Statement by Management

The Executive Board has today considered and approved the annual report of Heartcore Capital Progression Fund Beta K/S for the financial year 01.01.2023 - 31.12.2023.

The annual report is presented in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Entity's financial position at 31.12.2023 and of the results of its operations for the financial year 01.01.2023 - 31.12.2023.

We believe that the management commentary contains a fair review of the affairs and conditions referred to therein.

We recommend the annual report for adoption at the Annual General Meeting.

Copenhagen, 25.01.2024

Executive Board

Jimmy Fussing Nielsen

Christian Lindegaard Jepsen

Independent auditor's report

To the shareholders of Heartcore Capital Progression Fund Beta K/S

Opinion

We have audited the financial statements of Heartcore Capital Progression Fund Beta K/S for the financial year 01.01.2023 - 31.12.2023, which comprise the income statement, balance sheet, statement of changes in equity and notes, including a summary of significant accounting policies. The financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Entity's financial position at 31.12.2023 and of the results of its operations for the financial year 01.01.2023 - 31.12.2023 in accordance with the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the financial statements" section of this auditor's report. We are independent of the Entity in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's responsibilities for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Entity's ability to continue as a going concern, for disclosing, as applicable, matters related to going concern, and for using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Entity or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements, and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures in the notes, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on the management commentary

Management is responsible for the management commentary.

Our opinion on the financial statements does not cover the management commentary, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the management commentary and, in doing so, consider whether the management commentary is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the management commentary provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the management commentary is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of the management commentary.

Management commentary

Primary activities

Heartcore Capital Progression Fund Beta K/S invests in technology companies mainly located in Europe. A team of investment professionals is responsible for the investment management.

Development in activities and finances

The Fund was established on 6 July 2020 and holds 8 active portfolio enterprises by the end of 2023.

The result for the year show a loss of DKK 6,010 thousand, primarily related to fair value losses from the investments in portfolio enterprises.

Future results of Heartcore Capital Progression Fund Beta K/S are dependent on the development in the value of the Fund's investment in portfolio enterprises.

Development in selected portfolio enterprises

The descriptions below do not include all portfolio enterprises within the Fund, but only a select few considered the most important to highlight.

Finn GmbH: German company located in Munich, offers a car subscription (full service, mid-term lease period) for the German market. The company progressed very well during the year and raised a EUR 70 million round led by Planet First Partners with participation of existing investors.

HeyJobs GmbH: Located in Berlin, Germany, the company provides a mobile marketplace for retail and hospitality jobs. The company had a good year despite the German economy.

La Fourche SAS: French company located in Paris, is an online grocery that sells organic grocery products at a discount to its community of members. La Fourche had a strong year and closed an internal funding round to keep the growth trajectory.

Orbital Express Launch Ltd (Orbex): Located in Denmark and London, UK, is a European micro-launcher company developing orbital rockets targeting the launch of small, micro and nano-satellites. The company had a good year and progressed well in their development.

Podimo ApS: Located in Copenhagen, Denmark, is a consumer podcast platform offering a combination of free, licensed and original podcast content. The company had a good year and raised EUR 30 million from existing investors plus EUR 13 million from EIFO.

Taster Ltd.: Located in London, UK, Taster is a next generation fast food franchise. They create virtual restaurants brands and license them to a network of franchise partners who operate them on delivery platforms. The company had a record revenue growth year and raised EUR 5 million from existing investors.

Zolar GmbH: German company located in Berlin, is an online and direct to consumer provider of solar installations for single and multi-family houses. The company had a record year despite the German economy.

Uncertainty relating to recognition and measurement

When preparing the Fund's annual report, the General Partner, in accordance with legislative provisions, makes accounting judgements and estimates forming the basis of the annual report.

These accounting judgement and estimates are described in note 2 "Critical accounting judgements, estimates, assumptions and uncertainties" to which we refer. The estimates are primarily related to the measurement of investments in portfolio enterprises made based on assumptions which the General Partner consider reasonable and realistic, but uncertain by nature.

