## Sønderjyllands Revision

### **Management's statement**

---

Today, the executive board has presented the annual report of Stoddard ApS for the financial year 1 September 2022 - 31 August 2023.

The annual report has been presented in accordance with the Danish Financial Statements Act.

We consider the accounting policies appropriate and, in our opinion, the financial statements provide a fair presentation of the company's assets, equity and liabilities, and financial position at 31 August 2023 and of the company's results of activities in the financial year 1 September 2022 – 31 August 2023.

We are of the opinion that the management commentary presents a fair account of the issues dealt with.

We recommend that the annual report be approved at the Annual General Meeting.

Aarhus C, 28 February 2024

**Executive board**

Michael John Stoddard

René Lundgaard Madsen

## **Independent auditor's report**

---

### **To the Shareholder of Stoddard ApS**

#### **Opinion**

We have audited the financial statements of Stoddard ApS for the financial year 1 September 2022 - 31 August 2023, which comprise a summary of significant accounting policies, income statement, balance sheet and notes, for the Company. The financial statements are prepared under the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the financial position of the Company at 31 August 2023, and of the results of the Company's operations for the financial year 1 September 2022 - 31 August 2023 in accordance with the Danish Financial Statements Act.

#### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Management's Responsibilities for the Financial Statements**

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

#### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

## **Independent auditor's report**

---

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### **Statement on Management's Review**

Management is responsible for Management's Review.

Our opinion on the financial statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

## **Independent auditor's report**

---

In connection with our audit of the financial statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

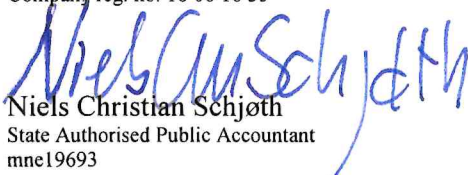

Based on the work we have performed, we conclude that Management's Review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statement Act. We did not identify any material misstatement of Management's Review.

<b>Parent company</b>	Stoddard Manufacturing Company Limited

## **Management's review**

---

### **Description of key activities of the company**

The principal activities of the company are sales- and agent business in the dental industry.

### **Development in activities and financial matters**

The gross profit for the year totals DKK 459.834 against t.DKK 754 last year. The results from ordinary activities after tax are DKK 217.826 against t.DKK 48 last year.

Due to the company's negative equity, DKK -4.906, the company has lost more than half of the registered capital. In terms of the Danish Companies Act § 119, the management must consider the current financial situation and decide on necessary measures to restore the financial situation.

It's the management's opinion that the company will restore its financial situation through future earnings. The management sees no risk in terms of going concern based on the defined objectives and primarily tasks of the company. The company is providing representative services for the parent company, Stoddard Manufacturing Company Ltd., and all costs and obligations of Stoddard ApS will be met by earning 20% commission all reselling of goods supplied by the parent company.

As a consequence of BREXIT the company's business conditions are changed. Together with an UK based logistic company, Stoddard Manufacturing Company Ltd., the company has developed a solution, which allows business with EU-based customers to continue post BREXIT. The management is confident, that with the steps taken, BREXIT, with the agreement, will have none or almost none negative impact on the capability to continue growth and hence to ensure the stability of Stoddard ApS. As a result the activities are extended. The company resells goods delivered from the parent company, Stoddard Manufacturing Company Ltd., because many customers know the challenges of adapting to BREXIT.

If temporary challenges should have an impact on Stoddard ApS' capabilities to generate earnings, the parent company will secure the going concern of Stoddard ApS by adding necessary funds to the company.

## **Accounting policies**

---

The annual report for Stoddard ApS has been presented in accordance with the Danish Financial Statements Act regulations concerning reporting class B enterprises.

The accounting policies are unchanged from last year, and the annual report is presented in DKK.

### **Recognition and measurement in general**

Income is recognised in the profit and loss account concurrently with its realisation, including the recognition of value adjustments of financial assets and liabilities. Likewise, all costs, these including depreciation, amortisation, writedown, provisions, and reversals which are due to changes in estimated amounts previously recognised in the profit and loss account are recognised in the profit and loss account.

Assets are recognised in the balance sheet when the company is liable to achieve future, financial benefits and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when the company is liable to lose future, financial benefits and the value of the liability can be measured reliably.

At the first recognition, assets and liabilities are measured at cost. Later, assets and liabilities are measured as described below for each individual accounting item.

