Statement by the General Partner on the annual report

The General Partner has today considered and approved the annual report of Copenhagen Infrastructure New Markets Fund I K/S for the financial year 19 December 2018 - 31 December 2019.

The annual report is presented in accordance with International Financial Reporting Standards as adopted by the EU and disclosure requirements of the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Limited Partnership's financial position at 31 December 2019 and of the results of its operations and the cash flows for the financial year 19 December 2018 - 31 December 2019.

We believe that the management commentary contains a fair review of the affairs and conditions referred to therein.

We recommend the annual report for adoption at the Annual General Meeting.

Copenhagen, 08.06.2020

On behalf of CI NMF I GP ApS

Christian Troels Skakkebæk

Jakob Baruël Poulsen

Independent auditor's report

To the shareholders of Copenhagen Infrastructure New Markets Fund I K/S

Opinion

We have audited the financial statements of Copenhagen Infrastructure New Markets Fund I K/S for the financial year 19.12.2018 - 31.12.2019, which comprise the statement of comprehensive income, balance sheet, statement of changes in equity, cash flow statement and notes, including a summary of significant accounting policies. The financial statements are prepared in accordance with International Financial Reporting Standards as adopted by the EU and additional requirements of the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Entity's financial position at 31.12.2019 and of the results of its operations for the financial year 19.12.2018 - 31.12.2019 in accordance with International Financial Reporting Standards as adopted by the EU and additional requirements of the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the *Auditor's responsibilities for the audit of the financial statements* section of this auditor's report. We are independent of the Entity in accordance with the International Ethics Standards Board of Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

General Partner's responsibilities for the financial statements

The General Partner is responsible for the preparation of financial statements that give a true and fair view in accordance with International Financial Reporting Standards as adopted by the EU and additional requirements of the Danish Financial Statements Act, and for such internal control as the General Partner determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the General Partner is responsible for assessing the Entity's ability to continue as a going concern, for disclosing, as applicable, matters related to going concern, and for using the going concern basis of accounting in preparing the financial statements unless the General Partner either intends to liquidate the Entity or to cease operations, or has no realistic alternative but to do so.

Independent auditor's report

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the General Partner.
- Conclude on the appropriateness of the General Partner's use of the going concern basis of accounting in preparing the financial statements, and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures in the notes, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Independent auditor's report

Statement on the management commentary

The General Partner is responsible for the management commentary.

Our opinion on the financial statements does not cover the management commentary, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the management commentary and, in doing so, consider whether the management commentary is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the management commentary provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the management commentary is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of the management commentary.

Ratios	
Liquidity ratio (%)	41.9

Primary activity

Copenhagen Infrastructure New Markets Fund I K/S was established in December 2018 and is managed by Copenhagen Infrastructure Partners P/S (CIP). The General Partner of Copenhagen Infrastructure New Markets Fund I K/S is CI NMF I GP ApS.

At Fund close on 18 November 2018, the Limited Partners had committed USD 1,023m to Copenhagen Infrastructure New Markets Fund I K/S for infrastructure investments in primarily Asia, South- and Latin America and Europe.

Investments

End of 2019, Copenhagen Infrastructure New Markets Fund I K/S acquired 50 % of TP4 (Biomass, PL) with a call option to acquire remaining 50%.

TP4 (Biomass, PL) is a 50MW biomass project in Poland currently under development.

Development in activities and finances

The origination and investment activities for Copenhagen Infrastructure New Markets Fund I K/S are progressing in accordance with expectations.

Management commentary (continued)

Uncertainty relating to recognition and measurement

Copenhagen Infrastructure New Markets Fund I K/S invests in infrastructure projects structured to provide stable cash flows, but where transferability and cash flows to a certain extent still may be affected by changes in market conditions. Consequently, the fair value of the investments is based on estimates and a number of assumptions made by the General Partner on the balance sheet date.

Information according to the Alternative Investment Fund Managers Directive

According to Article 22 of the Alternative Investment Fund Managers Directive, Alternative Investment Funds (AIF) must make certain disclosures to investors in connection with the presentation of financial statements.

