Ledelsesberetning

Essential activities

The business plan for Binecto was a service, where I was trying to provide intermediary services between Danish companies and Polish suppliers. The process was planned to start on our website binecto.com where the Danish companies were able to fill out a request form about in theory any goods they require for their company. From that point I was contacting suppliers from that business area in Poland and provide the Danish company with quotes for requested goods.

Development in activities and economic conditions

I haven't been able to find any customers. Thus, the financials are only the expenses that occurred during the few months of company existence.

Ledelsen anser betingelserne for at udelade revision for opfyldt.
