2023 and selling of Gaming inventory after the announcement of winding down this business area. Total capacity costs decreased by 18%. Overall, the result for 2023 is unsatisfactory mainly due to the above factors.

Inventories decreased by DKK 116,410 thousand (23%) in 2023. This reduction relates to the aggressive selling of co-branded inventory and the winding down of the Gaming business. In addition, a new setup with one main distribution center in China and two minor sub-distribution centers in Germany and the US as opposed to three equal-sized distribution centers in Hong Kong, Germany, and the US, has also helped us with the reduction of inventory levels.

Receivables from related parties decreased by DKK 42,286 thousand (31%) due to the decline in sales.

Trade payables decreased DKK 25,224 thousand (34%) due to a reduction in purchases compared with 2022 and payables to related parties increased from DKK 1,306,847 thousand in 2022 to DKK 1,527,764 million in 2023. This item mainly consists of debt payable to the parent company. The increase is caused by the negative result generated in the financial year.

### Equity

Equity is less than 50% of the share capital and the company is therefore subject to section 119 of the Danish Companies Act governing the loss of capital. The company expects to reestablish equity through own earnings within 5–6 years. For further details, reference is made to note 1.

### **Uncertainty in relation to recognition and measurement**

EPOS Group A/S has an investment in an associate, Solaborate Inc. This company develops video solutions for EPOS Group A/S' product portfolio and manufactures and sells communications equipment for hospitals. In 2021, we granted Solaborate Inc. a loan of app. DKK 65,000 thousand (USD 10,000 thousand).

Solaborate Inc. is a growth company in its start-up phase and consequently does not generate any profit, and there is uncertainty connected with measuring the investment and the loan. The investment was recognized at cost in 2020, and this has not been adjusted despite the negative financial results, as its management assesses the preconditions for the original valuation to be intact or even improved.

### **Financial risks**

As a result of its operations, its investments and its financing, the Group is part of a series of financial instruments, which have exposed the Group to fluctuations in exchange rates in particular, and interest levels. The parent company manages the corporate financial risks centrally and coordinates the Group's liquidity management, including the procurement of capital and the placement of excess liquidity.

### **Foreign exchange risks**

Activities carried out by the company are affected by exchange rate fluctuations, because revenues are primarily invoiced in foreign currencies and costs are mainly paid in foreign currencies, albeit not wages and salaries which are paid in Danish kroner.

81% of the company's revenues are generated in countries other than Denmark (2022: 78%) with the main emphasis on the USA, England, and the EU countries.

EPOS Group A/S does not carry out ongoing hedging of the estimated cash flows, but has an unsecured loan of USD 10 million, which partly counterbalance the company's debt in USD. The company's major trading currencies are USD, GBP, and EUR.

Based on the overall exchange positions on 31 December 2023, a rise of 10% in the rates of the USD and the GBP, respectively, would entail an exchange loss/gain before tax of DKK 19,000 thousand (loss) and DKK 10,000 thousand (gain), respectively, for recognition in the income statement. Due to the fixed exchange rate policy, there is no major uncertainty involved in the EUR.

### **Interest rate risks**

In 2023, the Group's interest-bearing net debt, computed as debt owed to related parties, increased from DKK 1,306,847 thousand to DKK 1,527,764 thousand. The interest-bearing debt is mainly in Danish kroner.

The company pays floating rates of interest on debts to related parties. Based on the net debt at year-end 2022, a rise of one percentage point in the general interest level will result in an increase in annual corporate interest expenses before tax of app. DKK 15 million. The Group does not hedge this interest risk as it is not thought to be financially significant.

### **Liquidity risks and going concern**

The parent company, Demant A/S (CVR no. 71 18 69 11), has provided a guarantee that it will vouch for EPOS Group A/S' existing liabilities and any liabilities arising in the period until 30 June 2025. Consequently, the company has submitted its annual report based on its continued operation as a going concern. Further reference is made to note 1 in the financial statements.

The estimated negative result for 2024 is expected to be financed through an increase in receivables and/or a loan from the parent company.

### **Knowledge resources**

Corporate knowledge resources are divided into four categories: Customers, processes and staff as well as research and development activities.

#### **Customers**

The aim of the Group is to create value for our customers by fulfilling their expectations through delivering products of high quality and observing delivery terms etc.