During the financial period covered by the financial statements, there have been no significant changes in the matters below:

- The Fund's Investment strategy;
- Valuation principles of the Fund's investments;
- New arrangements for managing the Fund's liquidity;
- The Fund's risk profile and the risk management systems implemented by the Fund Manager used to manage the Fund's risks;
- There have been no amendments to the maximum level of leverage which the Fund Manager can use on behalf of the Fund. Nor has there been any changes in the right to use collateral or any guarantee accordance with the agreement allowing for the leverage.

Events after the balance sheet date

The outbreak and spread of coronavirus (COVID-19) in 2020 has among others resulted in financial market declines from the end of February until the adoption of the Annual Report. This may have an adverse influence on the Fund's fair value of investments and earnings expectations for 2020. Due to the general uncertainty that currently exists associated with assessing the future impact of COVID-19, there is considerable uncertainty associated with the assessment of the fair values of the investment assets, but there is currently no need for further impairment of the investment portfolio.

No other events have occurred after the balance sheet date to this date which would influence the evaluation of this annual report.

Outlook

In 2020 Copenhagen Infrastructure New Markets Fund I K/S will continue develop and expanding the invest portfolio. Expectations for the Limited Partnership are in general positive, but at the time of publication of the Annual Report, it is not possible to determine the scale of any adverse influence from the coronavirus.

Notes

1. Accounting policies

Reporting class

The financial statements are prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the EU and disclosure requirements of the Danish Financial Statements Act governing reporting class B enterprises.

Copenhagen Infrastructure New Markets Fund I K/S is a Limited Partnership based in Denmark.

This is the Fund's first financial year and comprise the period 19 December 2018 – 31 December 2019, and hence no comparative figures have been presented.

The Fund's investments are investments in portfolio companies and therefore not subject to IFRS 9. The Fund has no other material assets or liabilities subject to IFRS 9. Income of the Fund primarily consists of increases in the value of investments, and the Fund does not have any significant contracts subject to IFRS 15. The Fund has not entered into any significant leases falling within IFRS 16.

The financial statements are presented in U.S. dollar (USD), which is the functional currency of the Fund.

The financial statements are presented on the basis of historical cost, except for the investments and receivables from investments, which are measured at fair value. Historical cost is based on the fair value of the consideration given in exchange for assets.

Judgements made by the General Partner in the application of IFRSs that have had significant effects on the financial statements are disclosed, where applicable, in the relevant notes to the financial statements.

Defining materiality

If a line item is not individually material, it is aggregated with other items and notes of a similar nature in the financial statements or in the notes. There are substantial disclosure requirements throughout IFRS. The General Partner provides specific disclosures required by IFRS unless the information is considered immaterial to the economic decision-making of the users of these financial statements or not applicable.

The most significant accounting policies are set out overleaf.

Notes

1. Accounting policies (continued)

Report on the omission of preparation of consolidated financial statements

Copenhagen Infrastructure New Markets Fund I K/S has omitted to prepare consolidated financial statements under the provisions of IFRS 10 and IAS 27 as the Limited Partnership qualifies as an investment entity. The definition is as follows:

”An investment entity is defined as an entity which commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income, or both”.

In view of the circumstances described below, the General Partner believes that the Fund satisfies the definition of an investment entity:

- 1) The Fund’s purpose is to invest solely for returns from capital appreciation, investment income or both.
- 2) The Fund has more than one investor, and its investors are not related parties. Please refer to the description in note 13 of the financial statements.
- 3) The Fund’s investments take the form of equity instruments or similar investments, and the Fund can also exit the investment, if relevant.

Standards and Interpretations not yet in force

All of the new and amended Standards and Interpretations which are relevant to the Fund and which came into force with effect for financial years beginning 1 January 2019 have been applied when preparing the financial statements.

The General Partner further believes that other amended Standards and Interpretations, which have not entered into force, will not have any significant impact on the financial statements, and they will not be adopted early.