For the current year, the General Partner has among others also considered the effects of current macroeconomic conditions, such as development during 2023 in interest rates, stock markets and the effect of the wars between Ukraine and Russia, and Hamas and Israel has been reflected upon.

The Fund itself has not been affected by the above factors. However, they have affected - both positively and negatively - the operations of many of the Fund's portfolio enterprises, which have been regarded in resolving the fair value of investments in portfolio enterprises.

As the Fund invests in unlisted equity investments within the venture environment, the valuation may be uncertain because of the industry and current macroeconomic conditions. The valuation also depends on execution of strategy by the individual companies; furthermore, in times of high economic uncertainty, valuation will also be more precarious.

Unusual circumstances affecting recognition and measurement

Except for the fair value changes on investments, the financial statements are not influenced by unusual circumstances.

Outlook

Forthcoming results of Heartcore Capital Progression Fund Beta K/S depend on the development in the value of the Fund's investment in portfolio enterprises. Due to the Funds nature, no range for future results can be estimated.

Periodic disclosure for Article 6 financial product

The investment underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Statutory report on foundation governance

Information according to the Alternative Investment Fund Managers Directive

According to Article 22 of the Alternative Investment Fund Managers Directive, Alternative Investment Funds (AIF) must make certain disclosures to investors in connection with the presentation of financial statements. During the financial period covered by the financial statements, there have been no significant changes in the matters below:

- The Fund's Investment strategy;
- Valuation principles of the Fund's investments;
- New arrangements for managing the Fund's liquidity;
- The Fund's risk profile and the risk management systems implemented by the Fund Manager used to manage the Fund's risks;
- There have been no amendments to the maximum level of leverage which the Fund Manager can use on behalf of the Fund. Nor has there been any changes in the right to use collateral or any guarantee in accordance with the agreement allowing for the leverage.

Events after the balance sheet date

No events have occurred after the balance sheet date to this date, which would influence the evaluation of this annual report.

Statement of changes in equity for 2023

	Contributed capital DKK'000	Retained earnings DKK'000	Total DKK'000
Equity beginning of year	234,543	(11,952)	222,591
Increase of capital	25,968	0	25,968
Profit/loss for the year	0	(6,010)	(6,010)
Equity end of year	260,511	(17,962)	242,549

The Partners have committed themselves to contributing up to DKK 282,051 thousand into the Fund, as and when new capital is required for making investments, paying fund costs etc. Of the total committed capital, the Partners have paid-in net DKK 260,511 thousand, and the remaining contribution balance is DKK 21,540 thousand. Distributions to Partners comprise return of capital and realized gains.

1 Other operating expenses

The Fund had no employees during the financial year.

Administrative and Investment work is performed by Heartcore Capital A/S.

Administrative expenses cover management fee to Heartcore Capital A/S of DKK 2,799 thousand (2022: DKK 1,720 thousand) and management fee to General Partner of DKK 50 thousand (2022: DKK 50 thousand).

According to Article 22 of the AIFM Directive, alternative investment funds must disclose information about the total remuneration of the entire staff of the Fund Manager, including paid-out carried interest. Furthermore, remuneration to material risk-takers must be disclosed. For information about remuneration, please refer to www.heartcore.com.

According to the requirements in Article 22 in the AIFM Directive, further information about remuneration and realised carried interest can be received upon request from the Limited Partners of the respective funds.

The Fund Manager must also disclose the information necessary to provide an understanding of the risk profile of the Fund and the measures that the Fund Manager takes to avoid or manage conflicts of interest between the Fund Manager and the Limited Partners.

The Board of Directors has adopted a remuneration policy in order to ensure that the employees and Management are remunerated according to the Danish Executive Order on remuneration policy and dis-closure requirements on remuneration for managers of alternative investment funds, etc. The remuneration policy ensures, among other matters, that the following is applied in relation to remuneration at the Fund Manager: Promoting of sound and effective risk management, which does not encourage excessive risk-taking. Consistency with the principles regarding the protection of the Limited Partners and measures in order to avoid conflicts of interest.