The indicators in respect of these goals are customer satisfaction and customer loyalty. These indicators are assessed currently and thought to be satisfactory for 2023.

#### **Processes**

The critical business processes are quality and service. To ensure that customers do get the agreed service and delivery, requirements are made as regards the documentation of individual methods and procedures.

To check that business processes work, the keeping of delivery times and the number of customer complaints are important indicators.

#### **Staff**

The Group aims to retain competent and qualified staff, as this is an important element in ensuring good customer experience. Initiatives are currently taken to ensure that the employee retention rate is high. The assessment is that we have satisfactorily succeeded in retaining staff in central positions.

### **Research and development activities**

The Demant Group took over and redefined the headset business in 2020. This business is based on research and development of headsets with synergies from the development of hearing instruments. Investments are still required for the build-up of this business, and this has resulted in negative results for the financial year, but on the longer term it is expected to be profitable through organic growth.

### **Future outlook**

The general uncertainty on the Group's major markets seem to continue in 2024. However, the effect from current product introductions (video and high-end Bluetooth products), a collaboration agreement with Lenovo and a more focused setup (winding down gaming) sales are expected to be grow moderately (5%-10%).

The company have already executed on cost reduction initiatives resulting in a decline in capacity costs of more than DKK 100 million. Full year effect from these initiatives together with a continuous costs constraint expects to reduce capacity costs with additional DKK 50 million in 2024. We still estimate a continued negative result of primary operations in 2024 and an overall negative result before tax at a level of between DKK -100 million and DKK -150 million.

## **Corporate social responsibility, targets in respect of gender equality and data ethics**

### *Sustainability*

Reference is made to Demant A/S' (CVR no. 71 18 69 11) report on corporate social responsibility in compliance with the Danish Financial Statements Act, section 99a(6).

<https://www.demant.com/reports-2023/sustainability-report-2023>

### *Gender diversity*

From 2023, EPOS Group A/S is covered by the Danish rules on the gender diversity in the management and must set a target figure and prepare a policy to increase the share of the underrepresented gender and report on this, ref. the Companies Act § 139 c and the Danish Financial Statements Act. § 99 b.

EPOS Group A/S has achieved an equal distribution on the board and is therefore only obliged to set targets and prepare a policy to increase the share of the underrepresented gender for the other management levels, ref. the Companies Act § 139 c and the Danish Financial Statements Act. § 99 b.

As part of the Demant Group, EPOS Group A/S policy for gender diversity in the other management levels has been drawn up on the principles of the Demant Group's 'Policy on Diversity, Equity and Inclusion' from 2021.

The purpose of the policy is to increase the share of the underrepresented gender thus EPOS Group A/S achieves an equal gender distribution for the other management levels, ref. the Companies Act § 139 c and the Danish Financial Statements Act. § 99 b.

In EPOS Group A/S, in 2023, through our policy to increase the share of the underrepresented gender in the other management levels, we have worked with our recruitment processes and to strengthen the retention of women and at the same time build a stronger gender-balanced candidate pool for management positions. We insist that candidate lists for top management positions include female candidates. We also continuously review and update our fundamental processes such as onboarding, performance management and employee development to ensure they support a stronger inclusive culture for all employees.

We believe that a focus on achieving a better gender balance in management teams, combined with a strong focus on building skills in inclusive leadership, will initiate a development and help create a culture that is even more inclusive and promotes all forms of diversity.

We are still working and have not yet reached our target number in 2023. We will continue the concrete work in 2024.

The table shows the gender composition of and target figures for EPOS Group A/S management.

Status	2023
Total number of members in the board:	3
Women	33% <sup>1</sup>
Men	66%
Total number of members in other management levels:	8
Women	25%
Men	75%
<u>Target for the share of underrepresented gender:</u>	
Target for the shared of underrepresented gender in other management levels:	30%
Year for achieving the goal:	2025

#### *Data ethics*

Reference is made to Demant A/S' (CVR no. 71 18 69 11) statement of data ethics in compliance with the Danish Financial Statements Act, section 99d(3).

<https://www.demant.com/reports-2023/data-ethics-policy>

#### **Events after the balance sheet date**

From the balance sheet date and until today, no new major events have occurred that may materially impact the financial statement.