Significant accounting policies and estimates

As part of the preparation of the financial statements, the Fund Manager and the General Partner makes a number of accounting judgements which form the basis of presentation, recognition and measurement of the Fund’s assets and liabilities. The most significant accounting judgements are evident from note 2 to the financial statements.

Notes

1. Accounting policies (continued)

Recognition and measurement

Assets are recognised in the balance sheet when it is probable as a result of a prior event that future economic benefits will flow to the Fund, and the value of the asset can be measured reliably. Assets are derecognised in the balance sheet when it is no longer probable that future economic benefits will flow to the Fund.

Purchase and sale of financial assets and liabilities are recognised in the balance sheet at the commitment date.

Liabilities are recognised in the balance sheet when the Fund has a legal or constructive obligation as a result of an event before or on the balance sheet date, and it is probable that future economic benefits will flow out of the Fund, and the value of the liability can be measured reliably. Liabilities are derecognised in the balance sheet when it is no longer probable that economic benefits will have to be given up to settle the liability.

On initial recognition, assets and liabilities are measured at cost, however, investment assets are measured at fair value on initial recognition, typically equalling cost exclusive of directly incurred expenses (direct transaction costs). Measurement subsequent to initial recognition is effected as described below for each financial statement item. Allowance is made for events occurring from the balance sheet date to the date of presentation of the annual report, and which confirm or invalidate affairs and conditions existing at the balance sheet date.

Income is recognised in the statement of comprehensive income when earned, whereas costs are recognised by the amounts attributable to this financial year.

Foreign currency translation

Items included in the financial statements of the Fund are measured in the currency of the primary economic environment in which the Fund operates (the “functional currency”). The financial statements of the Fund are presented in the currency unit (USD, U.S. dollar), which is the Fund’s functional and presentation currency.

On initial recognition, foreign currency transactions are translated applying the exchange rate at the transaction date. Receivables, payables and other monetary items denominated in foreign currencies that have not been settled at the balance sheet date are translated using the exchange rate at the balance sheet date. Exchange differences that arise between the rate at the transaction date and the rate in effect at the payment date or the rate at the balance sheet date are recognised in the income statement as financial income or financial expenses.

Notes

1. Accounting policies (continued)

Statement of comprehensive income

Administrative expenses

All expenses are recognised in the statement of comprehensive income on the accrual basis.

Administrative expenses comprise expenses incurred during the financial year not directly related to the Fund's investment activities.

General due diligence costs and general administration etc including management fees have been expensed by the amounts attributable to this financial year, whereas certain development costs have been capitalised in order to increase the value of the equity investment or receivables from investment.

Financial income and expenses

Financial income and expenses comprise interest income and various expenses, and net exchange rate adjustments on transactions in foreign currencies.

Interest income and interest expenses are stated on an accruals basis using the principal interest rate.

Income taxes

Under current Danish law governing the Fund, it is not independently taxable because the Fund's profit/loss for the year is included in the Limited Partner's taxable income.

Balance sheet

Investment

Financial assets and liabilities are recognised at fair value through profit or loss when the Fund becomes party to the contractual provisions of the instrument. Recognition takes place on the trading day when the Fund purchases or sells an investment under a contract whose terms require delivery of the investment within the time frame established by the market.

On initial recognition, the investment is measured at fair value.

Financial assets and liabilities are derecognised when the contractual rights to the cash flows from the investment have expired or the Fund has transferred substantially all risks and rewards of ownership.

Investment consist of equity investments. Furthermore, investments consist of capitalised development costs, which increase the fair value of the investments. On initial recognition, the investment is measured at fair value, and subsequently measured at fair value with recognition of fair value adjustments through profit or loss.

Notes

1. Accounting policies (continued)

The fair value is calculated equivalent to an estimated fair value that is determined based on market information, IPEV Valuation Guidelines and generally accepted valuation techniques, including benchmarking, DCF or other relevant methods, which are considered to provide the best estimate of the fair value.