At recognition and measurement, such predictable losses and risks are taken into consideration, which may appear before the annual report is presented, and which concern matters existing on the balance sheet date.

### **Foreign currency translation**

Transactions in foreign currency are translated by using the exchange rate prevailing at the date of the transaction. Differences in the rate of exchange arising between the rate at the date of transaction and the rate at the date of payment are recognised in the profit and loss account as an item under net financials. If currency positions are considered to hedge future cash flows, the value adjustments are recognised directly in equity in a fair value reserve.

Receivables, payables, and other foreign currency monetary items are translated using the closing rate. The difference between the closing rate and the rate at the time of the occurrence or initial recognition in the latest financial statements of the receivable or payable is recognised in the income statement under financial income and expenses.

Fixed assets acquired and paid for in foreign currency are measured at the exchange rate prevailing at the date of the transaction.

## **Accounting policies**

---

### Income statement

#### **Gross profit**

Gross profit comprises the revenue, changes in inventories of finished goods, and work in progress, own work capitalised, other operating income, and external costs.

Revenue comprises the value of services provided during the year, including outlay for customers less VAT and price concessions directly associated with the sale.

Revenue is recognised in the income statement on the completion of sales. This is generally considered to be the case when:

- The service has been provided before the end of the financial year
- A binding sales agreement exists
- The sales price has been determined
- Payment has been received, or is anticipated with a reasonable degree of certainty.

This ensures that recognition does not take place until the total income and costs and stage of completion at the reporting date can be reliably validated and it seems probable that the economic benefits, including payments, will flow to the enterprise.

Cost of sales include costs for the purchase of raw materials and consumables less discounts and changes in inventories.

Other external costs comprise costs for distribution, sales, advertisement, administration, premises, loss on debtors, and operational leasing costs.

#### **Staff costs**

Staff costs include salaries and wages, including holiday allowances, pensions, and other social security costs, etc., for staff members.

#### **Other operating costs**

Other operating costs comprise accounting items of secondary nature in proportion to the principal activities of the enterprise, including losses on disposal of intangible and tangible fixed assets.

#### **Financial income and expenses**

Financial income and expenses are recognised in the income statement with the amounts concerning the financial year. Financial income and expenses comprise interest income and expenses, financial expenses from financial leasing, realised and unrealised capital gains and losses relating to securities, debt and transactions in foreign currency, amortisation of financial assets and liabilities as well as surcharges and reimbursements under the advance tax scheme, etc.

## **Accounting policies**

---

### **Tax of the results for the year**

The tax for the year comprises the current tax for the year and the changes in deferred tax, and it is recognised in the profit and loss account with the share referring to the results for the year and directly in the equity with the share referring to entries directly on the equity.

### **The balance sheet**

#### **Financial fixed assets**

##### **Deposits**

Deposits are measured at amortised cost and represent rent deposits, etc.

##### **Receivables**

Receivables are measured at amortised cost, which usually corresponds to nominal value.

Impairment losses are calculated as the difference between the carrying amount of accounts receivable and the present value of the expected cash flows, including the realisable value of any securities received. The effective interest rate for the individual account receivable or portfolio is used as the discount rate.

##### **Accrued income and deferred expenses**

Accrued income and deferred expenses recognised under assets comprise incurred costs concerning the next financial year.

##### **Available funds**

Available funds comprise cash at bank and in hand.

##### **Income tax and deferred tax**

Current tax liabilities and current tax receivable are recognised in the statement of financial position as calculated tax on the taxable income for the year, adjusted for tax of previous years' taxable income and for tax paid on account.

Deferred tax is measured on the basis of temporary differences in assets and liabilities with a focus on the statement of financial position. Deferred tax is measured at net realisable value.

Deferred tax is measured based on the tax rules and tax rates applying under the legislation prevailing in the respective countries on the reporting date when the deferred tax is expected to be released as current tax. Changes in deferred tax due to changed tax rates are recognised in the income statement, except for items included directly in the equity.

## **Accounting policies**

---

Deferred tax assets, including the tax value of tax losses allowed for carryforward, are recognised at the value at which they are expected to be realisable, either by settlement against tax of future earnings or by set-off in deferred tax liabilities within the same legal tax unit. Any deferred net tax assets are measured at net realisable value.

### **Liabilities other than provisions**

Other liabilities are measured at amortised cost which usually corresponds to the nominal value.