2 Income from financial assets

Income/(loss) from other fixed asset investment comprise unrealised value adjustments from investments in portfolio companies.

3 Financial assets

	Other investments DKK'000
Cost beginning of year	229,797
Additions	17,564
Cost end of year	247,361
Impairment losses beginning of year	(7,528)
Fair value adjustments	(3,147)
Impairment losses end of year	(10,675)
Carrying amount end of year	236,686

The General Partner regularly and at least on a quarterly basis reviews the fair value of its portfolio enterprises in connection with its non-public reporting to its limited partners and in connection with the preparation of the annual financial statements.

Methods and assumptions for determining fair values in unlisted portfolio enterprises

The fair value for each unlisted portfolio enterprise is determined based on methods which best reflect the individual investment's potential and risk, life cycle and industry conditions.

In general, the fair value is determined following the IPEV Valuation Guidelines which prescribe the use of accepted valuation methods, such as price of recent investments, multiple analysis/benchmarking, most recent transaction multiple and other relevant methods. The Fund invests venture capital primarily in development stage companies without any or with only limited revenue entailing that the fair value measurement of each of the investments is inherently subject to considerable uncertainty.

The Fund Manager has implemented procedures and methodology to ensure that the valuation is carried out consistently over time and across investments.

Upon initial investment, cost of the investment is generally determined to represent the fair value. If new investors join the investments and obtain more than just an insignificant share of the enterprise, the price of a recent investment is used as basis for determining the fair value.

Throughout the life of the investment, the General Partner reviews its investments for potential impairment, which may materialise if the portfolio enterprises have been subject to pervasive negative development and/or if the Fund decides that it will no longer participate in the further funding and there is a considerable risk that the portfolio enterprise may not be able to continue its operations or it is by other means obvious that there is a pervasive decline in the fair value of the portfolio enterprise. In these cases, the value is written down to a new lower fair value based on the General Partner's best estimate.

As investments mature, other valuation models for determining the fair value may be more appropriate. Such models are typically based on peer group multiples, which may be discounted depending on an objective assessment of the portfolio enterprise's growth, cash flows and funding status.

The Peer Group Multiple-method uses comparable entities, in which market value and earnings are known. Based on this, a market level for revenue multiples is determined for the comparable entities. Factors as size and liquidity are also taken into consideration when applied these methods.

The calculated EV /revenue is then capitalised on the basis of a normalised revenue for the individual portfolio companies which, by adjustment for net interest-bearing debt, yield the value of the investments.

In using the method, the Fund assesses which multiples can be used and assesses the determination of normal earnings in the portfolio companies, including assessing the sensitivity of the values when changing the model's variables.

Description of the valuation process

The valuation process is carried out in connection with the preparation of internal reporting to investors and in connection with the preparation of the Fund's annual report. The valuation assesses the portfolio investments at the end of the accounting period and must reflect the fair value of each portfolio company, based on reasonable valuation methods and assumptions.

Individual investments are assessed separately at the end of the accounting period and are in most cases assessed on the basis of the market situation as follows: (i) determination of the Enterprise Value (EV) estimated on the basis of a hypothetical sale of the investment at the time of the balancesheet date, based on one or more

of the valuation methods mentioned above, and (ii) calculation of the value of the equity investment by adjusting EV for net debt and NWC adjustments as well as any equity related waterfall structures, including dilution effect where relevant.

In connection with the use of this method, the Fund assesses which multiples are applicable as well as assesses the determination of the applicable earnings to be used in the calculation of the deemed fair value.

When applicable the fair value of investments, which are traded on a stock exchange, is based on the quoted market prices at the reporting date.

The fair value is determined in the functional currency of the portfolio enterprise, which is then translated to DKK at the exchange rate at the balance sheet date, and any exchange rate adjustment is included in the fair value adjustment of the investment in profit or loss.