<sup>1</sup> Fulfills an equal distribution, according to Erhvervsstyrelsens *Indicative overview of an equal gender distribution*.  
<https://erhvervsstyrelsen.dk/vejledning-maltal-og-politikker-den-konsmaessige-sammensaetning-af-ledelsen-og-afrapportering-herom>

## Key figures &amp; financial ratios

The company's development is seen in the key figures and financial ratios, as follows:  
(Amounts in tDKK (thousand))

	2023	2022	2021	2020	2019

---

**Note 1      Capital**

---

The company has lost more than half of its capital and are subject to section 119 of the Danish Companies Act governing rules relating to the loss of capital. The expectation is that the capital is re-established within 5-6 years by delivering positive results from the financial year 2025 and onwards.

The company has received a letter of support from its parent company, Demant A/S, CVR-no. 71 18 69 11, according to which Demant A/S guarantees to provide the capital required by the company to fund its operations, the execution of planned investments and the settlement of the company's financial liabilities as they fall due.

The letter of support is valid until 30 June 2025

	Recognition directly in equity	0	-52
	<b>31 December 2023</b>	<b>-12.081</b>	<b>-14.974</b>

**Deferred tax is recognised in the balance sheet as follows:**

	Deferred tax liabilities	-12.081	-14.974
		<b>-12.081</b>	<b>-14.974</b>

<b>Note 16</b>	<b>Other provisions</b>	<b>2023</b>	<b>2022</b>
	Provision, 1 January 2023	3.864	3.521
	Adjustment	-711	343
	<b>Cost, 31 December 2023</b>	<b>3.153</b>	<b>3.864</b>

Other provisions are provisions related to guarantees in respect of goods sold. There is uncertainty related to the time of settlement of such liabilities, but the typical period of the guarantee is 24 months.

**Note 17**      **Deferred income**

Deferred income recognised under liabilities consists of prepayments received regarding income in subsequent years, where the company has not yet accounted for the corresponding expense.

**Notes to the Annual report**  
(Amounts in 1.000 DKK)

---

**Note 18      Contingent liabilities**

---

The company is jointly taxed with William Demant A/S under Danish law, William Demant A/S being the administration company. Consequently, in accordance with the provisions of the Danish Corporation Tax Act, the company is liable for income taxes etc. for the jointly taxed companies and for any liabilities in respect of withholding tax on interest payments, royalties and dividends as regards the jointly taxed companies.

The company has a rent liability of DKK 29,172 thousands and car leasing commitments of DKK 1,121 thousands. Both amounts reflect the minimum leasing commitments until expiry of the contracts. The company has issued a payment guarantee of DKK 6,078 thousands to cover any liabilities in respect of the business lease agreements in Ballerup.

---

**Note 19      Related parties**

---

The name and address of the parent company preparing the consolidated financial statement for the largest group:

- William Demant Invest A/S (CVR-nr.: 27 76 12 91)
- Kongebakken 9, 2765 Smørum

The name and address of the parent company preparing the consolidated financial statement for the smallest group:

- Demant A/S (CVR-nr.: 71 18 69 11)
- Kongebakken 9, 2765 Smørum

EPOS Group A/S' related parties include William Demants og hustru Ida Emilies Fond (the William Demant Foundation), William Demant Invest A/S (CVR-no.: 27 76 12 91), Demant A/S (CVR-no.: 71 18 69 11) and their subsidiaries.

The company's related parties also include the board of directors, the executive board and leading staff members and the related family members of such parties. Related parties furthermore include entities in which the above persons have significant interests.

All transactions are made on an arm's length basis, and consequently no further information is provided in terms of amounts in compliance with the Financial Statements Act, section 98c (subsection 7).

## Accounting policies

### General

The Annual report for EPOS Group A/S are presented in accordance with the provisions of the Danish Financial Statements Act for class C (large) entities.

In accordance with section 86(4) of the Danish Financial Statements Act, no cash flow statement has been prepared; the company's cash flow being included in the cash flow statement of the Demant A/S consolidated financial statements.

In accordance with section 112(1) of the Danish Financial Statements Act, the company has not prepared any consolidated financial statements as these are included in the consolidated financial statements prepared by Demant A/S (CVR no. 71 18 69 11), Kongebakken 9, 2765 Smørum.