For further information about the measurement of fair values, please refer to note 12.

Other short-term receivables

Receivables are measured at amortised cost, usually equalling nominal value. The value is reduced by write-downs for expected losses based on generally accepted models under IFRS 9, including the Company's historical experience in credit losses etc.

Cash

Cash comprises cash in bank deposits.

Other financial liabilities

Other financial liabilities are measured at amortised cost, which usually corresponds to nominal value.

Cash flow statement

The cash flow statement of the Fund is presented using the indirect method and shows cash flows from operating, investing and financing activities as well as the Fund's cash equivalents at the beginning and the end of the financial year.

Cash flows from operating activities are calculated as the operating profit/loss adjusted for non-cash operating items and working capital changes.

Cash flows from investing activities comprise payments in connection with acquisition and divestment of investment.

Cash flows from financing activities comprise changes in the size or composition of the contributed capital and payment of distributions to the Limited Partners.

Cash comprises cash and short-term securities with an insignificant price risk less short-term bank loans.

Notes

1. Accounting policies (continued)

Financial highlights

Financial highlights are defined and calculated in accordance with “Recommendations & Ratios” issued by the Danish Society of Financial Analysts.

Ratios	=	Calculation formula	Ratios reflect
Liquidity ratio (%)		$\frac{\text{Current assets} \times 100}{\text{Current liabilities other than provisions}}$	The entity's financial strength.

2. Significant accounting estimates, assumptions and uncertainties

The Fund develops and invests in infrastructure assets (unlisted equity investments and receivables), the market price of which depends both on entity-specific affairs and market conditions, including power prices, commodity prices, exchange rates and construction risk within the different investments. Furthermore, the valuation and hence fair value of the long-term receivables are affected by changes in the risk-free interest rate and the general cost of risk in the market. As a result, income from investments, including the unrealised value adjustments, accrued interest and the fair value of investments are subject to estimation and uncertainty. For further information about the financial risks related to the investments, please refer to note 11.

This uncertainty may be higher during periods of high volatility in the financial markets, and economic trends affect earnings of the underlying companies as well. Furthermore, the uncertainty is affected by the construction risk within the different investments, and also the uncertainty related to the construction of the projects taking place within relevant time frames or milestones.

The methods applied and the assumptions underlying the determination of the fair value in unlisted equity investments and receivables are described in note 12 to the financial statements.

3. Administrative expenses

The Fund has no employees.

Administrative expenses include management fee for the period to Copenhagen Infrastructure Partners P/S, in accordance with the Limited Partnership Agreement and management agreement. For further information about management fee, please refer to note 13.

According to Article 107 of the AIFM Directive, alternative investment funds must disclose information about the total remuneration of the entire staff of the Fund Manager and the number of beneficiaries. Furthermore, remuneration to material risk-takers must be disclosed. For information about remuneration, please refer to the annual report of the Fund Manager.

Notes

3. Administrative expenses (continued)

The Fund Manager must also disclose the information necessary to provide an understanding of the risk profile of the Fund and the measures that the Fund Manager takes to avoid or manage conflicts of interest between the Fund Manager and the Limited Partners. The Board of Directors has adopted a remuneration policy in order to ensure that the employees and Management are remunerated according to the Danish Executive Order on remuneration policy and disclosure requirements on remuneration for managers of alternative investment funds, etc.

The remuneration policy ensures, among other matters, that the following is applied in relation to remuneration at the Fund Manager:

- Promoting of sound and effective risk management, which does not encourage excessive risk-taking.
- Consistency with the principles regarding the protection of the Limited Partners and measures in order to avoid conflicts of interest.

The Fund Manager (Copenhagen Infrastructure Partners P/S) serves as fund manager for Copenhagen Infrastructure New Markets Fund I K/S, Copenhagen Infrastructure III K/S, CI III Dutch AIV K/S, CI III US AIV Non-QFPF Blocker K/S, CI III US AIV QFPF K/S and Green Holly K/S.