Significant unobservable inputs

Unlisted companies that are measured at fair value in the balance sheet are based on valuation methods that include significant un-observable inputs.

A significant un-observable assumption in connection with the valuation is the revenue-multiples used, just as expectations for the future earnings of the portfolio companies are included in the valuation. The multiples used in the valuation, are on level with peer groups and comparable companies. In addition, net interest-bearing debt in the portfolio companies is also taken into account in connection with the valuation.

	2023	2022
Range of revenue-multiples used	4,46	-
Range of revenue-multiples used (after illiquidity, size, spread)	3,34	-

4 Contingent liabilities

At the balance sheet date, the Fund has not assumed obligations to make further investments in portfolio companies or any other contingent liabilities.

5 Related parties with controlling interest

The General Partner is Heartcore Capital General Partner Beta ApS, Copenhagen. The majority of the shares are owned by the European Investment Fund

Accounting policies

Reporting class

This annual report has been presented in accordance with the provisions of the Danish Financial Statements Act governing reporting class B enterprises with addition of a few provisions for reporting class C.

The accounting policies applied for these financial statements are consistent with those applied last year. The description of accounting policies reflects the Fund's special activity as venture fund.

The annual report is presented in DKK 1,000.

Recognition and measurement

Assets are recognised in the balance sheet when it is probable as a result of a prior event that future economic benefits will flow to the Entity, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when the Entity has a legal or constructive obligation as a result of a prior event, and it is probable that future economic benefits will flow out of the Entity, and the value of the liability can be measured reliably.

On initial recognition, assets and liabilities are measured at cost. Measurement subsequent to initial recognition is effected as described below for each financial statement item.

Anticipated risks and losses that arise before the time of presentation of the annual report and that confirm or invalidate affairs and conditions existing at the balance sheet date are considered at recognition and measurement.

Income is recognised in the income statement when earned, whereas costs are recognised by the amounts attributable to this financial year.

Foreign currency translation

On initial recognition, foreign currency transactions are translated applying the exchange rate at the transaction date. Receivables, payables and other monetary items denominated in foreign currencies that have not been settled at the balance sheet date are translated using the exchange rate at the balance sheet date. Exchange differences that arise between the rate at the transaction date and the one in effect at the payment date or the rate at the balance sheet date are recognised in the income statement as financial income or financial expenses. Exchange rate adjustments relating to other investments are recognised in the income statement together with fair value adjustments concerning the investments

Exchange adjustments of outstanding accounts with independent foreign subsidiaries, which are considered part of the total investment in the subsidiary in question, are recognised directly in the translation reserve in equity.

Income statement

Other external expenses

Other external expenses comprise expenses related to administration.

Other operating expenses

Other operating expenses comprise management fee to the management company, Heartcore Capital A/S.

Income from other fixed asset investments

Income from other fixed asset investments (shares and loans) comprises realised gains/losses from divestments as well as unrealised value adjustments from revaluation of the investments.

Other financial income

Other financial income comprises interest income

Other financial expenses

Other financial expenses comprise interest expenses and currency losses, which do not relate to, realised and unrealised capital losses on transactions in foreign currencies which do not relate to value adjustments of investments in portfolio companies.

Balance sheet

Other investments

Other investments included as fixed asset investments comprise investments in portfolio companies and convertible loans to portfolio companies. Investments in portfolio companies made in the financial year are recognised at cost at the time of investment. The cost includes expenses incurred in connection with acquisition of portfolio companies. Unlisted investments in portfolio companies are subsequently measured in accordance with IPEV's Valuation Guidelines, under which investments are recognised at fair value at the balance sheet date. Also convertible loans to portfolio companies are recognised at fair value at the balance sheet date. For investments in portfolio companies listed on a stock exchange, fair value is determined as the stock price at the balance sheet date. Value adjustments are recognised in the income statement.

Cash

Cash comprises cash in hand and bank deposits.

Other financial liabilities

Other financial liabilities, are measured at amortised cost and comprises other payables.