In accordance with section 96(3) of the Danish Financial Statements Act, there is no note as regards fee paid to the auditor elected by the general meeting as this fee is included in the consolidated financial statements prepared by Demant A/S.

The accounting policies are the same as in previous years. The financial statements are presented in Danish kroner.

### General information on recognition and measurement

Assets are recognised in the balance sheet, if, in all probability, future economic benefits will flow to the company, and the value of such assets can be measured reliably.

Liabilities are recognised in the balance sheet, if, as a result of a previous event, the company has a legal or actual obligation, and if, in all probability, future economic benefits will flow out of the company, and the value of such liabilities can be measured reliably.

On initial recognition, assets and liabilities are recognised at cost. Measurement after initial recognition is as described for each item below.

On recognition and measurement, account is taken of any predictable risks or losses occurring before the presentation of the annual report and which confirm or disprove matters existing on the balance sheet day.

In the income statement, income is recognised as it is earned, whereas costs are recognised with the amounts relating to the period under review.

#### *Business combinations and mergers*

Newly acquired entities are recognised in the financial statements from the date of acquisition.

On acquisition of subsidiaries and associates, the acquisition method is applied, upon which the assets and liabilities of the newly acquired entities are measured at fair value on the day of acquisition. Such valuations will take any tax effect into account.

Positive differences (goodwill) between the purchasing cost of the investment and the fair value of the acquired assets and liabilities will be recognised under intangible assets and written off

systematically via the income statement based on an individual estimation of their useful lives. If no useful life can be reliably estimated, it will be fixed at 10 years. Useful life is estimated annually.

#### *Foreign currency translation*

Receivables, payables and other monetary items in foreign currencies, which have not been settled on the balance sheet day, will be translated at the rates of exchange prevailing on the balance sheet day. Exchange rate differences arising between the rates on the transaction day and the rates on the day of payment or the balance sheet day, respectively, are recognised in the income statement as financial items.

### **Income statement**

#### *Net revenue*

Net revenue is recognised in the income statement once the essential benefits and risks have been transferred to the buyer, the income can be measured reliably, and payment can be expected to be received. Net revenue represents sales for the year less commissions, discounts and returns.

#### *Production costs*

Production costs are costs paid to generate net revenue. Costs are such items as raw materials, consumables, production staff and the amortisation, depreciation and impairment of the property, plant and equipment, intangible assets and inventories used in the production process. The production process is carried out by external suppliers.

#### *Research and development costs*

Research and development costs include all costs not fulfilling the criteria of capitalisation relating to research, development and prototype construction, development of new business concepts as well as depreciation and impairment on capitalised development costs.

#### *Distribution costs*

Distribution costs are costs used for staff training, customer support, sales, marketing, distribution and bad debts as well as depreciation and impairment losses on assets used for sale and distribution purposes.

#### *Administrative expenses*

Administrative expenses are expenses paid for the management and administration of the company, including costs of administrative staff and management as well as office expenses and depreciation and impairment losses.

#### *Net financials*

Net financials include interest income and expenses, realised and non-realised exchange gains or losses on transactions in foreign currencies and additional tax charges or tax refunds under the prepayment tax scheme.

#### *Tax*

Tax on the year's result, which includes current tax and any changes in deferred tax, is recognised in the income statement with the portion attributable to the result for the year and directly in equity with the portion attributable to entries directly in equity.

The company is jointly taxed with William Demant Invest A/S and the other subsidiaries of this company. The current corporation tax is divided between the jointly taxed entities in proportion to their taxable incomes.

## Balance sheet

### *Intangible assets*

On initial recognition, intangible assets are measured at cost.

### *Goodwill*

Goodwill is the positive difference between cost and fair value of acquired assets and liabilities in connection with acquisitions. Goodwill is amortised on a straight-line basis over the estimated useful life, which is determined on the basis of management experience. Useful life is estimated annually. The amortisation period applied is 20 years.

The amortisation profile of goodwill is estimated by assessing the time horizon of the benefits and synergies flowing to the company in connection with an acquisition.

The carrying amount is estimated annually for any indication of impairment.

In case of indication of impairment, an impairment test will be made of each asset or cash flow driver, respectively, and its recoverable amount calculated. Such goodwill will be written down to its recoverable amount, if this is lower than its carrying amount.