In accordance with section 61 (5 and 6) of the Alternative Investment Fund Managers etc. Act, information regarding salaries paid to employees of the investment manager is disclosed in the Annual Report for 2019 for Copenhagen Infrastructure Partners P/S, Business Reg. No. 37 99 40 06.

No carried interest is paid out by the AIF during the financial period.

CI NMF I COOPERATIEF	UA	Netherlands	100

Consistently with the accounting policies, the Fund regularly adjusts the value of the investments to the best estimate of fair value. This means that the proportionate share of operating profit or loss for the Company is not recognised in profit or loss of the Fund but rather a fair value adjustment of the investment.

The methods applied by the Fund to measure investment are evident from note 12 to the financial statements.

In accordance with the requirements of IFRS 12, certain disclosures must be provided for an investment company's non-consolidated subsidiaries, and the following information is deemed relevant in this respect:

The Fund's investment is not classified as an investment entity under IFRS 10 because it is engaged in developing or owning infrastructure projects. There are no restrictions on the Fund's right to receive dividend from or have loans etc repaid by the investment, except that distributions from current operating activities of the equity investment must be made allowing for debt servicing by such companies. The Fund has not provided its investment with financial support during the financial year outside the contractual basis.

Notes

7. Limited Partnership capital

The Limited Partnership capital has not been divided into classes.

2018/2019
USD'000

8. Other payables

Other payables	1,392
----------------	-------

The carrying amount of payables relates to investments, legal fees, auditor's fees, travel costs etc. The amount recognised is equal to the fair value of the liabilities.

Other payables fall due for payment within 12 months.

9. Working capital changes

Change in receivables	(1,278)
Change in payables	1,392
	114

10. Financial instruments

Categories of financial instruments:

Investment	1,264
Financial assets measured at fair value through profit or loss	1,264

Other payables	1,392
Financial liabilities measured at amortised cost	1,392

All financial liabilities are due for payment within 12 months.

Notes

11. Financial risk management

The General Partner is ultimately responsible for the overall risk management within the Fund, but has delegated the responsibility to the Fund Manager.

The Fund pursues an investment strategy approved by the Limited Partners and invests in infrastructure projects.

The Fund's risk management processes include identification, measurement, monitoring, reporting and mitigation of the identified risks to minimise the potential negative effects at fund level.

Key financial risk factors and exposure regarding the financial statements for 2018/2019 can be categorised as follows:

Financial risk factors

Liquidity risks

	Less than 1 year USD'000	Between 1 and 5 years USD'000	After 5 years USD'000	Total USD'000
Other payables	<u>1,392</u>	<u>0</u>	<u>0</u>	<u>1,392</u>
31.12.2019	<u>1,392</u>	<u>0</u>	<u>0</u>	<u>1,392</u>

The liquidity risk is considered insignificant. No indication of the Limited Partners inability to contribute the remaining fund commitment exists.

Credit risks

The Fund is not exposed to any credit risk from non-performing receivables.

The maximum credit risk related to receivables equals the carrying amount. There is no indication of non-performing receivables at the balance sheet date.

Likewise there is no impairment of receivables e.g. at the balance sheet date as it is assessed that the debtors will fulfil the individual facility agreements.

The Fund is not exposed to any significant credit risk from a single counterparty at 31 December 2019.

Notes

11. Financial risk management (continued)

Interest rate risk

The Fund has only a temporary credit facility at the balance sheet date, and therefore no interest rate risk is related to the liabilities.

Currency risk

The Fund is denominated in USD. A majority of cash flows take place in USD, however management fee is paid in DKK at a fixed rate. Consequently, the Limited Partners are not exposed to currency risk through the Fund. No hedging is made at fund level.

12. Financial instruments measured at fair value

The fair value of the investment is measured on a quarterly basis, or more frequently if significant changes occur.

The Fund Manager has implemented procedures and methodology to ensure that the valuation is carried out consistently over time.

