Accounting principles applied

The annual report for New Signature Denmark ApS 2019/20 has been prepared in accordance with the Danish Financial Statements Act for class B companies with application of individual rules from class C.

The income statement is presented by type of expenditure and the balance sheet is presented in account form. The measurement currency used is Danish kroner. All other currencies are considered foreign currency.

The accounting principles were applied consistently with the principles of last year's financial reporting.

General information on recognition and measurement

Income is recognized in the income statement as earned, including any value adjustments of financial assets and liabilities. Furthermore, all costs, including amortisation/depreciation and write-downs, are recognized in the income statement.

Assets are recognized in the balance sheet when it is probable that future economic benefits will flow to the company, and the value of the assets can be measured reliably.

Liabilities are recognized in the balance sheet when it is probable that future economic benefits wil flow out of the company, and the value of the liabilities can be measured reliably.

The first recognition measures assets and liabilities at cost. Subsequently, assets and liabilities will be measured individually in respect of each accounting item as described below.

Anticipated risks and loses that arise before the time of presentation of the annual report and that confirm or invalidate affairs and conditions existing at the balance sheet date are considered at recognition and measurement.

Income statement

Gross profit

In pursuance of section 32 (1) of the Danish Financial Statements Act, the first item in the income statement is the gross profit. The item gross profit is the result of other external cost.

Other external costs

Other external cost comprise costs for administration.

Tax for the year

Tax for the year, which consists of current tax for the year, is recognized in the income statement by the portion attributable to the profit for the year and recognized directly on equity by the portion attributable to entries directly on equity.

Accounting principles applied

Receivables

Receivables are measured at amortized cost, which usually corresponds to the nominal value. Value is reduced by provisions for bad debts.