### *Software*

Software is measured at cost with the addition of any time and costs of putting the asset into service and with the deduction of accumulated amortisation and depreciation. Software is amortised over its estimated useful life, which is seven years.

Software is assessed annually to determine any indications of impairment. In case of indication of impairment, the recoverable amount of such asset is calculated. Software is written down to its recoverable amount, if this is lower than its carrying amount. Interest expenses are not included in cost.

### *Other intangible assets*

Other intangible assets include the company's client base and IP (Intellectual Property Rights) rights, both of which are recognised at cost with the deduction of accumulated amortisation expenses.

The amortisation basis is cost with the deduction of estimated scrap value at the end of its useful life. Amortisation is made on a straight-line basis based on an assessment of the estimated useful life of such asset.

Client bases	3 years
Intellectual property rights (IP)	7 years

Other intangible assets are assessed annually to determine any indications of impairment. In case of indications of impairment, the recoverable amount of such asset is calculated. Other intangible assets are written down to their recoverable amounts if these are lower than their carrying amounts.

### *Property, plant and equipment*

Property, plant and equipment as well as leasehold improvements are measured at cost with the deduction of accumulated depreciation and impairment costs. Cost is defined as the purchase amount, costs directly related to acquisition and any costs of any preparation required until such time as the particular asset is ready to be put into service. As regards property, plant and equipment in progress, cost consists of direct and indirect expenses in respect of raw materials and components.

The depreciation basis is cost with the deduction of estimated scrap value at the end of its useful life. Depreciation is made on a straight-line basis based on an assessment of the estimated useful life of such asset:

Other plant and equipment	3-5 years
Leasehold improvements	3-5 years

Plant, property and equipment are written down to their recoverable amounts, if these are lower than their carrying amounts.

### *Investments in subsidiaries and associates*

Investments in subsidiaries and associates are measured at cost. If the cost of such investment is higher than its recoverable amount, such asset is written down to such lower value.

### *Inventories*

Inventories are measured at cost according to the FIFO principle or their net realisable values if these are lower.

The cost of raw materials and finished goods is the purchase price with the addition of delivery costs and any other costs directly related to the purchase. Cost also includes expenses directly related to any production handled by third parties, including any third-party handling fees related to ongoing storage handling.

Net realisable values in respect of inventories are computed as estimated selling prices with the deduction of completion costs and costs relating to the execution of sale and are determined duly considering slowly marketable products, obsolete inventories, and trends in estimated selling price.

### *Receivables*

Receivables, including receivables from related parties and associates and any other receivables, are measured at amortized cost. Impairment is made to counter expected losses on the basis of an individual assessment of loss risks. Impairment for losses is calculated on the basis of an individual assessment of the individual receivables as well as for receivables from sales together with a general impairment. The general impairment is calculated based on an impairment matrix, where receivables are grouped based on credit risk and number of days overdue.

### *Prepaid expenses*

Prepaid expenses recognised under assets include costs relating to the following financial year.

### *Cash*

Cash includes deposits in the company's bank account.

### *Provisions*

Provisions include estimated costs in respect of guarantees. Provisions are recognised when, on the balance sheet day, the company has a legal or actual obligation due to a previous event, and it is likely that the payment of such obligation will involve the use of its financial resources.

Provisions are measured at their estimated net realisable values. If, in terms of time, such obligation is expected to mature at some distant point in the future, such obligation will be measured at its fair value.

### *Corporation tax and deferred tax*

Current tax payable or current tax receivable is recognised in the balance sheet as computed tax on the year's taxable income adjusted for tax of prior years' taxable incomes and any prepaid tax.

Using the balance-sheet liability method, deferred tax is measured of all temporary differences between the carrying amount and the tax value of assets and liabilities. Where the computation of the tax value may be made according to different rules of taxation, deferred tax is measured based on the use of such asset, as planned by management, or the settlement of such liability, respectively.

Deferred tax assets, including the tax value of any loss carry-forwards, are recognised at the value at which they will be used either as a set-off against tax on future earnings or as a set-off against deferred tax liabilities within the same legal tax unit and jurisdiction.

### *Liabilities*

Other liabilities, including trade payables, payables to related parties and any other liabilities, are measured at their net realisable values.

### *Deferred income*

Deferred income consists of prepayments received related to income in subsequent years.