Methods applied in and assumptions underlying the determination of fair values of investments

The fair value of the investment has been estimated by applying methods that best reflect the risks, and the stage of the investment, e.g. assumptions related to power prices, inflation rates, technical availability and discount rate.

In general, the fair value is determined in accordance with IPEV Valuation Guidelines and generally accepted valuation techniques, including DCF models, benchmarking or other relevant method. However, for projects which are before financial close, cost, including capitalised development costs, is considered the best estimate for fair value.

Fair value hierarchy for financial instruments measured at fair value in the balance sheet

Below, financial instruments measured at fair value are classified using the fair value hierarchy:

- Quoted prices in active markets for identical instruments (Level 1)
- Quoted prices in active markets for similar assets or liabilities or other valuation methods under which all material inputs are based on observable market data (Level 2)
- Valuation techniques under which any material inputs are not based on observable market data (Level 3)

Notes

12. Financial instruments measured at fair value (continued)

It is the Fund's policy to incorporate the classification of financial assets (changes/transfers between Levels 1 and 3) in the financial statements if their classification changes during the financial year. There have not been any transfers between the levels during the financial year and all investments are classified as Level 3 investments.

Material unobservable inputs for Level 3

Financial instruments measured at fair value in the balance sheet are based on valuation techniques that include material unobservable input. Material unobservable inputs mean in this context that the valuation is dependent on a return requirement that contains a number of components that cannot be observed on trading markets, for example project-specific risks and illiquidity prices.

2019	<u>Level 1</u> <u>USD'000</u>	<u>Level 2</u> <u>USD'000</u>	<u>Level 3</u> <u>USD'000</u>	<u>Total</u> <u>USD'000</u>
Unlisted shares, investment	0	0	1,264	1,264
Financial assets measured at fair value through profit or loss	0	0	1,264	1,264

Sensitivity analysis

The fair value of the Fund's investment is affected by developments in the applied discount rate and future earnings expectations for this investment. A decline or increase in the material unobservable inputs stated above and changes in macroeconomic conditions might have a direct effect on the valuation of the investment. As a result of the investment currently being under early development, no discount rate range is disclosed and no sensitivity analyses has been made.

Please refer to note 6 for a specification of fair value investments.

Notes

13. Related parties

Related parties with a controlling interest

The Limited Partnership has no investors or related parties with a controlling interest.

2018/2019
USD'000

14. Contingent liabilities

There are no guarantees or contingent liabilities of the Company.

15. Investors

The Limited Partnership has registered the following Limited Partner as holding more than 5% of the voting rights or nominal value of the contributed capital:

Pensiondanmark Pensionsforsikringsaktieselskab, Langelinie Allé 43, 2100 København Ø

Arbejdsmarkedets Tillægspension, Kongens Vænge 8, 3400 Hillerød

Kommunal Landspensjonskasse Gjensidig Forsikringsselskap, Dronning Eufemias gate 10, 0191 Oslo

Lægernes Pension, Dirch Passers Allé 76, 2000 Frederiksberg

INFRASTRUKTUR-UI-Fonds FCP-FIS, 15 rue de Flaxweiler, L-6776 Grevenmacher

16. Events after the balance sheet date

The outbreak and spread of coronavirus (COVID-19) in 2020 has among others resulted in financial market declines from the end of February until the adoption of the Annual Report. This may have an adverse influence on the Fund's fair value of investments and earnings expectations for 2020. Due to the general uncertainty that currently exists associated with assessing the future impact of COVID-19, there is considerable uncertainty associated with the assessment of the fair values of the investment assets, but there is currently no need for further impairment of the investment portfolio.

Notes

16. Events after the balance sheet date (continued)

No other events have occurred after the balance sheet date to this date which would influence the evaluation of this annual report.

17. Authorisation of the annual report for issue

At the meeting held on 8 June 2020 the General Partner authorised this annual report for issue on 29/6-2020

The annual report will be submitted to the Limited Partnership's Limited Partner for adoption at the Annual General Meeting on 29/6-2020
